2001 CONTINENTAL

	02	American Luxury.
	04	The Freedom.
The Beauty.	06	
	12	The Serenity.
The Pampering.	14	
	16	The Features.
	20	The Facts.
The Calm.	22	
	24	The Palette.

Purposefully designed to attract all eyes, the Lincoln Continental offers both a

refined elegance, as well as an undeniable level of control. One trip down

your favorite stretch of road should more than prove it. An experience we hope

you'll come to appreciate yourself. Continental. True American luxury for 2001.

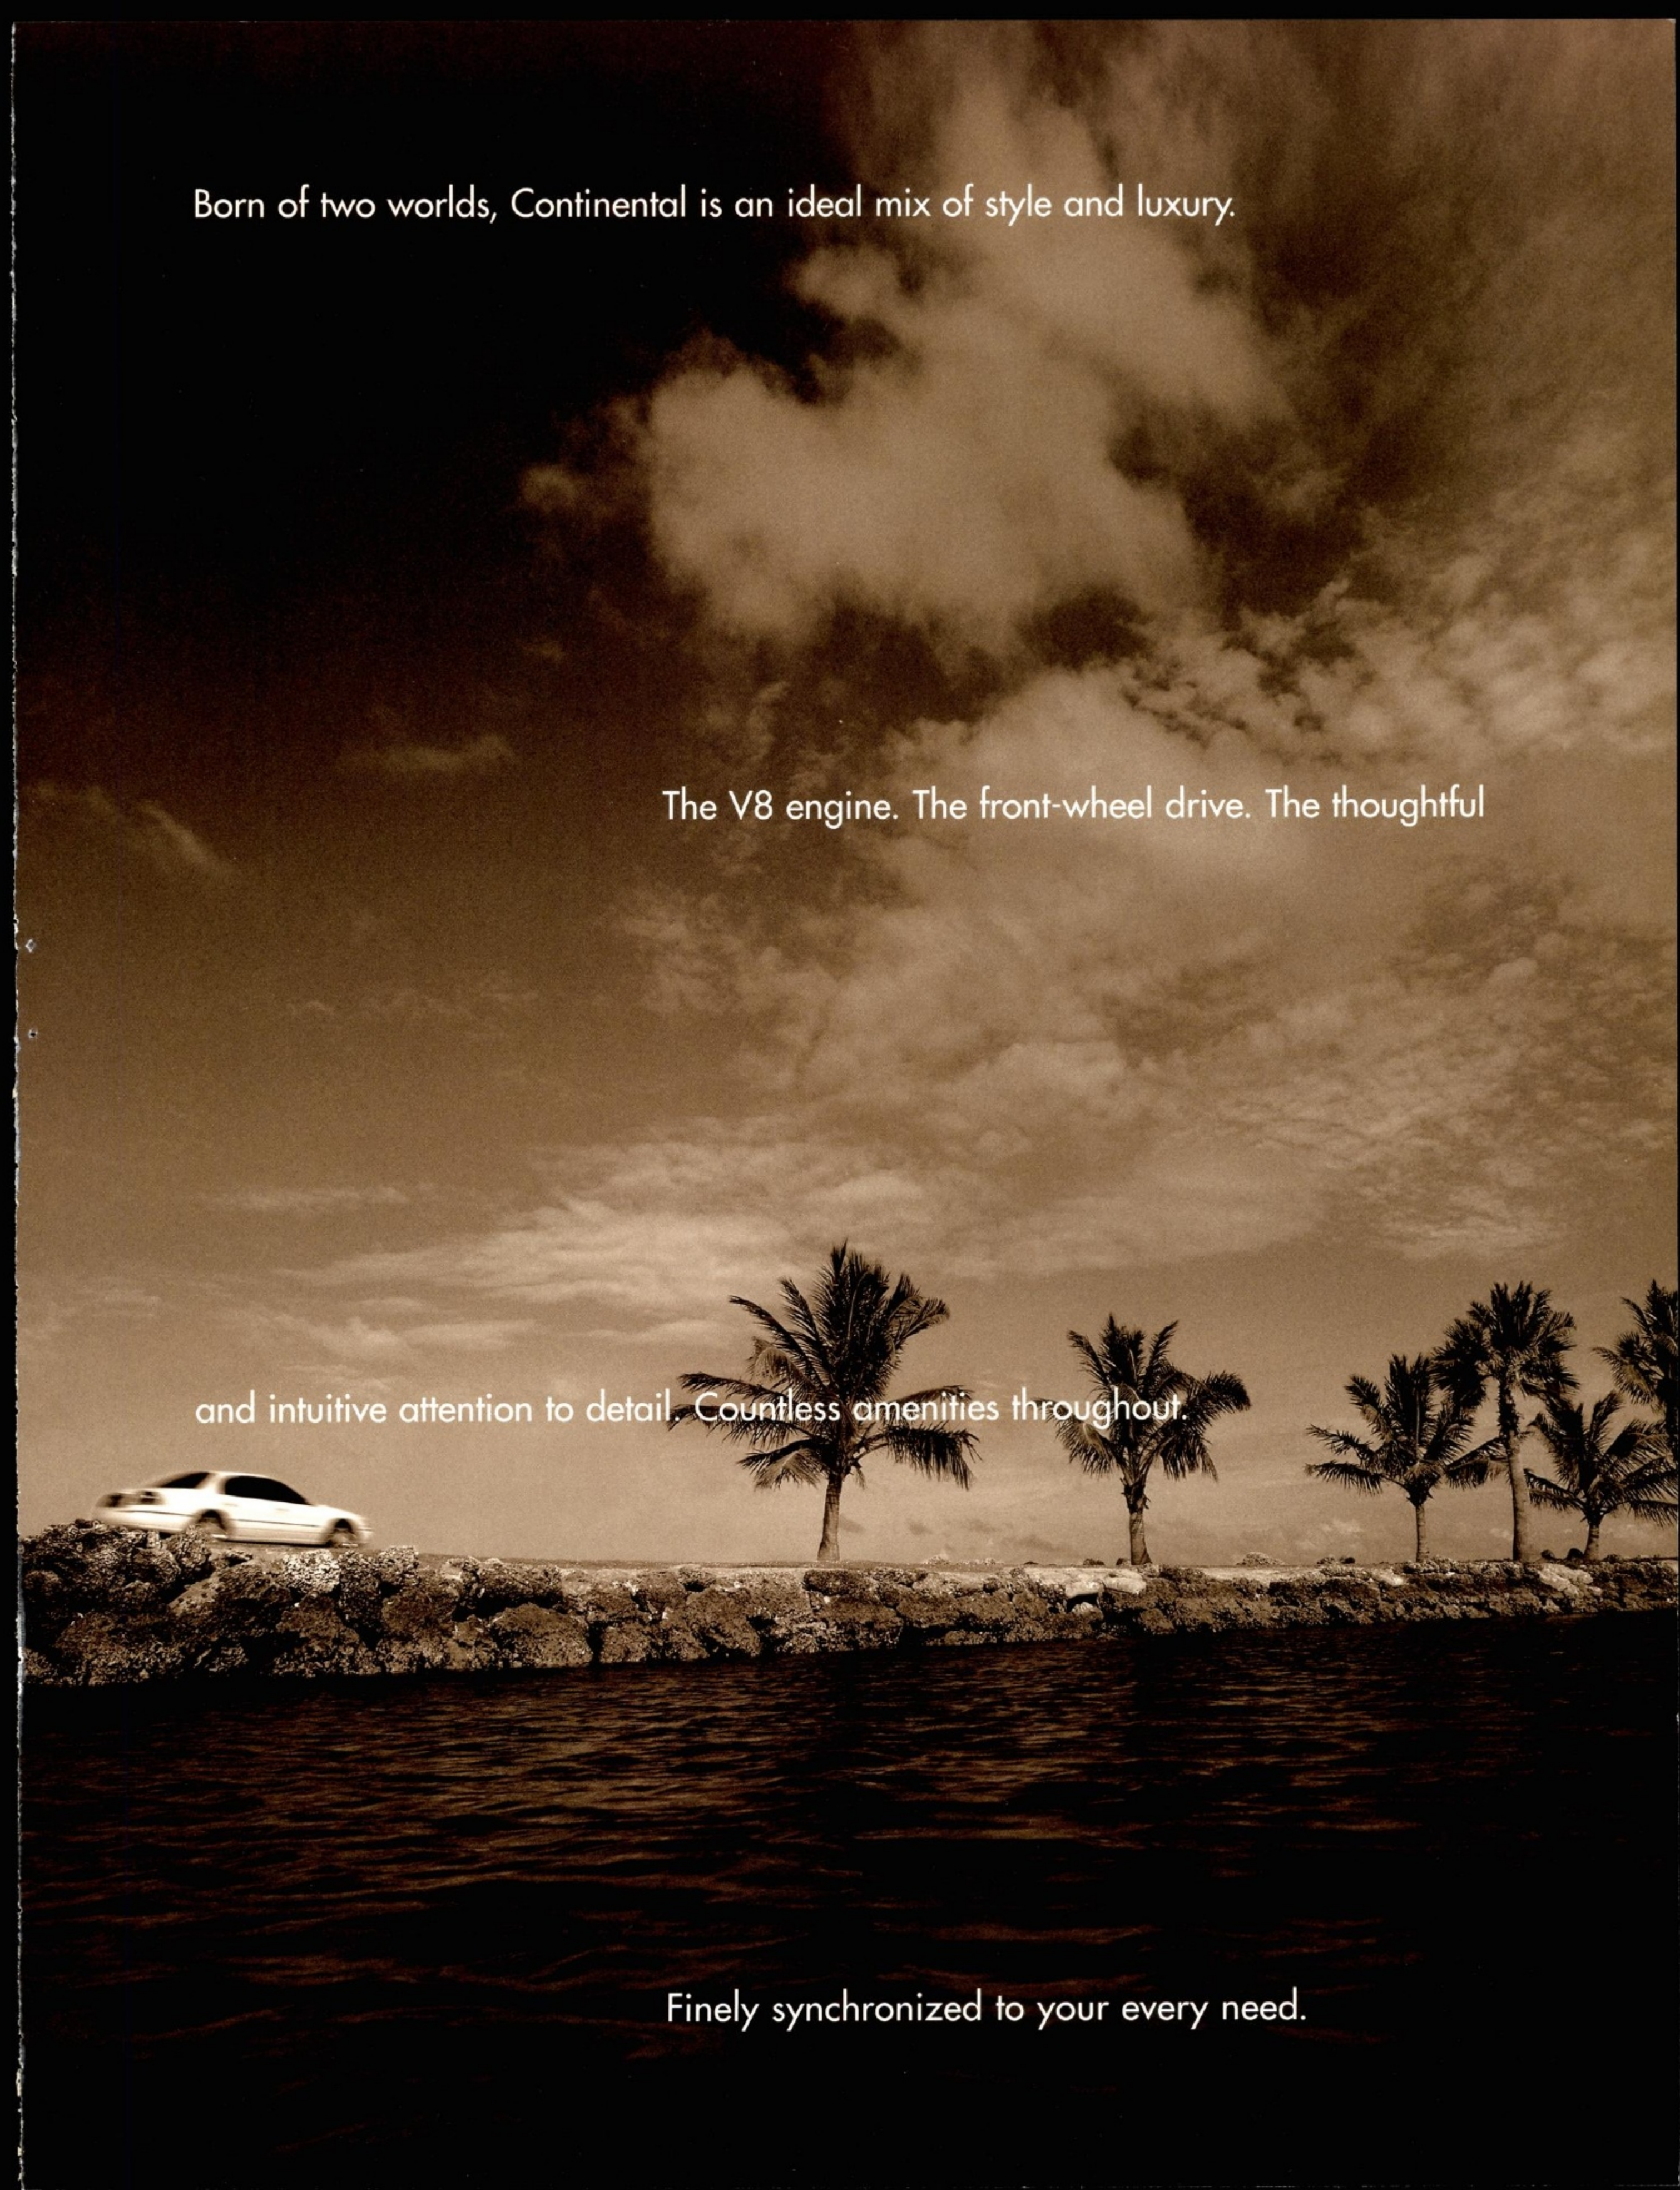

Born of two worlds, Continental is an ideal mix of style and luxury.

The V8 engine. The front-wheel drive. The thoughtful

and intuitive attention to detail. Countless amenities throughout.

Finely synchronized to your every need.

Continental's comfort

is undeniable. Rich

leather appointments.

Bird's-eye maple.

The highly ergonomic

instrument panel.

