niro

The Power to Surprise

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

THE BEST OF BOTH WORLDS

The Niro range consists of 4 models – the '2', '3' and range topping '4' models are Hybrid Electric Vehicles (HEVs) and the All-New '3 PHEV' is our Plug-in Electric Vehicle (PHEV). The Kia Niro (pictured on the left) is a game-changing hybrid Crossover that proves you really can have it all. A sustainable, fuel-efficient hybrid, with the style, technology and versatility of a Crossover. It's the ultimate choice for those who care about the environment – and care just as much about driving pleasure.

The All-New Niro PHEV (pictured above) combines the versatility of an SUV with the efficiency of an eco-vehicle. To enhance the aerodynamics of this model it comes as standard with the 16" alloy wheel with plastic wheel cover as pictured which results in a lower CO₂ and therefore more competitive fuel economy.

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

Ingenious silhouette The graceful profile not only contributes to the sporty, muscular appearance, but also gives the Niro an impressive 0.29 (HEV) drag coefficient or 0.30 for the PHEV.

SUSTAINABILITY HAS A STYLISH NEW LOOK

From every angle, the Niro catches the eye and sets an intriguing new design benchmark for hybrid vehicles. It's stylish around town. It's at home in the country. And it looks smart everywhere in between.

Striking rear design The rear LED combination lights, silver garnish and distinctive curves work together to establish an ultra-modern look. Curved body lines flanking the side windows help to minimise vortex, turbulence and drag, while a rear diffuser helps manage airflow.

29^g g/km
CO₂ emissions (Hybrid)

A scenic mountain landscape with a winding road and a concrete bridge. The road curves through a lush green valley, surrounded by dense evergreen forests. In the foreground, a concrete bridge with a metal railing spans a small stream. The background features majestic, misty mountains under a clear blue sky. The overall atmosphere is serene and natural.

DRIVING IN HARMONY WITH ECOLOGICAL IDEAS

Driving a hybrid is a way to reduce dependence on fossil fuels, save on fuel costs and significantly decrease carbon emissions. In the lightweight and dynamic Niro, you can enjoy exploring your natural surroundings, and help protect them in the process.

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

ECO-FRIENDLY DRIVING

The Niro employs a parallel hybrid system that switches between petrol and electric power, or uses a combination of both, and charges the battery whenever it can.

Lithium-ion polymer battery

Durable and lightweight, the 1.56 kWh (HEV) and 8.9 kWh (PHEV) lithium-ion polymer battery efficiently controls electrical energy and cools more effectively. Safely positioned below the rear seats, the battery comes with a 7-year warranty.

Regenerative braking system

Kinetic energy produced when decelerating or coming to a stop is captured and turned into electricity. This in turn is used to help recharge the battery.

Kappa 1.6 GDi engine

This 1.6 GDi engine generates a maximum output of 104 bhp at 5,700 rpm and a peak torque of 147 Nm at 4,000 rpm – the perfect match for the Niro's hybrid system. The system offers a combined maximum output of 139 bhp.

139 bhp

Combined max. power

Permanent magnet electric motor

Providing up to 43 bhp (HEV) and 60 bhp ('PHEV') for its own, the electric motor also assists the petrol engine in hybrid mode, and recharges the battery during deceleration.

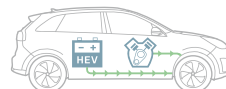

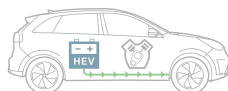

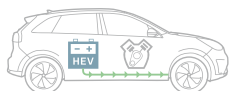

6-speed DCT

A 6-speed DCT (Dual Clutch Transmission) transfers engine/motor power efficiently, and delivers dynamic acceleration and a smoother transmission.

Efficient Driving Mode

Launch (Pure EV) When starting out from a stop, the hybrid system relies entirely on power from the electric motor. This helps reduce fuel use in stop-and-go traffic.

Gentle Acceleration (Pure EV) During mild acceleration, the system also uses power exclusively from the electric motor. It has ample pickup to help you increase your speed.

