

ALL-NEW JEEP®

WRANGLER

ALL-NEW JEEP®

WRANGLER

THE NEXT GENERATION OF FREEDOM.

**FREE
DOM
IS THE
NATURAL
STATE
OF HUMAN
KIND**

A desire for freedom is innate in human beings. It emerges as a desire to explore, a passion for the natural world, a search for a defined identity. This has always been the authentic essence of Jeep®, perfectly embodied in Wrangler: an icon that has managed to remain loyal to its roots while adapting to the changing spirit of the times. Today its irrepressible inclination towards adventure leads it to explore new terrains, be it on- or off-road. New destinations, new sensations, new emotions. The journey starts again here.

YOUR SPIRIT REVEALED.

Free spirits recognise each other on sight: it's a natural affinity. From the very beginning, Wrangler has accompanied such pioneers, taking them away from the ordinary, heading towards amazing journeys and exciting adventures. Its nature has not changed at all over the years – quite the contrary. The most recognisable vehicle in the world stays true to the original: it has been further improved to deliver more rugged capability, with increased interior comfort for superior driving experiences.

SAME CHARACTER, NEW LIGHT.

The new Wrangler design is the natural evolution of a vehicle that remains loyal to the original. The legendary seven-slot grille with outer slats intersecting with the headlights pays homage to the Jeep® CJ. And the authentic spirit is immediately evident, clearly distinguishing the Wrangler's identity. Its wide stance and bold and rugged shape instantly evoke a sense of strength and sturdiness, a perception reinforced by the lowered beltline.

A BEACON IN THE STORM.

Iconic round headlamps provide the distinctive Wrangler character. The new Full LED system and fog lights complete the unique look, offering ultra-bright lighting to significantly increase road visibility. LED daytime running lights are located on the front of the trapezoidal wheel flares, and LEDs are also deployed in the square-shaped tail lights. To see, be seen and be recognised. Always.

AUTHENTIC OPEN-AIR EXPERIENCE.

The All-New Jeep® Wrangler, the only true open-air 4x4 on the market, has been designed and built for greater freedom.

FOLD DOWN WINDSHIELD*

Now it's easier than ever to have more fresh air in the face and a clearer view of the trail ahead.

REMOVABLE DOORS*

Made of lightweight aluminium. Take them off and freedom becomes closer than ever.

*Driving with doors off and windshield down is for off-road use only.

FREEDOM® TOP 3-PIECE MODULAR HARDTOP

An updated design for a lighter top which is easier to remove and brings more of the "outside in".

SKY ONE-TOUCH™ POWER TOP^

The first-ever power soft top on a Wrangler opens up a large panoramic centre section with removable rear-quarter window sections.

SUNRIDER® SOFT TOP~

Echoing the original version, this model's spring-assisted, zipperless design has a flip-back top and removable windows so sun-lovers can bask with ease.

^optional

~Available as part of dual top option on 4dr versions

**THE POWER TO OPEN
UP YOUR WORLD.**

ADVENTURE GOES URBAN.

A truly adventurous spirit knows no limits. The All-New Jeep® Wrangler comes with superior on-road dynamics, in order to optimise handling and comfort. The new five-link suspension system with specific shock tuning provides a pleasurable ride and an optimum balance between on-road steering and its legendary off-road capability. The two-speed transfer case with full-time 4WD actively contributes to exceptional control.

Safety is a priority, with over 65 available active and passive safety systems such as blind spot monitoring and rear cross path detection, parkview rear backup camera with dynamic grid lines, electronic stability control (ESC) with electronic roll mitigation, front and rear parking sensors, and four standard air bags. Because safely is the only way to travel.

LOSE TRACK OF TIME, NOTHING ELSE.

Totally redefined interiors, now equipped with the latest technology. An authentic style, great versatility, improved comfort and intuitive features. Every detail reveals expert craftsmanship and top-quality materials. Metal-plated elements and fine upholstery now in leather with accent stitching – each and every feature is carefully planned. A push-button starter, featuring a weather-proof surround, is easily located within the driver's reach. And what is more, every Wrangler comes standard with durable and washable interiors, fitted with drain plugs for easy clean-up. The end product is a new interior where the concept of time can be easily forgotten.

BREAK THE SOUND BARRIER.

The All-New Jeep® Wrangler's interior combines rugged details and on-board pleasure to deliver superior driving experience. The perfect environment to fully enjoy the sound quality of the 552-Watt Alpine® All-Weather Premium Audio System with 8 speakers and a rear subwoofer. Nothing less for an unrivalled off-roader.

CUSTOMISED CONNECTION.

