

A close-up photograph of a Jeep vehicle. The top portion shows a dark, possibly black, roof or hood area with the 'Jeep' logo in a raised, metallic, sans-serif font. Below this, a white horizontal bar separates the dark upper section from the lower section. The lower section features a white grille with several dark, rectangular slats. Each slat has a gold-colored border and a black center with a gold-colored geometric pattern of intersecting lines. The lighting is dramatic, coming from the side, casting shadows and highlighting the metallic and gold finishes.

THE JEEP RANGE

C H E R O K E E

Cherokee's advanced engineering, distinctive good looks and civilised road manners are married to the toughness, dependability and go-anywhere character that are the hallmarks of the Jeep brand. The result, a highly desirable blend of style, ruggedness and performance. There's a choice of two engines – a 3.7 V6 with 4-speed automatic transmission, and a 2.8 Common Rail Diesel (CRD) with a choice of 5-speed automatic transmission or 6-speed manual.

Available in either Limited or Sport trim, Cherokee is well equipped with electric windows front and rear, air conditioning, a CD sound system and no end of thoughtful features to make your life as much fun as possible. If you've ever wanted to go exploring, there aren't many better vehicles you could have as a partner. And Cherokee's flexibility, courage and prowess are just as vital in helping you tackle the challenges of everyday life.

GRAND CHEROKEE

Grand Cherokee is one of the few vehicles on the road to offer a unique blend between the rugged and refined, practical and purposeful, sophisticated yet approachable. There are three engine choices – 3.0 Common Rail Diesel (CRD), a 5.7 V8 HEMI and the awesomely powerful 6.1 SRT-8 all partnered with a 5-speed automatic transmission. Identified by the distinctive Jeep slotted grille, Grand Cherokee – whether a Predator, Limited, Overland or SRT-8 model – features an astonishingly high level of equipment.

Grand Cherokee's safety equipment includes four wheel disc brakes with ABS, multi-stage airbags for the driver and front passenger and side curtain airbags for all. Whether you're planning a weekend away, exploring off road trails or heading into the city. Grand Cherokee gives you the freedom to go where you want in the kind of relaxed style that Jeep owners take for granted.

COMMANDER

The all-new Jeep Commander is the first Jeep 4x4 with seven-passenger comfort. Classic in design and engineered to perform as only Jeeps can, it lets you pack more stuff thanks to its spacious interior, bring more people with third-row seating, and go more places with its one-of-a-kind Trail Rated Jeep capability. There are two engine choices – 3.0 Common Rail Diesel (CRD) and a 5.7 V8 HEMI. The transmission is 5-speed automatic.

The advanced Quadra-Drive II® 4WD system has get-you-over-any-mountain capability, plus Commander has more safety and security equipment than any previous Jeep. Available in both a Predator and Limited trim level, Commander offers supreme comfort, from newly designed leather-trim seats to cruise control and front and rear park assist. It's versatile too. With 15 seat arrangements, Commander gives you the freedom to go where you want, when you want, how you want.

WRANGLER

The Jeep story is epitomised by Wrangler and can be clearly traced back to the 4x4 that started it all, more than 65 years – the wartime Willys. Still a symbol of independence after more than half a century, today's Wrangler adds another dimension delivering sophisticated driving dynamics and the comfort expected from a modern 4x4.

Wrangler is renowned for delivering gutsy performance. The potent 4.0 litre six cylinder 174bhp engine is mated to an efficient 5-speed manual transmission. For negotiating city traffic conditions a 4-speed automatic transmission is available on Wrangler Sahara. Both trim options – Sport or Sahara – share the classic Jeep circular headlamps, vertically slotted grille and the go-anywhere, do-anything character. And with Jeep's legendary Command Trac part-time 4-wheel drive system and limited slip differential, you'll be in total control as you explore your new found freedom.
