

**ELANTRA**

# Confidently Refined

From its voluminous grille to its wide, assured stance, the Elantra has urban confidence and refinement written into every line. With its outside mirror repeaters to the stylish headlamps, the eye-catching looks confirms its unmistakable presence.

**Front Grille**

The front features slim, sporty-looking headlamps and contrasting large-size radiator grille to express compressed energy on the verge of leaping.

**Projection Headlamps with LED Positioning Lamp**

Improve lightning performance at wider angle to secure a sufficient view for the driver.

**LED Daytime Running Lights (DRL)\*\***

The newly designed DRL is to enhance the safety of day time driving.

**LED Outside Mirror Repeaters**

Aerodynamically-shaped outside mirrors feature integrated LED side repeaters for refined looks and enhanced visibility when turning.

**LED Rear Combination Lamp**

Produces multi-dimensional premium feel using high-tech graphic details.

**Fog Lamps\***

Neatly recessed and mounted low on the already imposing front end, Fog Lamps provide better visibility in poor weather conditions.

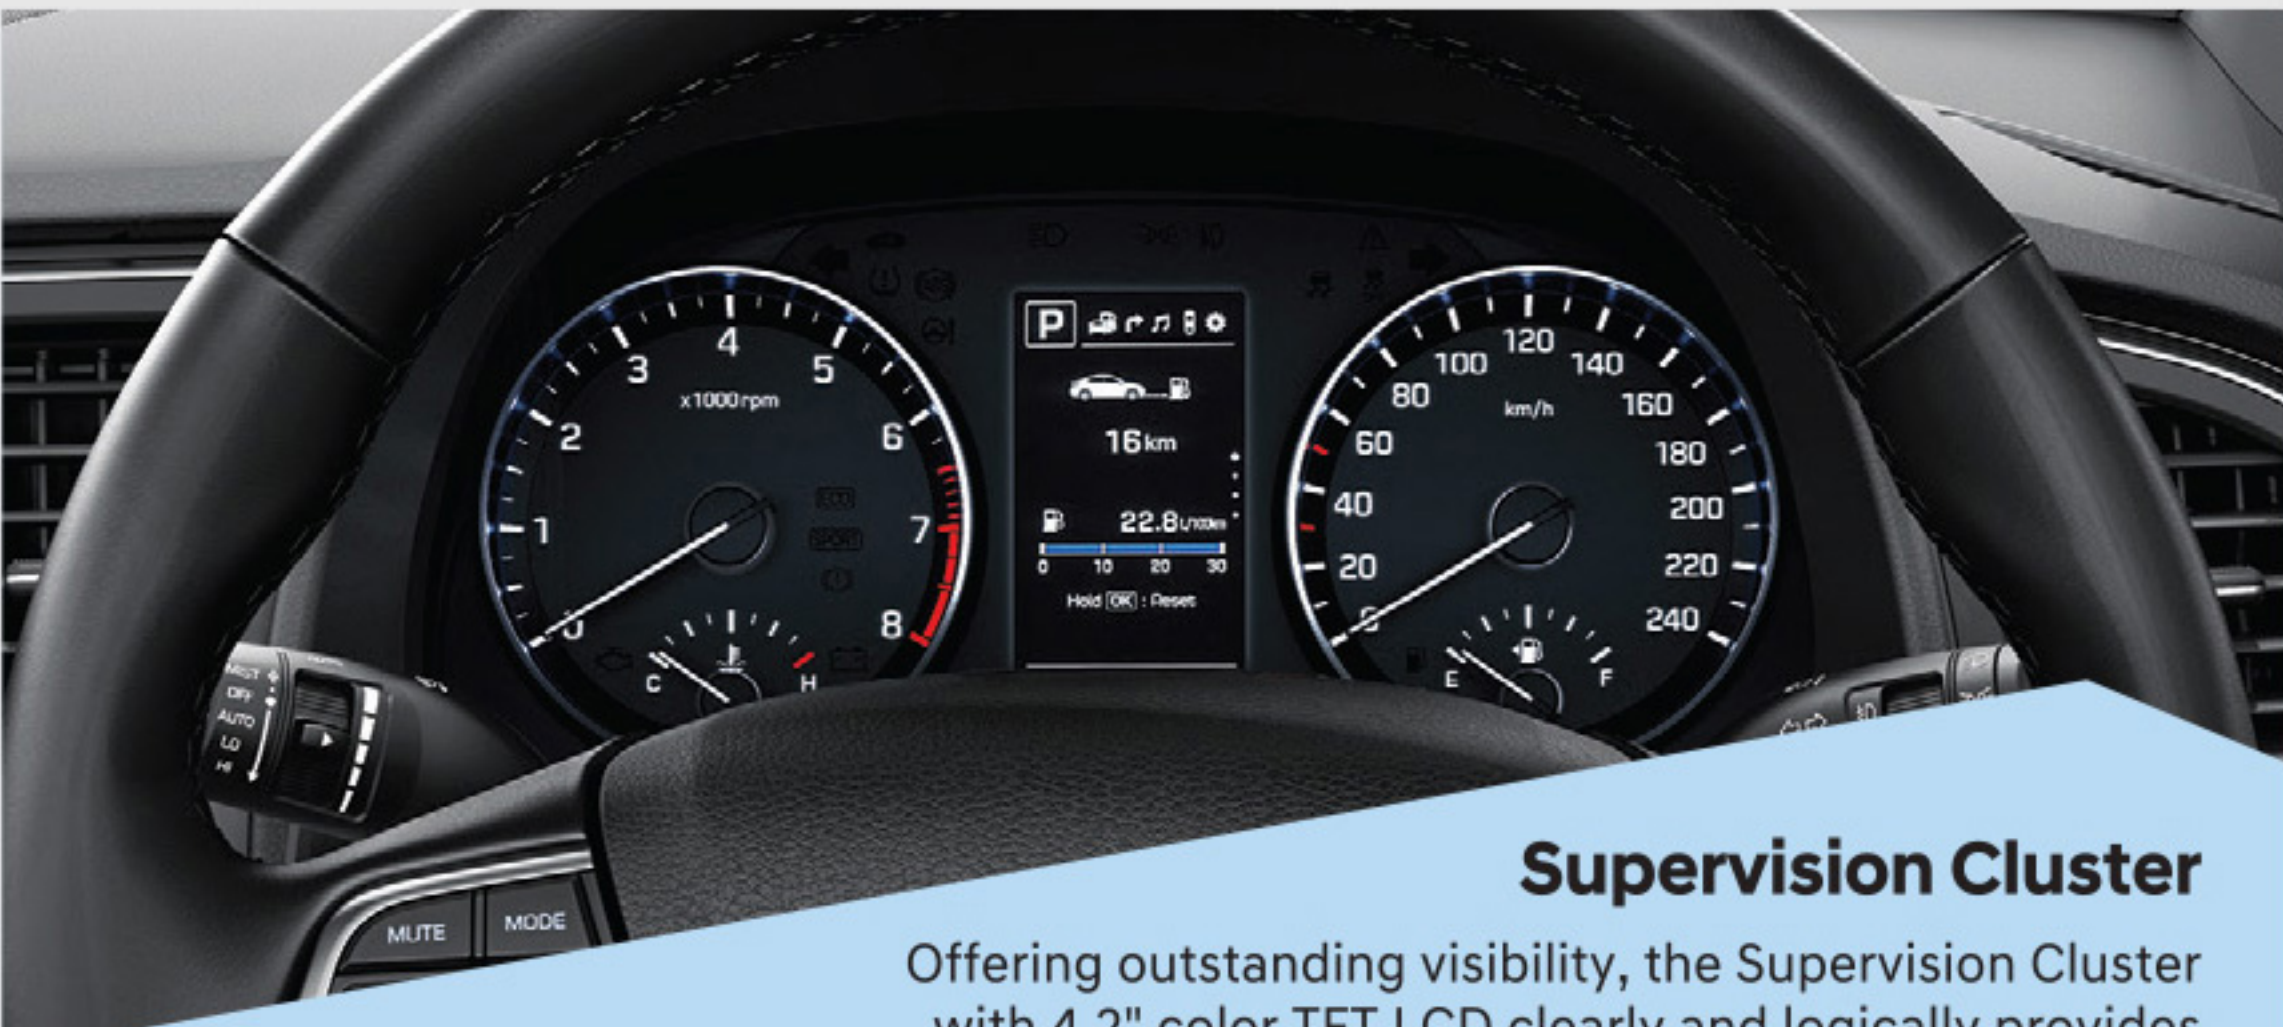

# Sophistication and Technology in Harmony

A sophisticated car demands sophisticated technology. Fulfilling not only your driving needs, but for your enjoyment and convenience. The Elantra is designed and engineered with a touch of luxury, providing you with a stand-out experience.

**Manual Air Conditioning System**

A convenient, double dial knob-type controller translates into easily adjustable, advanced air control quality.

**Supervision Cluster**

Offering outstanding visibility, the Supervision Cluster with 4.2" color TFT LCD clearly and logically provides the vehicle and driving information you need.

**Suede and Leather Seats**

Seat in style and comfort with the choice of the velvety suede or fine leather finish for your seats.

**Rear Air Ventilation System**

This allows back seat passengers to easily control the amount of air flow.

**Driver's Power Seat**

The seat adjusts in 8 different ways to fit different body shapes and postures. 2-Step lumbar support provides more support for the driver's lower back.

\*Only available for Executive Variant    \*\*Only available for Dynamic Variant    Pictures are for illustration purposes only, actual unit may differ.

# Power in Performance

Valuing the integrity of the experience in your drive, the Elantra is equipped with the technology and innovation to bring out the best in performance, both inside and out.

