

GENESIS

GENESIS G90

Meet the all-new Genesis G90 with unprecedented design and unified international naming.

Its elegant presence is recognizable from a far distance and the meticulous details delineate great tension and athleticism.

We present to you the most luxurious addition to Genesis, the embodiment of the perfect proportion.

It is the culmination of Genesis' timeless permanence and originality.

G90 is the next step of the refined elegance.

5.0 Prestige with full options (Vik Black)

5.0 Prestige with full options (Vik Black)

EXTERIOR

G90 elevates “athletic elegance”, the design identity of GENESIS to another level. G90 represents the originality and beauty of its essence by delivering stabilized Horizontal Architecture with enhanced posture.

5.0 Prestige with full options (Vik Black)

Quadlamps – Quadlamps, a set of four separate headlamps on each side, is a design heritage unique to GENESIS along with the crest grille shaped like a coat of arms reflecting G-Matrix, both embodying the dynamic soul of GENESIS.

Side repeaters – The elegant, voluminous lines are an expression of GENESIS's attention to detail, design consistency, and focus on the achievement of sophistication.

Lettering emblem – The GENESIS lettering emblem placed on the trunk adds to the understated elegance and progressive look of the rear.

Dish-type wheels – The dish-type wheels are inspired by the way diamonds reflect light. It is a proud design signature of GENESIS that represents G-Matrix, reinforcing the overall design language.

3.3T Prestige with full options (Vik Black)

5.0 Prestige with full options (Vik Black)

(Obsidian Black/Vanilla Beige Two-tone(Vanilla Beige seats) and Gray Ash)

INTERIOR

G90 pursues beauty of simplicity. Applying simplified design elements such as materials and colors, we completed elegant and sophisticated interior with a touch of luxurious details.

(Maroon Brown/Havana Brown Two-tone(Havana Brown seats) and Olive Ash)

Prime Nappa leather-appointed interior – The interior is appointed with Nappa leather created with the highest craftsmanship with refined stitching and piping details. The Nappa leather upholstery boasts an unrivalled luxurious texture.

Chrome-plated buttons – The number of buttons on the center fascia has been dramatically reduced, and the remaining buttons are chrome-plated to make them both aesthetically pleasing and functionally convenient.

(Maroon Brown/Havana Brown Two-tone(Havana Brown seats) and Olive Ash)

(Obsidian Black/Maroon Brown Two-tone(Maroon Brown seats) and Olive Ash)

Quilted Nappa leather-upholstered seats with piping details – Prime full-grain Nappa leather with minimum processing is used for the upholstery to deliver a natural feel and the G-Matrix-inspired quilting detail is applied for maximum sophistication.

Open-pore real wood – Leading wood shaping techniques are employed to accentuate the patterns and colors unique to hardwood and create a warm, inviting ambience.

ERGONOMIC AESTHETICS –
DRIVE-ENHANCING TECHNOLOGIES

01.

12.3" panoramic full-touch display – A copper GUI (graphical user interface) exclusively developed for GENESIS is first applied to create a sophisticated feel, The navigation OTA (over the air) update feature allows you to update to a new version while in operation. G90 is also equipped with cutting-edge solutions, such as SoundHound – an app that identifies the music playing – and Kakao i – an AI platform that recognizes voices, to ensure an optimal driving experience.

* Terrestrial DMB can be viewed in standard (320X240) and high (1,280X720) display resolution, however reception may not be possible due to transmission circumstances, DMB broadcasting regulations, or changes in the means of transmission used by DMB providers (applies to both front and rear seats).

02. 03.

Head-up display – Copper graphics exclusively developed for GENESIS are applied to provide a wide spectrum of vehicle and driving information and ensure outstanding visibility.

Smart posture optimizer – Just enter the driver's height, sitting height, and weight, and the optimal positions of the driver's seat, steering wheel, side view mirrors, and head-up display are automatically adjusted based on the input information.

04.

Surround view monitor – The four cameras installed on the exterior of the vehicle provide a much wider view for monitoring on the display and ensure parking and driving convenience through such features as the front and rear obstacle detection and warning system, the trajectory estimation while in reverse, and the rear-view display while driving.

05. 06.

Outside air intake control – This feature automatically controls the windows and air-conditioning system before entering a tunnel and automatically activates the air-recirculation mode when driving through a section presumed to be polluted.

