H O N D A

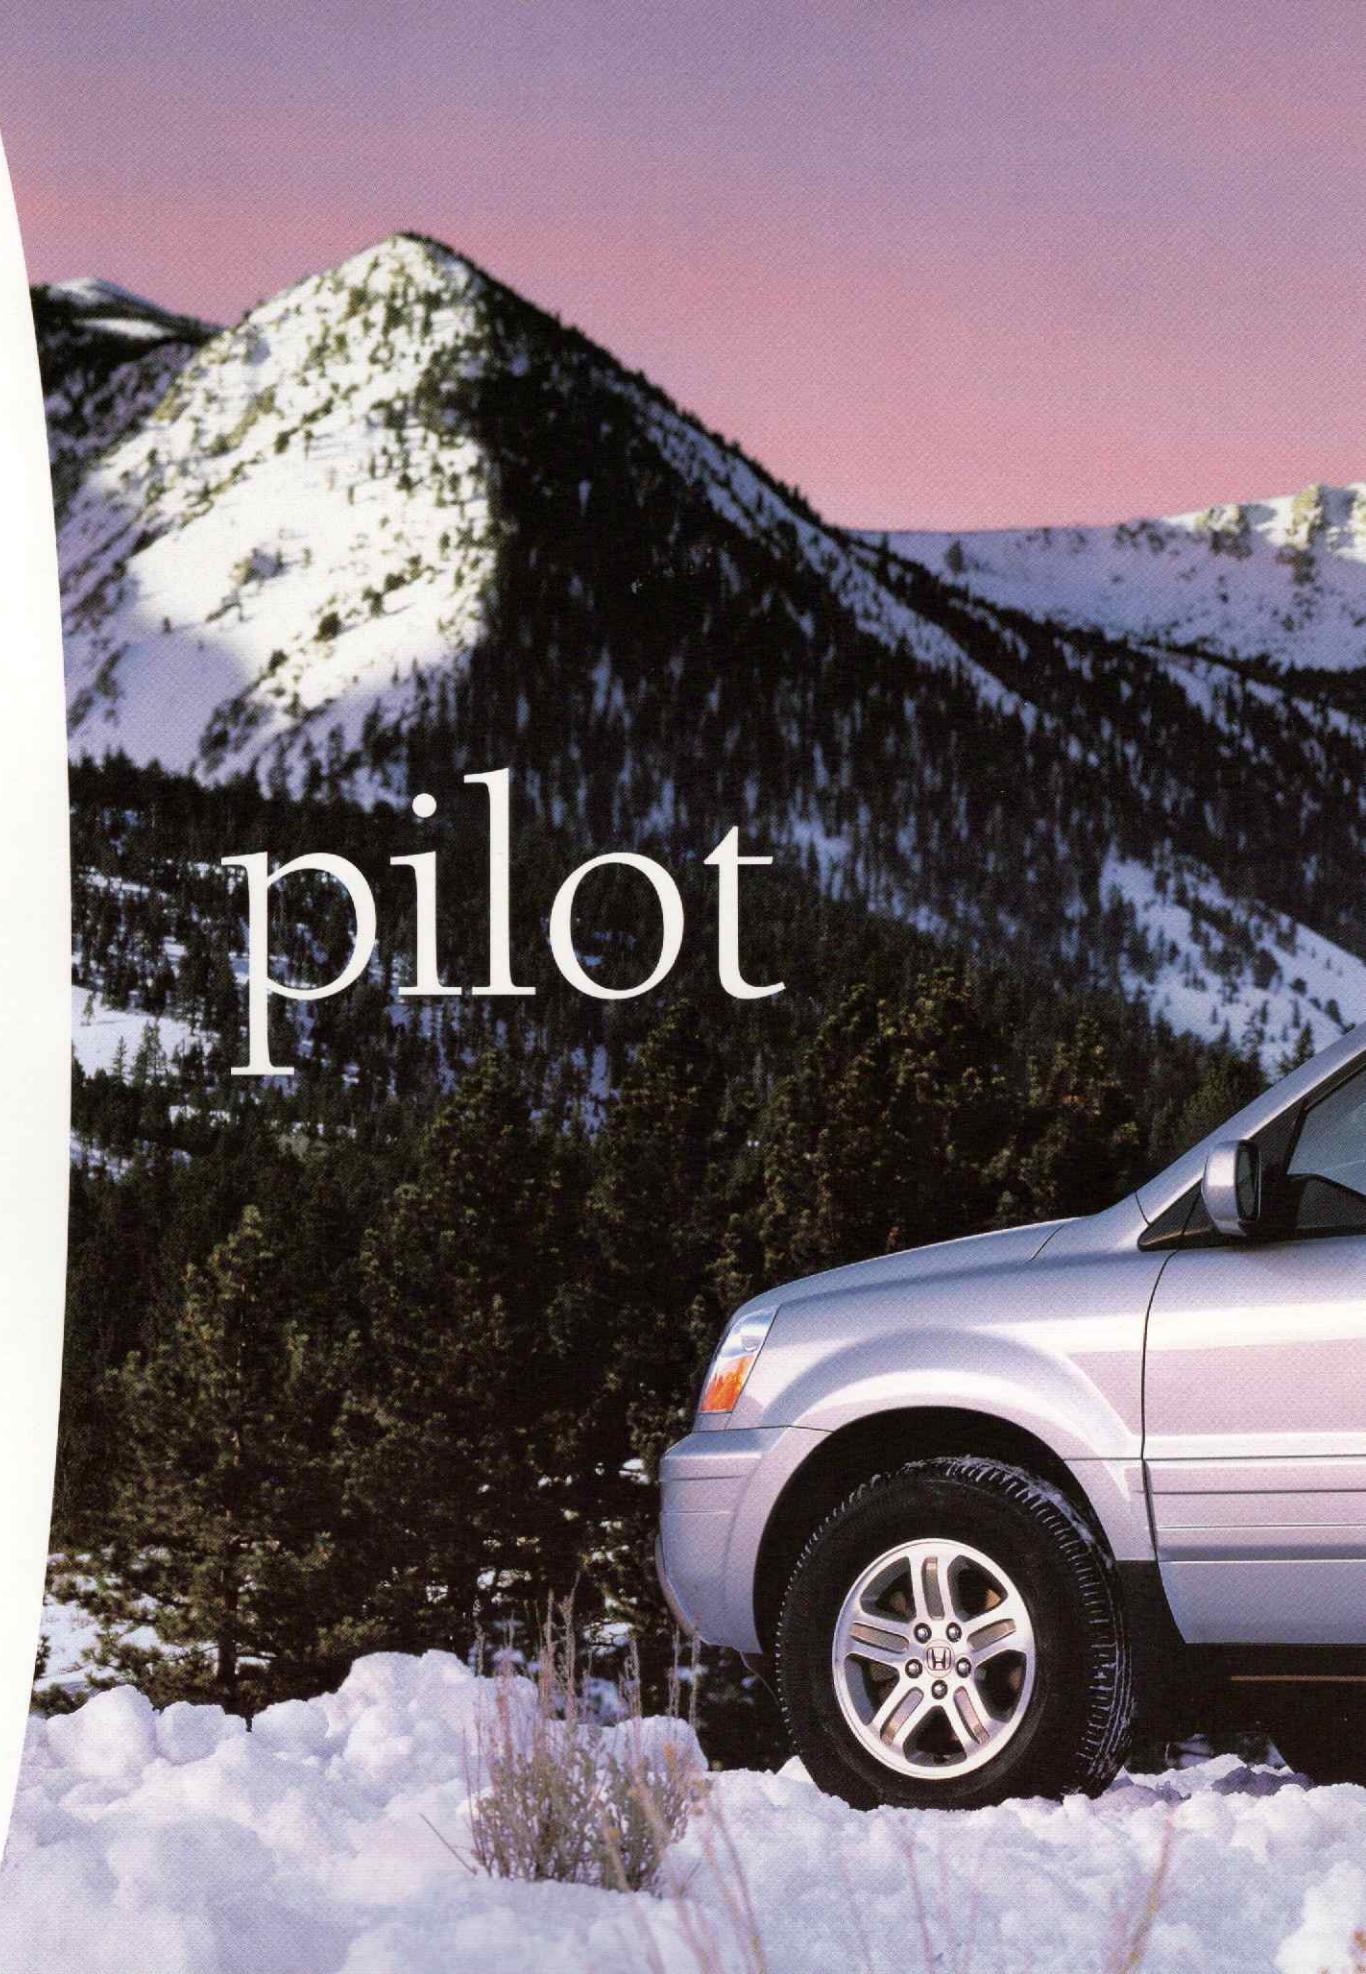

PILOT

**DO ANYTHING  
GO ANYWHERE**

Climb that mountain.

