Jeep Grand Cherokee Official fuel consumption figures for the Jeep® Grand Cherokee range including Trackhawk mpg (l/100km) combined: 29.7 (9.5) to 16.9 (16.7). CO2 emissions: 395 - 208 g/km. Fuel consumption figures determined on the basis of the new WLTP test procedure as per Regulation (EU) 2017/1347. CO2 figures, based on the outgoing test cycle, will be used to calculate vehicle tax on first registration. Only compare fuel consumption and CO2 figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.
