THE ALL NEW 100% ELECTRIC JEEP® AVENGER

THE All New 100% Electric Jeep® Avenger, the company's first-ever battery electric vehicle (BEV), combines zero emissions with full brand DNA, all within compact SUV dimensions.

Designed and built as a Jeep® from the outset, and named European Car of the Year 2023, the New Avenger packs a unique combination of off-road capability, functionality and technology into a practical and stylish vehicle with unique and unrivalled Jeep® appeal.

The New Avenger is the first front-wheel drive Jeep® equipped with

SelecTerrain® and Hill Descent Control as standard which, together with outstanding approach and departure angles as well as generous ground clearance, bring new levels of capability into the compact SUV segment.

The New Avenger's all-new 100% electric powertrain uses a 400-volt electric motor to generate 115 kW (156 HP) and peak torque of 260 Nm (191 lb ft) for spirited performance. Meanwhile, the 54 kWh battery – produced by Stellantis – gives an impressive WLTP range of up to

249 miles, rising to 342 miles on the urban cycle. Recharging is simple via a 100 kW Mode 4 cable connected to direct current and a fast public charger. Three minutes of charge is enough to provide travel distance of around 19 miles, while 24 minutes is sufficient to charge the batteries from 20 to 80% charge. With a 11 kW Mode 3 cable connected to alternating current via a Wallbox or public charging station, a full charge from 0% to 100% is possible in 5.5 hours.

The All New 100% Electric Jeep® Avenger's modern and digitally enabled interior creates a seamless and connected driving experience with extensive storage to keep your day-to-day essentials close by. Standard equipment on the entry level Longitude includes a 10.25" infotainment system with six speakers, Apple CarPlay® & Android Auto™ with Wireless Mirroring, automatic air conditioning, cruise control, 16" alloy wheels, LED reflector headlights, rear parking sensors, rain-sensing wipers and keyless entry/go. At 4.08 m long – 16 cm shorter than the Renegade – the New Avenger's Selec-Terrain® drive system offers six modes: 'Normal' for everyday driving; 'Eco' to enhance range; 'Sport' for more driving fun; 'Snow' for maximum traction on icy roads or trails; 'Mud' for enhanced grip; and 'Sand' to limit the risk of becoming stuck on sandy soil.

JEEP® AVENGER LONGITUDE

AVENGER LONGITUDE KEY EQUIPMENT

- 16" Alloy Wheels – 215/65 R16 Summer Chainable
- LED Headlamps – Reflector
- LED Daytime Running Lights
- Body Colour Exterior Door Handles
- Mirror Covers – Black Tinted in Mould

Interior/Exterior

- 10.25" Uconnect Infotainment System
- 7" Full TFT Cluster
- Front Central Armrest
- Electric Parking Brake (W/Auto Hold)
- Driver Seat 6-Way Manual Adjustments
- Front Passenger Seat 4-Way Manual Adjustments
- Isofix (Front Passenger and Rear Seats)
- Cloth Seats
- Apple CarPlay® & Android Auto™ with Wireless Mirroring
- 6 Speakers
- Heated & Power Door Mirrors
- 11kw On Board Charging
- Automatic A/C (1 Zone)
- Ecall Emergency Response System
- 12v Front Power Outlet and 2 USB Ports (Type A/Type C)
- Dusk & Rain Sensors
- Cruise Control
- Hill Descent Control
- Drive Mode Selector and Grip Control
- EV Electrically Driven Temperature Control
- Mode 3 Charging Cable – Monophase
- EV Fast Charging
- Rear Parking Sensors

Safety

- 6 Airbags
- ESC, ABS, Traction Control
- Intelligent Speed Assistant
- Lane Departure Warning
- Lane Support System
- AEB with Pedestrian + Cyclist Recognition
- Traffic Sign Recognition
- Drowsy Driver Detection
- Front and Rear Seat Belt Pretensioners