Automatic driver's seat optimization system – This system automatically controls and activates seat heating, seat ventilation, and steering wheel heating based on the indoor and outdoor temperatures, sunlight, and preset air-conditioning temperatures in order to help the driver better focus on driving.

ERGONOMIC AESTHETICS –
INNOVATIONS ENSURING PASSENGER COMFORT

01.

Modern ERGO Seats – G90 is equipped with Modern ERGO Seats recognized by Germany's Aktion Gesunder Rücken e.V. (Campaign for Healthier Backs) for ergonomic design that minimizes fatigue and ensures maximum lumbar comfort.

02.

Rear-seat dual monitors – Passengers can comfortably watch DMB and movies and use the navigation in the rear seats.

03.

Rear-seat configuration – The rear seats can be reconfigured into set positions with just the press of a button.

04.

Air purifier mode – The outside air intake is blocked and the air recirculation mode is automatically activated, recirculating interior air through micro air filters to remove fine dust and improve the quality of interior air.

05.

Rear-seat wireless smartphone charger – Simply place your smartphone in the tray in front of the rear-seat armrest console without the need to connect it to a cable.

*Make sure to check whether the wireless smartphone charging system works with your smartphone model.

*This feature is available when selecting the first-class VIP seat option.

06.

Seat adjustment and relax mode switch – The rear seats can be automatically adjusted in 14 ways to create the posture optimized for each passenger.

(Havana Brown/Vanilla Beige Two-tone(Vanilla Beige seats) and Birch)

G90 LIMOUSINE

G90 Limousine redefines the ultimate in luxury sedans powered by its wealth of elegant and exuberant design elements and convenience features that bring each ride to perfection.

5.0 Limousine Prestige with full options (Vik Black)

5.0 Limousine Prestige with full options (Vik Black)

Semi-aniline leather seating – Semi-aniline leather, with minimized synthetic surface treatment to better deliver the feel of genuine leather, was used for the seating upholstery, adding greater sophistication to the interior than prime Nappa leather.

One-touch seat configuration system – With a single touch of the button, your seat is reconfigured into a position that ensures your optimal comfort for each mode. Select the video-watching mode to watch TV, the reading mode to read, and the relax mode to be cradled in and take a rest.

(Indigo Blue/Havana Brown Two-tone(Limousine only/Havana Brown seats) and Walnut Burl)

(Indigo Blue/Havana Brown Two-tone(Limousine only/Havana Brown seats) and Walnut Burl)

B pillar mood lamps and magazine pockets – The seven-color mood lamps create a cozy, comforting ambience and add to the exceptional riding experience, while the magazine pockets ensure convenience by providing safe storage space for books and newspapers.

Power leg support – The meticulously designed four-way power leg support ensures a higher level of comfort and helps you stay relaxed.

PERFORMANCE

G90 pursues comfortable and athletic driving experience. The harmony of comfort and athleticism serves more balanced and highly safe driving.

5.0 Prestige with full options (Vik Black)

INNOVATIVE HARMONY OF STUNNING PERFORMANCE AND A CALM, RELAXED INTERIOR

POWERTRAIN

The lineup of three engine types for rear-wheel drive, including the Lambda 3.3 V6 twin turbo engine that demonstrates outstanding acceleration based on its efficient layout, enables responsive performance under diverse conditions and increases the joy of driving.

01. Tau 5.0 V8 GDi engine

425 Maximum output PS/6,000rpm 53.0 Maximum torque kg·m/5,000rpm

02. Lambda 3.3 V6 T-GDi engine

370 Maximum output PS/6,000rpm 52.0 Maximum torque kg·m/1,300~4,500rpm

03. Lambda 3.8 V6 GDi engine

315 Maximum output PS/6,000rpm 40.5 Maximum torque kg·m/5,000rpm

N.V.H (noise, vibration, and harshness)

The active noise control feature is applied to collect engine noise flowing in through a microphone in real time, generate anti-phase sound waves in response, and reduce noise. The triple-sealed doors and noise-reduction window glass also work to prevent outside noise and vibration entering the vehicle.

