

1997 ODYSSEY

**H O N D A**

BUILT WITHOUT COMPROMISE. 

*Odyssey shown in Eucalyptus Green Pearl with accessory alloy wheels.*

## ODYSSEY

Your expectations of a minivan are high. You would like room for several passengers as well as many things. You want it to accelerate quickly and handle curves well. Four car-like doors would be nice too. That's not asking too much of the Honda Odyssey.

There's a distinct difference between what's outside and what's inside the Odyssey.

Outside is a wide-open road to explore. Inside are all the instruments and controls you need for the journey. Well placed, easy to operate, quick to read. You also have dual airbags, cruise control, power

windows/mirrors/doors, tailgate locks, and firm, supportive seats with high-quality fabric. It's all very ergonomic.

Outside there are a lot of things that need to be taken home.

Inside is a generous amount of space, with a variety of seating and loading arrangements. There are also six beverage holders that fit a variety of shapes and sizes.

When you're downtown, it's noisy outside. Inside, there is an AM/FM High-Power stereo cassette, so you can make your own noise.

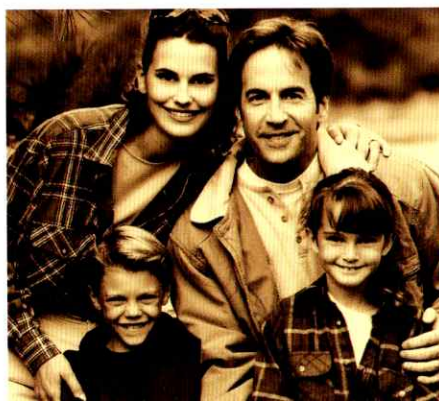

Outside is all kinds of weather. Inside is air conditioning for warm days, and heater ducts under the

driver's and front passenger's seats, so everyone's warm on cold days. Intermittent windshield wipers, a rear defroster (with timer) and a rear wiper/washer help make your view clear at all times.

The Odyssey was designed from the ground up with safety in mind. Front and rear crush zones help to protect the vehicle's occupants by progressively folding to absorb impact energy.

The anti-lock braking system (ABS) helps the driver retain steering control when braking hard, especially on slippery surfaces.

Your immediate surroundings have been thoughtfully designed. So that in the Honda Odyssey, you can enjoy as much or as little of the outdoors as you please.

**IT CAN HOLD  
ALMOST ANYTHING.  
EXCEPT  
YOUR EXCITEMENT.**

*6 Beverage Holders  
fit various shapes and  
sizes, so front and rear  
seat passengers stay  
refreshed.*

*Odyssey shown in Heather Mist Metallic.*

Four doors that open out rather than slide. A third-row seat that disappears into the floor. An abundance of seating and loading options. The Honda Odyssey shows how versatile a minivan should be.

Of course, you'll want to make every moment in the Odyssey count. This means taking advantage of all the ways it can accommodate you and your passengers.

Car-like doors and a low step-in height make this minivan easy to get in and out of. The low height also makes the roof more accessible. At the back, the tailgate opens up high and out of the way. And a bumper-level ledge allows

for quick and simple loading.

The Odyssey's unique seating arrangement and efficient use of space, makes it extremely functional. It carries up to seven passengers, as well as various amounts of cargo.

In the six-passenger layout, the second row has two bucket seats with ample room between the seats for easy access from front to back. These lightweight seats can also be easily removed for more space.

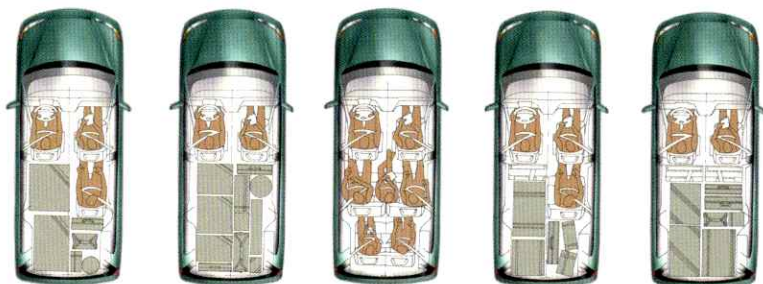

In the seven-passenger Odyssey, the second row is a three-passenger bench seat. Each half folds forward 50/50 for easy entry into the back from either side. This seat can also fold up

against the front seats for more cargo room.