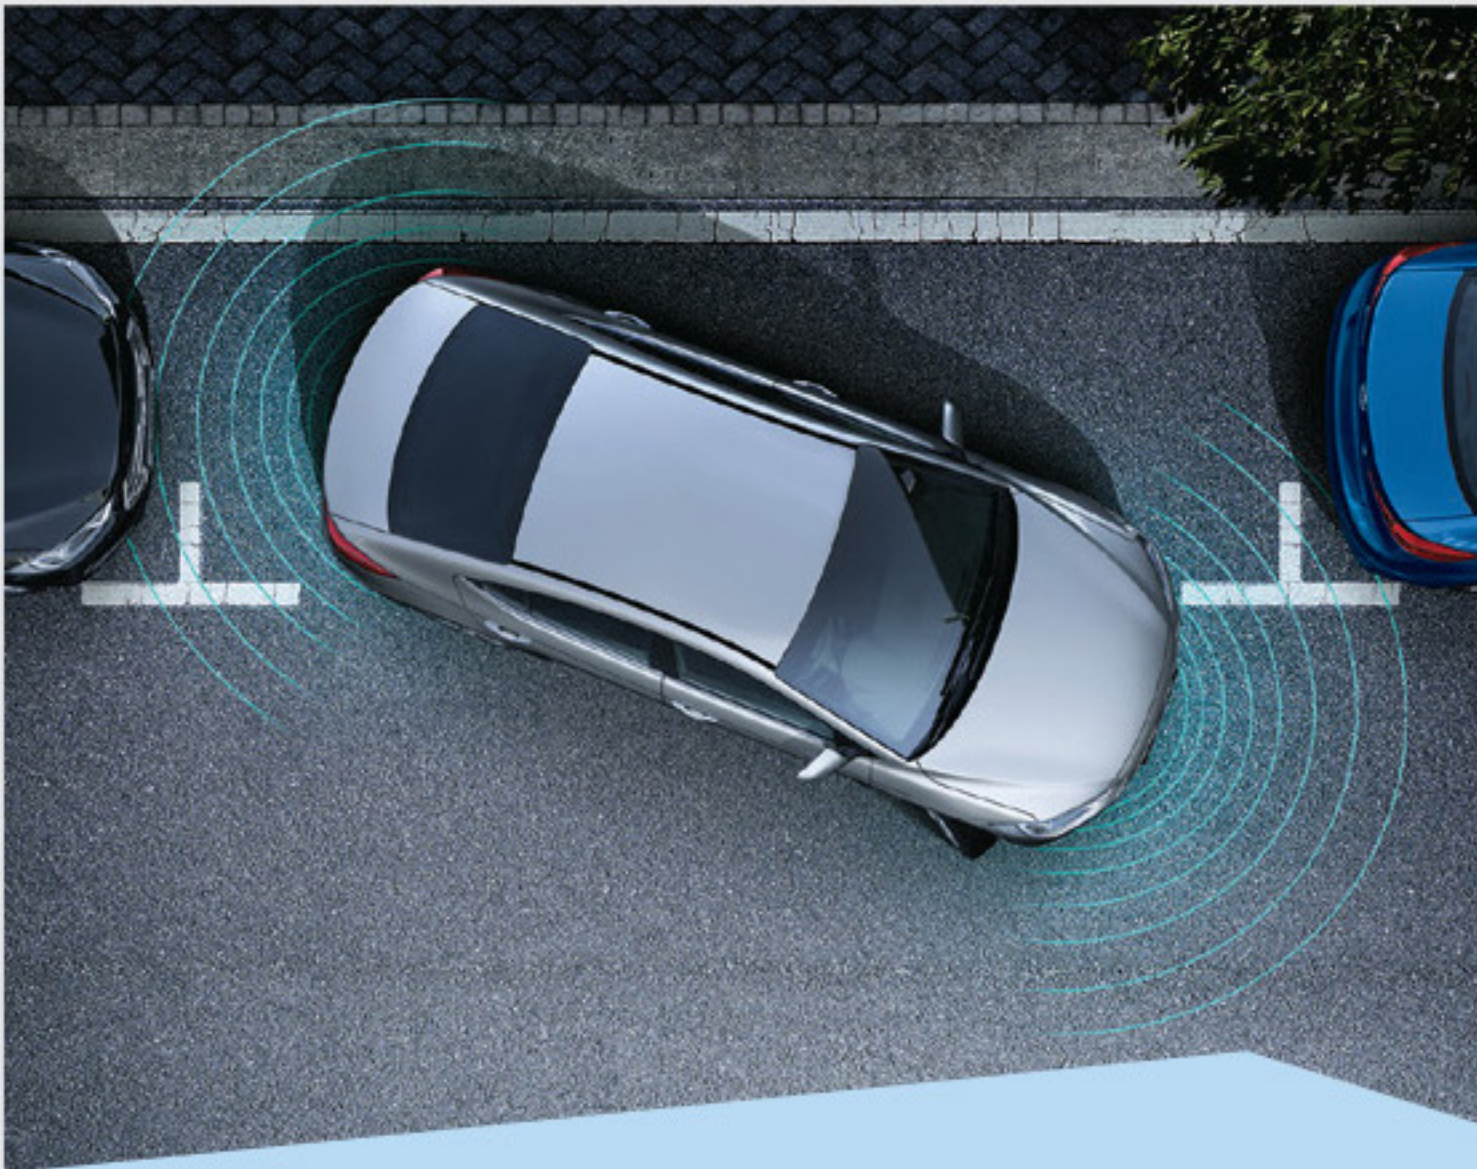

### Nu 2.0 MPI Engine

The 2.0 MPI gasoline engine produces a maximum output of 152 ps at 6,200 rpm and a maximum torque of 192 Nm at 4,000 rpm. Torque and power have been increased thanks to a variable intake manifold.

