

GENESIS

GENESIS G70

GENESIS G70

GENESIS G70 has been born, embodying the brand's unique philosophy,
design language and technology that is ultimately geared at bringing positive changes to customers' lives.

ATHLETIC ELEGANCE

Style is perfected through the balance and harmony of details.

Experience the overwhelming attention to detail of G70,

including the elegant exterior lines that fully capture G70's dynamic and sporty energy,

to the thoughtful, cutting-edge technology that has been integrated into a sophisticated interior.

2.0T Elite with full options Smoky green/vanilla beige two-tone (vanilla beige seats)

2.0T Elite with HTRAC and Wide sunroof (Graceful gray)

2.0T Elite with HTRAC and Wide sunroof (Graceful gray)

Sleek headlamps merge with wide hood lines and distinctive character lines to create a lasting impression.
Elegant side lines conceive rich volumes that convey impressive power.
A playfully ascending trunk end, combined with a sporty bumper, completes G70's dynamic beauty.

3.3T Sport Prestige with ultimate package 3 (Lapis blue)

3.3T Sport Prestige with ultimate package 3 (Lapis blue)

From headlamps with black and copper bezels to dark chrome garnishes and dual mufflers, 3.3T Sport boasts a sporty design that is sleek and dynamic. G70's Ultimate package offers specialized high-performance parts, such as real carbon design details, PS4S tires and Brembo low-steel pads, to deliver the ultimate driving performance.

3.3T Sport Prestige with ultimate package 3 (Lapis blue)

2.0T Elite with full options Smoky green/vanilla beige two-tone (vanilla beige seats)

Quilted seats with reinforced bolsters to improve waist and shoulder support offer optimal comfort. G70's interior exudes GENESIS' unique values and philosophy, materialized by the consistent use of delicately-stitched fine leather and exquisite, real aluminum finishing.

2.0T Elite with full options Smoky green/vanilla beige two-tone (vanilla beige seats)

2.0T Elite with full options Smoky green/vanilla beige two-tone (vanilla beige seats)

3.3T Sport Prestige with full options Sports obsidian black one-tone (gray stitch black seats)

Colorful stitching and exquisite patterns give 3.3T Sport a distinctive mood.
The steering wheel inner bezel, crash pad garnishes, door upper garnishes and console indicator cover are reinforced with real carbon and project a refined look, attesting to the unique value of the Ultimate package.

3.3T Sport Prestige with ultimate package 3 Sports obsidian black one-tone (red stitch black seats)

