

# Jeep Patriot

**Jeep® Patriot.** It is an impressive vehicle with capabilities that extend well beyond its frame. This is the Jeep® Patriot, and like any Jeep vehicle, it takes its rugged prowess as seriously as its ability to comfortably accommodate in the city. Equipped with brilliant standard features, Patriot delivers a rare blend of everything you would expect from a legendary Jeep vehicle with efficiencies that will surprise you. Welcome to Jeep Patriot.

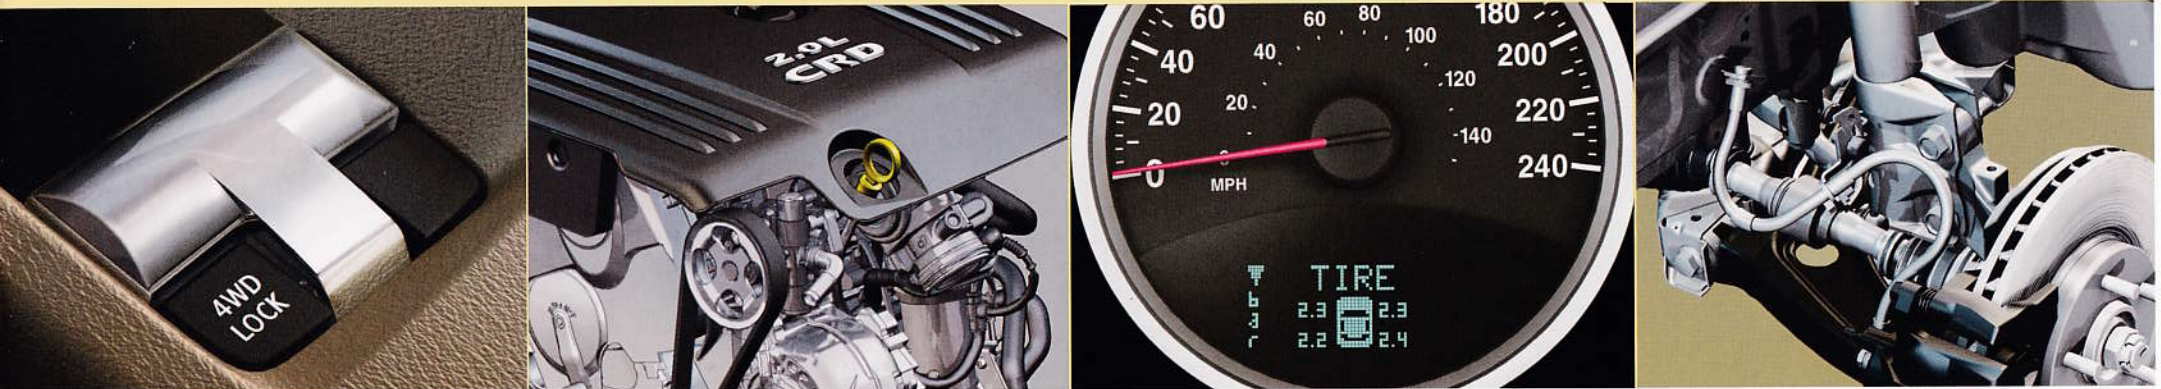

# From paved roads to beaten paths.

When it comes to capabilities, Jeep® Patriot has been designed to deliver with a standard Electronic Stability Program (ESP),<sup>(1)</sup> traction control and Electronic Roll Mitigation (ERM). These computer-controlled systems work in seamless harmony to allow Patriot's driveline to react to ever-changing conditions and help ensure that control is maintained on even the most challenging of surfaces. Go the distance in more severe conditions such as deeper snow and sand with Freedom-Drive I Active Full-Time 4WD with LOCK mode or the optional Continuously Variable Automatic Transaxle (CVT2) with AutoStick that provides six distinct "speeds." AutoStick allows the driver to maximize engine braking, control upshifts and downshifts, and add to overall performance. Those who dream of taking the gang on a two-track quest to bask in the sun at that amazing secluded beach will get there with Patriot. The available Continuously Variable Automatic Transaxle (CVT2) with AutoStick adds a surprising level of refinement to Patriot's capabilities. Independent front and rear suspension help provide precise handling whether you're on the road or on the trail. An available Tire

