

THE NEW JEEP, CHEROKEE

AUTHENTIC JEEP® BRAND DNA.

The All-New Jeep® Cherokee raises the bar once again with superior on-road handling, efficient fuel economy, best in-class 4x4 capability and class-exclusive technology. With its legendary Jeep® brand DNA, the New Cherokee is perfectly engineered to excel in any situation and on any terrain, allowing you to experience the best of both worlds.

BOLD IS BEAUTIFUL.

With a new fresh and bold exterior, the New Cherokee successfully combines a futuristic design whilst remaining true to its legendary heritage. Its powerful stance, aggressive wheel-to-body proportion and commanding road presence looks impressive even to the most demanding eye.

Fluid, sleek exterior lines highlight the efficient upper body of the New Cherokee. The rugged, protective lower body conveys the legendary capability that is a characteristic of every Jeep®. The New Jeep® Cherokee is efficient and capable on all terrains and in all weather conditions.

Model shown Cherokee Limited

MADE TO HIT THE MARK.

Every sculpted inch of the New Cherokee has been thoughtfully designed to be efficient and capable. The attention to detail is clear, starting from the traditional seven-slot grille that remains true to its Jeep_® brand roots, with daring, sleek daytime running lamps; communicating the next generation of safety and design distinction. In addition the available new CommandView[®] dual-pane sunroof, offers a panoramic view day or night, incorporating a power sliding glass front panel and a fixed glass panel with power sunshade in the rear.

Model shown Cherokee Limited

Model shown Cherokee Limited with optional Vesuvio interior

THE CHEROKEE SOUL HAS NEVER BEEN SO FIGHTING FIT.

The New Cherokee introduces a unique, fashionable style into the Jeep® range. Discover a sophisticated blend of hand-sculpted fluid shapes, high-quality soft-touch materials, innovative colour and interior choice, precision craftsmanship and state-of-the-art technology. A world of unique perfection is just waiting to be discovered.

Model shown Cherokee Limited with optional Vesuvio interior

DISCOVER A WORLD-CLASS INTERIOR.

Luxury is at the forefront of the Cherokee interior. Its driver-oriented cockpit is loaded with easy-to-use, advanced technology. Nappa Black leather trimmed, power-adjustable, heated and ventilated seats are standard on the Limited model.

The easily adjustable 60/40 split second-row seats increase passenger comfort and allow greater flexibility of storage space.

Model shown Cherokee Limited
with Morocco Black interior

CLASS-DEFINING 4X4 CAPABILITY.

The New Cherokee takes its legendary 4x4 capability to the next level. Thanks to its Jeep[®] brand DNA it has been purposefully designed to adapt to any surroundings with in-born confidence. Choose from two new 4WD systems: the single-speed, fully automatic Jeep[®] Active Drive I and the two-speed PTU Jeep[®] Active Drive II* offering torque management and low range.

*Late Availability

TACKLING MOTHER NATURE’S TOUGHEST CONDITIONS.

The new, available Selec-Terrain® System allows the driver to choose the on- and off-road setting for optimum performance to help successfully navigate specific road conditions. Up to four customised settings are offered: Auto, Snow, Sport and Sand/Mud. Selec-Terrain electronically coordinates and optimises systems on any terrain providing enhanced vehicle control.

GO ANYWHERE. DO ANYTHING™.

The Jeep® Cherokee is the first mid-size SUV to feature rear-axle disconnect, resulting in reduced energy loss when 4x4 capability isn't needed, thereby improving fuel efficiency. The rear-axle disconnect seamlessly switches between two- and four-wheel drive for full-time torque management and does not require input from the driver. Thanks to its refined and efficient 2.0L Turbo Diesel engine, it can take on rugged terrain and road traffic with equal assurance.

2.0L TURBO DIESEL

The new 2.0L Turbo Diesel engine with MultiJet II technology offers both, 140 hp mated to 6-speed manual transmission with FWD or 4WD Jeep, Active Drive I system and the 170 hp mated to the new 9 speed automatic transmission with 4WD. Both engines offer 350 Nm of torque at 1.500 rpm and a Stop/Start system which helps reduce fuel consumption and CO₂ emissions.