04. Active noise control microphone

05. Triple weatherstrip seal on the door

06. Double junction noise reduction glass (front, rear, full door)

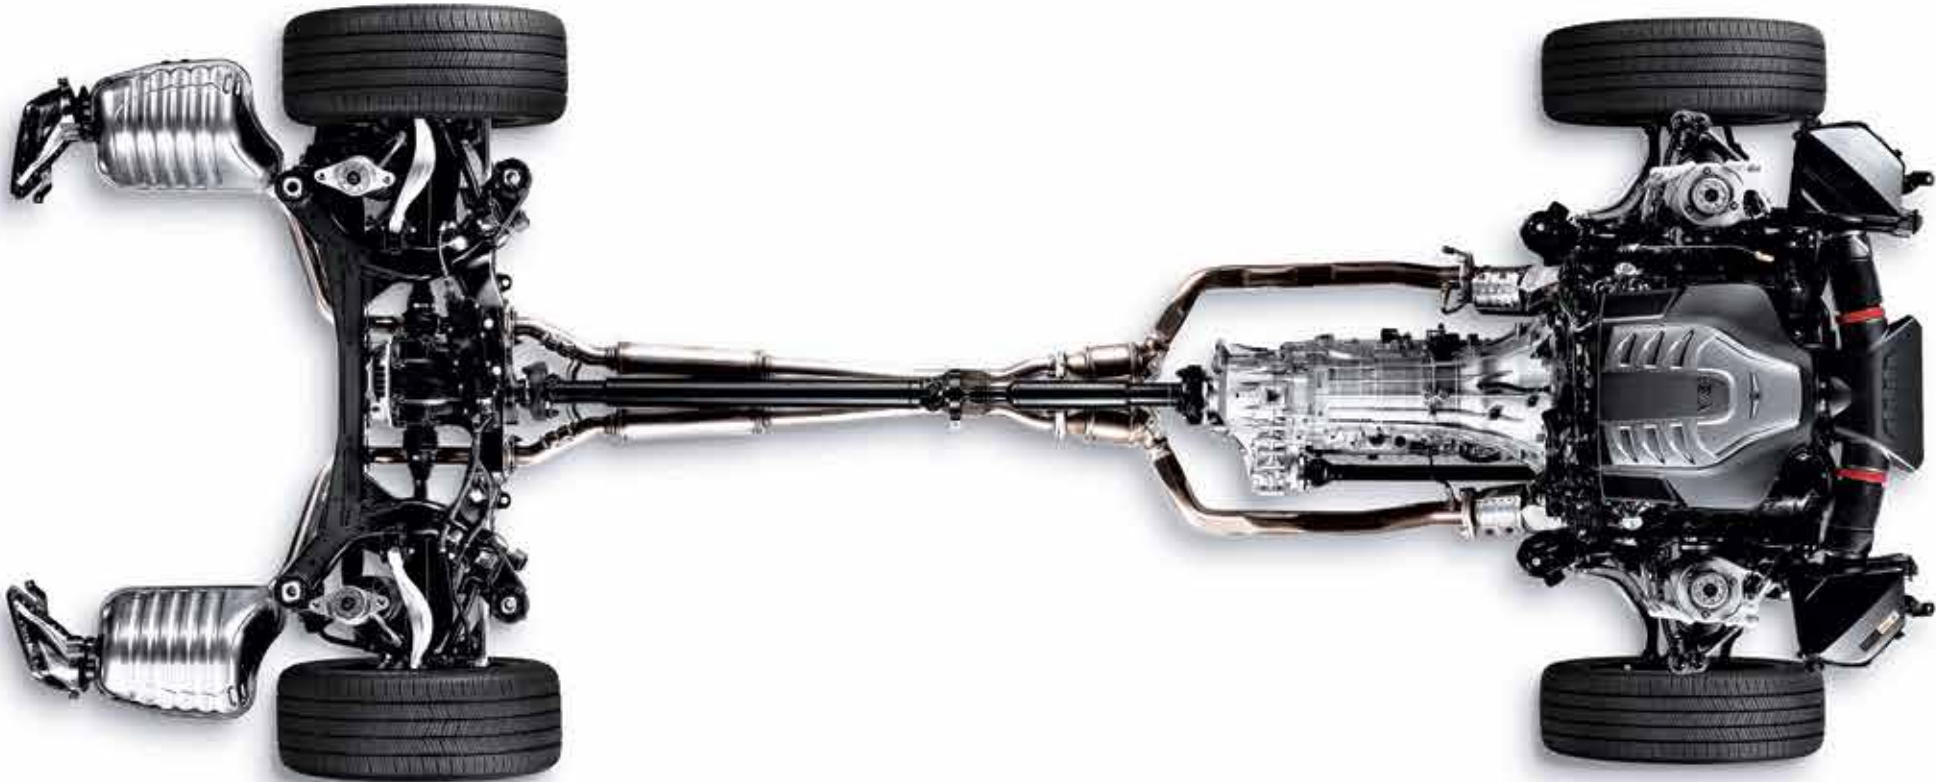

TECHNOLOGICAL ADVANCEMENT THAT
ELEVATES SAFETY TO NEW HEIGHTS

HTRAC – AWD System

HTRAC marks an evolution from the existing mechanical 4WD system. It detects the vehicle speed and road surface condition and ensures stable performance on slippery roads and during cornering through variable control of the braking power of the left and right wheels and the power of the front and rear wheels. In addition, unlike other electronic AWD sedans with limitations in shifting from one drive system to another, G90 equipped with HTRAC can be seamlessly shifted to all three different drive systems, from AWD to RWD and 4WD, as preferred by the driver.

01.

10-airbag system – Advanced airbags are applied to deploy in accordance with the magnitude of a collision and the presence of passengers. The vehicle is mounted with a total of ten airbags, including front advanced air bag system, front and rear side airbags, and curtain airbags for a rollover crash.

02.

Front-seat pre-active seat belt – The seat belt is tightened to protect the passenger against a potential collision when sudden braking and a tire skid are detected. It also retracts when the vehicle makes a sharp turn to prevent the driver from leaning to one side.

03.

Ghost Door Closing – The doors close themselves tightly even when passengers fail to shut them completely, thereby ensuring that passengers feel fully protected.

INTELLIGENT

Our intelligent technologies are aimed at achieving human-focused innovation, through which a suite of meticulously designed safety features is realized to help the driver stay safe at all times as a true companion on the road.

Blind Spot Monitor – A clear and wide view of the blind spot is provided on the cluster display when switching on a direction indicator to ensure safety.

Lane Departure Warning/Lane Maintenance Assist – This system recognizes the lane via a front-facing camera and alerts the driver when the vehicle begins to move out of its lane without switching on the direction indicator. It takes over steering to keep the vehicle centered in its lane when deemed necessary.

EVOLUTION OF MOBILITY – GENESIS ACTIVE SAFETY CONTROL

01.

