Special Models and Options

The 1980 CJ Series: The latest development of the legendary Jeep® vehicles—born, tested and proved in the stress of World War II. Today's CJ's retain all the traditional toughness, durability and capability associated with Jeep for nearly 40 years, but are refined and adapted for the needs of the '80's.

Jeep CJ's offer the widest range of engines in the industry—and a 50% improvement in fuel economy over last year.* There's a 2.5 litre petrol, a 2.4 litre diesel, a 4.2 litre Six and a 5.0 litre V-8. When combined with the Jeep 4-wheel drive system, you have the world's finest 4-WD drivetrain, capable of handling almost any on/off-road situation.

There's comfort too. Power steering and brakes, automatic transmission, air conditioning, AM radio, carpeting, hard tops, soft tops, soft tops with steel doors plus more are available. New this year is the top-of-the-line Laredo model (shown on cover) adding to the Renegade and Golden Eagle styling options. Jeep CJ has it all... from skid plates and winches to carpets and chrome wheels.

For nearly 40 years, Jeep has been an acknowledged leader in 4-wheel drive vehicles. The 1980 CJ's are engineered and built in the rugged tradition of their illustrious predecessors, but with comfort and style demanded by their owners today. Jeep CJ's—at home in every type of terrain, environment and social setting throughout the world.

RENEGADE