The unique third-row seat can be quickly folded into the floor for instant storage space, so you don't need to find somewhere to put it. And when it's up, it leaves a recessed compartment in the back that holds groceries in place. In fact, you'll find handy storage compartments throughout the cabin.

Clearly, this minivan has been made to adapt to many situations. It carries several passengers, hauls a large amount of equipment, and generally makes your life easier. If there ever was a vehicle that could do all these things, it's the Honda Odyssey.

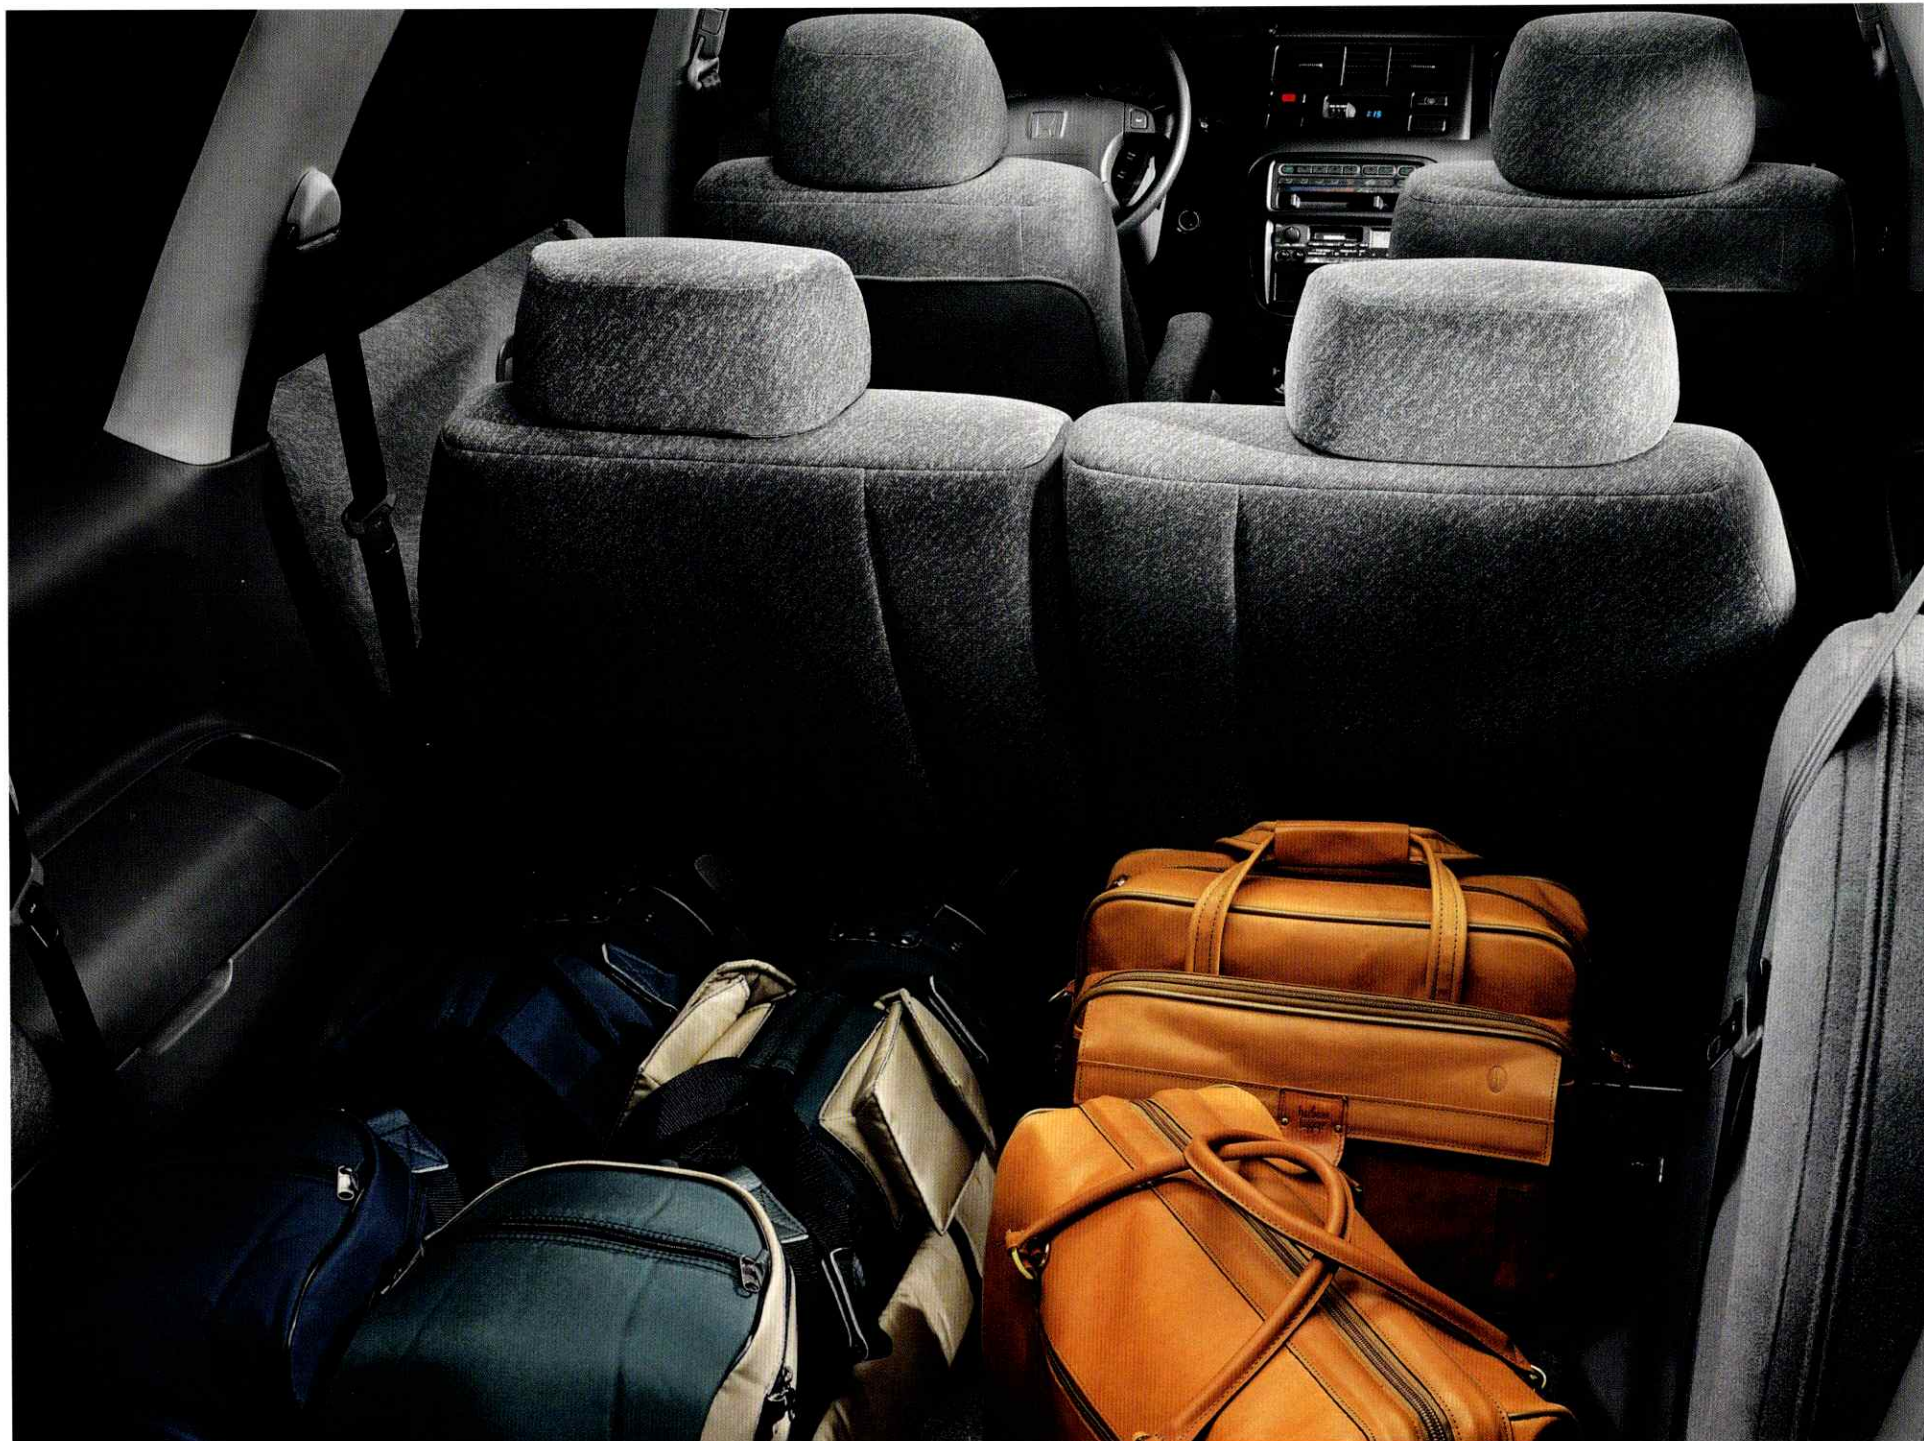

*If you need more cargo room, simply fold the Odyssey's third seat down or store it in the floor.*

Alliston, Ontario. In this rural town, people take great pride in their community and their work.

And why shouldn't they. These dedicated workers have a reputation of building Canadian produced Hondas, which undeniably, are rated among the best in the world. So, it comes as no surprise that we export vehicles to the U.S., Brazil and many countries throughout Asia.

When building these quality automobiles, we'll give some of the credit to the technologically-advanced systems, but truthfully, the cheers really go out to the hard-working men and women

who build these Honda cars day in, day out.

Today, our Canadian associates number over 2,000 nationwide. We're extremely proud of the team spirit found in all of our associates. And because of this strong spirit, we have grown to become a major vehicle manufacturer in North America.

**PROUD TO CALL CANADA HOME.**

*Odyssey shown in Heather Mist Metallic with accessory alloy wheels.*