Highway Driving Assist – This cutting-edge driving assist system represents the next step towards future mobility. The driver can preset this feature to automatically adjust the vehicle speed and distance from vehicles in front on the highway. It eliminates the need to operate the brakes or accelerator during long-distance travel or traffic congestion. The vehicle speed and distance are automatically controlled when the vehicles in front start within 30 seconds after the vehicle has come to a complete stop. It also assists steering to keep the vehicle centered in its lane.

02.

High Beam Assist – This system recognizes vehicles in front, oncoming vehicles, and streetlamps at night and automatically switches the headlamps between high and low beam, all without your fingers leaving the steering wheel to ensure the safety of all vehicles on the road.

03.

Driver Attention Alert – This system monitors driving patterns and the vehicle's position within the lane in a comprehensive manner and alerts the driver in five steps via a message and warning sound if any inattentive or fatigued driving pattern is detected.

04.

Blind-spot Collision Warning/Blind Spot Collision Prevention Assist – This system alerts the driver when detecting vehicles approaching at high speeds or from blind spots that are not reflected in the side view mirrors. It prevents blind spot collisions by controlling the brakes when necessary.

05.

Smart cruise control with stop & go – This system automatically adjusts the vehicle speed and maintains the distance preset by the driver from vehicles in front without the need to press the accelerator. The vehicle speed and distance are automatically controlled when vehicles ahead start within 30 seconds after the vehicle has come to a complete stop.

Navigation-Based Smart Cruise Control – This system automatically reduces the vehicle speed within a safety section or curved section on highways and motorways through navigation connectivity and adjusts it back to the speed preset by the driver to ensure convenience.

06.

Steering Wheel with Vibration Sensor – When a potential collision is detected or the vehicle begins to depart from its lane, an alarm sound goes off or the steering wheel vibrates, in addition to a warning message on the cluster display, to call the driver's attention.

TECHNOLOGIES ENSURING
THE MAXIMUM SAFETY OF ALL

01.