### 6-Speed Automatic Transmission

Combining dynamic performance with optimum fuel efficiency, the 6-Speed Automatic Transmission features a new shift pattern that delivers almost imperceptible gear shifts along with smooth, progressive acceleration.

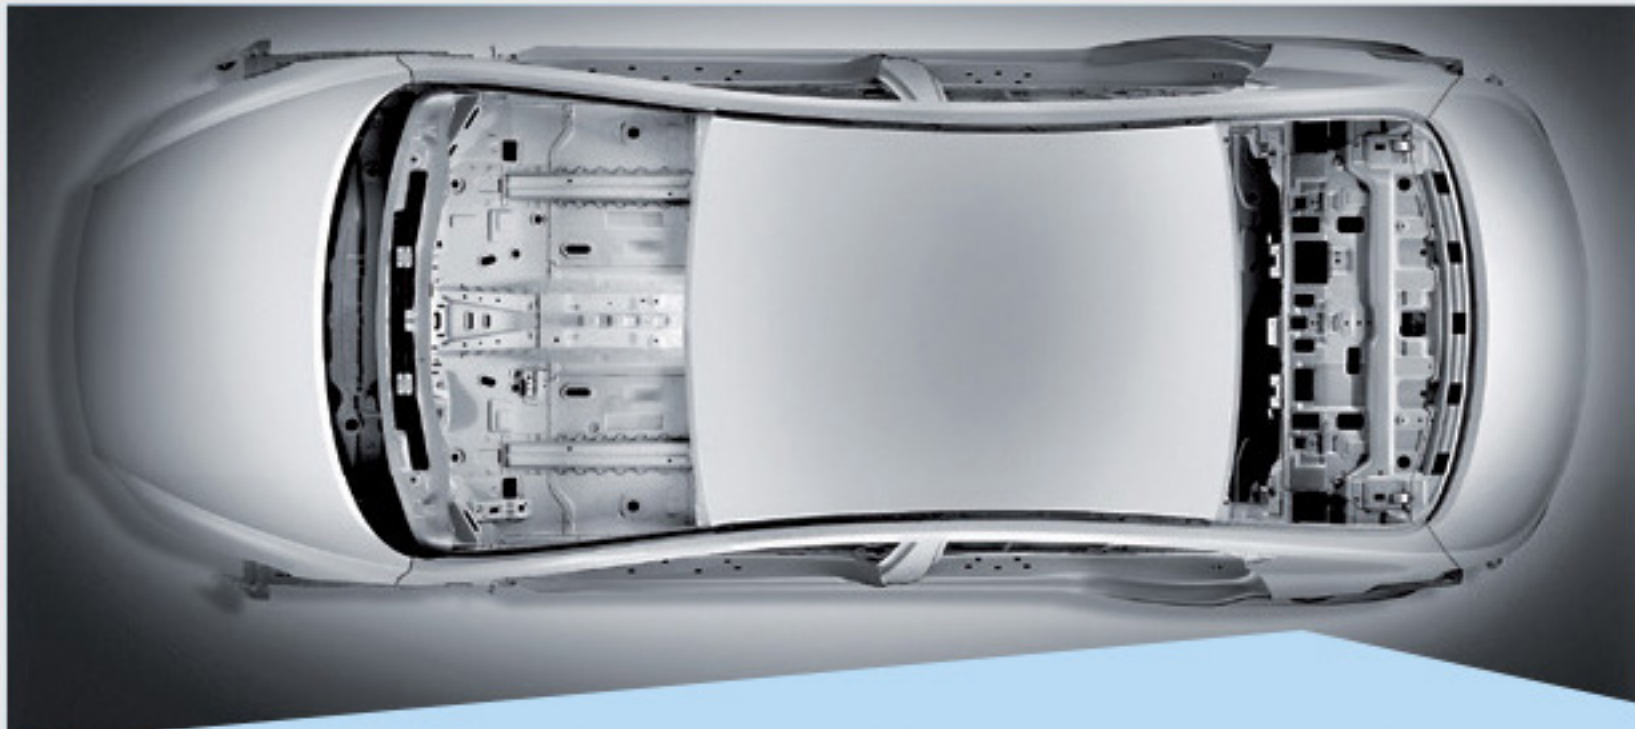

### Front & Rear Parking Assist System (PAS)

Sounds an audible alert if you get too close to any obstacles and helps you park safely.