BALANCED PERFORMANCE

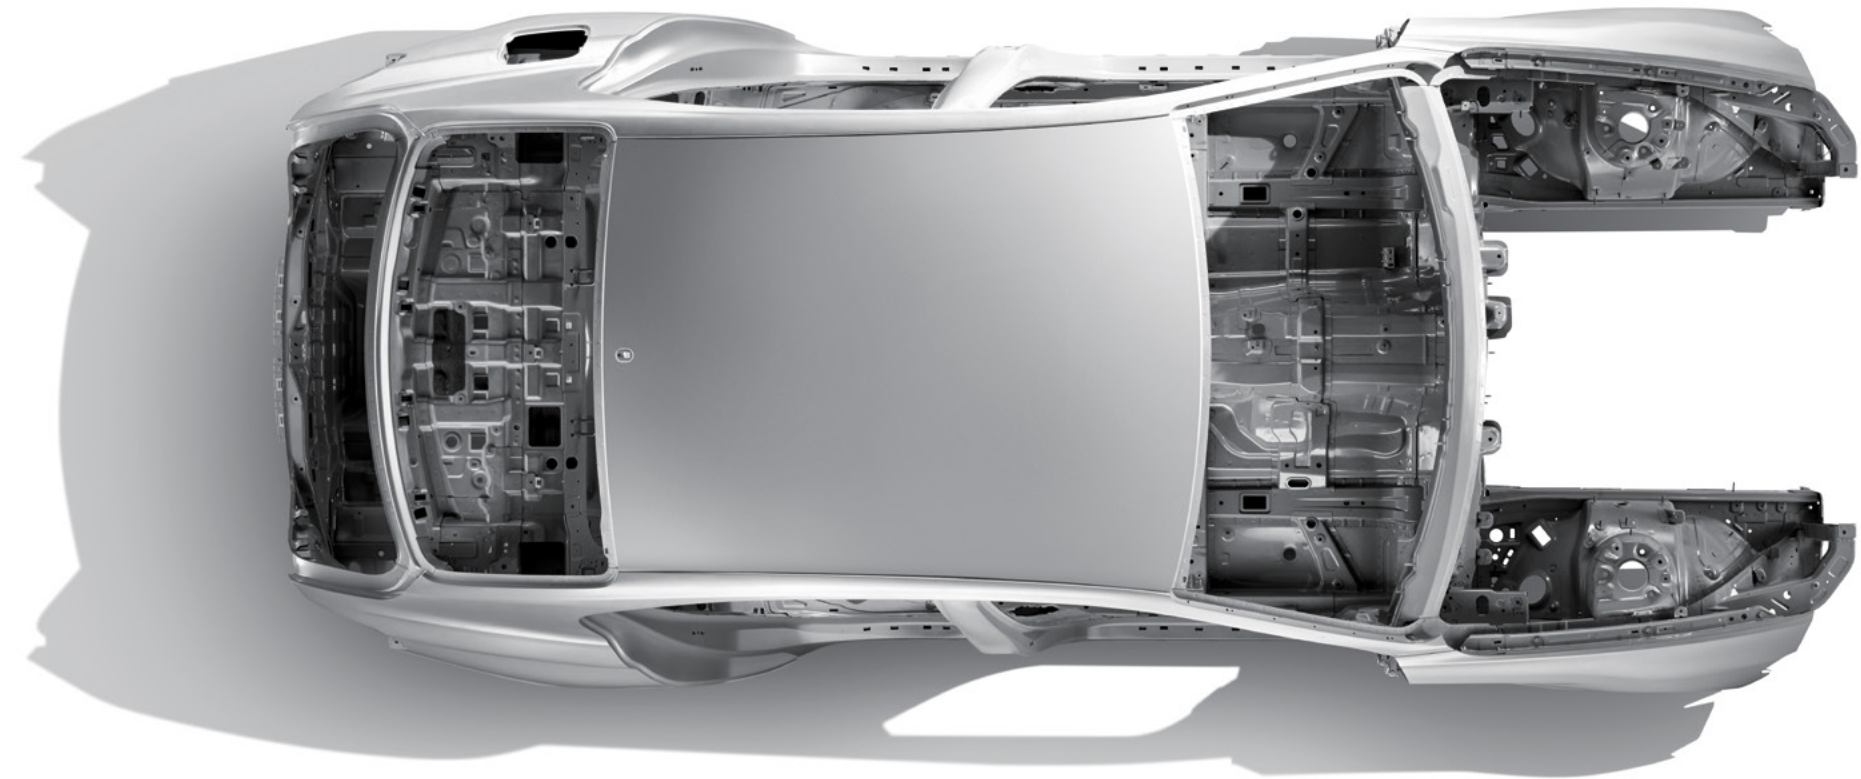

True performance is attained when details are perfected.

Power and safety optimized for dynamic driving, cutting-edge technology that borders on autonomous driving, and thoughtful convenience features that place priority on the comfort of its driver.

G70 offers impeccable details that are awe-inspiring.

