

2001 Honda Accord Sedan

Finally something the whole family can agree on.

The 2001 Accord Sedan. A shining example of quality, reliability and style. Its virtues however, go far beyond that. The Accord Sedan truly is a feast for the senses. One test drive and you'll quickly understand. Its responsive acceleration and surefooted handling offer you a thoroughly rewarding driving experience. Couple that with an accommodating, comfortable interior and you're left with a feeling that's all Honda. And all Accord.

Whether you're on carpool duty or heading down an open road, the Accord

makes every driving experience a memorable one. From its comfortable oversized interior to its highly-tuned, race-inspired systems, you'll quickly realize that this is one place where you can have it all.

Now let's take a moment to introduce the Accord Sedan family. There's the well-appointed, and thoughtfully designed 4-cylinder LX and EX and the very powerful and luxurious LX-V6 and EX-V6. So no matter which one you choose, you'll find them all to be extremely welcoming.

Accord Sedan EX-V6 shown in Firepepper Red Pearl.

Shift into fast forward.

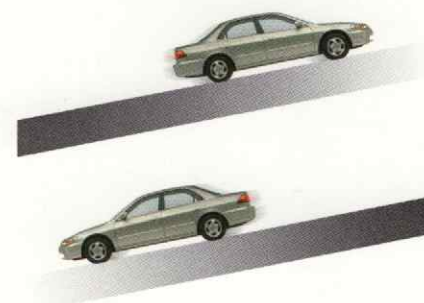

The Accord Sedan is designed to offer you a smooth and secure, yet precise and refined driving experience. In other words, you'll have fun. You'll feel invigorated. And of course you'll feel in total control. That's the Accord Sedan. A reminder of just how rewarding driving was meant to be.

And just how does the Accord rekindle your love of the open road? The front double-wishbone, rear five-link suspension definitely has something to do with it. It provides a smooth ride, yet delivers crisp, confidence-inspiring handling. Not to mention the power assisted rack-and-pinion steering which further adds to the driving panache. And channeling power to the road is a smooth-shifting 5-speed manual or 4-speed automatic transmission.

The Accord Sedan proves that thrilling performance doesn't have to take a backseat to practicality and comfort.

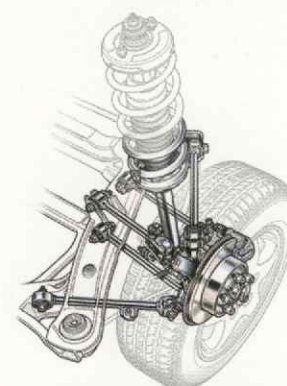

Accord Sedan EX-V6 shown in Satin Silver Metallic.

All Accord's with automatic transmission feature Grade Logic Control. Going uphill, the system determines the appropriate gear to maintain your speed and helps eliminate gear-hunting. When travelling downhill, Grade Logic downshifts to provide an engine braking effect, giving you more control.

Accord Sedan EX-V6 interior shown in Ivory Leather (U.S. model shown).

The rear independent 5-link suspension uses upper and lower links to control the upward and downward movement of wheels. This provides optimum handling by giving the tires more contact with the road, while still allowing them to roll smoothly over dips and bumps.

Accord Sedan EX-V6 shown in Nighthawk Black Pearl.

LX

EX

LX-V6

EX-V6

Gone are the days of lost, crushed or misplaced sunglasses. A unique holder keeps them safely stored out of the way.

For added convenience there's power windows with an illuminated driver's button. And to ensure the security of your passengers, the driver's door power control panel features window locks.

Interior

It will make you feel right at home.

Sitting inside the Accord Sedan there's only one thing you'll want more of. Places to go. That's because we've made the interior extremely comfortable and accommodating. In the Accord Sedan, you'll want to take the long way home.

Honda engineers are constantly striving to find new ways to make things better, more efficient and ergonomic. For starters there's convenient storage compartments, a trunk of massive proportion and rear seatback that folds down to give you even more space. The Accord Sedan let's you go places. And take everything with you.

