

Azera

Surpass the ordinary

The all new Azera

Are you ready to explore new roads? Then travel in high style with the all-new Azera. Strong and confident, Azera is for those who would rather lead than follow. Taking luxury in a new direction, Azera has the most rigid body in its class. With this exceptionally strong foundation, Azera delivers handling so precise that it transforms driving into a pure delight.

Premium redefined

Projecting a timeless modern elegance, Azera is a visual magnet that draws admiring glances at every turn. Its athletic stance strikes a perfect balance of function and form. From the LED headlamps to the 19-inch alloy wheels, every design detail expresses absolute authority and confidence.

Full LED headlamps

Folding mirror with side repeater
Full-span rear LED lamps

From the premium-grade Nappa leather and wood grain trim to the satin chrome touch points that are a pure delight to the fingers, every inch of Azera's interior reveals meticulous craftsmanship.

Beyond expectations

Azera’s luxurious features serve as the perfect antidote to stress. Driving the Azera is designed to be a relaxing experience for both the body and the mind, so you can always arrive at your destination fully refreshed.

Panorama sunroof

Prime Nappa leather seats
Leather-wrapped door trim

8” audio and navigation display

Head-up display
Wireless charging

Advanced high-strength steel (AHSS)

Azera has the most rigid body in its class because key structures are made of advanced high-strength steel. Higher rigidity equals better safety and ultra-precise handling.