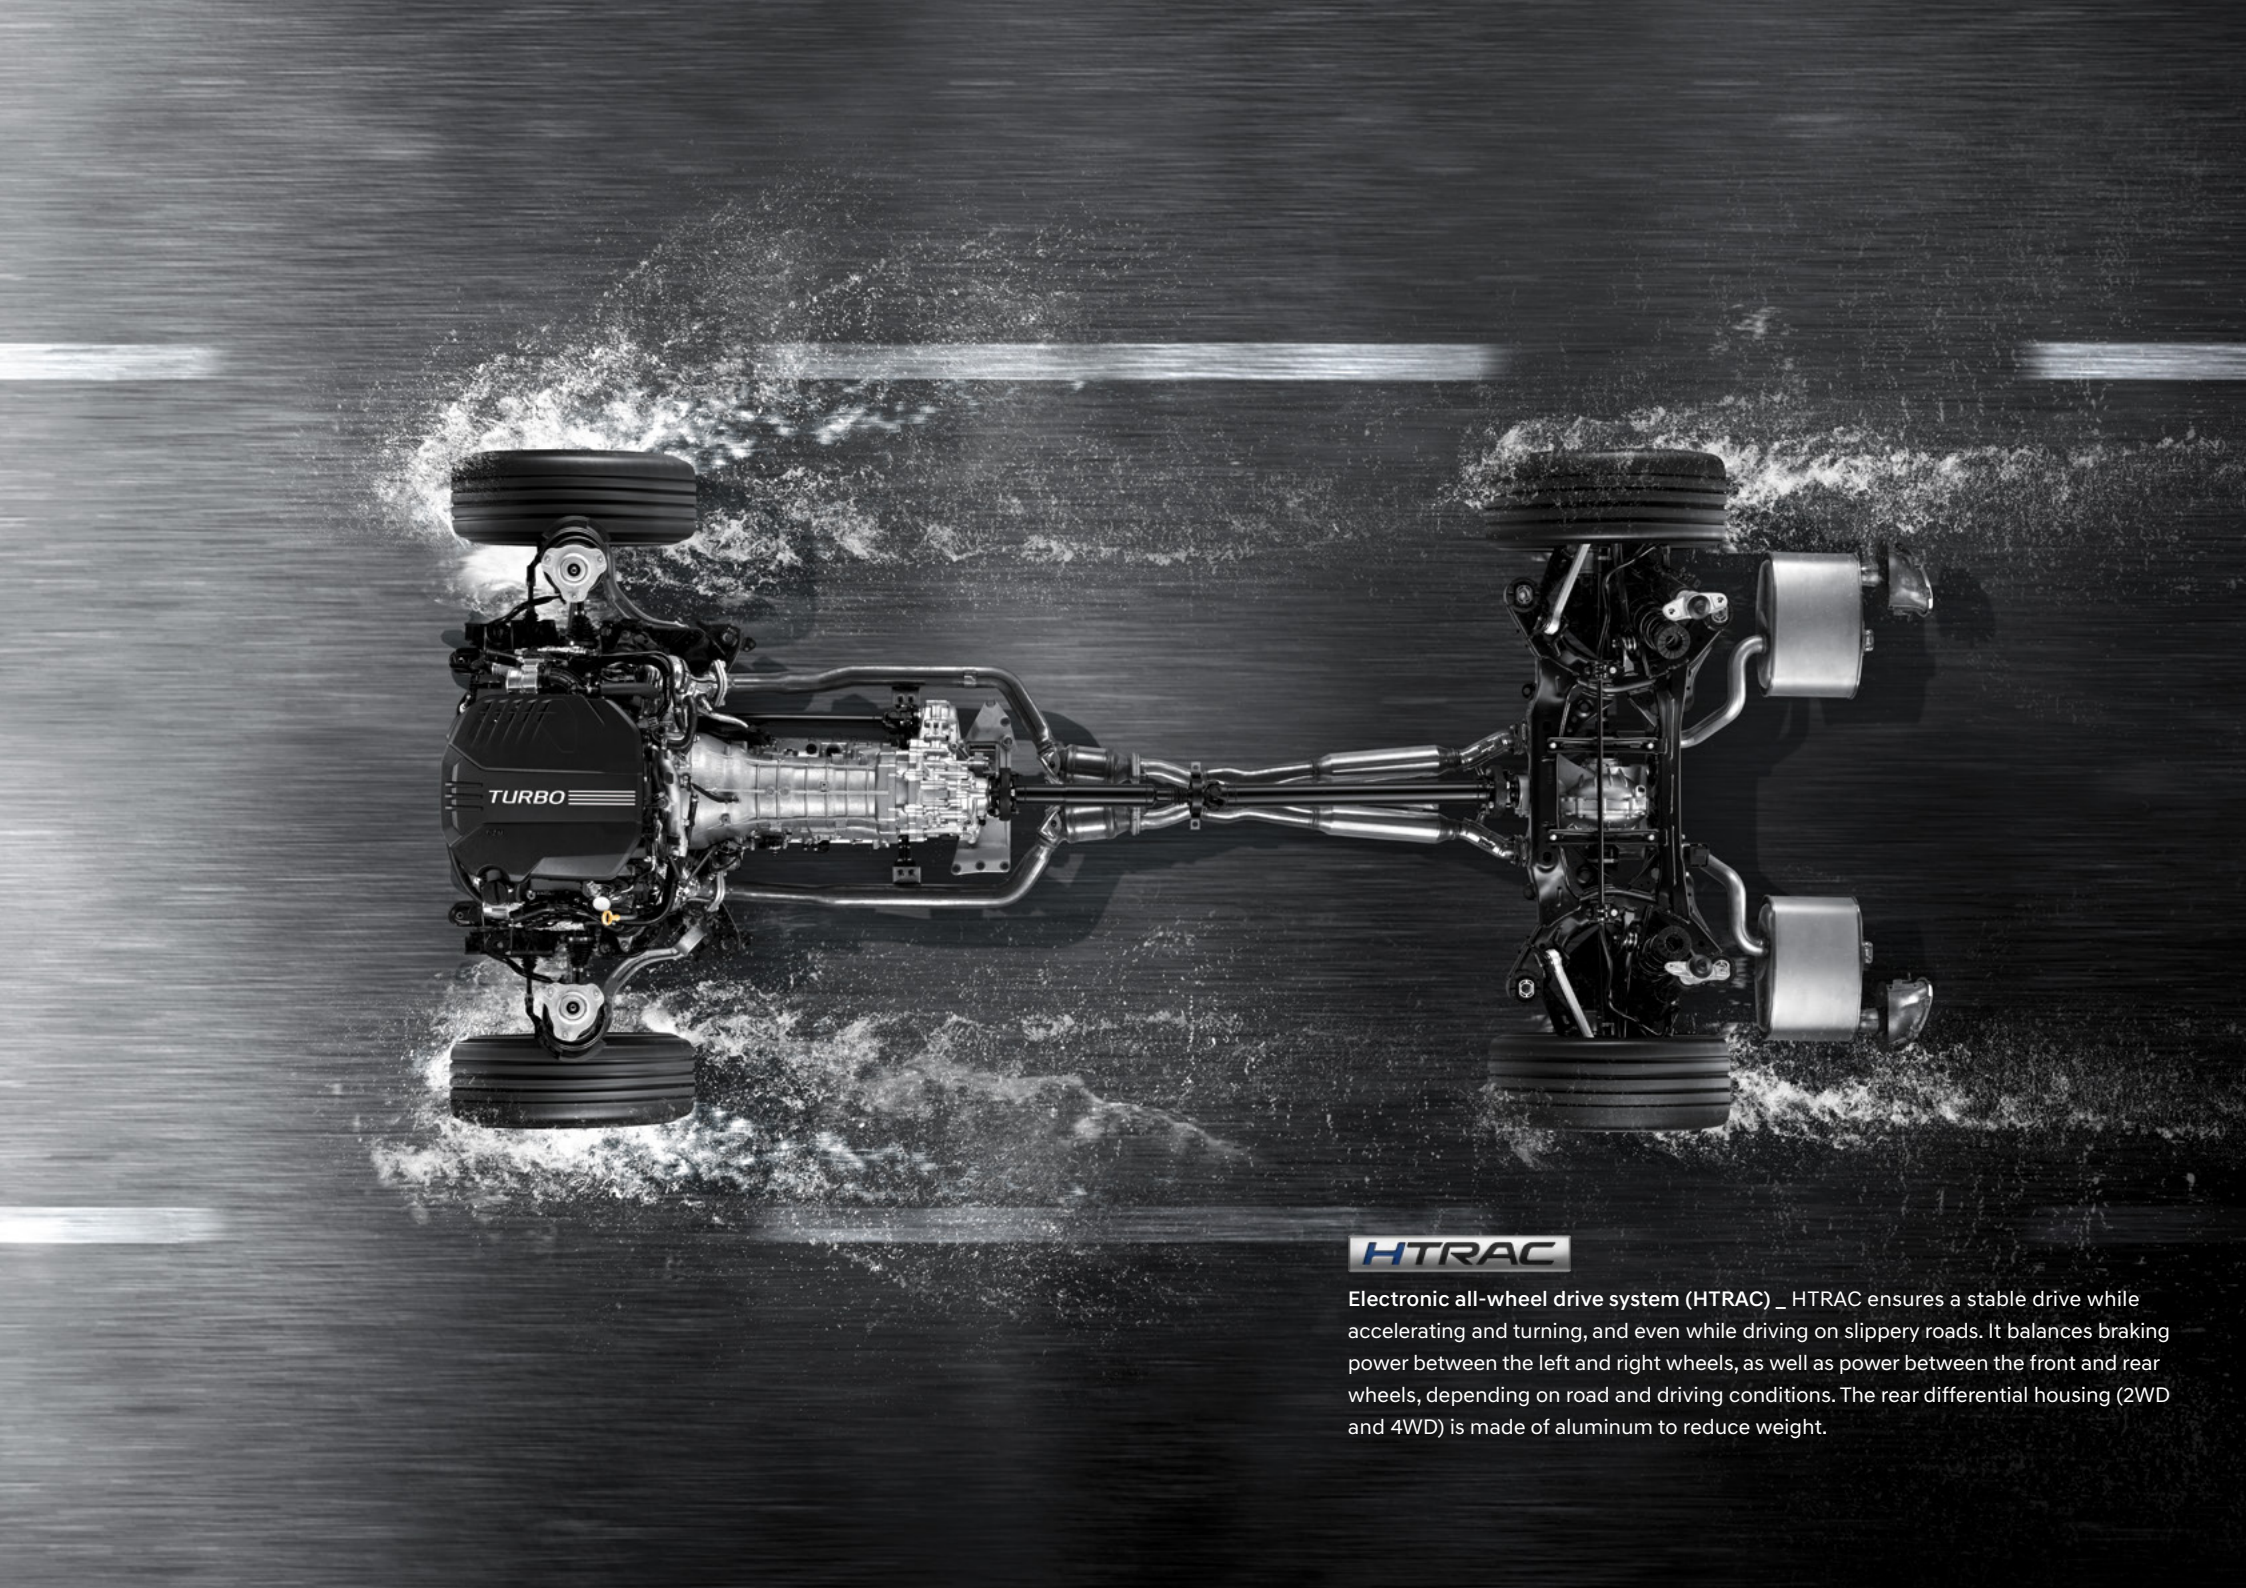

THE MELDING OF A SOLID BODY AND AN ELECTRONIC ALL-WHEEL DRIVE SYSTEM

Advanced High Strength Steel (AHSS) _ G70 offers the highest degree of car body rigidity in its class by increasing the average strength of the body, expanding the use of structural adhesives, and strengthening joint structures. It reduced the weight of the hood, front bumper beam, engine room strut bar, and package tray center panel by using aluminum and maximized passenger safety with a body structure that effectively absorbs shocks in the event of a collision.

※ Advanced High Strength Steel: Classification of Advanced High Strength Steels

Electronic all-wheel drive system (HTRAC) _ HTRAC ensures a stable drive while accelerating and turning, and even while driving on slippery roads. It balances braking power between the left and right wheels, as well as power between the front and rear wheels, depending on road and driving conditions. The rear differential housing (2WD and 4WD) is made of aluminum to reduce weight.

PERFECT SYNERGY BETWEEN EXPLOSIVE POWER AND AERODYNAMIC PERFORMANCE

01.

Aerodynamic performance _ Ground clearance, vehicle height, rear glass angle, and the height and slanting of the trunk have been carefully fine-tuned. In addition, a full length under cover that shields the lower part of the vehicle minimizes air resistance and delivers best-in-class aerodynamic performance (drag coefficient of CD 0.28).
02.

Drive mode control system _ Drivers can switch between Comfort, Eco, Sport, Smart, or Custom driving modes according to personal preference or driving situation. G70 offers exceptional driving and riding comfort by optimizing power distribution for each driving mode.
03.