*Your new Odyssey comes pre-wired for a Genuine Honda Security System. Your Honda Dealer can have it installed and ready to go when you pick up your new Odyssey. The system features a remote activation system, keyless entry and much more. Ask your Dealer for details.*

## ODYSSEY ACCESSORIES

*15" Alloy Wheels are machine-finished and will get your Odyssey more than a few envious looks. The Odyssey's fog lights improve visibility in foul weather. Power any 12-volt accessory from the rear of your Odyssey with the rear power outlet. Keep loose cargo and groceries nice and tight with Odyssey's cargo net. With the Odyssey's rugged high quality roof rack, there's more room on the roof for bikes, skis or extra luggage.*

**HONDA.  
THE PLEASURE  
WILL BE  
ALL YOURS.**

All major components in your new Honda are covered by the Honda No Small Print Warranty. This includes manufacturing defects on almost everything essential to the basic operation of the vehicle.

The warranty also protects many other items on your new Honda for 5 years or 100,000 kilometres. Your vehicle is covered from the engine block, radiator and transmission, to the little things like your headlight, ignition and wiper switches. Your car's body, that protects your body, is protected for 3 years against surface corrosion and for 5 years against perforation due to corrosion.

The battery is 100% covered for two years and 50% for the third year. And let's not forget your audio components. They're protected for three years.

What's more appealing, is that you don't pay extra for the Honda No Small Print Warranty. This means no deductibles for any repair, and you can transfer ownership at no cost with no loss of warranty coverage. And