Full Acceleration When accelerating harder, the petrol engine works together with the electric motor to achieve your desired speed.

Cruising When cruising at relatively constant speeds, the system goes into power-assist mode, where the petrol engine is the main source of drive power.

Deceleration The system's regenerative braking takes advantage of every decrease in vehicle speed, capturing energy and storing it in the battery for future use.

THE NIRO IS SCULPTED AND STREAMLINED

Low rolling resistance tyres

To travel the most distance for every litre of fuel, the tyres are designed for low rolling resistance so they conserve more energy with every revolution.

Underbody aerodynamics

Out of view, the drivetrain, chassis, exhaust and exposed body elements are designed to create the least possible drag as the All-New Niro moves forward.

Active air flap An active air flap behind the grille cools the engine. It closes at higher speeds to reduce drag for better performance and fuel efficiency.

Air curtain An air curtain creates accelerated airflow at the front, reducing drag caused by turbulent air for improved aerodynamics.

Rear diffuser A spoiler panel below the rear of the All-New Niro is sculpted with longitudinal ridges for stability and aerodynamic control.

Rear spoiler Above the tailgate window, a rear spoiler takes advantage of airflow to help stabilise the body when travelling at speed.

A detailed view of the interior of a car, specifically the driver's side. The image shows the leather-upholstered front seats with white stitching, the dashboard with a digital display showing 'Hybrid' and 'Fuel economy 3.5 L/100km', and the center console with a gear shifter. The driver's side door is open, revealing a speaker and a door handle. The car is parked outdoors, with a modern building and greenery visible through the windows.

CLEVER IDEAS TO MAXIMISE YOUR COMFORT

Settle into the spacious cabin of the Niro and you'll find a soothing balance of technology and comfort. Relax in leather seats (model dependent) with an integrated memory system on the range-topping '4' grade which keeps you poised for every journey. Explore an array of controls and displays designed to help you stay focused on the road ahead.

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

8" Touchscreen Sat Nav with European Mapping

Refreshingly easy to read and operate, the navigation system presents routes, shortest path options and other vital information on a vivid 8" colour LCD touch screen that is linked to the rear-view camera and displays dynamic guide lines. The screen can also be used to control an externally amplified 8-speaker JBL® premium sound system, while giving you access to the hybrid system and other vehicle information.

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

A SIMPLER WAY TO TRAVEL

As cars become more technologically complex, it's more and more challenging to keep the experience of driving simple. Kia's smart technology helps make the driver's life easier. Accordingly, the Niro's cockpit is designed to function as an intelligent human-machine interface. It presents important information, while at the same time removing clutter and distraction everywhere you look.

Bluetooth® hands-free with voice recognition* via Android Auto or Apple CarPlay. Built-in Bluetooth® connects paired, compatible mobile devices for music streaming and hands-free mobile communication, including voice recognition.

Wireless mobile phone charger* Charge a compatible mobile phone wirelessly on the charging pad located at the front of the centre console. There's no need to find and connect a cord. An illuminated indicator informs you of the charging status.

4.2" Supervision cluster with LCD TFT colour display A tasteful, intelligently designed, customisable supervision cluster provides temperature readings, tyre pressure alerts and other essential vehicle and trip information. It also displays the status of the hybrid charging system, including fuel and battery levels and use. Its high-resolution screen makes it easy to read a myriad of information at a glance.

* Please check with your dealer for mobile phone compatibility.

WHERE? WHEN? HOW?

THE ANSWER IS HERE

Our navigation system with Kia's Connected Services powered by TomTom takes reliable route guidance to the next level of accuracy and excellence. It keeps you in touch with the outside world and offers more handy information than ever. At the heart is a WiFi unit that enables the Niro's navigation system to connect to the Internet through your smartphone.*

Kia's innovative Hotspot app uses your Android phone's Bluetooth to detect when a Kia navigation system is in range. It then switches on the hotspot to connect to the Wi-Fi, and turns it off again when the Bluetooth communication is interrupted or stopped – making it even more convenient to use Kia's Connected Services.