Tow that boat. Take your family or friends on a vacation they will never forget. In the rugged all-new 2003 Honda Pilot, life is one big adventure. Adapt it to whatever you want, whenever you want. Versatility and fun to drive is what the Pilot is all about. Do everything you've ever dreamed about doing because you rule the road. Load it up and take everyone on a leisurely drive or head off the beaten track. Anything is possible because Honda's unique new SUV entry features the car-like handling found in every Honda. Drivers will find navigating the Pilot a very rewarding experience. So go ahead, take charge of your ultimate family adventure vehicle and start living life large.

pilot

PILOT EX-L SHOWN IN STARLIGHT SILVER METALLIC

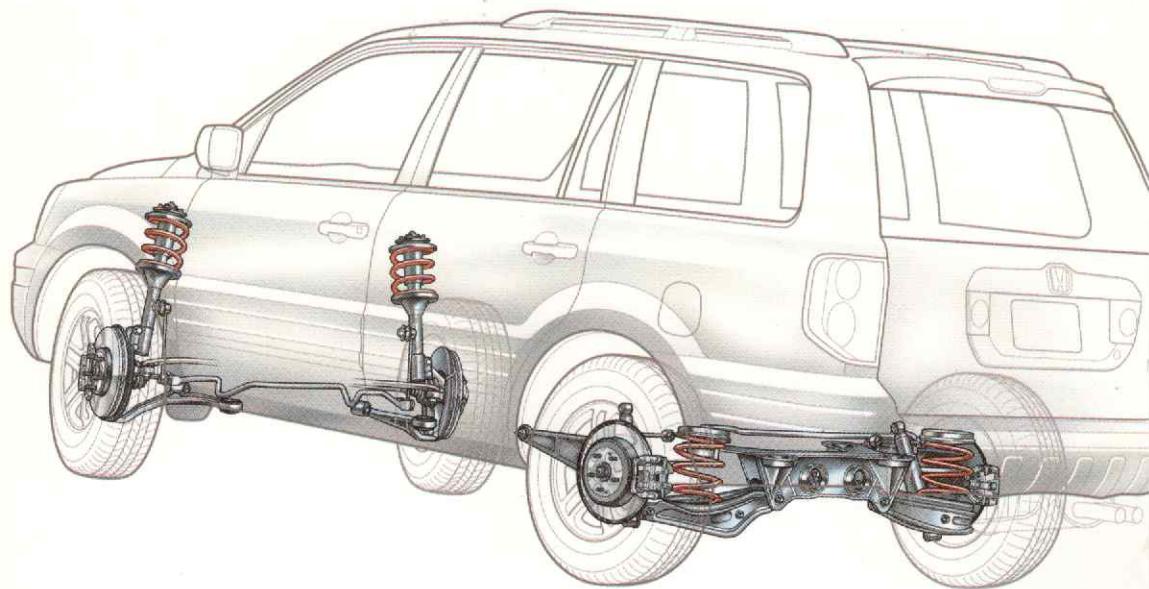

outside

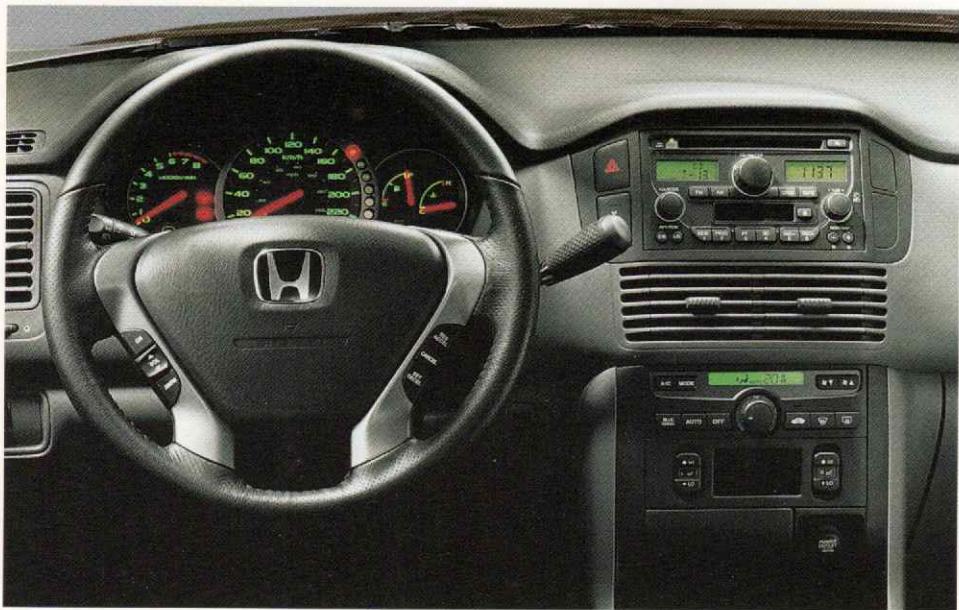

PILOT EX-L SHOWN IN Nighthawk Black Pearl

So you've picked up a few responsibilities along the way. All the more reason to get out and enjoy a big healthy dose of fun in the Pilot. Check out life from a fresh angle in a vehicle of soul-stirring ruggedness, an SUV that enables you to conquer all the pleasures of travel whether on- or off-road. Where do you really want to go? The exotic far corners of the earth? Then head there. Take it on that cross-country camping vacation, head up to the mountains, or go on that fishing trip you've always dreamed of. The world is your playground in the Pilot. So plan on getting out and start meeting nature on your own terms.

*When the road gets rough, that's where the virtues of the Pilot's 4-wheel independent suspension really shine. This tough, yet very refined, front strut and rear multi-link suspension takes what the road dishes out in stride. So whether paved or unpaved, the Pilot provides a smooth ride with excellent handling. And its wide track is designed to provide an extra measure of stability.*