Let's not forget the creature comforts. In every Accord you'll find CFC-Free air conditioning with micron air filtration, map lights, power windows with an illuminated driver's button, power heated mirrors and power door locks. Bringing music to your ears is an AM/FM stereo with CD standard on the LX and LX-V6 models. And on the EX and EX-V6 models, we've combined a cassette player with a 6-disc, In-Dash CD changer.

In every EX model you can operate the power controls after the engine has been turned off. There's also a sunroof, keyless remote entry with trunk release and a security system (both pre-wired in the LX).

Road trip anyone?

Accord Sedan EX-V6 interior shown in Ivory Leather.

The luxury of not having to leave the comfort of your Accord EX-V6 to activate your garage and gate openers or home lights is brought to you by the clever HomeLink® System.

Enjoy the ride even more with an 8-way power adjustable driver's seat standard on all V6 models.

Our race cars aren't the only vehicles that start here.

The racetrack. For over 30 years and through nine world championships, it has served as both our inspiration and our laboratory. It's where Honda engineers test and push radical new theories to the limit. And because we rotate our engineers between racing and production car activities, the same spirit that goes into our racing can be found in your Accord.

Not unlike its racing siblings, the Accord Sedan boasts a powerful VTEC system found in the 200 horsepower, 3.0 litre, 24-valve LX-V6 and EX-V6 engines; and in the 150 horsepower, 16-valve, LX and EX 4-cylinder engines.

The beauty of VTEC (Variable valve Timing and lift Electronic Control) is the way it helps the engine produce more usable power by changing its breathing characteristics (intake valve timing and lift) in response to changes in engine speed. This results in smoother acceleration under all driving conditions.

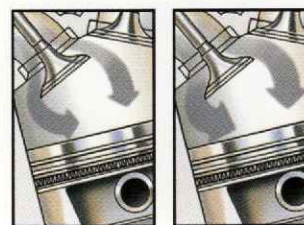

However, the Accord's similarities with race cars doesn't stop there. Like Formula One cars, Accord VTEC engines also feature multi-point fuel injection and 4-valve combustion to improve combustion efficiency and performance. While a unique, second-order vibration cancelling system (4 cylinder models) minimizes engine vibration. And all Accord engines are designed to meet California's stringent Low Emissions Vehicle (LEV) standard.

However, Honda's innovative technology doesn't stop there. For strength and durability, the crankshaft and connecting rods are made of forged steel. While aluminum-alloy cylinder block and heads reduce weight and enhance performance.

With such an abundance of sophisticated features, it's no wonder you're enjoying the ride so much.

Accord 4-cylinder engines have a Honda-designed second order balance system that uses dual counter-rotating shafts to help reduce engine vibrations. This reduces vibration transmitted to the cabin, resulting in a quieter ride.

VTEC Variable Valve Timing and 4-valves-per-cylinder combustion chambers found in the Accord engines improve combustion efficiency and performance.

What makes a Honda is who makes a Honda.

It seems Honda's dedication to building some of the most refined and dependable vehicles available is really catching on. You'll find the same dedication to excellence from our world-class workforce and Canadian supplier companies. They're a big reason for Honda's continued success. In fact, our Associates commitment has earned them a first-rate reputation for quality with our customers. And it all starts right here in this country.

It's where we've manufactured well over a million cars, exported our products all over the world, and invested more than a billion dollars in the Canadian economy, not to mention the significant investments made by our Canadian supplier companies.

We're extremely proud of our Associates accomplishments and of the fact that over half of the vehicles we sell in Canada, are built right here.

Be ready for anything down the road.