Mid-size SUV – classified by Jeep as overall length 4.5 metres to 4.8 metres.

HAVE A SMOOTH JOURNEY.

The New Cherokee is the first mid-size SUV# in the segment to feature a 9-speed automatic transmission. It is all about driving, comfort and efficiency. Electronic Range Select supports a manual shifting capability with the AutoStick function which includes over 40 individual shift maps for specific conditions to help maximise efficiency, performance and drivability. Performance is attuned to nearly any driving conditions, both on and off-road and gear shifts are barely noticeable on every terrain.

Mid-size SUV – classified by Jeep as overall length 4.5 metres to 4.8 metres.

DRIVING TOMORROW'S TECHNOLOGY TODAY.

Rule the road ahead from a very comfortable and informed vantage point. New Cherokee's advanced technology delivers information keeping everything on track; providing the freedom to head out with confidence.

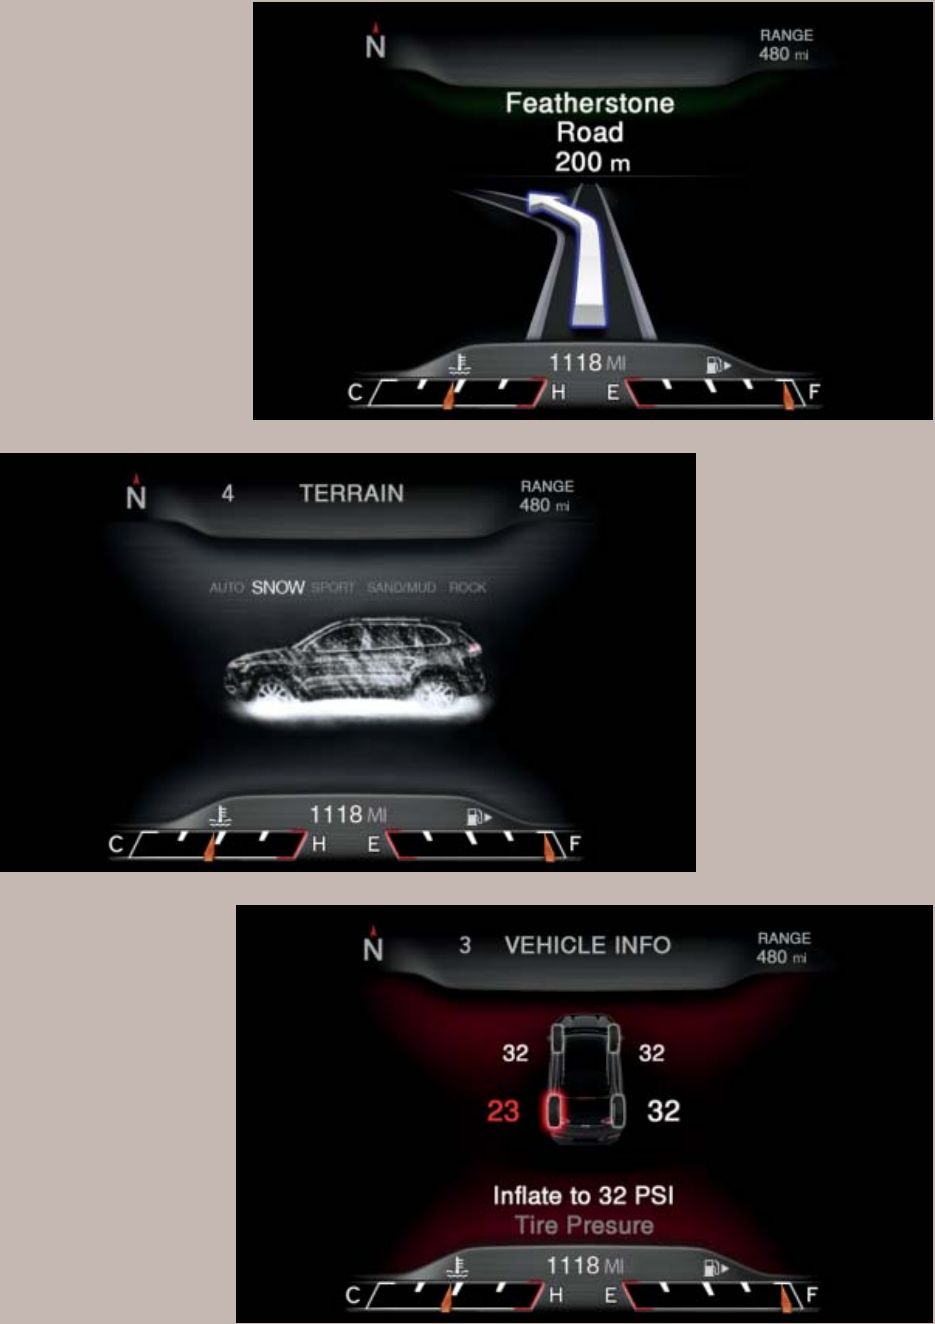

Keep connected, informed, entertained, and more productive with the Uconnect® system. Connect compatible media devices, play CDs, or display photos on the Uconnect® screen via the USB port, SD media card, or auxiliary port. Optional on Longitude, but standard on Longitude+ and Limited, the 8.4" touch screen is conveniently positioned front and centre, offering a range of standard and available entertainment features and services, including voice command navigation, hands-free phone calls, climate control, and more. Use the available voice recognition technology to control many features. Uconnect® Access uses natural voice recognition for hands-free text messaging.