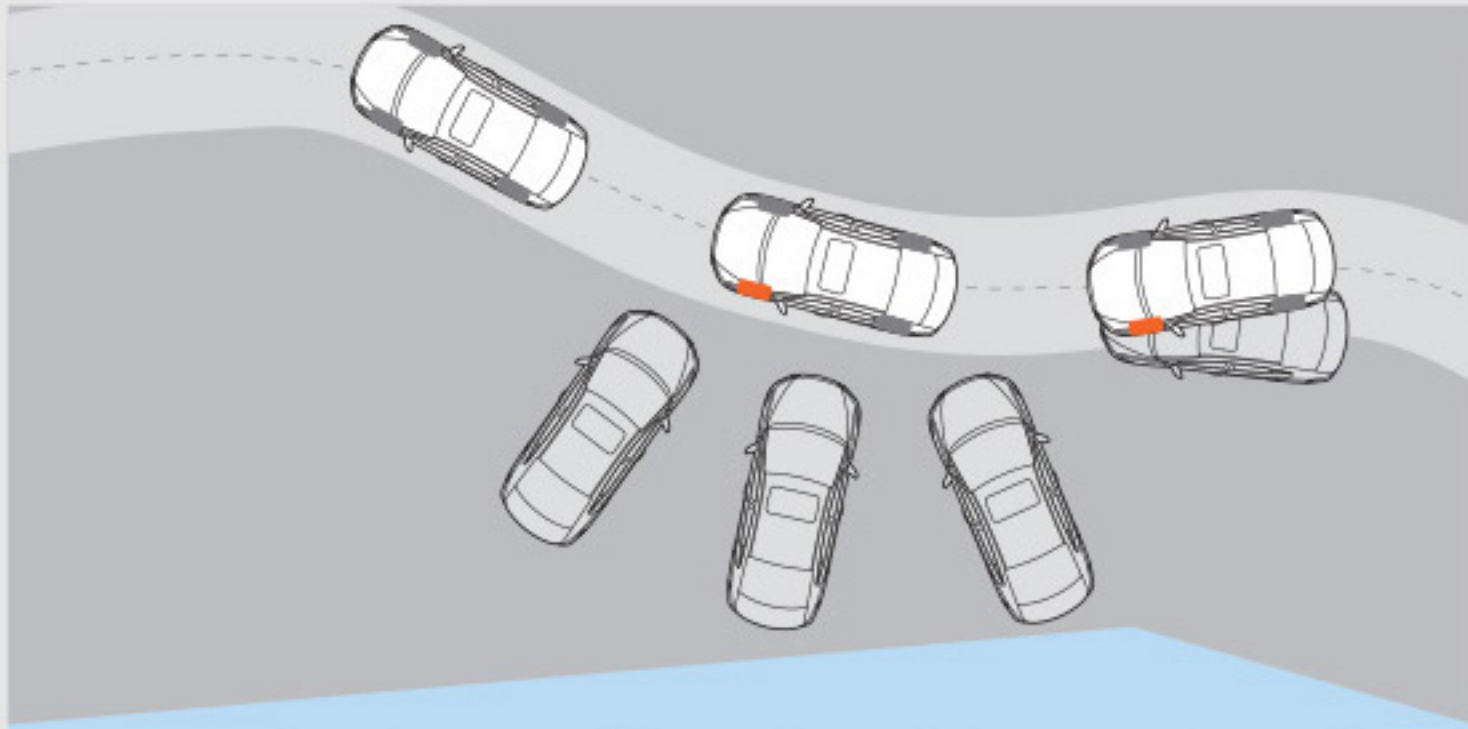

### 6-Airbag System

The Elantra is equipped with a 6-Airbag System consisting of the driver airbag, passenger airbag, two front-side airbags, and two curtain airbags.

