

A talented compact

RIO

The Power to Surprise

A talented Duo for every lifestyle

A daily commuter, a weekend warrior, a fashion trendsetter. No matter who you are or where you're going, there's a Rio that is sure to bring out your very best. There's no longer a need to compromise on style when searching for that perfect combination of comfort, economy and functionality.

Designed with high-tech refinement

Form and function meet sophistication in the Rio's interior. The ergonomically-designed cockpit puts the driver in control and surrounds them in comfort, technology and convenience. The supervision cluster provides essential driving information from the clear, back-lit trip computer, making it easier to keep track of your day to day driving. To keep you focused on the road, the telescopically adjustable steering wheel puts the audio system and cruise control at your fingertips.

Features that surprise and delight

For the modern, tech-savvy driver, the KIA Rio has everything you demand from your car. Stay in touch and drive to your own beat with the state of the art infotainment system. It includes Bluetooth (allows you to play your own music and talk hands free) Aux, a USB port and MP3 connectivity. The interior's intelligent design uses climate control to keep a set temperature, rain sensors on the windscreen adjust to the rainfall outside, and on a long hot summers day, there is a cooling glove box to make sure you are always feeling refreshed.

The perfect partnership of power and safety

Drive the Rio and along with power, efficiency and performance come low emissions and reduced fuel consumption, not to mention safety specifications of the highest order. From a structural framework that absorbs impact forces in both frontal and side-on collisions to a range of active and passive safety measures, the Rio is built to protect those that matter.

EBD / ABS

If you have to brake and swerve suddenly, EBD / ABS applies the correct amount of brake pressure to each individual wheel so that you maintain control.

Six airbag system and the strength of steel

Providing protection and reassurance is a six airbag system comprising two front airbags, two curtain airbags and two side airbags. Underneath, a reinforced high tensile steel sub-frame offers strength where it's needed most.

Rear park assist system

When reversing into a parking space, an alert sounds if you get too close to other cars or obstacles.

Power from technology

Under the bonnet of the Rio, next-generation 1.2 or 1.4 petrol engines provide optimum performance with enhanced fuel economy. Made from high pressure die-cast aluminium to keep weight down and therefore save on fuel, their rigid ladder-frame construction helps reduce vibrations. Durable, quiet and smooth-running, these are engines you can rely on.

◀Gamma 1.4 Petrol Engine 79 kW / 135 Nm▶

An all-new unit that delivers extra power while still keeping emissions low, this engine features single continuously variable valve timing, a silent steel timing chain and offset crankshaft.

Kappa 1.2 Petrol Engine 65 kW / 120 Nm▶

A four cylinder unit constructed of lightweight aluminium, this engine features dual continuously variable valve timing and roller swing arm to reduce emissions and cut fuel consumption.

SPECIFICATIONS

ENGINE	1.2	1.4	
Type	In-line 4 cyl, 16 valve DOHC CVVT	In-line 4 cyl, 16 valve DOHC CVVT	
Displacement (cc)	1 248	1 396