Rear Cross-Traffic Collision Warning/Rear Cross-Traffic Collision Prevention Assist – This system monitors the areas to the right and left when the vehicle reverses out of a parking space and alerts the driver of any approaching traffic on either side using the blind spot radar sensors. It takes over braking when needed to prevent potential accidents.

02.

Forward Collision Warning/Forward Collision Prevention Assist – This system detects vehicles and pedestrians in front using front-facing cameras and radar, alerts the driver of a potential collision, and activates the brakes when needed to reduce the severity of a collision.

03.

Reverse Guiding Lamps – Light is projected onto the ground surface in the rear when in reverse to clearly demonstrate that the vehicle is reversing and thus ensure the safety of nearby vehicles and pedestrians.

04.

Safety Exit Assist – This system provides a warning with a message and sound to the driver by sensing vehicles approaching from the side after the vehicle comes to a stop to prevent passengers from opening their door into oncoming traffic.

FEATURES

245/50R18 Michelin tires and 18" multi-spoke wheels
245/45R19 (front) and 275/40R19 (rear) Continental tires and 19" dish-type wheels

3.3T Prestige with full options (Gold Coast Silver) 5.0 Prestige with full options (Vik Black)

Full LED headlamps and LED daytime running lights	Puddle lamps appointed with the G90 logo	Privacy window glass for rear seats	Hands-free smart trunk	Card-type smart key	Front-seat wireless smartphone charger	Lexicon premium sound system	Headrests adorned with emblem	Compartmented console (first-class VIP seats)	Ventilated rear seats
Paddle shifter	7" TFT LCD cluster	ISG system (idle control)	Smart air-conditioning system	Advanced 3-zone air-conditioning (including B-pillar ducts)	22-way automatically adjustable driver's seat (Modern ERGO Seat)	DVD player	Wing-out headrests for rear seats	Neck pillows for rear seats	Automatically operated door curtains and rear windshield curtain for rear seats

* Make sure to check whether the wireless smartphone charger works with your smartphone model. * The features introduced in this brochure may vary from model to model. Please refer to the monthly price table for more detailed features of each model.

GENESIS G90 / G90 L COLOR COMBINATIONS

* The color combinations offered for the interior, including the seating, vary by leather type. Please check the available color combinations using "360 VIEW" on the GENESIS website.

SERVICE PROGRAM

HONORS G

MOBILITY CARE (VEHICLE MANAGEMENT)

Guaranteed for up to five years or 120,000km (warranty expires when either condition is reached)

- Applicable to the car body, general parts and engine, and major powertrain components

Customer satisfaction inspection

- The Car Master in charge and a GENESIS engineer make an on-site visit one month after the vehicle's release and check its condition

(if the customer is unable to book this service at the aforementioned time, a service notification will be made again three months after the vehicle's release).

Free replacement of disposable parts (engine oil set and four major disposable parts within the warranty period)

- Notification on the proper time for the replacement of each disposable part is made by Honors G Concierge and the replacement service is carried out through an on-site visit

(the manufacturer's replacement and exchange criteria shall apply to each replacement, and details of the replacement service may vary by engine type).

GENESIS Connected Service

- The standard services (remote control, safety and security, vehicle management, and navigation) are provided for free for five years for all first-time subscribers.
- Inquiries : GENESIS Connected Service Kakao Talk Customer Service Center (enter "GENESIS Connected Service" in Kakao Talk search screen and add as friend)

*All services, excluding the standard vehicle management service, are available exclusively for registered GENESIS members (individual and corporate customers who have purchased or are renting or leasing G90).

*You can join GENESIS membership by visiting your nearest Hyundai Motor Company branch or dealership. Please refer to the required documents on the GENESIS website (www.genesis.com).

GENESIS CONNECTED SERVICE

The state-of-the-art GENESIS Connected Services based on the wireless telecommunications network ensures comfort, safety, and an exhilarating driving experience all year round (free for five years).

Remote control - Preset the interior temperature through the remote-control of the air-conditioning system and heated seats via smartphone during the hot summer and cold winter to ensure a pleasant interior environment at all times. This feature can also be used to open and close the doors and windows from a distance.

Safety and security - This feature automatically identifies the location of an accident when the airbags are activated, notifies the police, ambulance, and/or insurance company in accordance with the customer's needs, and takes other necessary measures.

Vehicle management - This feature detects vehicle failures in real time and automatically books the regular vehicle inspections on preset dates. You can request consultation with an expert and reserve after-sales service when necessary.