8-speed automatic transmission / Shift-by-wire (SBW) _ A 2nd-generation rear-wheel 8-speed electronic automatic transmission with improved weight and efficiency renders a sophisticated response and smooth transmission. The Electronic shift-by-wire lever is light and compact, and a cushion-like finish on the top of the knob offers a luxurious grip.

04.

2.2 diesel engine _ A compound purifying catalyst reduces exhaust fumes and nitrogen oxides. A high-efficiency turbocharger, variable oil pump (2-wheel drive), and reinforced noise absorption ensure stable power, outstanding fuel economy, and cabin silence.

202	Maximum output PS/3,800 rpm	45.0	Maximum torque kg-m/1,750~2,750 rpm
-----	--------------------------------	------	--
05.

2.0 turbo gasoline engine _ A low-to-mid-speed twin-scroll turbocharger, electric CVVT, and continuously operating VCM generate high torque even at low speeds, balancing drivability and silence to maximize driving pleasure.

252	Maximum output PS/6,200 rpm	36.0	Maximum torque kg-m/1,400~4,000 rpm
-----	--------------------------------	------	--

※ Maximum output with the Sport package: 255 PS / 6,200 rpm
06.

3.3 V6 turbo gasoline engine _ A middle phase air intake CVVT system and twin-turbo with an integrated exhaust head and electronic thermostat render the dynamic driving sensation of a high-performance sports sedan.

370	Maximum output PS/6,000 rpm	52.0	Maximum torque kg-m/1,300~4,500 rpm
-----	--------------------------------	------	--

※ The diesel engine uses a selective catalytic reduction system that requires periodic replenishment of an aqueous urea solution.

THE UNIQUE SYSTEMS AND DIFFERENTIATED DRIVING EXPERIENCE OF 3.3T SPORT

01.
12.3" 3D cluster _ The world's first stereoscopic cluster recognizes driver's eyes and realizes various driving information in three dimensions without special glasses. Depending on the driver's choice, 2D and 3D conversion is possible, and the theme of display can be selected to suit your taste. In addition, G-force, oil temperature gauge, torque gauge, turbo gauge, and lap timer, which show the acceleration of gravity, make you feel differentiated dynamics of 3.3T Sport.

※ The 12.3" 3D cluster is also available in the 2.0T Elite and Sport packages. ECS and Brembo brakes come standard with the 2.0T Sport package.

02.
Electronically Controlled Suspension (ECS) _ Driving stability and ride comfort are achieved simultaneously with shock absorbers that adjust damping force according to road surface and driving conditions.

03.
Brembo brakes _ To deliver the differentiated image and overpowering driving performance of a high-performance sports sedan, 3.3T Sport is equipped with Brembo brakes, offering superior quality and braking performance.

GENESIS' ACTIVE SAFETY CONTROL COMES EVEN CLOSER TO FUTURISTIC AUTONOMOUS DRIVING TECHNOLOGY

01. **Highway Driving Assist (HDA) system** _ An automated system helps control the speed of the car and keep the vehicle in the lane while driving on the highway by using comprehensive information such as distance from the car ahead, lanes, and navigation-based speed limit, eliminating the need to step on the brakes or the accelerator during long distance travel or while driving through congestion.

A. Longitudinal (headway distance) control B. Lateral (lane keeping) control
C. Highway-specific control

※ To ensure safety, drivers should hold on to the steering wheel while using the Highway driving assistance function.
※ Advanced Driver Assistance System features (such as Forward Collision-Avoidance Assist) are meant to help drivers on specific high-risk driving situations. Please refer to the user's manual for operational details.

03. **Blind-Spot Collision Warning (BCW) system** _ Two radars installed on the rear of the vehicle detect and warn the driver of fast-approaching vehicles in blind spots or on the side of the back of the car.

04. **Lane Keeping Assist (LKA) system** _ A camera installed on the front of the vehicle monitors and alerts the driver of accidental lane departures, and it assists steering the vehicle back into the lane.

05. **Smart Cruise Control (SCC) system with Stop & Go** _ Sensors automatically maintain a speed set by the driver while keeping a safe distance from cars in front. In the event of a full stop, the vehicle restarts automatically as long as the car in front departs within 3 seconds. In addition, the vehicle decelerates temporarily if cruising above the navigation-based speed limit in a highway warning zone.

ADVANCED TECHNOLOGY THAT COMBINES SAFETY AND CONVENIENCE

01.
Forward Collision-Avoidance Assist (FCA) system _ Comprehensive monitoring of front radar and camera signals warns the driver of potential forward collisions or collisions with pedestrians, applying the brakes if warranted. This high-tech preventive safety system takes into consideration not only the safety of other vehicles but of pedestrians as well.

02.
Low Beam Assist-Dynamic (LBA-D) system _ Headlamps steer automatically to the left or the right together with the steering wheel, improving visibility and reducing blind spots while driving at night.

03.
High Beam Assist (HBA) system _ Sensor monitors headlamps of oncoming (or tail lamps of preceding) vehicles and brightness of surroundings to switch between high beam and low beam automatically, promoting the safety of the driver as well as oncoming (or preceding) vehicles while driving at night.

04 & 05.
Head-Up Display (HUD) _ Vehicle information is projected on the front windshield through an 8" image with optimized brightness for excellent visibility even during the day.