TECHNOLOGY CAN BE SO ATTRACTIVE.

The 7" TFT reconfigurable instrument cluster (Limited only) allows the driver to enjoy a customised user experience and receive vehicle information and feedback in a preferred format while keeping their hands on the wheel and eyes on the road.

The optional Parallel/Perpendicular Park Assist System (Limited automatic only) is displayed in the centre of the gauge cluster and operated with buttons on the steering wheel and the AutoStick. The graphic takes the driver through the steps necessary to utilise the park assist system.

The driver can select from a multitude of information displayed in the centre of the gauge cluster, including turn-by-turn navigation, speed, real-time fuel economy, safety warnings, available Adaptive Cruise Control-Plus, audio information and Jeep-specific features including Selec-Terrain™.

PAMPERED BY TECHNOLOGY.

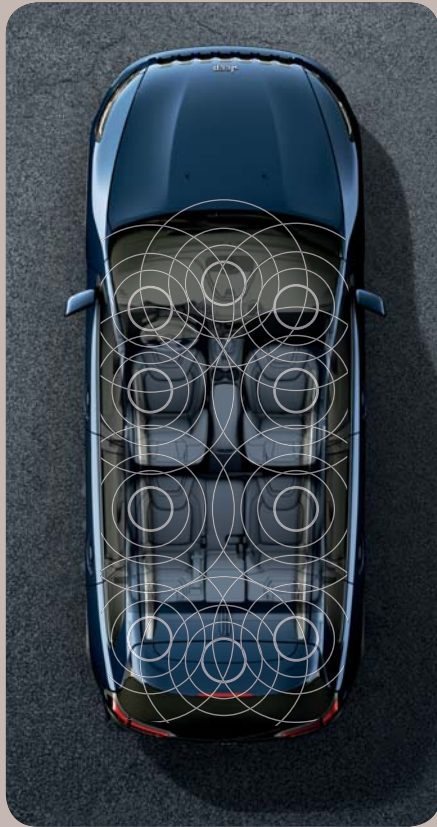

On board comfort exceeds all expectations; New Cherokee offers a range of intelligent and high-level technology systems to enhance the driving experience.

WIRELESS CHARGING PAD+

An available wireless charging pad is concealed in the upper tray of the centre storage, enabling wireless charging of any Qi wireless charging capable mobile phone. The adjacent integrated phone docking station and USB, SD, auxiliary and power port outlets all give Cherokee a leading technological edge.