Navigation - The navigation is updated wirelessly and offers voice search for the latest updates in connection with the Kakao server. It also proposes optimal routes based on real-time traffic information.

PRIVILEGES (LIFESTYLE BENEFITS)

Haevichi Hotel & Resort Jeju

- An exclusive lounge within Haevichi Hotel & Resort Jeju
- Two nights (including breakfast) on the Honors G Floor
- Honors G Lounge services (exclusive check-in and check-out service, Hotel Concierge Service, and food and beverage service)

*Hotel Concierge Service: Guidance on and reservations for nearby tourist destinations

- Discount on on-site facilities of Haevichi Hotel & Resort Jeju and on a round of golf at Haevichi Country Club Jeju
- Booking can be made via Honors G Concierge.

G90 Premium golf bag

- Exclusively designed caddy bag, Boston bag, pouch, and travel kit are offered.

GENESIS Smart Package

- Exclusive Galaxy Watch set(including a leather strap) and Samsung Galaxy Buzz
- Vehicle voice control app and golf GPS rangefinder app come standard.

*Choose 1 out of the 3 choices according to preference.

*The limited edition GENESIS smart package is available while supplies last.

CONCIERGE

Honors G Concierge (080-900-6000)

- Honors G Concierge is a customer center dedicated to G90 owners.
- Expert support is offered for all related inquiries, from the use of vehicle features to application for services.
- Concierge offers Intelligent Car Care, through which the driver is notified of the proper time for disposable part replacement and of vehicle failures identified via the GENESIS cutting-edge IT system.

Global Lifestyle Concierge (telephone number to be offered via the membership guide)

- Global Lifestyle Concierge is a G90 customer center offering lifestyle-related benefits and services in Korea and abroad.
- Counseling and suggestions across diverse areas from hotels and resorts to travel support, dining, and healthcare is offered.
- Benefits and services based on an extensive global network are designed exclusively for G90 owners.
- Costs incurred by all services excluding inquiries and reservations are to be paid by the customer.

GENESIS VIRTUAL GUIDE

GENESIS comes with a mobile-app manual that utilizes AR, VR, and 3D content to help customers readily understand the vehicle's features. Make the most of this guide to learn about the different parts and features of your GENESIS.

How to Download

- Search GENESIS Virtual Guide on Play Store (Android) or App Store (iOS) and scan the QR code.

Android

iOS

GENESIS PERSONAL MANAGER SERVICE

Each GENESIS customer is matched with a personal manager and offered counseling on vehicle features and repair. Feel free to contact your own GENESIS manager.

Targets : Those requesting the service among individual customers and individual business owners (excluding rented, leased, and commercial vehicles)

Hours : 9:00am-6:00pm on weekdays

Major services : Notifying customers when the proper time to replace disposable parts approaches, when fault codes are detected, etc.

For further inquiries, call Honors G Concierge at 080-900-6000.

Please follow the designated speed limit on the road for maximum fuel efficiency.

*The above fuel economy was calculated based on standard driving conditions. Actual fuel efficiency may vary depending on road conditions, driving style, cargo weight, maintenance conditions, and outside temperature. *Some of the photographed vehicles in this brochure depict optional features for illustrative purposes and may differ from the actual vehicles purchased. *The features, colors, and specifications stated in this brochure are subject to change based on improvements in the vehicle's exterior or performance. *The above engine performance data is based on the net value, which is a legal requirement applied by the Ministry of Land, Infrastructure and Transport from 1997 onwards. To produce the data, an advanced measurement method that takes into account the resistance of vehicle emissions was used. This method may generate results slightly lower than those generated by existing methods based on the gross value. *The leather upholstery partially consists of synthetic leather. *The vehicle colors printed in this brochure may differ from the actual colors. *GENESIS models are sold by Car Masters at Hyundai Motor Company's branches and dealers at prices uniformly applied everywhere across the country to promote fair business practices. *The failure to use authentic parts and oil products (including engine oil and transmission fluid) recommended by Hyundai Motor Company and/or the use of defective fuel may critically damage your vehicle. *Please refer to the owner's manual for details about new technologies and features stated in this brochure.

The images used in this brochure are intended to enhance customers' understanding and are focused on high-end models and optional features.

The features introduced in this brochure may vary by trim model, package, powertrain, and exterior color. Please refer to the monthly price table for more detailed features of each model.