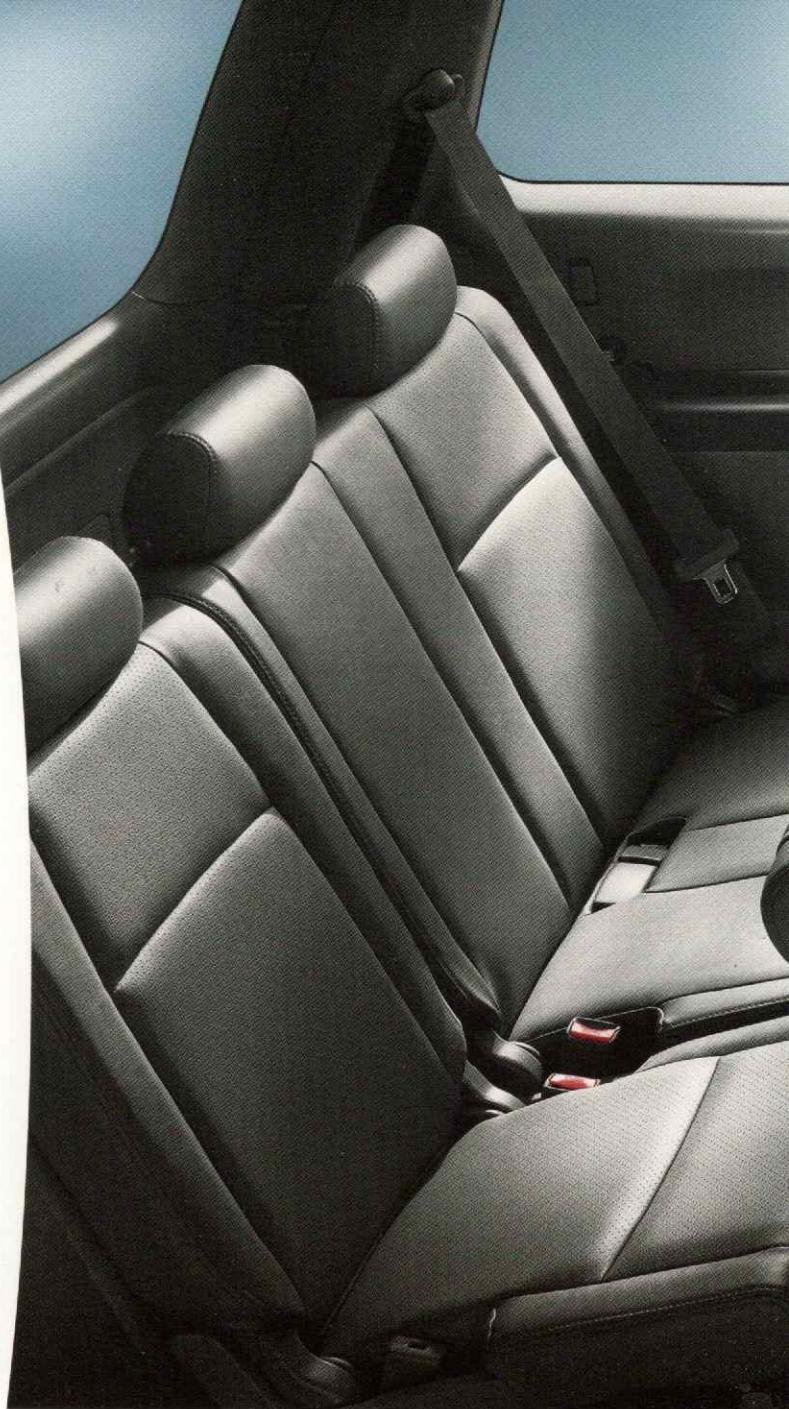

**MEET NATURE ON YOUR OWN TERMS**

With separate front and rear temperature and fan-speed controls, everyone travelling in your Pilot can enjoy their own personal comfort setting. The Pilot also comes equipped with a 155-watt, AM/FM stereo cassette with in-dash CD player and seven speakers. Pilot EX-L interior shown in Grey Leather.

The centre console is a personal organizer with space large enough to hold up to 13 CDs, plus an innovative storage area that folds down to reveal a pen clip, a business card holder and a unique sleeve to secure your cell phone.

#### THINK OF SPACE IN A NEW WAY

Taking a trip? The Pilot is big enough to carry up to 8 friends or family, with theatre-style seating so everyone has a great view. Got stuff to pick up? No sweat. The 60/40 split second- and third-row seats can be folded down flat and quickly reconfigured to suit your needs. The Pilot also has the brawn to tow a boat up to 2045 kilograms (4,500 lbs) when combined with the accessory towing package.\* Need to organize your trip? The front and rear door storage pockets help keep everything in its place, and a second-row fold down child activity tray holds crayons, hand-held electronic video games, and features two cup holders. Very ingenious, very convenient. If you're looking for that extra bit of comfort, the Pilot EX-L makes every trip a dream with first and second row leather-trimmed seats, a leather-wrapped steering wheel, and heated front seats.

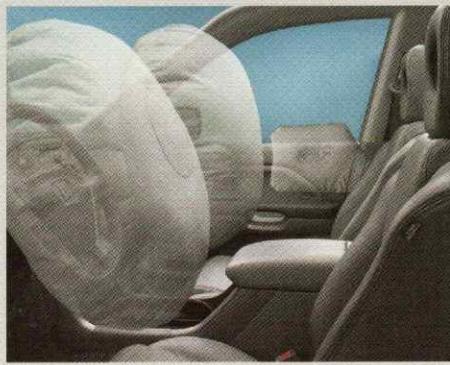

\* Towing package includes Trailer Hitch, A.T.F. Cooler, P.S.F. Cooler, Trailer Hitch Ball, Trailer Hitch Harness