you'll happily know that this can add more to your Honda's resale value.

Honda Plus offers you a choice of additional protection packages and an Emergency Roadside Assistance option.

So, for those who are planning long trips in their new Honda, or whose driving needs call for extra kilometres of protection, Honda Plus can give you that peace of mind for a relaxing and enjoyable journey. Ask your Dealer for more details.

Hondas are built with unsurpassed quality, fit and finish by the specialized associates who take pride in their work.

The same can be said for the Genuine Honda replacement

parts, which are made to the exact same standards and are also guaranteed by our Genuine Honda Parts Warranty.

All replacement components are made for a perfect fit to help keep your Honda a Honda.

All our technicians are factory trained to know your Honda inside and out. So when it's time for your car's check-up, don't open your hood to strangers.

Bring your Honda back home to your Honda Dealer for the best in after-sale

service and Genuine Honda Parts. Your vehicle couldn't be in better hands.

Honda Future Value Leasing. The benefits are clear: automatic GAP protection; low monthly payments; more vehicle for your money; and a closed end lease. Ask your Dealer for a Honda Future Value Lease brochure which explains these benefits in greater detail.

Honda Future Value Financing. This option to leasing offers highly competitive rates with the convenience of one-stop shopping right in the Dealership. In addition, we work together to create a plan to fit your particular budget.

Contact your local Honda Dealer for further details on how Future Value Leasing or Future Value Financing can benefit you.