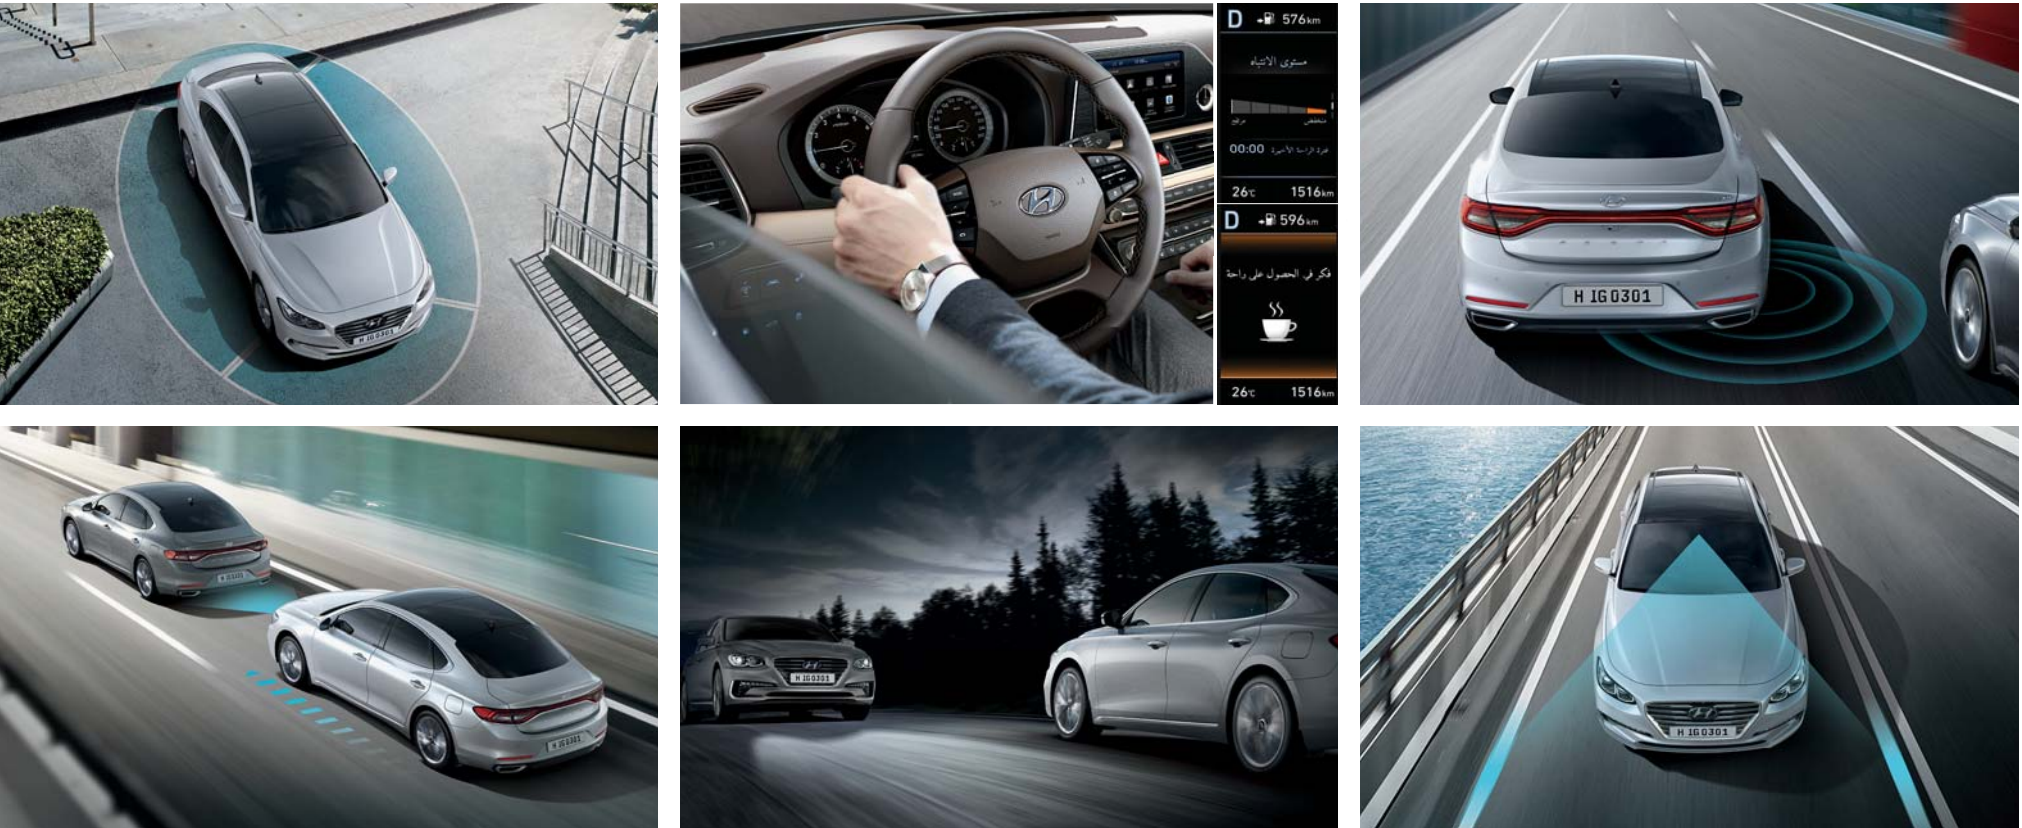

9 Airbag system

9 airbags are in place to provide better protection than ever. Because airbag effectiveness is compromised when seat belts are not fastened, Hyundai recommends the use of seat belts at all times.

Hyundai SmartSense

Hyundai SmartSense takes a suite of intelligent safety technologies and makes them work closely together to deliver unparalleled levels of protection.

Around View Monitor (AVM)
Using a multi-camera system, AVM provides a near-360-degree view around the vehicle so you can feel safer and more confident.

Advanced Smart Cruise Control (ASCC)
ASCC maintains the preset speed and a safe distance from the vehicle ahead. In stop and go traffic, ASCC works in tandem with AEB.

Driver Attention Alert (DAA)
DAA is capable of recognizing the signs of driver fatigue and will issue an alert advising the driver to take a break.

Smart High Beam Assist (SHBA)
SHBA automatically turns high beams on and off. If there is no vehicle directly ahead nor any oncoming traffic, SHBA ensures you have the best illumination.

Blind Spot Detection (BSD)
When attempting to change lanes, BSD provides visual and audible warnings whenever there is an object in the blind spot.

Lane Departure Warning System (LDWS)
LDWS can detect unintended lane departure and will alert the driver with visual and audible warnings.