Rear Cross-Traffic Collision Warning (RCCW) system _ Warns the driver of cross-traffic approaching the vehicle from the back while pulling out in reverse.

06.
Surround View Monitor (SVM) system _ 4 HD cameras mounted on the front, sides, and rear of the vehicle show the surroundings in real time. Markings on the video image show distance from obstacles in the front and the back, and video projections of the back show the vehicle's anticipated trajectory when moving in reverse.

07.
9-airbag system _ Advanced airbags in the driver and front seats regulate the degree of inflation and timing of deployment according to the occupant's weight, position, and force of collision. 9airbags, including a driver's knee / front and rear side / curtain airbags, minimize injuries.

※ Advanced Driver Assistance System features (such as Forward Collision-Avoidance Assist) are meant to help drivers on specific high-risk driving situations. Please refer to the user's manual for operational details.

CONVENIENCE THAT RESULTS FROM THE THOUGHTFUL ORCHESTRATION OF DETAILS

01.

Server-based speech recognition system _ A server-based speech recognition service that uses Kakao's integrated AI platform (Kakao I) replaces the cumbersome process of navigating through the navigation screen to search for business names, addresses, and nearby gas stations with simple voice recognition.
- 02 & 03.

Phone connectivity _ An integrated infotainment system connects with smartphones to enable use of smartphone functions (navigation, audio, telephone, etc.).

Wireless smartphone charger _ Smartphones can be conveniently charged without connecting wires and drivers who vacate the vehicle without their smartphones are given an alert.

04.

Lexicon premium sound _ 15 Lexicon speakers with the latest QuantumLogic surround sound technology are positioned optimally for the best acoustic performance. Real stainless steel midrange speaker grilles reproduce a clear voice range that is close to the original sound. Subwoofers installed on the bottom of the driver's seat and front seat provide the deepest and richest bass sound experience.

05.

Intelligent driver's seat _ Electrically adjustable driver seat including lumbar support, cushion extension and seatback bolster optimizes seat adjustments to conform to the driver's posture and anatomy. Seat adjustment settings are displayed on the AVN screen for greater operational convenience.

Smart posture control system _ Seat, steering wheel, outside mirror and head-up display positions are automatically adjusted by feeding the driver's biometric information (height, seated height, and weight) into the system, which also analyzes the driver's driving posture. Health-related information, such as lumbar load and strain under the present driving posture can also be checked at any moment.
06.

Rear seat folding (6:4 type) _ Ergonomic seat design provides a comfortable ride in long distance travel. A practical, 6:4 split, rear seat folding function facilitates the loading of long leisure equipment or bulky luggage.

※ Kakao I is Kakao's integrated AI platform that combines diverse technologies such as voice engine, visual engine, speech engine, and recommended engine.

※ Terrestrial DMB can be viewed in standard (320X240) and high (1,280X720) display resolution, however reception may not be possible due to transmission circumstances, DMB broadcasting regulations, or changes in the means of transmission used by DMB providers.

※ Compatibility between the Wireless smartphone charger and specific smartphone models has to be verified with the manufacturer.

G70's overwhelming attention to detail embodies the true value of GENESIS.

3.3T Sport Prestige with HTRAC and Wide sunroof (Lapis blue)

ADVANCED / ELITE

225/50R17 Bridgestone tires & wheels
(basic specification for 2.2D)

225/45R18 Bridgestone tires & wheels

225/40R19 (front) & 255/35R19 (rear)
Michelin summer tires & wheels
(applied to the 2.0T Sport package)

225/40R19 (front) & 255/35R19 (rear)
Michelin all-season tires & wheels
(possible to the 2.0T Elite and Sport package)

2.0T Elite (Carbon metal)
with HTRAC and Wide sunroof

2.2D Elite (Racing gray)
with Wide sunroof

Full LED headlamps

Glossy chrome-coated radiator grille

Detachable LED turn signals (front)

Outside mirrors with LED turn signals

Double-jointed soundproof glass (front)

7" TFT LCD cluster

Heated steering wheel

8" navigation system

Dual full-auto air conditioning system
(including clean-air mode)

Electric Parking Brake
(EPB, including auto hold)

Puddle lamps with GENESIS logo

Wide sunroof

LED rear combination lamps

Smart electric trunk

Single twin tip muffler

Hi-pass system /
Electronic Chromic Mirror (ECM)

Electric front seat

Front seat warming & air cooling ventilation

Rear seat warmer

Metal door scuffs

※ For detailed specifications by trim package selection, please refer to the monthly price list.

※ Navigation map update services are guaranteed for up to 8 years after the purchase and may be discontinued due to company circumstances.

