AND INCLUDES:

- 17-kWh BATTERY
- CHARGING PORT WITH 120-VOLT CORD
- CHARGE STATUS BAR
- 4xe BADGING
- UNIQUE WHEELS
- ELECTRIC BLUE ACCENTS

Wrangler charges ahead

RUBICON® 4xe IN BILLET SILVER METALLIC

The **JEEP® WRANGLER 4xe** Plug-In Hybrid Electric Vehicle (PHEV) is a shining example of hybrid innovation, handing you tomorrow's progressive technology, today. Here's the rugged, open-air freedom and unmatched capability that Jeep Wrangler is revered for, the world over.

STRONG

Taking potent power to the next level, the Jeep® Wrangler 4xe is designed to hand over incredible muscle from the moment of "go," whether you're running on gas or in its all-electric range. Towing heavier toys becomes child's play for grown-ups ready to expand their range of playing fields.

470 LB-FT OF TORQUE / **375** HORSEPOWER

QUICK

When you need instant quickness, it's there. An 8-speed automatic transmission is geared to move smoothly through acceleration, perfectly synced with the 2.0L Turbocharged engine. Whether you're riding the trails or need to pass in the highway's fast lane, this powertrain is poised to surge ahead at a moment's notice.

INSTANT TORQUE / **0 - 60 MPH** (0 - 97 KM/H) IN 6.0 SECONDS^{1*}

EXPANSIVE

It's charged up and down for fun, with an electric range that's always supported by authentic Trail Rated® capability right out of the gate. The driver-selectable E-Select Modes let you choose from among a blended hybrid operation, fully electric travel, or an eSave Mode that saves battery use for whenever you choose.

UP TO **34-KM** ALL-ELECTRIC RANGE¹ / UP TO **595-KM** TOTAL RANGE¹

EASY ON THE PLANET

Tread lightly in near silence using the 4xe's Electric Mode and Mother Nature will reward you. Ecologically sound travel produces fewer emissions, and when you're riding high in the hills, you'll experience a new kind of hushed, wind-in-your-hair freedom.

REDUCED EMISSIONS / WHISPER-QUIET IN ELECTRIC MODE

¹A note about this brochure: all disclaimers and disclosures can be found on the back cover.

a place to recharge

A spacious interior equips you with a modern yet rugged design and leading technology. The available 8.4-inch Uconnect® 4C NAV displays hybrid details, like charge percentage and remaining range, while a dash-mounted indicator shows status during charging sessions.

When the Electric Vehicle Service Equipment (EVSE) is connected, a multi-coloured LED at the charge port indicates charging status. The battery gauge on the instrument panel also indicates the State of Charge. The available Uconnect App² lets you remotely check on the State of Charge.

The 4xe System is paired with the 2.0L I-4 DOHC direct-injection Turbo Plug-In Hybrid Electric Vehicle (PHEV) engine to bring out the best in the already tested and proven Jeep® 4x4 hardware: either full-time Selec-Trac® or full-time Rock-Trac® Four-Wheel-Drive (4WD) system, depending on model. A 17-kWh lithium-ion battery pack, regenerative brake booster and 8-speed PHEV automatic transmission work in concert to send impressive amounts of power and torque to each wheel ... maximizing the capability of every component.

a 4x4,
first and foremost

RUBICON® 4xe IN BILLET SILVER METALLIC

POWER x2

YOU'RE IN eCONTROL You choose how and when to optimize the hybrid drivetrain. Select HYBRID for the best of both worlds, ELECTRIC to only use battery power or E-SAVE to reserve battery power for later ... like for low-emission zones in cities or on the trail for near-silent exploring with maximum torque and horsepower.

1. Based on manufacturer's estimated testing. Official testing results not available at time of publication. Actual results may vary. 2. All SiriusXM Guardian equipped vehicles come with a 12-month complimentary trial effective on the date of purchase or lease of a new vehicle. Enrolment in the trial is required to receive service. Upon expiration of the trial period, purchase of a subscription is required to continue SiriusXM Guardian. SiriusXM Guardian is available only on equipped vehicles purchased within the United States, Puerto Rico and Canada. Services can only be used where cellular coverage is available. See Uconnect and SiriusXM Guardian Terms of Service for complete service limitations. 3. Do not attempt water fording unless depth is known to be less than 76 cm (30 inches). Traversing water can cause damage that may not be covered by the new vehicle warranty. Always off-road responsibly in approved areas.