Pressure Monitoring Display transmits data from each tire so you're always aware of where you stand when you're rolling right along. Serious off-road Jeep vehicles are designed to perform in a variety of conditions identified by five performance categories: ARTICULATION — The ability to keep tires in contact with the ground, providing traction to climb over obstacles. TRACTION — The ability to transfer power to the road along with the ability of the suspension to keep the wheels in contact with the terrain. MANEUVERABILITY — The ability to navigate around obstacles that are tightly situated. GROUND CLEARANCE — The ability to drive over obstacles in combination with approach/departure/breakover angles. WATER FORDING — The ability to cross a specific depth of water at a specific speed.<sup>(2)</sup> <sup>(1)</sup>No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. <sup>(2)</sup>Traversing water can cause damage that may not be covered by the new vehicle warranty. Always off-road responsibly in approved areas.

# It's green. Packed with mean.

Jeep® Patriot never backs down from a challenge. To prove to the world that its available 2.0 CRD Turbo Diesel engine offers record-making economy, Patriot took on a team of professional drivers and a 51.1 fuel tank on a record-making tour. In 24 hours, Patriot logged a total of 1124 km, traveling through six countries — from London, England, to just inside Poland's border — achieving a class-leading record of 4.18L/100 km.<sup>(1)</sup> Add to that the legendary strength and capability that Jeep vehicles are known for, and you've got a green machine that's packed with mean efficiency. It was a feat which owes some of the credit to Patriot's 6-speed manual transaxle. This 6-speed system allows the driver to pick the optimal gear for the demands of any particular instant, which enhances performance, economy, and quietness by providing gear ranges specifically tailored to the CRD engine. Patriot's standard Electronic Stability Program (ESP)<sup>®</sup> includes traction control and provides a level of confidence that one doesn't often find in a vehicle with a footprint as small as Patriot. Standard Freedom-Drive I active full-time four-wheel-drive (4WD) with LOCK mode is empowered with the tools needed to tackle the harshest conditions. Traveling through challenging terrain, encountering an abundance of snow and sand, strikes no fear for Patriot's advanced four-wheel-drive system. When the system's 4WD LOCK handle is engaged, torque is sent equally to the front and rear axles for improved low-speed traction and control. An available Tire Pressure Monitoring Display sends data from transmitters in each valve stem to a monitoring display. When heading out straight into the unknown, it's good to know you're going

there in a Jeep vehicle that's been forging that path since the beginning of its kind. Outfitted with the standard and capable Freedom-Drive I 4WD system, there is little doubt that Patriot is born from a long line of Jeep vehicles. The fact that Patriot's fully independent suspension and finely tuned rack-and-pinion steering system absorb and adapt to the road's imperfections with such nonchalance may mask the system's true capabilities. The first encounter with mud or snow, rocks or uneven trails, will offer proof of this pedigree. Even within the family of Jeep vehicles, Patriot holds an all but unmatched honor, offering fuel efficiency that one might not expect from a vehicle which provides this level of capability. The 2.4 16V dual VVT World Engine employs a multitude of technologies to ensure that Patriot is powered with optimal strength and efficiency. The computer-controlled dual Variable Valve Timing (VVT) helps ensure that this engine is delivering the proper amount of power for the demands of any specific moment. When it comes to balancing horsepower with fuel consumption, Patriot takes this capability as seriously as the traditional traits one expects from a legendary Jeep vehicle. <sup>(2)</sup>Your results may vary. <sup>(3)</sup>No system, no matter how sophisticated, can

repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt.