Kia's connected services powered by:

Live traffic**

The navigation system delivers highly accurate live traffic information that is updated every two minutes, so you know exactly where traffic is running smoothly, or which areas to avoid. When things get busy, the system lets you know and suggests alternative routes.

* Smartphone with data plan required to activate services.

** Legal restrictions to these services may apply depending on country usage.

Speed cameras**

You'll also be alerted to a whole range of speed cameras, including fixed and stationary ones, as well as restricted access zones. The system can even take into account areas where accidents are particularly common, and warn you about these accident black spots.

Local search

If you're looking for a sushi restaurant, a supermarket or a particular place to meet, simply select Local Search. The database contains 500 searchable categories, 25,000 keywords and 250,000 locations to ensure you find what you need. Plus, the system allows you to search in ten languages, even while abroad.

Weather forecast

Is your weekend away going to be sunny or a washout? Better check the weather forecast. Just type in your destination to view a four-day summary, complete with minimum and maximum temperatures, wind speed and chances of sun or rain.

THE EPITOME OF COMFORT

Thanks to the long 2,700 mm wheelbase there is generous space for 5 people within the Niro. The ergonomic fascia and information clusters boast a wide dashboard set out on horizontal lines and there is an upper display sector within the instrument panel and infotainment screen set at the same height for instant, easier reading. The Niro even has a foot-operated parking brake to release more space for oddments in the centre console whilst space-saving front seats with special foam-backed covers and slim headrests contribute to the exceptional 5-seat space within the cabin.

8-way driver's power adjustable seat (sliding, reclining and height adjustment) - To help make driving as comfortable and effortless as possible, the 8-way power driver's seat adjusts vertically and for tilt and lumbar support.

The Integrated Memory System (IMS) also boasts a driver memory seat function which is very convenient when there is more than one person regularly driving the car.

Heated steering wheel
Perfect for cold starts

USB and AUX ports for connection of an audio media device (iPod/Memory stick) The USB/AUX connection gives you all of the port options you need for listening to your music or charging your devices on the move.

Ventilated front seats

Ventilated front seats provide cooling airflow on hot days. Heated front seats include a smart control system that incrementally lowers the heating of the front passenger seat over time.

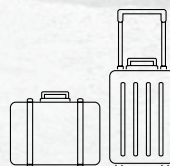

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

373 litres

of cargo capacity (HEV)

Even when all the seats are in use, the Niro can carry up to an impressive 373 litres of cargo. That means you can handle road trips, shopping trips and sporting events, and still have room for family and friends.

A ROOMIER, MORE VERSATILE APPROACH

The Kia Niro keeps your options wide open with plenty of space – and clever ways to configure it. The generous interior dimensions give both you and your passengers plenty of headroom and legroom, while a sizable cargo space takes care of all your luggage. The versatile rear seats split 60:40 and fold flat to give you more room, so you'll never need to worry about travelling too light.

60:40 split folding second row seats The rear seatbacks split 60:40 and fold flat for maximum cargo capacity and flexibility. Take advantage of all the choices to accommodate more combinations of passengers and cargo. As the seatbacks fold flat, the cargo area can accommodate large boxes or a stack of flat items.

Interior flexibility The Niro's interior is flexible enough to support a truly active lifestyle. It's equally well equipped for a night on the town, a day in the country or a week on the road. Seatbacks fold flat so longer items can fit while valuables can be stowed safely out of view.

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

SAFE FOR THE PLANET AND FOR PEOPLE

Kia's ADAP (Advanced Driver Assistance Pack) technology is dedicated to delivering driving pleasure, and the utmost in passenger and pedestrian safety, by taking over the tedious and complex tasks traditionally left to drivers.