inside

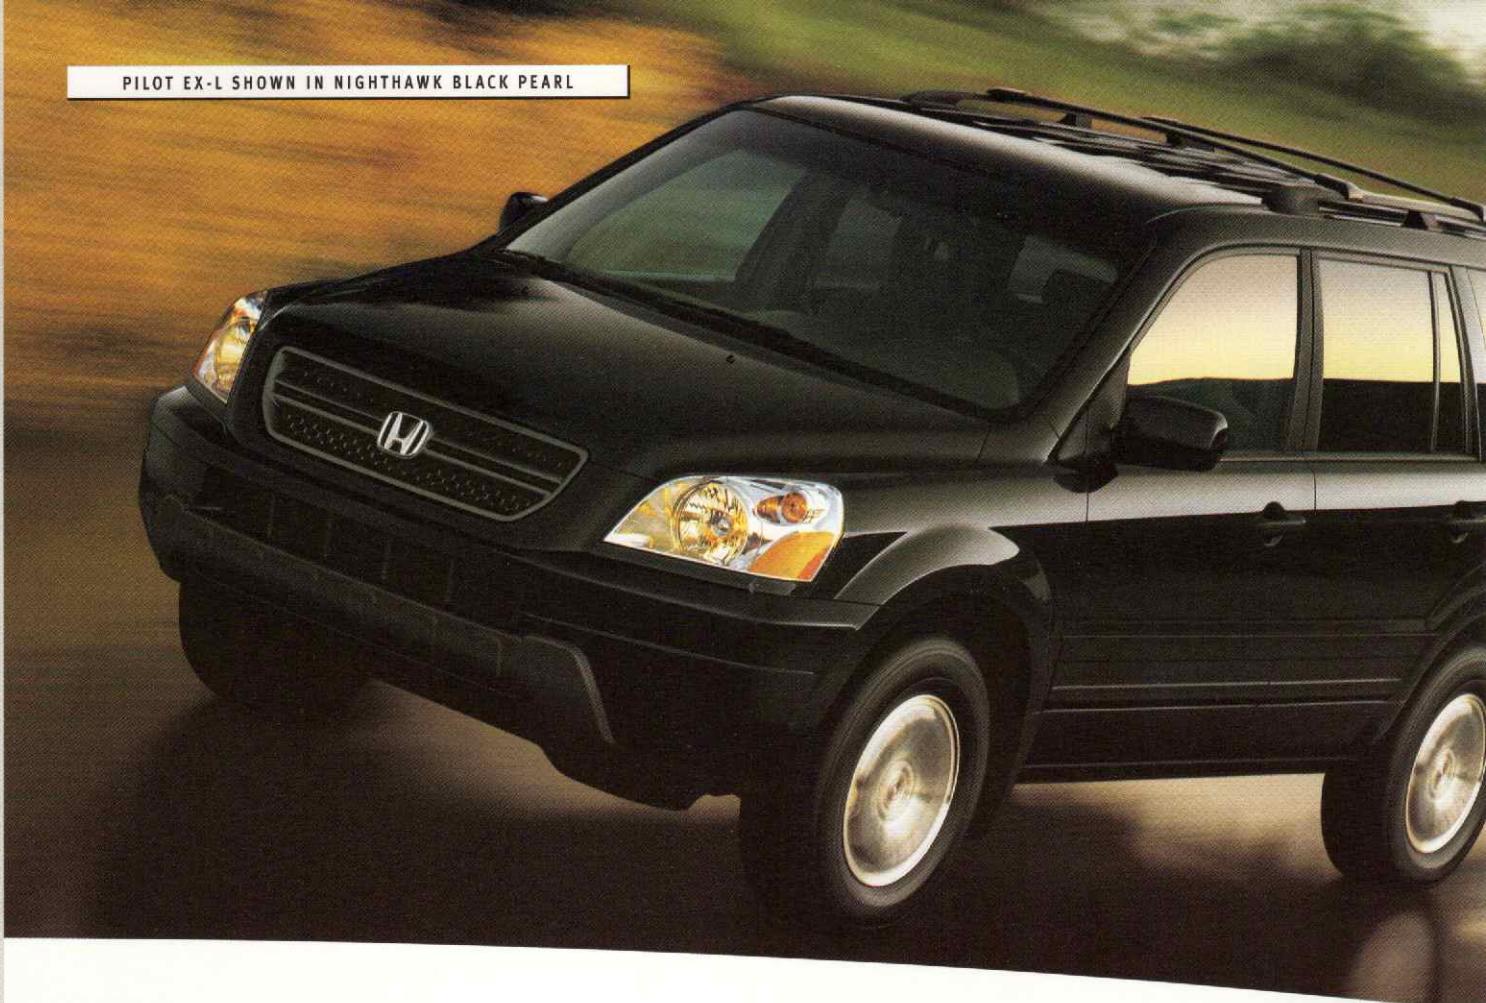

## SAFE & SOUND

The Pilot is all about security, with adjustable head restraints on 2nd and 3rd row seats and three-point seatbelts at all eight seating positions. Supplemental protection for the driver and front passenger is provided by standard dual-stage front airbags (SRS) and side airbags. The kids are also protected with the LATCH (Lower Anchors and Tethers for Children) System provided at the second-row outboard seating positions, and the child-seat tether anchors built into the third row seats.

