WAGONEER

2025
WAGONEER S
BUYER'S GUIDE

MAKE EVERY
ADVENTURE
EXQUISITELY
REFINED

Seek freedom in style with the All-Electric 2025 Jeep® Wagoneer S. Crafted with the same passion and adventure woven into every Jeep® Brand vehicle, Wagoneer S is a showcase of elegant appointments and impressive performance credentials: up to 473 km¹* on a single charge, up to 600 horsepower and 0-60 mph (with rollout subtracted) in 3.4 seconds†. The first fully Electric Vehicle (EV) in North America from the Jeep Brand is everything you need for a modern life.

* A note about this brochure: all disclosures can be found on the last page. † When properly equipped.

A SLEEK AND ENLIGHTENED PROFILE

Limited in Silver Zynith

THE ELEGANCE OF UNCOMPLICATED DESIGN Muted brightwork, matte finishes, satin tones and a Black roof are designed not to distract from the sculpted exterior. Further sophistication and elegance come from robust 20-inch wheels on low-profile tires and the R-wing off the rear hatch. Open-air freedom is experienced through the standard dual-pane panoramic sunroof.

AN AUTHENTIC ORIGIN STORY The seven-slot grille is iconic to the Jeep® Brand, and the cantilevered design is telltale to the Wagoneer nameplate. As an Electric Vehicle (EV), airflow isn't needed to cool an engine. Instead, distinctive LED lights illuminate the front end.

MAXIMIZING EFFICIENCY The Wagoneer S airflow management system boasts a series of integrated underbody aero shields, side sills that direct air around the wheel arch, flush door pulls and a front grille with active aero shutters. The result is an extremely low drag coefficient among Jeep Brand vehicles.

THE BEAUTY WITHIN

Surround yourself with evolved design and fine details, such as perforated leatherette power seats, soft-wrapped door bolsters and armrests, available suede headliner and a tailored driver control centre with a unique Selec-Terrain® Traction Management System toggle. Premium technology seamlessly integrates throughout the entire width of the instrument panel with up to 45 inches of total display screen area. The mood can match your drive via dynamic direct ambient lighting with 64 selectable colours.

WAGONEER S LIMITED

STANDARD

CAPABILITY/FUNCTIONALITY

- Dual All-Electric 400-kW Drive Motors, Powered by 400-volt Battery Pack for Maximum Output of 500 hp and 524 lb-ft of Torque
- Battery Electric Vehicle (BEV) Cooling

THE PURCHASE OF A
WAGONEER S BATTERY
ELECTRIC VEHICLE (BEV) COMES
WITH THE CHOICE BETWEEN
TWO CONVENIENT FREE2MOVE
CHARGE PACKAGES

FREE2MOVE CHARGE PACKAGES

The Free2move Charge Home Package enables you to charge your vehicle from 20 - 80 percent in approximately 6 hours via a 48-amp Level 2 home charging station¹⁵ Or choose the Free2move Charge Go Package, which includes \$800 in charging credits to be used at public charging stations on the Free2move Charge network.¹⁶ Wagoneer S drivers can charge their vehicle from 20 - 80 percent in 23 minutes¹⁷ with a DC Fast Charge public charging station. See your retailer for full details.

BUILD YOURS TODAY >>

JEEP.CA (800) 361-3700

Jeep is a registered trademark of FCA US LLC.

1. Driving range based on Government of Canada approved test methods and full battery charge. (see www.vehicles.nrcan.gc.ca for details). The vehicle's factory-charge settings have been preset to 80 percent. Consult the owner's manual for instructions on adjusting charging settings. In sub-ideal driving conditions, actual range will vary (and may vary significantly) based on several factors, including temperature; terrain; battery age and condition; vehicle model and optional features; loading; driving habits; traffic; tire pressure; Heating, Ventilation and Air Conditioning (HVAC); vehicle use and maintenance; and other external factors. See owner's manual for details. Range information provided for comparison purposes only. It is not specific to any vehicle and is not intended to constitute an offer or a guarantee of performance in all situations. For details, see the Government of Canada website. 2. Never program while driving. GPS mapping and 3D navigation may not be detailed, available in all areas or reflect current road regulations. 3. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice controls, when it is safe to do so. Requires compatible iPhone. See retailer for phone compatibility. Data plan rates apply. To wirelessly use Android Auto on your car display, you need a compatible Android smartphone with an active data plan. You can check which smartphones are compatible at g.co/androidauto/requirements. 4. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. 5. **If you decide to continue service after your trial, the subscription plan you choose will continue and you will be charged according to your chosen payment method at then-current rates unless you cancel your services.** Fees and taxes apply. Some services and features are subject to device capabilities and location availability. Please see the SiriusXM Customer Agreement at www.siriusxm.ca/terms for complete terms and how to cancel, which includes calling SiriusXM at 1-888-539-7474. All fees and programming are subject to change, provided that we will notify you in advance of any price change. We use personal information in accordance with our Privacy Policy, available at www.siriusxm.ca/privacy. 6. Three-month/1GB trial included with the purchase or lease of a new vehicle. Upon expiration of the trial period, purchase of a subscription is required. Wi-Fi Hotspot available through third-party subscription. Requires Internet-enabled mobile device. See retailer for details. This feature is not intended for use by the driver while the vehicle is in motion. Always drive carefully. 7. All vehicles properly equipped to receive Jeep Connect services come with a three-month trial of Assistance Package or Assistance + Navigation Package (if equipped), up to five years of Vehicle Performance Package, and up to 10 years of Safety and Security Package effective from the date of purchase or lease of a new vehicle. Enrolment in trial is required to receive services. Upon expiration of trial period, purchase of a subscription is required to continue or renew services. Services are available on equipped vehicles purchased within the United States, Canada, and Puerto Rico. Services can only be used where cellular coverage is available. See the applicable Terms of Service for complete terms and conditions, including service limitations. 8. The Advanced Front Air Bags in this vehicle are certified to the Federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. 9. This is a driver's convenience system, not a substitute for active driver involvement. The driver must remain aware of their surroundings and be prepared to take corrective action to avoid collisions. 10. Traffic Sign Recognition is not a substitute for safe and attentive driving. Factors including weather and condition of the traffic sign can impact the recognition and display of the sign. Always check traffic signs visually while driving. 11. Always check entire surroundings visually before proceeding. 12. This system is an alert system for the front of the vehicle. It is not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. 13. No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. 14. Vehicle must be locked and system activated for alarm to sound. 15. Installation and configuration requirements will apply and will be at the customer's expense. Before installing the in-home Free2move Charge Level 2 Charger, customer should ensure that the system is compatible with their home's electrical system. Electrical system upgrades may be necessary to ensure compliance with all applicable codes and regulations. Please consult a professional installer for full details and applicable fees. 16. Terms and Conditions apply. See your retailer for full details. Requires the customer to create a Free2move Charge account. Charging credits valid for two years from date of issuance. Charging credits to be used at public charging stations on the Free2move Charge network across Canada and the U.S. Free2move Charge network currently includes: Electric Circuit, BC Hydro, ChargePoint, Shell Recharge, EV Connect, FLO, EVgo (U.S. only) and IONNA (U.S. only). Electricity rates and fees applied to charging credits may vary based on location. 17. Level 3, 50-kW, Direct Current (DC) Fast Charge can charge the Wagoneer S from 20 to 80 percent in 23 minutes. Manufacturer's pre-production estimates using a Level 3, DC commercial Fast Charge station. Exact specifications may vary.