# A strong defense.

Nothing provides confidence like knowing you're outfitted with a comprehensive set of safety and security features. Jeep® Patriot's air bag<sup>(1)</sup> system includes side-curtain and advanced multistage driver- and front-passenger air bags. A standard Electronic Stability Program (ESP)<sup>(2)</sup> integrates a host of systems that include a four-wheel antilock brake system (ABS), all-speed traction control, a Brake Assist system that automatically helps provide strong braking power in emergency situations, and Electronic Roll Mitigation (ERM) that can apply appropriate braking and reduce engine power when sharp steering actions and/or wheel lift is detected. The available Tire Pressure Monitoring Display provides notification of high or low pressure on individual tires via an instrument panel readout. Patriot's safety cage structure contains a three-phase front crumple zone that effectively absorbs energy in a controlled manner during a front impact and a high-strength crossbeam under the rear seat that helps transfer side-impact energy from one side to the other and is designed to take up to 60 percent of the load during a side-impact event. ISOFIX points help make the installation of child safety seats easier and offer a rigid link between the seat and the vehicle for extra solidity. In the event of an impact that causes air bag deployment, Patriot immediately institutes safety measures.

The Enhanced Accident Response System (EARS) switches on the interior lamps and the exterior hazard lamps, and unlocks the doors after the vehicle has stopped. And to help prevent loss, a standard Sentry Key® Antitheft Engine Immobilizer makes it virtually impossible to drive without a valid key. A standard security alarm system helps keep Patriot loyal to only you.

<sup>(1)</sup>Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system, or the seat belt positioned correctly for the child's age and weight. Air bags shown deployed for illustrative purposes only. <sup>(2)</sup>No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning

lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt.

# Sky-high tech.

**uconnect** Introducing uconnect, the Jeep® brand's greatest, latest high-tech in-vehicle infotainment system yet. This collection of integrated digital systems lets you bundle communication, entertainment, and visual capabilities, and features voice-recognition in six languages: Dutch, English, French, German, Italian, and Spanish. It's factory installed and at your beck and call to let you enter the sky-high world of on-demand communication and entertainment the moment you take the wheel. The 6.5-inch touch screen with **uconnect tunes** provides entertainment, information, and communication, all through an MW/FM/CD/DVD<sup>(1)</sup> stereo system. A 30GB hard drive allows you to store photos, playlists, and songs as well as rip, stash, organize, and shuffle up to 6700 digital music files from CDs, integrated USB port, or

exterior input jack. The touch screen allows you to easily change radio stations and play digital audio files. Or, step up to **uconnect gps**, which includes all the same great features and adds the convenience of full mapping navigation with traffic updates from the Traffic Message Channel (TMC)<sup>(1)</sup>. Go high-tech with the included **uconnect phone**, an in-vehicle, voice-activated communication system that allows you to talk on your Bluetooth® compatible phone virtually hands-free. uconnect phone is also available as a stand-alone option or as part of the Technology Group or Premium Sound Group. The nine-speaker Boston Acoustics® premium sound system is always included with uconnect gps as part of the Technology Group or with uconnect tunes as part of the Premium Sound Group. <sup>(1)</sup>Check local market for availability.

PORT OF

SAN FRANCISCO

Jeep® Patriot Limited shown in Bright Silver Metallic.

# Substance meets style.

**Limited.** With its standard fog lamps, 17-inch cast-aluminum wheels, available sunroof and stylish touch of silver on its roof rack side rails and bodyside moldings, Jeep® Patriot Limited attracts attention without even trying. Deep-tinted glass on the rear door window, cargo area and liftgate piques the interest of curious onlookers, provides security and privacy while it offers welcome shade from the glare of the sun. The standard roof rack side rails donate handy cargo-carrying capability — just be sure to properly equip your Patriot and secure your load before you go on your way. Limited also delivers an impressive dose of Jeep brand power with its standard 2.4 DOHC 16V dual VVT engine with 170 hp. Enhanced tuning of its independent suspension helps Patriot more easily negotiate whatever the road ahead has to offer, for an improved ride quality. Standard active safety systems include an Electronic Stability Program (ESP)<sup>™</sup> with Electronic Roll Mitigation (ERM), Brake Assist and an antilock brake system (ABS), that are always working to help you and your passengers securely reach your destination. Firm-feeling

rack-and-pinion power steering is tuned to deliver comfort and precise operation at higher speeds; it will respond to a lighter touch when parking. Go for

the strong and standard 5-speed manual transmission or upgrade to the innovative Continuously Variable