Features

Special features for the Middle East

Remote start With the remote function, you can safely start the engine and turn on the air conditioning while the car remains locked. When you're ready to drive away, the cabin will be comfortably cooled down.	Mecca compass Wherever your travels may take you, this new and convenient feature will always point straight and true to Mecca.	All solar glass Special protective coatings help filter out infrared and ultraviolet rays to reduce the heat accumulation in the cabin.
Dual air conditioner Dual controls allow the driver and front passenger to set their own individual temperature preferences.	Front ventilated seats A gentle stream of cool air passes through the tiny perforations in the leather seats to help keep you comfortable.	Manual rear door curtain Discretely hidden inside the door panel, the curtain provides privacy as well as shade from the sun.

Optional features

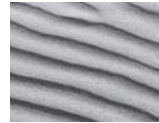

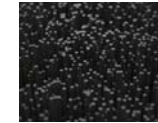

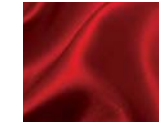

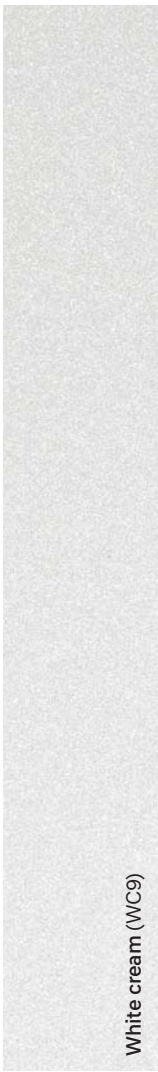

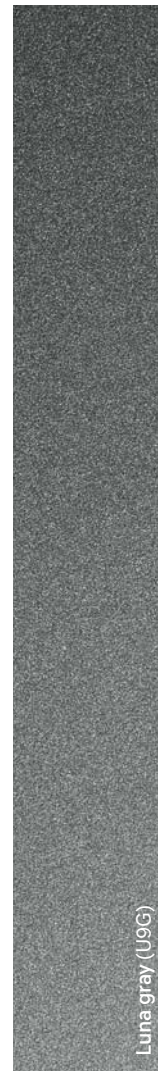

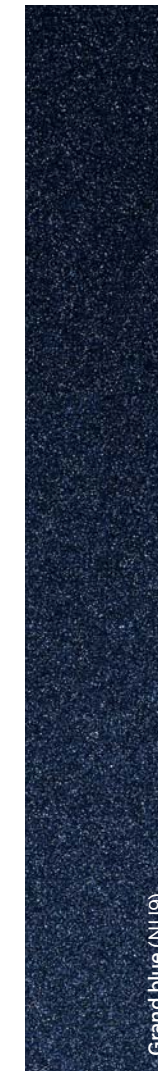

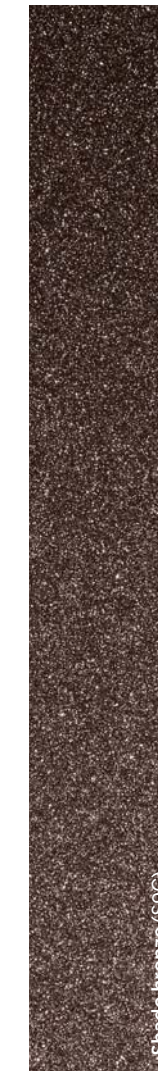

4.2" supervision cluster The Supervision cluster comes with a brightness controller and displays the status of key vehicle systems with razor sharp clarity.	Puddle lamp This feature will help you see where you are stepping on dark nights.	Auto-opening trunk In default mode, the feature is off but it's user-programmable so that it can open automatically within proximity of the smart key. Convenient after shopping.	Card-type smart key The card-type key is not only easy to carry but is also equipped with smart features that make life easier.
Electric parking brake The parking brake is easily activated by pulling a button and releases automatically when the accelerator pedal is depressed.	Center console CD player To free up valuable dashboard space, the CD player has been relocated to the inside of the center console.	Intergrated Memory Seats The easy-to-use memory seat system stores seat adjustment settings for two drivers.	Infinity audio system For uncompromising sound reproduction, Azera's audio system is supplied by Infinity, a world leader in acoustic engineering.