ALPINE PREMIUM AUDIO SYSTEM**

New Cherokee's premium 9-speaker sound system with an eight-inch subwoofer, has been designed in tandem with Alpine®, the leading manufacturer of high-performance mobile electronics. The system's 11 channels pump sound by way of 506 watts of power for a dynamic sound-fest to inspire music-filled travel.

+ Optional on Longitude/standard on Limited – included in Electronic Comfort & Convenience Pack
** Only available with Satellite Navigation – standard on Longitude+ and Limited

Model shown Cherokee Limited

PEACE-OF-MIND SAFETY & SECURITY.

Over 70 standard and available safety and security features add to Cherokee's strength and capability. With many controls located on the steering wheel, safety is literally fingertip controlled.

Forged from 65 per cent high strength steel, a full range of available features have been built on this sturdy foundation to deliver total peace of mind. Class-leading options include: Adaptive Cruise Control Plus, Parallel and Perpendicular Park Assist and Lane Departure Warning Plus.

~ Subject to model chosen.

Model shown Cherokee Limited

AN ADVANCED SYSTEM OF SAFETY.

^PARALLEL AND PERPENDICULAR PARK ASSIST.

This active guidance system controls steering automatically using ultrasonic sensors that help when easing into parking spots. Includes ParkSense® front and rear park assist sensors.

ELECTRONIC STABILITY CONTROL (ESC).

A vehicle-wide network of safety sensors helps maintain vehicle control, providing instant aid should they detect the vehicle is veering off the intended path. ESC coordinates Electronic Roll Mitigation (ERM), antilock brake system (ABS) and Brake Assist, All-Speed Traction Control and available Trailer Sway Control (TSC), sending them into action when needed.

ELECTRONIC ROLL MITIGATION (ERM).

As an extension of ESC, ERM employs ESC sensors to anticipate potential risk situations. If things get rough, ERM takes immediate action to help maintain stability and remain under control.

^ Optional on Limited only

(2) ^LANESENSE™ LANE DEPARTURE WARNING (LDW).

The vehicle lane position is monitored by cameras and, should the driver drift outside of lane boundaries, or if the driver's hands are off the wheel, the system provides a visual and audible warning.

^BLIND SPOT MONITORING AND REAR CROSS-PATH DETECTION.

These sentry systems constantly monitor the space between all vehicles in the vicinity. When a side or rear blind spot is encroached, the driver is notified via illuminated icons on side view mirrors or an audible chime.