SPORT ELITE / SPORT PRESTIGE

225/40R19 (front) & 255/35R19 (rear)
Michelin summer tires & wheels

225/40R19 (front) & 255/35R19 (rear)
Michelin all-season tires & wheels

225/40R19 (front) & 255/35R19 (rear)
Michelin PS4S tires & wheels
(applied to the Ultimate package)

3.3T Sport Elite (Royal blue)
with HTRAC, Wide sunroof, and Brembo brakes

3.3T Sport Prestige (Blazing red)
with Wide sunroof

Full LED headlamps*
(Black & copper bezels)

Dark chrome-coated radiator grille*

Dark chrome-coated bumper garnish*

Dark chrome-coated side fender garnish*

12.3" 3D cluster

Electric Adjustable Steering Wheel

Integrated Memory System (IMS)

Black suede headlining*

Gray stitched Nappa leather*

Red stitched Nappa leather*

Dark chrome-coated surround molding*

Dark red LED rear combination lamps*

Dual mufflers*

Brembo brakes(Silver)*

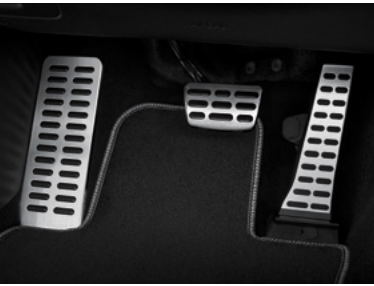

Brembo brakes(Red)*

Driver seat electric bolsters

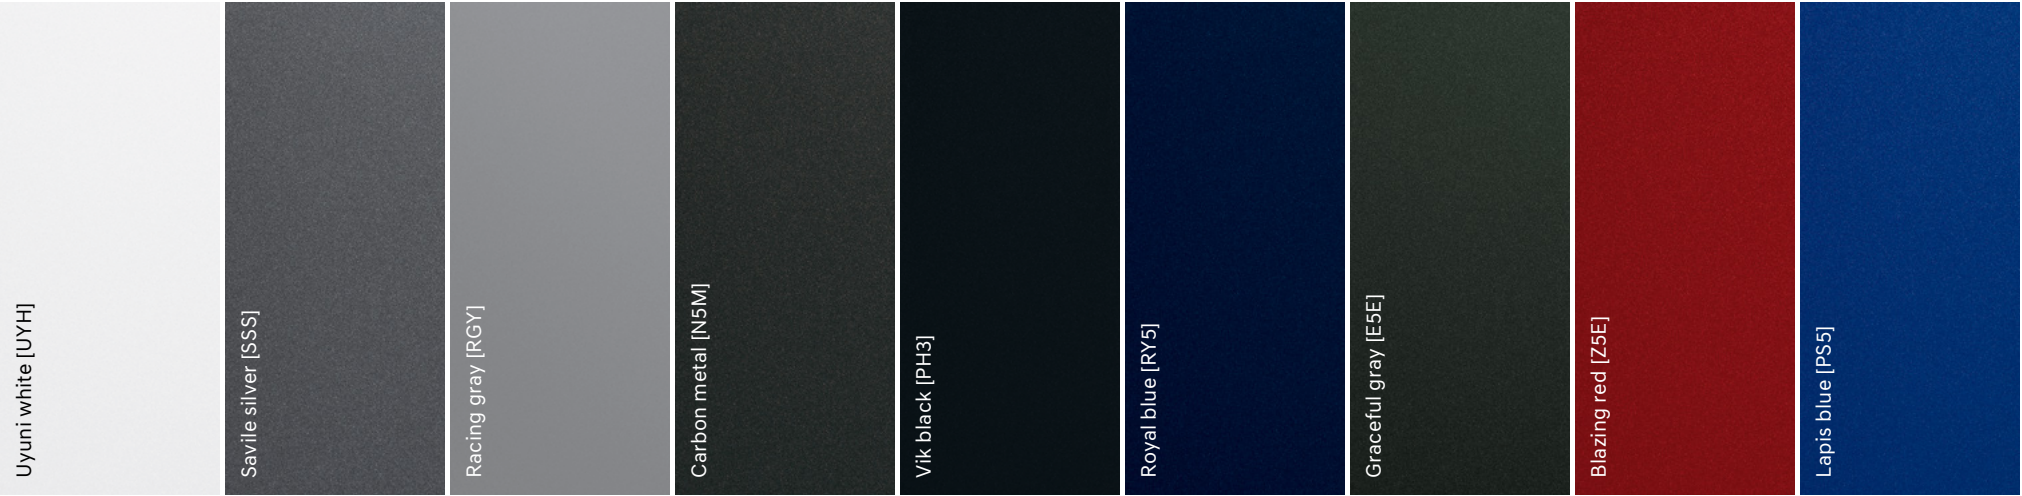

Driver seat electric seat extension

Metal pedal & Footrests*

※ For detailed specifications by trim package selection, please refer to the monthly price list. ※ * Specifications are sport model specific. They are included or available in the 3.3T and 2.0T Sport packages.
※ Brembo brakes may generate noises that are characteristic to their function. Brake pads are consumable parts not covered under warranty conditions.

MEMBERSHIP

MOBILITY CARE

5 year, 100,000 km warranty
- General and body parts, as well as engine/powertrain components

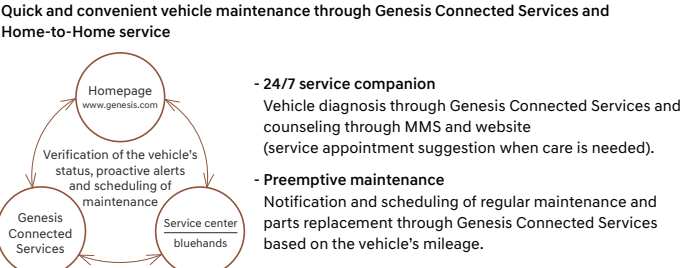

3 year, 60,000 km free replacement of key consumables
- Engine oil set (3.3T Sport and 2.0T: 6 times; 2.2D: 3 times), air conditioner filters (3 times), wiper blades (2 times), navigation updates (3 times)
※ Frequency is in accordance to manufacturers' guidelines and may differ between vehicle models.