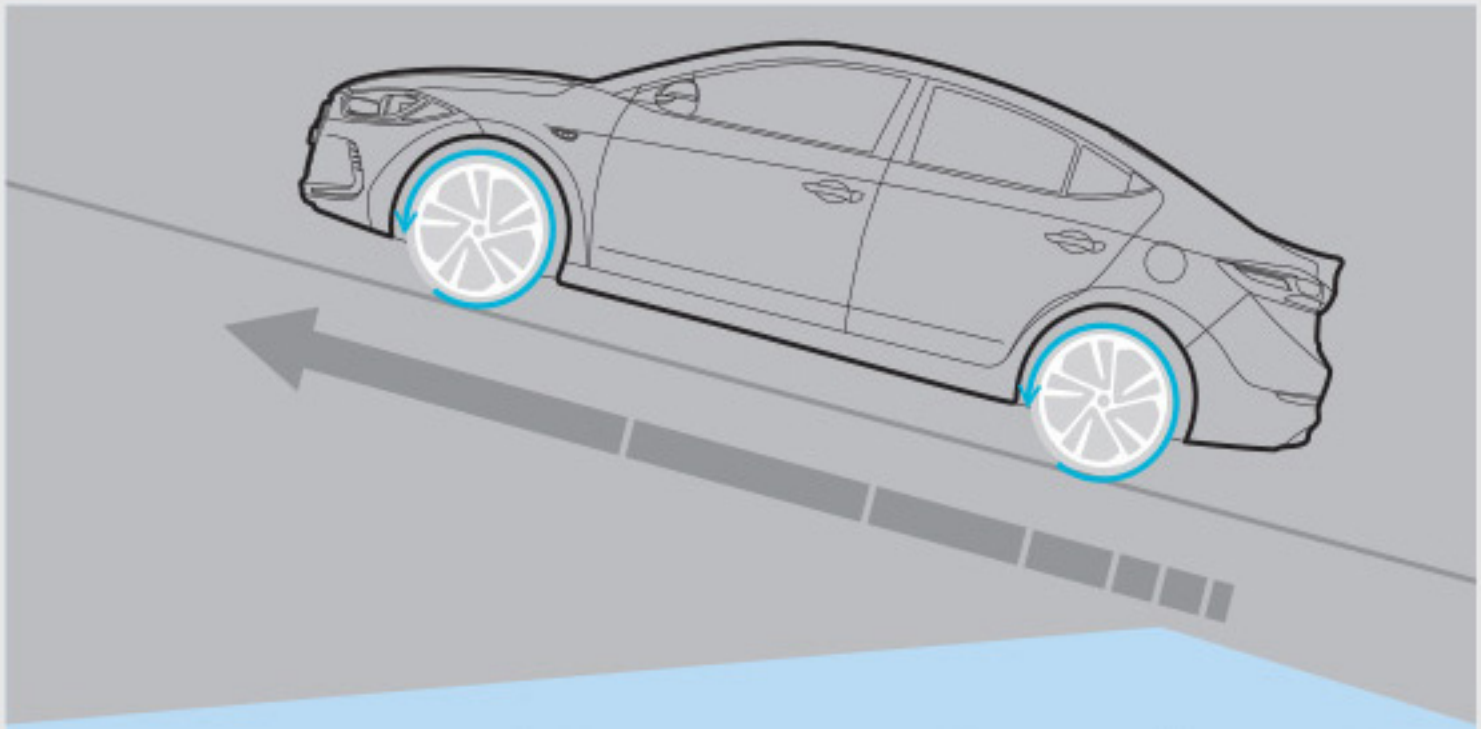

### Advanced High-Strength Steel

For sophistication and safety, the Hyundai Elantra is not complete without the Advanced High-Strength Steel frame built as a foundation for its stunningly sturdy repertoire.

### Electronic Stability Control (ESC)

Electronic Stability Control detects and reduces loss of traction during sudden braking and turning movements. It helps maintain stability and control by using automatic braking for individual wheels and reducing engine power.

### Hill-Start Assist Control (HAC)

When pulling away uphill or downhill, Hill-Start Assist Control temporarily maintains brake force on the wheels to prevent you from rolling backwards or forwards and gives you time to accelerate away safely.