**LIMITED**

Automatic Transaxle (CVT2) with AutoStick. Authentic 4WD capability with the standard Freedom-Drive I 4WD system. You'll have what it takes to stand up to a mud-laden two-track or face off with the snowiest storm seen in decades. **STANDARD:** Premium Silver Accents, 2.4 DOHC 16V Dual VVT 4-Cylinder with 5-Speed Manual Transmission, Freedom-Drive I 4WD System, Antilock Brake System, Electronic Stability Program (ESP), Brake Assist, All-Speed Traction Control, Fog Lamps, Heated Power Fold-Away Mirrors, Remote Keyless/Illuminated Entry, 17-Inch Cast-Aluminum Wheels, Electronic Roll Mitigation, Sentry Key® Antitheft Engine Immobilizer. **AVAILABLE:** 2.0 CRD Turbo Diesel Engine with 6-Speed Manual Transaxle, Continuously Variable Automatic Transaxle (CVT2) with AutoStick, Power Sunroof.

<sup>™</sup>No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt.

# Primed for comfort.

**Limited.** With Jeep® Patriot Limited, creature comforts are raised to a very appealing level. Limited's upgraded standard interior is significantly

redesigned for this model year and offers premium leather trim with standard heated front seats, and a leather-wrapped steering wheel with audio and speed controls. Standard illuminated cup holders<sup>(1)</sup>

serve to keep beverages in their place. Patriot Limited meets the needs of the tech-savvy to power up cell phones and laptops with a standard 12-volt DC auxiliary outlet. Patriot Limited comes standard with an AM/FM/6-disc DVD/MP3 player or you can option the Technology Group that bundles a suite of integrated digital entertainment, information, and communication systems and includes a 9-Speaker Premium Sound System with flip-down liftgate speakers and uconnect phone hands-free communications. The available uconnect tunes system is operated by 6.5-inch touch screen and

provides features for music, audio, and personalized picture display. A 30GB hard drive is useful for storing up to 6700 digital music files from CDs, the integrated USB port, the Universal Customer Interface (UCI), and exterior input jack. Or step up to uconnect gps which offers all the capabilities of uconnect tunes and adds the convenience of full-mapping navigation from the Traffic Message Channel (TMC).<sup>(2)</sup> Includes voice-activated uconnect phone with hands-free communication via Bluetooth® technology. **STANDARD:** Premium Leather Interior Trim, Heated Front Seats, AM/FM/6-Disc/DVD/MP3 Radio, Speed Control, Fold-Flat Front-Passenger Seat, Illuminated Cup Holders, Storage Armrest. **AVAILABLE:** Technology Group, uconnect tunes, uconnect gps, uconnect phone, 9-Speaker Premium Sound System with Flip-Down Liftgate Speakers, Universal Customer Interface (UCI), Tire Pressure Monitoring Display, Power Sun Roof, Premium Sound Group.

<sup>(1)</sup>Late availability. <sup>(2)</sup>Check local market for availability.

Jeep Patriot Limited leather-trimmed interior shown in Dark Slate Gray.

# Rearrange your world.

Put things in order, just to your liking. Jeep® Patriot's configurable interior lets you do just that.

So when you want to come to the rescue of friends and family who might need a helping hand moving groceries or gear, turntables or handmade furniture, you and your Patriot are ready to go. A standard cargo lamp/rechargeable flashlight illuminates the expanse of Patriot's interior, whether configured for maximum people-carrying duties or brilliantly adapted for cargo. Patriot Limited's leather-trimmed interior is practical, purposeful, and full of surprises. With room for

plenty of storage, Patriot also provides outstanding accommodations for up to five adults plus gear. The lucky ones sitting in front will benefit from heated seats for quick warmth on cold days and/or soothing comfort for sore muscles and backs. And then there's the standard fold-flat front-passenger seat that forms a table-like surface for added cargo space. The standard 60/40 fold-flat rear seat includes a super-comfy recline feature for up to 12 degrees of enhanced rear-seat relaxation. A pull-tab on the outboard seatback releases for folding. The carpeted cargo load floor can hold up to 113 kg of gear. Just be sure to properly secure all cargo.