Safety

Watches out for hazards, alerts you and intervenes when necessary

Convenience

Helps reduce stress and increases the pleasure of driving

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

Autonomous Emergency Braking – AEB* (is optional on the '2' and '3' and a standard feature on the '3 PHEV' and '4')

Evaluating both camera and radar data, Autonomous Emergency Braking (AEB) can detect a potential collision with a vehicle, pedestrian or obstacle, warn you and even apply maximum braking power to stop the vehicle or minimise damage.

AEB Warning Indicators

1. Forward Warning 2. Collision Warning 3. Emergency Braking

Monitoring vehicles ahead

AEB detects vehicles ahead and interprets data to predict potential collisions. If a collision seems imminent it will warn you, and if you don't respond it will intervene with maximum braking power to help prevent a collision with the car ahead.

Protecting pedestrians

AEB includes pedestrian detection. If the radar sensors or front cameras detect a stationary or moving pedestrian ahead, AEB will warn you. If you don't respond, it will brake for you to avoid or lessen impact.

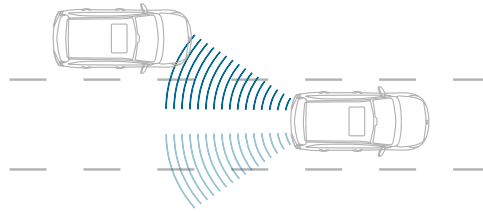

* Advanced Driving Assistance Pack comprises Autonomous Emergency Braking (AEB) and the Adaptive Smart Cruise Control function (SCC). Subject to special order.

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

UNCOMPROMISED SAFETY CREDENTIALS

The Niro helps you stay aware of your position and the movement of cars around you, and can even take actions to protect you. Like an extra set of eyes, innovative technology gives you vital information, including visual cues, to help you manoeuvre safely through your journey. Making instantaneous decisions, it helps you keep your distance from other vehicles and pedestrians, avoid potential incidents and find your destination with complete peace-of-mind.

Blind Spot Detection (BSD) with Rear Cross Traffic Alert (RCTA)

This is a standard feature on the '4'. When you drive out of a parking spot or driveway, this system gives you a warning if it detects any cross traffic in the lane the vehicle is entering.

Blind Spot Detection (BSD) uses sensors to monitor the side and rear of the vehicle, and using visual alerts informs the driver about vehicles in the blind spot, making it easier and safer to change lanes.

Lane Keep Assist System (LKAS)

This feature is designed to alert the driver that the vehicle is about to deviate from a traffic lane. The system helps the car stay on course within the centre of the lane by continuously applying a small amount of countersteering force.

Details within this brochure are not intended to be a description of the vehicle but are simply a general overview. For a more detailed description please speak to your Kia dealer. If a particular item is important to you, please make sure it is mentioned, in writing, when ordering your car. This disclaimer does not affect your statutory rights. Images shown are for illustrative purposes only and not to UK specification. Features shown are not necessarily standard across the range.

Adaptive Smart Cruise Control function (SCC)* - available as an option on the '2' - '3' and as a standard feature on the '3 PHEV' and '4'

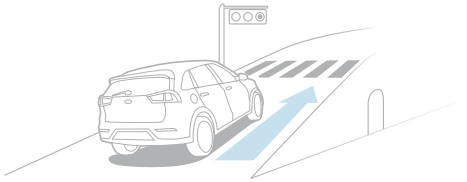

A radar sensor behind the grille measures the distance to the vehicle ahead, and automatically maintains a safe distance by controlling speed, up to the speed set by the driver even if the driver does not accelerate or brake.

* Advanced Driving Assistance Pack comprises Autonomous Emergency Braking (AEB) and the Adaptive Smart Cruise Control function (SCC). Subject to special order.

TECHNOLOGY THAT GENERATES PEACE-OF-MIND

Design reflects character and the Niro is built around a dedication to safety. From the advanced materials of its body and their placement, to the incorporation of the latest, most vigilant and most proactive driver assistance systems, safety is paramount in the Niro.

