

LINCOLN NAVIGATOR

2013

How do you command the road? With confidence and purpose. From this driver's seat, the view of the road isn't the only thing worth noting. Here, surrounded by fine standard amenities like the voice-activated Navigation System and a rear view camera, you don't just see the road, you experience it. Taking in every beautiful twist and turn along the way. Lincoln Navigator makes sure of that. With best-in-class towing of up to 9,000 lbs.¹, a wide-ratio 6-speed automatic transmission, and a 5.4L 3-valve flex fuel V8 engine that effortlessly guide you through back roads as easily as city streets, Navigator gets you where you want to go.

IT'S MORE THAN AN SUV,
IT'S A STEADFAST PARTNER

It's easier to connect in here. Conversations flow. Worries fade. With SYNC,¹ there's no phone to find. No MP3 player to fumble. There's only the ease and elegance of open communications controlled by your voice commands and the slightest touch.

In fact, Lincoln technology makes staying in touch as simple as saying a word or pushing a button. Make calls, listen to text messages, or scroll through your music playlists on the center screen. Then say the name of the song you want to hear, and SYNC plays it. With AppLink,² you can control select smartphone apps like Pandora[®] internet radio by voice too.² Getting an incoming call? The system automatically mutes the volume to ensure you don't miss it – or a beat.

If an airbag deploys, SYNC with 911 Assist³ can use your phone to call for help. It can even give the operator an urgent message for you.

IT'S EASY WHEN YOUR LIFE
AND YOUR VEHICLE ARE IN HARMONY.

¹Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Not all features are compatible with all phones. ²SYNC AppLink is available on select models and compatible with select smartphone platforms. Commands may vary by phone and AppLink software. ³The vehicle's electrical system (including the battery), the wireless service provider's signal and a connected mobile phone must all be available and operating for 911 Assist to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to SYNC, and the 911 Assist feature enabled, in order for 911 to be dialed. When the feature is ON, 911 Assist uses your paired and connected mobile phone to assist occupants to contact emergency services by dialing 911 if your airbag deploys or, on certain vehicles, if the emergency fuel pump shut-off is activated.

Feel free to choose any seat. Lincoln Navigator boasts rich, premium leather trim in the 1st and 2nd rows, and genuine walnut swirl or olive ash wood¹ accents. Take the wheel, and enjoy how the leather feels within your grasp. Ease into your front seats - they're heated and cooled to 6 temperatures, and powered in 10 different ways.

Take others along for the ride, and wide-open spaces quickly become intimate. 2nd-row passengers will enjoy relaxing in comfort with 2 different heat settings, and playing games and movies on dual DVD head restraints.² A standard PowerFold[®] 60/40 split bench comfortably accommodates 3 more in the 3rd row, where the touch of a button swiftly folds either one or both seats to the floor, and where best-in-class, 3rd-row leg room³ offers plenty of space to stretch. The 2nd row also folds flat to create a level load floor, and a power liftgate quickly opens and retracts to make loading cargo a breeze. Enjoy the ride.

We all want to find our place in life.
Have confidence in knowing you can handle anything that comes your way -
and anything you need to take with you on your journey.

FIND YOUR SPACE IN THE WORLD.

With the Navigator L Cargo Management System, carrying loads is standard operating procedure. And thanks to a total of 42.6 cu. ft. of space behind the PowerFold® 3rd-row seat,¹ and the ability to easily tow up to 8,700 lbs. when properly equipped, you can handle it. The 6-speed automatic transmission with tow/haul mode helps keep you from gaining too much speed when towing downhill. And going up? It helps the engine stay in its power band so that you can keep your momentum. Standard trailer sway control works with traction control to monitor vehicle motion, and to help give you peace of mind.²

The Lincoln Navigator structural safety cage and dual-stage front airbags help protect the driver and front passenger, and full side-curtain airbags provide coverage for front-row passengers, as well as for outboard passengers in the 2nd and 3rd rows. The SOS Post-Crash Alert System™ can help first responders locate your vehicle.¹

To help you maintain control of the vehicle on slippery roads or in emergency maneuvers, standard AdvanceTrac® with RSC® (Roll Stability Control™) can apply the brakes and reduce engine power whenever it detects wheel slip,² to help keep you on course – and help get you to your destination.