# High standards.

**Sport.** The Jeep® Patriot Sport welcomes value-minded enthusiasts to the land of Jeep brand capability with a bevy of strong and standard stuff, including a four-wheel antilock brake system (ABS), an Electronic Stability Program (ESP)<sup>(1)</sup> with Electronic Roll Mitigation (ERM) and traction control. Patriot takes the challenges of the city as seriously as it does traversing the trail. Choose the strong Continuously Variable Automatic Transaxle (CVT2) with AutoStick feature and you can control the system's upshift and downshift to expertly cover snow-laden city streets as well as a range of off-road situations. Freedom-Drive I 4WD for genuine Jeep brand four-wheel-drive capability that you can LOCK to send half the torque to each axle for improved low-speed traction and control. LOCK mode allows for a measured, step-by-step agility that allows Patriot

to explore those areas  
that others may

fear to find. STANDARD: 2.4 DOHC 16V Dual VVT with 4WD (Four-Wheel-Drive) System and 5-Speed Manual Transaxle, Antilock Brake System (ABS), Electronic Stability Program (ESP), Brake Assist, All-Speed Traction Control, Electronic Roll Mitigation (ERM), Sentry Key® Antitheft Engine Immobilizer and Alarm System, Illuminated Cup Holders,<sup>(2)</sup> Speed Control, 17-Inch Cast-Aluminum Wheels. AVAILABLE: 2.0 CRD Turbo Diesel Engine with 6-Speed Manual, Continuously Variable Automatic Transaxle (CVT2) with AutoStick. <sup>(1)</sup>No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. <sup>(2)</sup>Late availability.

Jeep Patriot Sport shown in Deep Water Blue Pearl, equipped with optional Genuine Jeep Accessories by Mopar.

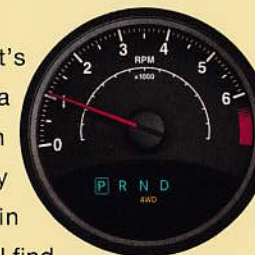

# Useful comfort.

**Sport.** The standard interior of Jeep® Patriot Sport offers seating for five in Stain Repel<sup>(1)</sup> seat fabric, the stain-resistant, odor-resistant, antistatic premium cloth seat fabric for the ultimate in upholstery protection. This cloth fabric employs a dual-action technology that allows for the easy cleaning of even the most unsightly spills. Patriot Sport also helps drivers and passengers avoid spills with illuminated cup holders.<sup>(2)</sup> The cup holders also give the interior a soft, cool glow and add nighttime ambience and an unmistakable target for drinks. The standard AM/FM/DVD/MP3<sup>(3)</sup> radio lets you hook up your MP3 player to a jack located in the faceplate, so there is no need to make further modifications in order for you to bring your library of music along for the ride. Patriot's standard armrest features storage that can house your MP3 player or mobile phone. The fold-flat front-passenger seat creates more cargo space, allowing for the longest of items to be

stowed easily within Patriot's interior. When cargo isn't a priority, the folded-down seatback serves as a very practical tabletop. Within this spacious cabin, you will find abundant information regarding your surroundings, thanks to easy-to-read vehicle gauges that provide data on Patriot's operation as well as other useful information. **STANDARD:** All-Speed Traction Control, Electronic Roll Mitigation (ERM), Sentry Key® Antitheft Engine Immobilizer and Alarm System, Heated Foldaway Power Mirrors, Illuminated Cup Holders. **AVAILABLE:** Fog Lamps, uconnect phone, Tire Pressure Monitoring Display, Leather-Wrapped Steering Wheel with Audio Control, Speed Control. Properly secure all cargo.

<sup>(1)</sup>Not compatible with aftermarket fabric-protecting coatings. <sup>(2)</sup>Late availability. <sup>(3)</sup>Check market for local availability.

Jeep Patriot Sport interior shown in Light Pebble Beige.

**Euro Camp Jeep®** Test the capabilities of your Jeep® 4x4 while you explore some of Europe's most scenic destinations. Every year, hundreds of Jeep brand enthusiasts and their friends and families come together to enjoy several days of adventure and camaraderie. They learn new 4WD skills, experience the thrill of nature, play games, visit unique attractions, develop friendships and memories that can last a lifetime, and much more. Euro Camp Jeep visitors have experiences that others only dream of.