The new instrument cluster is equipped with a 7" thin-film transistor display. This allows information to be configured in more than 100 ways, including current media being played, tyre pressure or digital speed readout. The fourth-generation Uconnect™ 8.4" touchscreen system, located in the mid-centre console, features smartphone connectivity, pinch-to-zoom capability and Drag'n'Drop functionalities, allowing owners to customise the system with their own most commonly-used menu buttons.

Apple CarPlay™ enables iPhone users to access Apple Maps, messages, phone and Apple Music through Siri voice control or Uconnect™ touchscreen.

androidauto

Android Auto™ enables easy and safe access to hands-free voice control, Google Maps™ and Google Play Music™ via Uconnect™ touchscreen or steering-wheel controls.*

* Requires the Android Auto app on Google Play and an Android compatible smartphone running Android™ 5.0 Lollipop or higher. Google, Google Play, Android Auto and other related marks are trademarks of Google LLC.

FUEL YOUR ADVENTURE.

Advanced and efficient powertrains. The All-New 2.0-litre turbocharged 272 HP petrol and 2.2-litre MultiJet II 200 HP diesel engines are mated with the class-exclusive 8-speed automatic transmission, enabling optimal engine output while on the trails or enjoying smooth, efficient power delivery at highway speeds. The new full-time transfer case with selectable part-time perfectly distributes power between front and rear wheels for superior handling and an improved driving experience.

A detailed close-up of a car engine, showing various components like the intake manifold, throttle body, and timing belt. The engine is metallic and has a complex, industrial appearance. The lighting is dramatic, with highlights on the engine's surfaces and shadows in the recessed areas. The background is dark and out of focus, emphasizing the engine itself.

ALWAYS IN YOUR ELEMENT.

All destinations are within reach, because all terrains can be travelled. Two 4x4 systems - Command-Trac® on Sahara and Overland, and Rock-Trac® on Rubicon - offer full-time torque management, enabling optimal grip in slippery, low-traction conditions such as driving over sand, gravel, snow or ice. The available Trac-Lok® limited-slip rear differential provides extra torque and grip. Because adventure is great in any environment. Thanks to legendary 4x4 capabilities, every Wrangler model receives a Trail Rated badge, certifying that the vehicle has passed a series of gruelling tests in five categories: Traction, Water Fording, Manoeuvrability, Articulation and Ground Clearance.

TURN ANY DIRECTION INTO A ROAD.

The 2018 Rubicon is the most capable Wrangler ever. True to its heritage, it has the traction to handle some of the harshest and most unpredictable driving conditions.

- Rock-Trac® 4x4 system with a “4LO” ratio of 4:1 with 77.2:1 crawl ratio*.
- Selec-Trac® full-time two-speed transfer case.
- Heavy duty next-generation Dana axles.
- Tru-Lok® electric front- and rear-axle lockers, for optimal grip in every situation.
- 32-inch BF Goodrich Mud-Terrain tyres.
- Electronic front sway-bar disconnect, to provide additional wheel travel when the terrain calls for it.
- Approach/Departure/Breakover angles: 36.4°/30.8°/25.8°**.
- Maximum ground clearance: 252 mm.

MAKE YOUR OWN ADVENTURE.

Every great adventure begins when you turn the steering wheel and go off the beaten path, and with the wide range of authentic Mopar accessories you will discover how unlimited your options can really be. Mopar offers many solutions for your Jeep® Wrangler, from performance to style, down to the smallest details. With Jeep® Performance Parts, make sure your one-of-a-kind Wrangler is ready to face the most challenging roads and with its own distinctive look. Personalise the exterior with the mesh bikini and the original Mopar graphics, conquer the water with the snorkel by Jeep® Performance Parts and dominate rocky trails with the tough, heavy-gauge steel rock rails.

The unpredictable nature of adventure is what makes it unforgettable, and being prepared is what makes it look easy. Turn your next stop into the perfect relaxing sunset break with the tailgate table and thanks to the moulded cargo tray, your boot will be well protected from any surprises along the way.

**VEHICLE
PROTECTION**

MAINTAIN YOUR VEHICLE IN TIP TOP CONDITION, ALWAYS.

Mopar[®] Vehicle Protection (MVP) knows that your vehicle needs different care at different points in its life, that is why we have designed a range of services tailored for you and your car by Mopar[®], the Official Service Partner of Jeep[®].

Our aim is to ensure that your driving experience will always be pleasant and reassuring, with your car in perfect shape just like the first day you bought it.

SELECT THE SERVICE PLAN THAT BEST SUITS YOUR DRIVING HABITS