# engineering

WHAT DRIVES US

IS WHAT DRIVES YOU

Honda produces more engines annually than any other manufacturer in the world. And they drew on this vast engineering know-how to build a smarter, more responsible engine. Even as the 3.5-litre, 24-valve, aluminum-alloy V6 pumps out power, it still burns clean enough to rate the Pilot as a Low-Emission Vehicle (LEV). In addition to that, long-life coolant and engine oil, solvent-free paints and lead-free materials help make it an environmentally friendly vehicle.

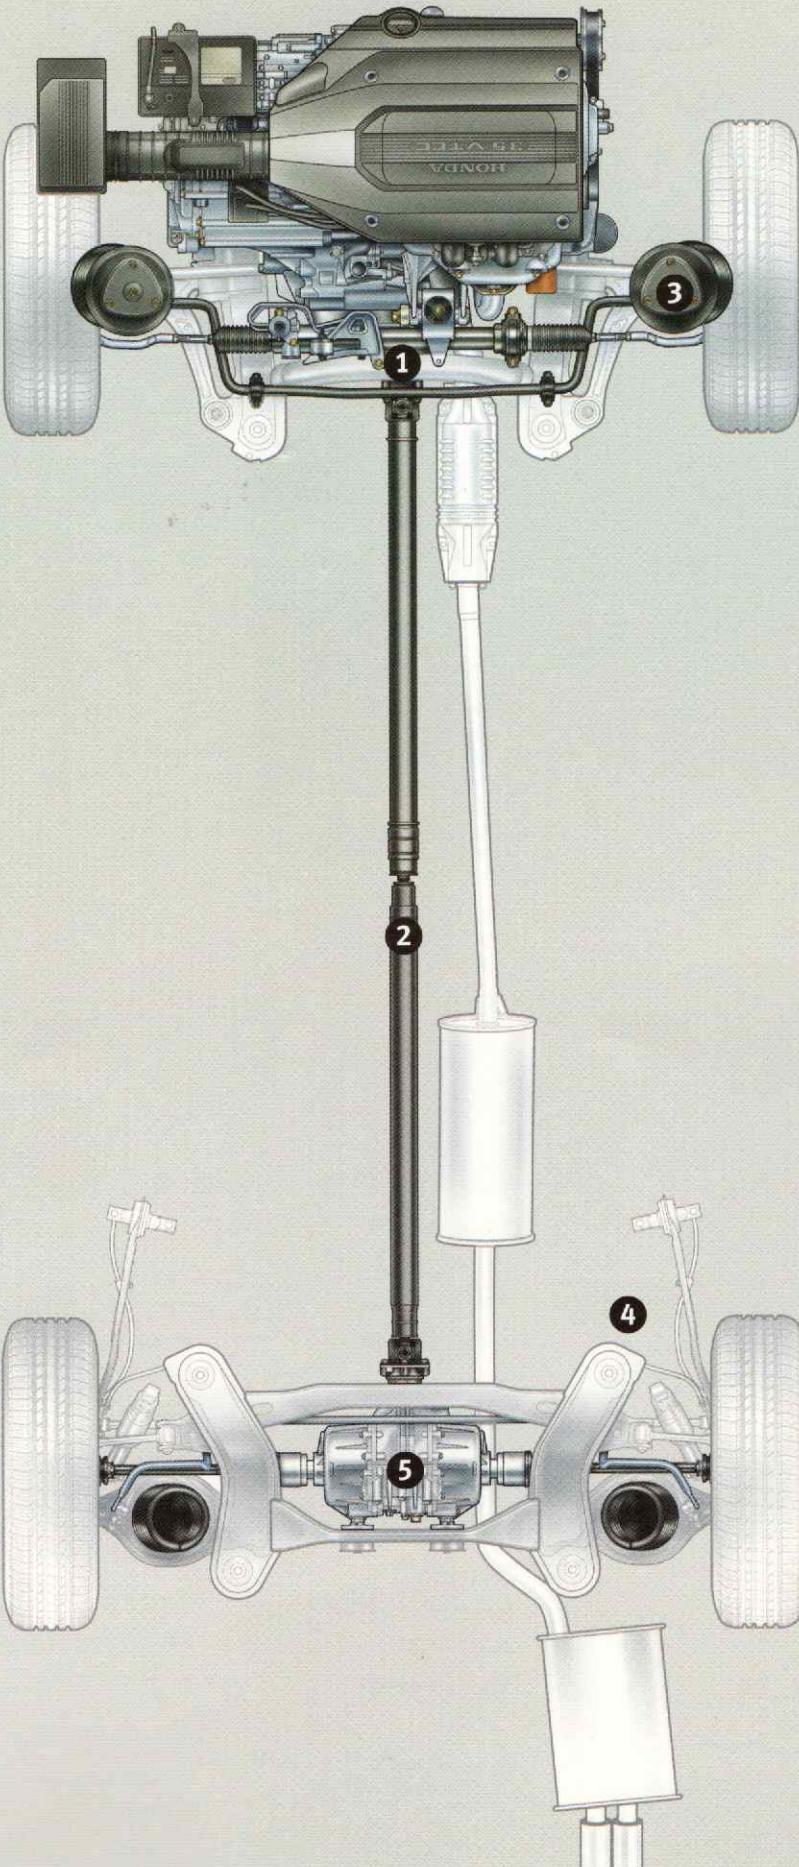

**①** *Front Differential: Drive is provided only to the front wheels during normal driving conditions, while power is supplied from the front differential through the transfer unit to the propeller shaft at all times.*

**②** *Propeller Shaft: Vibrations are damped by a centre bearing mount, a tripod plunger joint and a tuned dynamic damper.*

**③** *ABS Sensor: At each wheel, the sensors normally used to detect wheel lockup during panic stops are employed to inform the VTM-4 computer of wheel slippage due to traction loss.*

**④** *VTM-4 Computer: The Variable Torque Management 4-Wheel Drive System (VTM-4) Electronic Control Unit (ECU) receives input from various sensors and other on-board computers to calculate when and how much torque needs to be transferred to the rear wheels.*

**⑤** *Rear Differential: When commanded by the VTM-4 computer, torque received from the propeller shaft through the hypoid gears of the VTM-4 rear differential is distributed to the rear wheels by variable engagement of electromagnetic clutches.*

**HONDA.**  
**THE PLEASURE WILL BE ALL YOURS.**

  
The Honda No Nonsense Warranty covers all power train components in your new Honda. This includes manufacturing defects on almost everything essential to the basic operation of the vehicle. For 5 years or 100,000 km, the power train warranty also covers items from the engine block and transmission, to smaller but