

2012.KIA.SOUL

NHTSA FIVE-STAR
SIDE-IMPACT CRASH RATING¹

FOR THE 2011 SOUL

The Soul. A new way to roll.[®]

Out with the old, in with the new.

These days, you don't have to look far to find that one car looks exactly like another. Whatever happened to being unique? To having some personality? Because no matter where you're going, there's always a better way to get there. The 2012 Kia Soul looks different because it is different. With its unique styling inside and out, impressive features and an industry-leading 10-year/100,000-mile warranty program,² it's a new way to roll.

Evolution by revolution.

Forget about trying to define the Soul. It's a leap ahead. Modern styling is highlighted by a wide stance. Soul ! (*exclaim*) models have distinctive front LED accent lights and LED taillights to stand apart from the rest. Simply put, there's no comparison to the Soul.

Express yourself.

Think of the Soul as your personal canvas. It's ready for custom touches. Unique colors inside and out for you to choose from. Plenty of optional accessories, like aluminum sill plates for the doors, all-weather floor mats and bumper appliqué. For the finishing touch — a sunshade with the name Soul on it. It's your masterpiece.

ONE OF THE CLEANEST AND
MOST FUEL-EFFICIENT VEHICLES ON THE ROAD

The first rule about the Soul...

...have fun. Jump into the Soul and, with its 4-wheel disc brakes and Anti-lock Braking System (ABS), you can take on the road with confidence. Enjoy the new 138-hp 1.6L GDI engine that delivers up to 35 hwy mpg³ or Soul+ (*plus*) and ! (*exclaim*) models' 164-hp 2.0L MPI engine and 6-speed automatic transmission.* An available Eco Package* on select models includes Idle Stop & Go (ISG)* to help maximize fuel efficiency. It automatically turns off the engine when you come to a complete stop and then seamlessly restarts the engine when you release the brake pedal.

With so many possibilities, which way will you roll?

The Soul *plus*.

With the standard equipment you're looking for, the Soul and Soul+ (*plus*) are ready to roll. Both come with an AM/FM/CD/MP3/SiriusXM⁴ audio system, air conditioning and power windows/locks. In addition, the Soul+ has a 2.0L 4-cylinder engine, leather-wrapped steering wheel/gearshift knob, steering-wheel-mounted audio controls, *Bluetooth*[®] wireless technology,⁵ 16-inch alloy wheels and remote keyless entry. Soul+ also has unique black interior seating you have to see for yourself.

The Soul *exclaim*.

Soul *!* (*exclaim*) takes style to a new level with its sand-black interior, houndstooth design of its seating, or the available leather seat trim with heated front seats. You get all the standard features found on the Soul+ along with larger 18-inch alloy wheels, Infinity^{®6} audio, UVO⁷ in-vehicle infotainment w/HD Radio[™] Technology,⁸ power sunroof and fog lights. For a touch of luxury, add the available *!* Premium Package. Pure style.

Magic.

Open the hatch. That's some serious space. How can it be bigger inside than it is outside? Now flip down the split-folding rear seats for all kinds of cargo-carrying variations. Versatility. That's what it's all about. And in a car that's sized to park anywhere. Amazing.

Surprise! Tons of space and features.

Tons of gear? No problem. Flip down the 60/40 split-folding rear seats. And there's more. 1) While you can't see the hidden tray in the cargo floor, it's there.* 2) Check out the sunroof.* 3) Push-button start.* 4) Pulsating speaker lights.* 5) Heated front seats.* 6) Dual-level glove box. 7) Cruise control.* 8) Voice-command navigation system and automatic climate control.* 9) USB/aux for your MP3. An accessory cable lets you control your iPod[®]9 mobile digital device with the stereo controls.

It's called "Soul" for a reason.

