Always off-road responsibly in approved areas.

The 4xe system is paired with the 2.0L I-4 DOHC direct-injection Turbo Plug-In Hybrid Electric Vehicle (PHEV) engine to bring out the best in the already tested and proven Jeep® 4x4 hardware: the Selec-Trac® full-time 4x4 system on Sahara® models and Rock-Trac® full-time system on Rubicon® models. A 17-kWh lithium-ion battery pack, regenerative brake booster and 8-speed PHEV automatic transmission work in concert to send impressive amounts of power and torque to each wheel — maximizing the capability of every component.

A PLACE TO RECHARGE

A SPACIOUS INTERIOR equips you with a modern yet rugged design and leading technology. The Uconnect® 4C NAV multimedia centre with an 8.4-inch touchscreen displays hybrid details, like charge percentage and remaining range, while a dash-mounted indicator shows status during charging sessions.

When the Electric Vehicle Service Equipment (EVSE) is connected, a multi-coloured LED light at the charging port indicates charge status. The battery gauge on the instrument panel also indicates the State of Charge. The Uconnect App³ lets you remotely check on the State of Charge.

YOU'RE IN E-CONTROL You choose how and when to optimize the hybrid drivetrain.