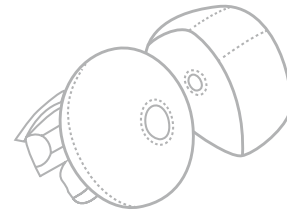

Hill-start Assist Control (HAC)

At a standstill on an incline, HAC prevents you from rolling backward by gently applying the brakes for up to two seconds as your foot goes from the brake to the accelerator.

Electronic Stability Control (ESC)

ESC ensures optimal braking performance and directional control by automatically delivering the right amount of braking force to each wheel based on an evaluation of engine torque and driving conditions.

7 Airbags

To help protect occupants and potentially reduce injuries in the event of a collision, the Niro offers driver and front passenger airbags, two front-side airbags, two side-curtain airbags and a driver's knee airbag as standard.

Advanced High Strength Steel (AHSS) and hot-stamped steel

The Kia Niro uses more than 53% Advanced High Strength Steel (AHSS), resulting in phenomenal rigidity. And hot-stamping of components is applied to 24 parts in stress areas. These measures greatly improve body strength, enhancing cabin protection and improving dynamic performance.

Advanced High Strength Steel

Hot-stamped components

Advanced adhesives

Aluminium body elements (bonnet/tailgate)

While critical points use more high-strength steel than ever, aluminium is used in the bonnet and tailgate to help reduce weight by as much as 11 kg for better handling and fuel economy.

PLUG-IN HYBRID

INSPIRED BY NATURE. COMMITTED TO THE ENVIRONMENT.

The advanced All-New Kia Niro Plug-in Hybrid brings sophisticated, nature-inspired design to eco-friendly driving. Enhanced with blue accents on the front and rear lower bumper, it's as refreshing to look at as it is to drive.

Charging port The All-New Niro PHEV can be charged with a Type 2 to 220V cable for domestic charging or a Type 2 to Type 2 cable. Both types of cables are supplied with the vehicle. AC charge time (6.6kW) is approximately 2 hours 15 minutes (0-100%).

In-cable control box The All-New Kia Niro Plug-in Hybrid is equipped as standard with an in-cable control box. The colour display on the cable indicates the battery charging status, so you can easily monitor the progress.

Full LED headlamps High-tech full LED headlamps add striking modern style and ultimate visibility, and even help to improve energy efficiency.

PLUG-IN HYBRID

ENHANCED COMFORT TO KEEP YOU REFRESHED.

You'll want to spend a lot of time behind the wheel of the All-New Kia Niro Plug-in Hybrid.

Navigation display The sophisticated navigation system displays useful information on energy flow, remaining battery charge and expected charging time to keep you well-informed.

Cluster The 4.2" Supervision Cluster with TFT LCD Colour Display – keeps all the important information at hand, including current driving mode and energy flow. You can customize the screen depending on the kind of information you want displayed, and choose which display style you want to see on the stylish digital colour display.

The image shows the front interior of a car. The dashboard is black with a central infotainment screen displaying 'Hybrid' and '140 mpg'. Below the screen are climate controls and a gear shifter. The steering wheel is black with the Kia logo in the center. The instrument cluster behind the steering wheel shows various gauges. The seats are black with a textured pattern. A rearview mirror is visible at the top of the frame. A text box with a white border is overlaid on the right side of the image, containing the title 'Hybrid/EV mode' and a paragraph of text. A white line connects the text box to the gear shifter area.

Hybrid/EV mode

At the touch of the HEV button located next to the gear box you can switch between EV and hybrid mode. In EV mode – ideal for urban driving – the system uses only electric energy for a zero-fuel, emission-free drive. Thanks to the capabilities of the large battery, you can enjoy an impressive range of up to 36 miles of pure electric driving. And when there's insufficient battery charge, the system simply switches automatically to hybrid mode. This mode operates both energy sources – using the petrol engine and the electric motor simultaneously to power the car.

ATTENTION TO DETAIL

- A Centre speaker
- B Front tweeter
- C Front door speaker
- D Rear door speaker
- E Subwoofer with enclosure
- F External amplifier

8-speaker JBL® premium sound system with subwoofer, external amp and front centre speaker ('3' upwards) Enjoy clearer, crisper music that fills the interior of the Niro with a vivid, lifelike presence. A state-of-the-art sound system includes an external amplifier, JBL® speakers, and innovative Clari-Fi™* music restoration technology that improves the sound quality of compressed music files and delivers high-definition sound.