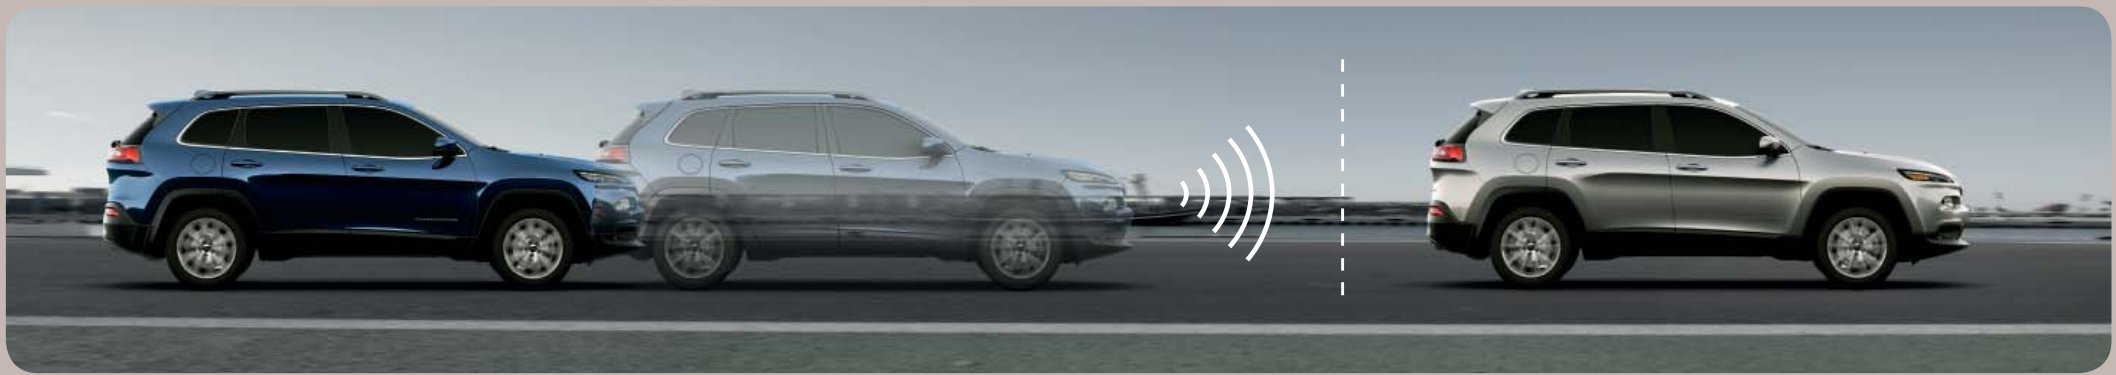

7 STANDARD AIR BAGS.

Full-length side-curtain driver and front-passenger inflatable driver knee-bolster air bag, seat-mounted for front occupant's side thorax and advanced multistage front air bags all work in tandem to help provide protection.

(1) ^ADAPTIVE CRUISE CONTROL WITH STOP & GO.

Take the guesswork out of keeping a safe distance from the car ahead while travelling on the motorway. The system automatically adjusts cruising speed to maintain a pre-set distance from the vehicle in front and can bring Cherokee to a complete stop without driver intervention to help avoid collision.

RAIN BRAKE SUPPORT.

This system automatically helps maintain optimal braking by keeping brake rotors dry in rainy conditions, with assistance from the Electronic Stability Control (ESC).

^FORWARD COLLISION WARNING WITH CRASH MITIGATION.

Radar sensors detect when Cherokee may be approaching another vehicle too rapidly and send an audible and visual alert to the driver along with providing 1.5 seconds of brake assistance if the driver does not react in time.

TRAILER SWAY CONTROL (TSC).

As part of ESC, TSC helps keep the vehicle and the load being towed, safely on course.

(1) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice, and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. ACC is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. FCW system is solely an alert system for the front of the vehicle that does not take any actions to change vehicle dynamics to avoid a collision, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions.

(2) Always check visually for vehicles prior to changing lanes.

CUSTOMIZE YOUR FREEDOM.

Choose from the range of Authentic Jeep® Accessories from Mopar® especially made for New Cherokee. All designed to make New Cherokee match any lifestyle.

STAY TRUE TO YOURSELF.

AUTHENTIC JEEP® ACCESSORIES

Whether climbing rugged hills or cruising motorways, raise the profile and capability with Authentic Jeep® Accessories from Mopar®. These quality-engineered parts and accessories keep the New Cherokee as authentic as the day it was purchased. For a true, seamless fit and finish, select exact colour matches and high-quality material. New and exciting Mopar® accessories for New Cherokee are always in development, including load management systems, towing accessories, convenience and protection products, and much more.

This brochure is a publication of Fiat Chrysler Automobiles. All product illustrations and specifications are based upon current information at the time of publication approval. Fiat Chrysler Automobiles reserve the right to make changes from time to time, without notice or obligation, in prices, specifications, colours, materials, and to change or discontinue models, which are considered necessary to the purpose of product improvement or for reasons of design and or marketing.

Fuel consumption and CO₂ figures are obtained for comparative purposes and are strictly generated in accordance with Testing Directive 93/116/EC; they are designed to maintain strict comparability and may not be representative of real-life driving conditions. Factors such as driving style, weather and road conditions may also have a significant effect on fuel consumption. For further information, please visit www.vca.gov.uk