Home-to-home pickup & delivery service
- 3.3T Sport and 2.0T: 6 times; 2.2D: 3 times

Genesis Body Care Services
- A unique, exterior body damage protection service that covers sheet metal, paint, and replacement costs on a new vehicle.

Genesis Butler Service
- For private Genesis customer only (G90/EQ900, G80, G70)
- Offer personalized consulting channel by an assigned Genesis service manager (9 a.m~18 p.m, Weekdays)
- Offer service alerts for the replacement of wearable parts/upon receipt of a transmission of an error code
※ Tel. 080-700-6000

Complimentary 5-year subscription to Genesis Connected Services
- Complimentary use of basic services (Remote control, Safety and security, Vehicle maintenance, Navigation) for 5 years from the initial purchase.
- Inquiries: KakaoTalk Genesis Connected Services Customer Center (enter “제네시스 커넥티드 서비스” in the KakaoTalk search window and add as a friend)

※ Except for warranty coverage, all services are only for original buyers who enroll in the Genesis Membership Program, available to individual, corporate, and private or corporate rental/lease clients.

GENESIS CONNECTED SERVICES

Experience the extraordinary value of advanced technology that protects the car and driver and provides a more comfortable and safer life.

Control your vehicle with your smartphone (Remote control): Drive in comfort even during a hot summer day by presetting your destination and pre-cooling your parked car remotely with your smartphone.

Always there when needed (Safety and security): If an accident causes your airbag to deploy, your vehicle will be automatically located and police, medical care, and insurance agents will be mobilized according to need.

1-step automatic breakdown detection and convenient maintenance service scheduling (Vehicle maintenance): Vehicle breakdowns are monitored in real time and regular vehicle assessments are conducted on designated dates. If breakdowns are detected, professional counseling is made readily available and maintenance service can be conveniently scheduled for a desired date and location.

Smart destination search and route navigation using real-time traffic information (Navigation): Drivers are guided to the optimum route to reach a desired destination quickly and conveniently avoiding congestion based on real-time traffic information.

“Kakao I” is Kakao’s integrated AI platform that combines diverse technologies such as voice engine, visual engine, speech engine, and recommended engine.

“Kakao I inside” is a technology branding logo applied to products or services that make full or partial use of Kakao I’s technology.

“Kakao I” certification is given to products that use “Kakao I” technology that have proven to provide users with novel experiences or made life more convenient.

GENESIS BODY CARE SERVICES

Alleviates concerns about unexpected repair costs and car insurance premium increases resulting from damage to the vehicle's exterior after purchase.

For Individuals and private business owners that purchase a new GENESIS G70 directly from authorized dealers (Excludes rental, lease, and company vehicles)
Enrollment: Application upon delivery of a new vehicle

SPECIFICATIONS

Units: mm,* based on 225/40R19 tires in the front and 255/35R19 tires in the back

GENESIS VIRTUAL GUIDE

Genesis Virtual Guide is a mobile manual designed to help Genesis owners better understand and utilize the key features of Genesis based on AR, VR, and 3D content. Explore the key components, and functions that Genesis vehicle offers via Genesis Virtual Guide.

- [Key Features]
- AR (augmented reality):** When the camera places upon the engine compartment, descriptions of each component appear at its exact location.
 - Button scanner:** A button scanner recognizes the button images in the vehicle interior and provides each function and feature.
 - 360 VR (virtual reality):** A 360 panoramic view VR enables users to check the interior and functions of a vehicle.
 - Dashboard:** Provides explanations about each warning light, signal light, and LCD message.

Maintain constant speeds for driving efficiency. | Fuel efficiency figures are for standard mode. Actual figures may vary depending on factors such as road conditions, driving patterns, vehicle load, ambient temperature, and maintenance status. | Vehicles portrayed in this publication may have optional features and differ from actual vehicles purchased. | Options, colors, and specifications shown in this publication may change to improve the appearance and performance of the vehicle. | For detailed information and notes on the specifications, please refer to the users' manual. | Engine performance figures are net values. Net values are based on a new measuring system legally imposed by the Korean Ministry of Transportation since 1997 that takes into account the resistance of exhaust gases, which may lead to a slight decrease from conventional gross output figures. | Leather seats make partial use of artificial leather. | **GENESIS is sold exclusively through regional branches, official distributors, and certified car masters to ensure reliable product quality and pricing nationwide.** | Failure to use genuine parts specified by GENESIS (engine oil, transmission oil, etc.) or usage of low-grade fuel may result in critical damage to the vehicle. | For more information on new technology and new specifications presented in this publication, please refer to the users' manual.

This publication shows top models and options to help customers' understanding.
Options apply differently according to the trim, package, power train, and exterior color selected. Please refer to the monthly price list for detailed specifications for each model.

GENESIS
