SELEC-TERRAIN® TRACTION MANAGEMENT This system makes the most of your Jeep Brand 4x4 System by adjusting your capability to the road ahead. Dial into your desired mode of traction control from AUTO, SNOW, SPORT, SAND / MUD or, exclusive to Trailhawk, ROCK Mode.

TRAIL RATED® JEEP® ACTIVE DRIVE LOCK

A two-speed Power Transfer Unit (PTU) offers torque management and 4x4 Low Mode. This locks the front and rear driveshafts to deliver additional power at low speeds and can be used for towing your toys. Additionally, off-road adventures benefit from a 25.4-mm (1-inch) increase in ride height and an incredible crawl ratio. A locking rear differential and ROCK Mode option provide even more capability and strength. Standard on Jeep Cherokee Trailhawk models.