Every Accord is built with multiple safety features that work together, each engineered to Honda's high standards. In severe impacts, for example, steel door beams plus front and rear crush zones help absorb the energy. Inside the vehicle, 3-point seatbelts, found at every seating position, provide primary protection for all occupants, while SRS air bags along with front seatbelt pretensioners offer supplemental protection. Plus, there are adjustable front head restraints, child-proof rear door locks, and a collapsible steering column for additional protection. We haven't stopped there, the LATCH child seat anchor system when combined with your LATCH child seat ensures a more secure installation which minimizes seat movement. To help avoid accident's, Accord's brakes are powerful and its suspension refined, both of which allow for a controlled response in an emergency situation. Plus, all V6 models feature a new Traction Control System (TCS). This computer-controlled system helps your Accord maintain the best possible grip and control when accelerating, particularly on slippery surfaces.

Finally, there's an Anti-Theft immobilizer, which provides excellent protection for your Accord.

Supplemental restraint systems for all Accord Sedans include dual-stage Driver and Passenger front air bags (SRS). In addition, Front Side air bags with Front Passenger seat size and position sensors are standard on LX-V6 and all EX models.

Accord Sedan EX-V6 shown in Eternal Blue Pearl.

Accessories

Accord's long list of Genuine Honda Accessories is filled with ways to personalize your new Accord. Each accessory is engineered to meet Honda's stringent standards. Ask your Dealer to show you the complete Accord Accessories catalogue.

Enjoy the crisp, clear sound of your favourite music with Honda's 6Disc In-Dash CD Changer.

Our ruggedly built rear spoiler adds a sporty flair to your Accord and accentuates its aerodynamic styling.

Protect your Accord from stone chips and road debris with a sporty full nose mask.

Make a dramatic statement with distinctive alloy wheels. They're manufactured from high-strength aluminum alloy and are as durable as they are good looking.

A Genuine Honda Security System will help protect your new Accord. Sensors protect the doors, trunk and glass areas from intruders, while a flashing LED warns that the system is armed. Because it's installed by your Honda Dealer it's ready to use the moment you pick up your new Accord.

Other Available Accessories

- Cassette Player
- Fog Lights
- Woodgrain Steering Wheel
- Woodgrain Panels
- Rear Splash Guards

Customer Commitment

Honda. The pleasure will be all yours.

All power train components in your new Honda are covered by the Honda No Nonsense Warranty. This includes manufacturing defects on almost everything essential to the basic operation of the vehicle.

For 5 years or 100,000 kilometers, the power train warranty also covers items from the engine block and transmission, to smaller but important items such as the water and fuel pumps as well as the drive shafts. Audio components are covered for 3 years. And your car's body is protected for 3 years against surface corrosion and for 5 years against perforation due to corrosion. Plus, we offer 100% battery coverage for the first 2 years and 50% for the third year.

Prolong your worry-free ownership experience even further with our flexible selection of Mechanical Coverage's that extends up to 7 years or 160,000 km. We also offer the option of Roadside Assistance that provides you with emergency services such as Lock Out, Towing, Gas Delivery, Trip Interruption, Car Rental, Tire Road Hazard, and more.

Honda Plus is designed, administered and backed by Honda Canada Inc., so you can count on us being there when you need us

most. Just ask your Dealer for full details and how you can include Honda Plus with your vehicle purchase.

You can also protect your investment by bringing your Honda home to your Honda Dealer.

Our Genuine Honda Replacement Parts are made to the exact same standards as

original Honda components and are guaranteed by our Genuine Honda Parts Warranty. Plus, they're installed by factory-trained technicians who know your Honda best. So when it's time for your car's check-up, don't open your hood to strangers. Bring it home to Honda.

Start your Honda experience with Honda Future Value Leasing and enjoy the benefits of automatic GAP protection, low monthly payments, more vehicle for your money, and a closed-end lease.

Or, consider Honda Future Value Financing*. This option to leasing offers highly competitive rates with the convenience of one-stop-shopping right in the Dealership. In addition, we work together to create a plan to fit your particular budget. Contact your local Honda Dealer for further details on how Future Value Leasing or Future Value Financing can benefit you.

*Available in all areas outside of Quebec.