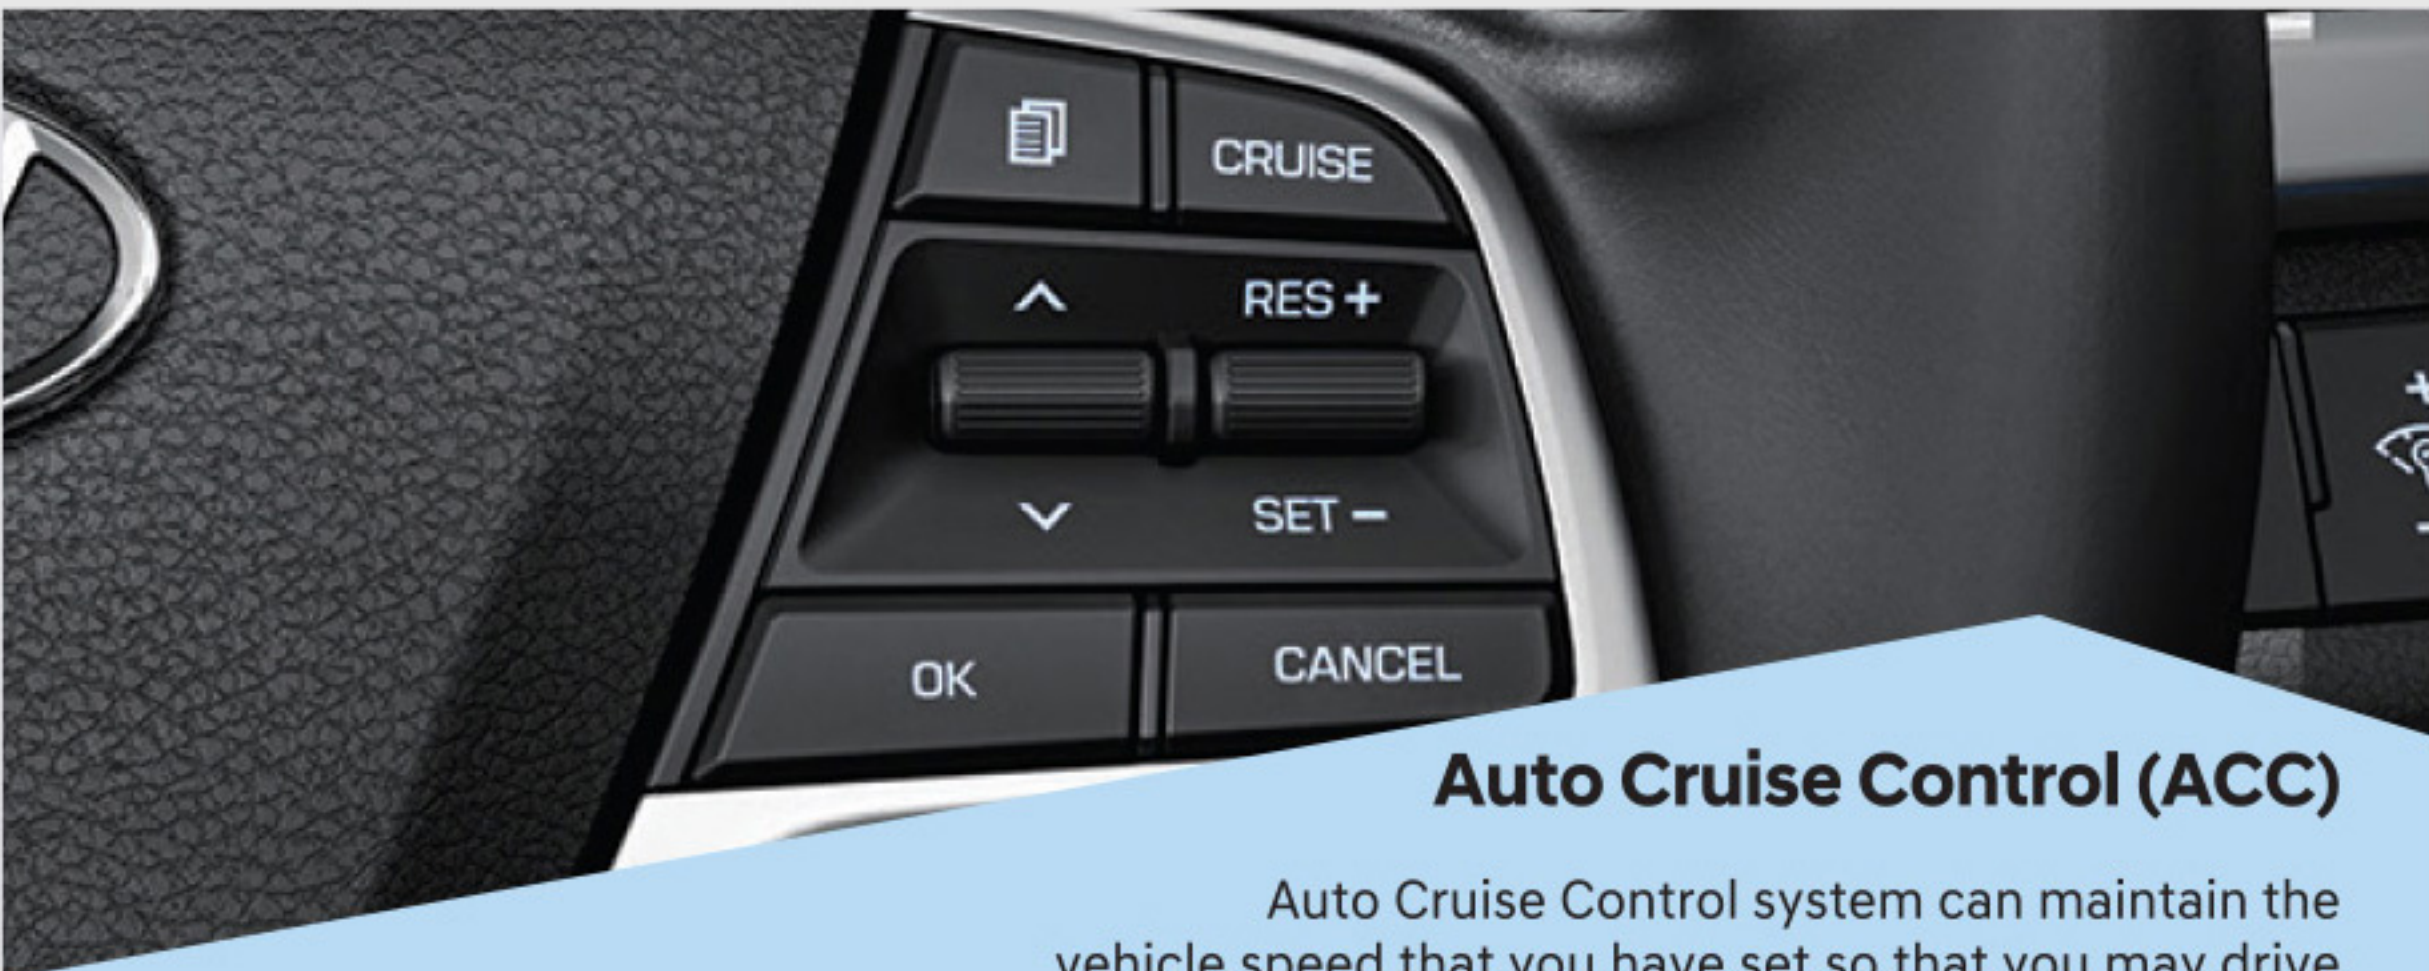

# Detailed in Choices

It's great to have choices. It means you tailor things to your own preferences. The Elantra offers a wide range of optional features that suit up the interior with defining functionality and power.

### 7" TFT Touchscreen LCD with Android Auto and Apple Car Play

Making your drive a little easier, your Hyundai Elantra comes with a 7" TFT LCD Touchscreen that supports Android Auto and Apple Car Play, enabling smart features with your smartphone as you cruise along.

### Auto Cruise Control (ACC)

Auto Cruise Control system can maintain the vehicle speed that you have set so that you may drive without pressing accelerator pedal.

### Engine Start/Stop Button

With the Smart Key in your pocket, handbag or briefcase, all it takes to start the engine is a press of the Engine Start/Stop Button.