* Please check with your dealer for mobile phone compatibility.

Steering wheel mounted controls Keep your eyes on the road. Remote controls let your fingertips adjust the audio, activate voice recognition, take or end calls, set speed limits and access the cluster menu.

USB and AUX ports for connection of an audio media device (iPod/memory stick) Connect audio players and mobile devices via USB or mini-RCA cords for convenient music playback.

Voice recognition and Bluetooth® with music streaming Communicate and stream content wirelessly, with minimal distraction using paired Bluetooth®-compatible devices.

Dual automatic air conditioning D-FATC automatically turns the air conditioner and heater on and off to maintain separate driver and front passenger temperatures.

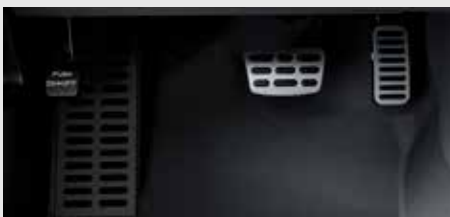

Wireless mobile phone charger ('3' upwards)* Charge a compatible mobile phone wirelessly on the charging pad located at the front of the centre console. There's no need to find and connect a cord. An illuminated indicator informs you of the charging status.

Engine start/stop button with smart entry system ('4') The engine start/stop button lets you turn the Niro's ignition on and off at the touch of a button. You'll never need to hunt for your keys again as the smart key gives you easy, keyless access.

Auto light control Set the stalk control to auto and the headlights and tail lights will come on automatically at dusk or in dark places.

Aluminium pedals ('4') Racing-inspired aluminium pedals offer a pattern of rubber nubs for grip, adding excitement to every drive.

Tyre Pressure Monitoring System (TPMS) keeps track of the pressure inside each of the tyres. It tells you which tyre is reporting under-inflation by displaying its pressure value on the cluster screen.

Rear wiper-mounted rear camera The rear camera is integrated with the rear wiper mount for a cleaner look, and to prevent lens soiling in bad weather.

Stainless steel door scuff plates ('3' upwards) Niro scuff plates create a sporty feel every time you get in or out, while also protecting the Niro's finish.

Electric sunroof ('4') A power sunroof opens or closes at the press of a button to let in sunshine light and fresh air.

Shark fin antenna A stylish, aerodynamic shark fin antenna provides optimised reception for AM/FM radio, digital radio and navigation systems.

* Please check with your dealer for mobile phone compatibility.

COMPLETE PEACE-OF-MIND

7-year vehicle warranty

Every Kia benefits from a 7-year/100,000 miles new car warranty. This bumper-to-bumper warranty is free and transferable to subsequent owners, provided the car is regularly maintained in accordance with the servicing schedule.

5-year paint warranty & 12-year anti-perforation warranty

High-quality body paint ensures long-lasting protection and shine for your new Kia. It also comes with superior corrosion protection and a 12-year warranty against rust from the inside out.

Stay in touch with Kia

Visit www.kia.com/uk for all the latest news and to find out more information about the Niro range.

Care-3

For complete peace-of-mind, Kia can offer you a great value fixed-price servicing package for your Niro which is called Care-3. Please speak to your Kia dealer for more information and pricing. Terms and conditions apply. Log onto www.kia.com/uk for details.

Financing

Your local Kia dealer can help you with a financing plan that's best suited to your needs. Log onto www.kia.com/uk for more details.

The official fuel consumption figures in mpg (l/100 km) for the Niro range are: Urban: 64.2 (4.4) - 74.3 (3.8). Extra-Urban: 62.8 (4.5) - 72.4 (3.9). Combined: 64.2 (4.4) - 217.3 (1.3). The official CO₂ emissions for the Niro range are 29-101 g/km.