Because it's got soul. And it's got music. And life is good when you have music. It has standard USB/auxiliary input jacks that let you plug in practically any kind of MP3 player. A complimentary trial subscription to over 130 channels of SiriusXM Satellite Radio⁴ with commercial-free music, plus sports and entertainment. For serious sound quality, an Audio Upgrade Package* includes UVO⁷ in-vehicle infotainment w/HD RadioTM Technology system and an Infinity[®] audio system with a center speaker, subwoofer and external amplifier. Streaming audio lets you play music from your compatible Bluetooth[®]*⁵ wireless technology-enabled cell phone through the audio system.

Kia UVO*⁷ Powered by Microsoft.[®]

Technology keeps giving us new ways to be entertained, stay in touch and be kept informed. Getting to enjoy this, however, used to be complicated, especially while driving. UVO,* short for “your voice,” is an in-vehicle infotainment system available on the Soul.⁷ Kia and Microsoft¹⁰ have teamed up to provide this voice-activated system. Developed on Windows^{®10} Embedded Automotive platform, it lets you manage your music conveniently and enjoy hands-free use of your phone.⁵ UVO has an intuitive touch screen and Microsoft advanced voice-activation technology that actually recognizes your own speech pattern and voice inflection.

COLOR TOUCH SCREEN

A vivid 4.3-inch LCD touch screen delivers access to your phonebook from your compatible cell phone.⁵

VOICE CONTROL

UVO can learn multiple users' speaking patterns. Finding a song is as easy as saying its title.

DIGITAL JUKEBOX

An in-dash hard drive can hold up to 700MB of music. You can load tunes into personal folders.

HD RADIO™

UVO offers available HD Radio™ Technology — 100% subscription free.

REAR-CAMERA DISPLAY

Whenever you shift into reverse, an image from an integrated rear camera is displayed on the screen.¹¹

Tire-Pressure Monitoring System (TPMS)¹³

4-wheel disc brakes

Anti-lock Braking System (ABS)

Electronic Stability Control (ESC)

Vehicle Stability Management (VSM)

Hill-start Assist Control (HAC)

Advanced safety systems designed to expect the unexpected.*

Soul's active safety systems are engineered to help you avoid accidents, and its passive systems are designed to help minimize injuries when they are unavoidable. This means that front to back and top to bottom, Soul is engineered to help enhance everyone's well-being. Six airbags placed throughout the cabin are designed to help protect occupants. The advanced front airbag system monitors the severity of an impact, the presence of a front passenger and seat-belt use, and then controls airbag inflation accordingly.¹² Front seat-belt pretensioners have been designed to tighten the seat belts in the event of certain collisions, helping to reduce the likelihood of injuries. The result? Safety awards from IIHS and NHTSA for added peace of mind.

A passion for excellence.

For decades, Kia Motors has focused on building vehicles that reflect a commitment to quality, durability and product innovation. Today, we offer models to suit most every driving need. The value found in every Kia vehicle has been widely recognized, and Kia Motors has been one of the fastest-growing automotive brands in America for the past five years.¹⁴

Industry-leading warranty program.

At Kia Motors America, we believe peace of mind should come standard with every vehicle we make. That's why we back every model with an industry-leading warranty program.²

- 10-year/100,000-mile limited powertrain warranty
 - 5-year/60,000-mile limited basic warranty
- 5-year/100,000-mile limited anti-perforation warranty
 - 5-year/60,000-mile 24-hour roadside assistance¹⁵

Commitment to America.

Kia Motors' \$1 billion facility in West Point, Georgia, incorporates the latest manufacturing processes. Utilizing state-of-the-art robotics, the plant was built to produce 300,000 vehicles a year with maximum efficiency. When the 2011 Sorento went into production, it became Kia Motors' first vehicle to be built in the U.S.A.[†] The plant is in the process of expanding, with an additional investment of approximately \$100 million that will increase annual capacity to 360,000 vehicles in 2012. The plant has generated more than just high-quality vehicles. About 3,000 new jobs were created at the facility, and the surrounding area is expected to see an additional 7,500 jobs created as a result of Kia's presence. It's all part of Kia Motors' commitment to America — a commitment that is sure to grow and strengthen in the years ahead.