important items such as the water and fuel pumps as well as the drive shafts. Audio components are covered for 3 years. And your car's body is protected for 3 years against surface corrosion and for 5 years against perforation due to corrosion. Plus, we offer 100% battery coverage for the first 2 years and 50% for the third year.

Whether you lease or purchase your vehicle, why not prolong your worry-free ownership experience even further with our flexible selection of Mechanical Coverage that extends up to 7 years or 160,000 km. We also offer the option of Roadside Assistance that provides you with emergency services such as Lock Out, Towing, Gas Delivery, Trip Interruption, Car Rental, Tire Road Hazard, and more. Honda Plus is designed, administered and backed by Honda Canada Inc., so you can count on us being there when you need us most. Just ask your Dealer for full details and how you can include Honda Plus with your vehicle purchase.

You can also protect your investment by bringing your Honda home to your Honda Dealer. Our Genuine Honda Replacement Parts are made to the exact same standards as original Honda Components and are guaranteed by our Genuine Honda Parts Warranty. Plus, they're installed by factory trained technicians who know your Honda best. So when it's time for your vehicle's regular maintenance check-up, don't open your hood to strangers.

Start your Honda experience with Honda Future Value Leasing and enjoy the benefits of automatic GAP protection, low monthly payments, more vehicle for your money, and a closed-end lease. Or consider Honda Future Value Financing. This option to leasing offers highly competitive rates with the convenience of one-stop shopping right in the Dealership. In addition, we work together to create a plan to fit your particular budget. Contact your local Honda Dealer for further details on how Future Value Leasing or Future Value Financing\* can benefit you.

\*Available in all areas outside of Quebec.
