Smart performance

The advanced high strength steel body frame conveys the stability and safety that are fundamental to driving. Power performance, unabated dynamics, and fast response discernible at regular speeds convey the thrill of driving every day. Meticulous convenience features demonstrate that driving can be comfortable and safe at all times. If you are living your primetime, think i30!

**7-airbag system / Advanced high strength steel (AHSS)**

53.5% application of Advanced high strength steel (AHSS) plates boost driving and collision safety. 7 airbags, including driver seat, passenger seat, driver's knee, side and curtain airbags, protect passengers from collisions all-round.

**Blind spot detection (BSD)**

Blind spot detection (BSD) alerts the driver about vehicles in blind spots or vehicles approaching the back side of your car at high speeds.

**Parking assist system (PAS)**

Ultrasonic sensors in the bumper detect obstacles and set off distance-differentiated alarms for safe parking.

**Hill-start assist control (HAC)**

Hill-start assist control (HAC) automatically holds the brakes to prevent the car from rolling back when starting from a hill.

**Rear-view display system**

Guidelines on the monitor screen show the expected vehicle trajectory based on the steering wheel position to assist parking on reverse.

Get ready, it's i30.

Beyond the simple dashboard with a horizontal layout lies the beauty of your car. The sophisticated center fascia and floating-type display reflect your coolness in style. Enjoy greater freedom to maximize the joy of living in the pinnacle of your life.

People's expectation toward individual mobility requires more than just a convenient means of transportation. The old understanding of cars has become outdated. A car represents individuals' lifestyles, and it became an integral part of their lives. At the same time, the automobile industry has experienced seismic change. Hyundai Motor Company has grown rapidly to become one of the largest automakers, backed by world class production capability and superior quality. We have now reached a point where we need a qualitative approach to bring bigger ideas and relevant solutions to our customers. This is an opportunity to move forward and we have developed a new brand slogan that encapsulates our willingness to take a big leap. Led by our new slogan and the new thinking underlying it, we will become a company that keeps challenging itself to unlock new possibilities for people and the planet.