### Smart Trunk

The hands-free Smart Trunk is a feature that makes loading and unloading a breeze. The Smart Trunk opens automatically when it senses the Proximity Key within three feet of the vehicle's behind for more than three seconds.

### Rear View Camera

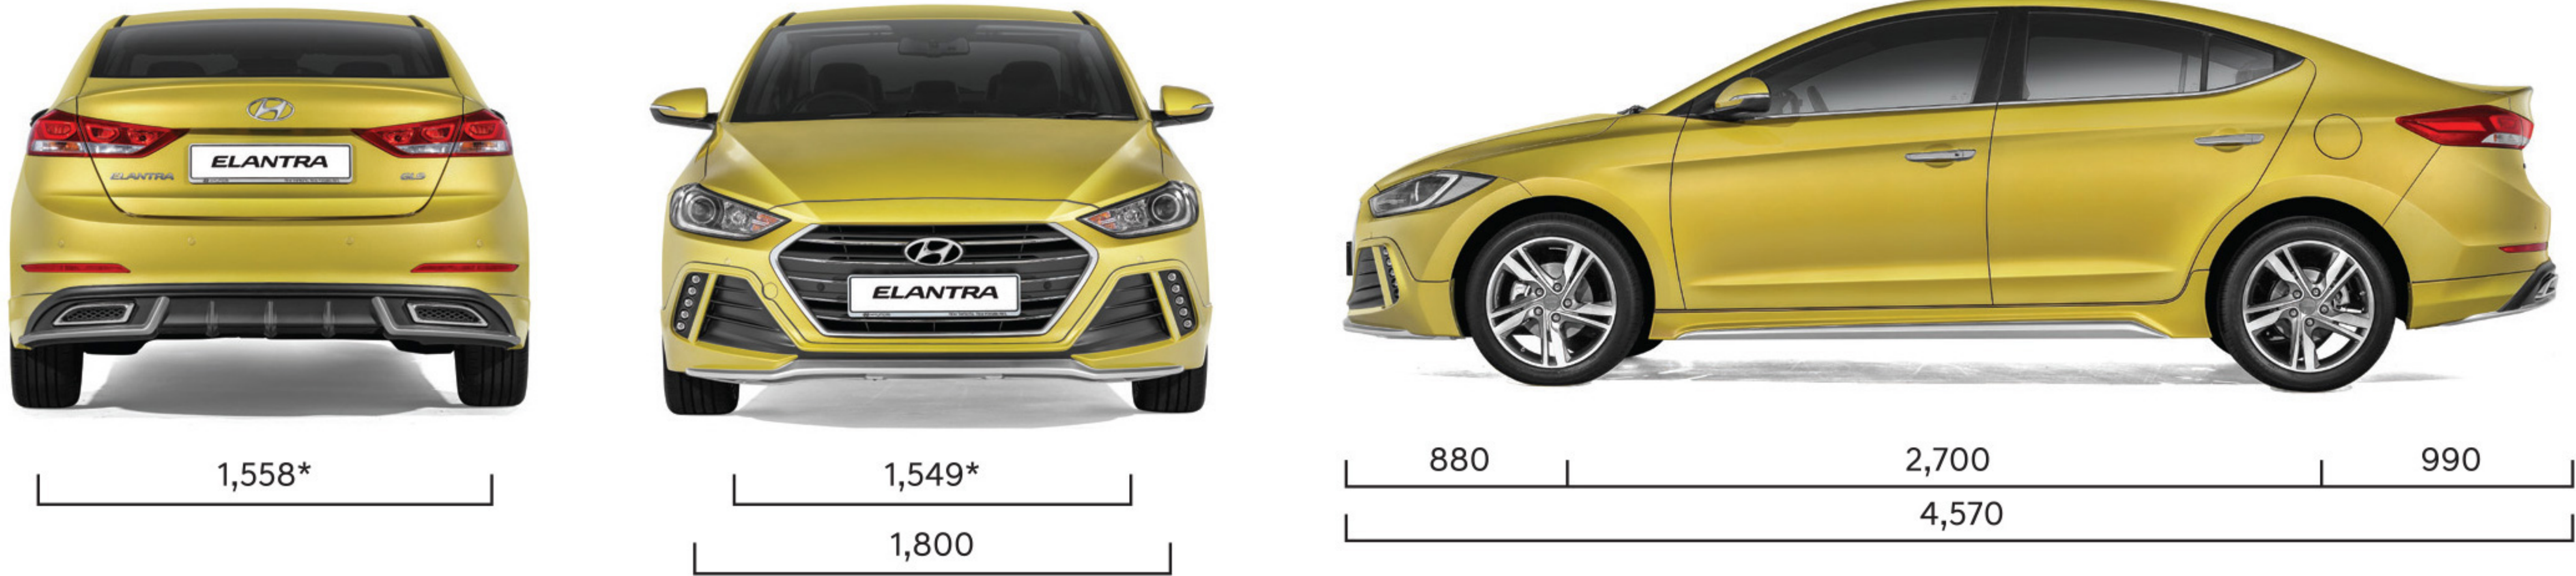

The Rear View Camera is another invaluable parking tool. The rear view is displayed on the 7" color TFT LCD, with graphic lines helping you to position the car straightly.