Whisking you away

to what feels like

a favorite vacation

spot. All without

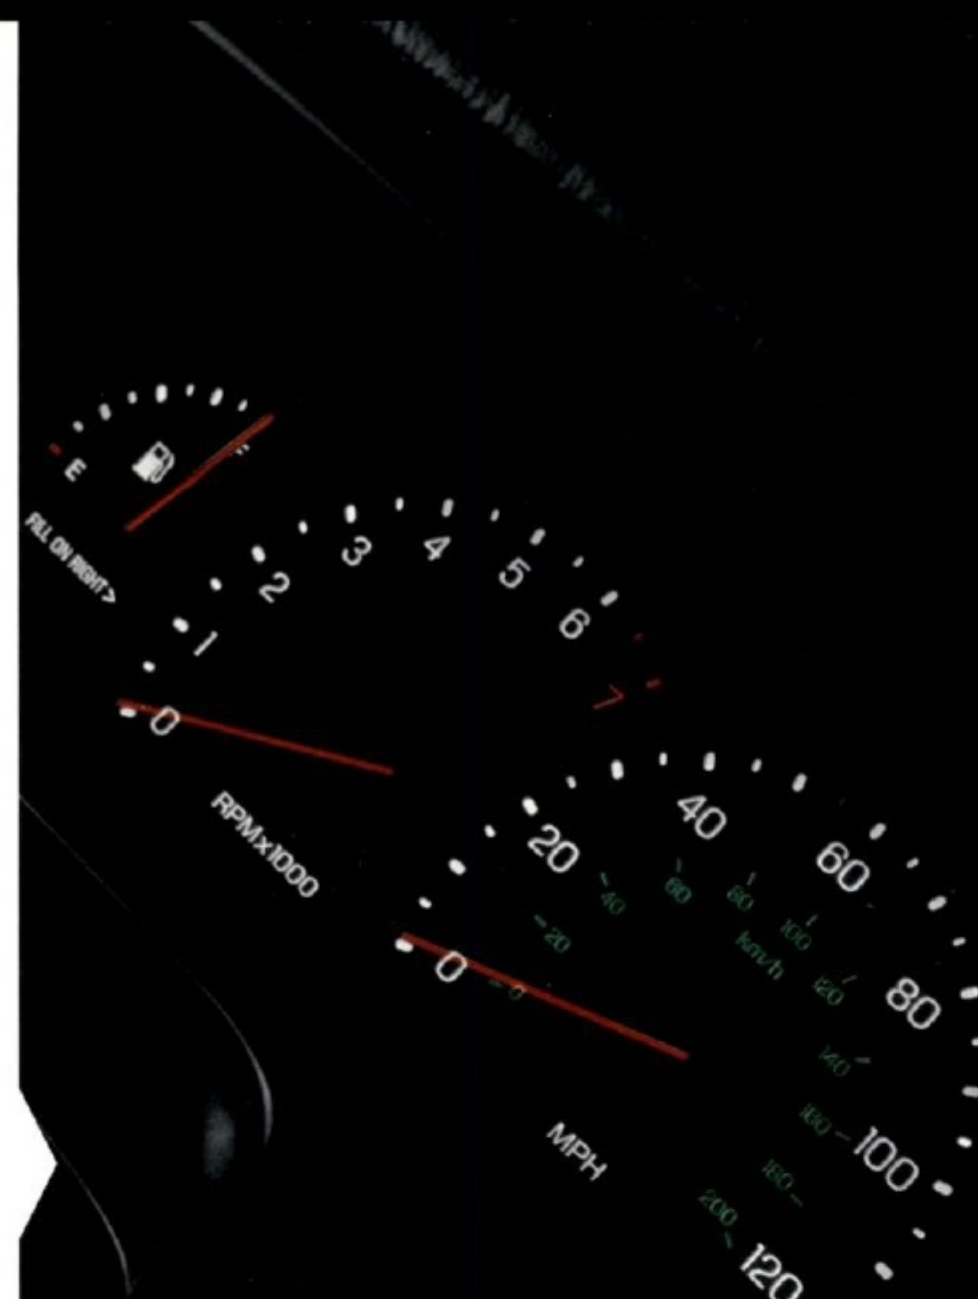

ever leaving its own

inner confines.

Lincoln Continental with Light Parchment interior. Shown with available equipment.

Lincoln Continental's **Virtual Image Instrument Cluster** uses highly visible graphics projected onto a black surface—giving the images and data a unique, diverse, three-dimensional appearance in lighting conditions such as bright sunlight or complete darkness.

Uniquely crafted into Continental's elegant console is the **leather-wrapped shifter**, which allows the driver to effortlessly control the 4-speed automatic transmission. Both sporty and functional, this handsome shifter is just one of many fine luxuries available for 2001.

Continental's elegant **wheel choices** start with a standard ten-spoke brushed aluminum wheel. Options include an eight-window highly polished aluminum wheel and an elegant six-spoke chrome wheel design. All are sixteen inch in diameter for style and ideal proportions.

An available **moonroof** welcomes in the sun, moon and stars. Or, if you prefer, just a pleasant touch of fresh breeze.

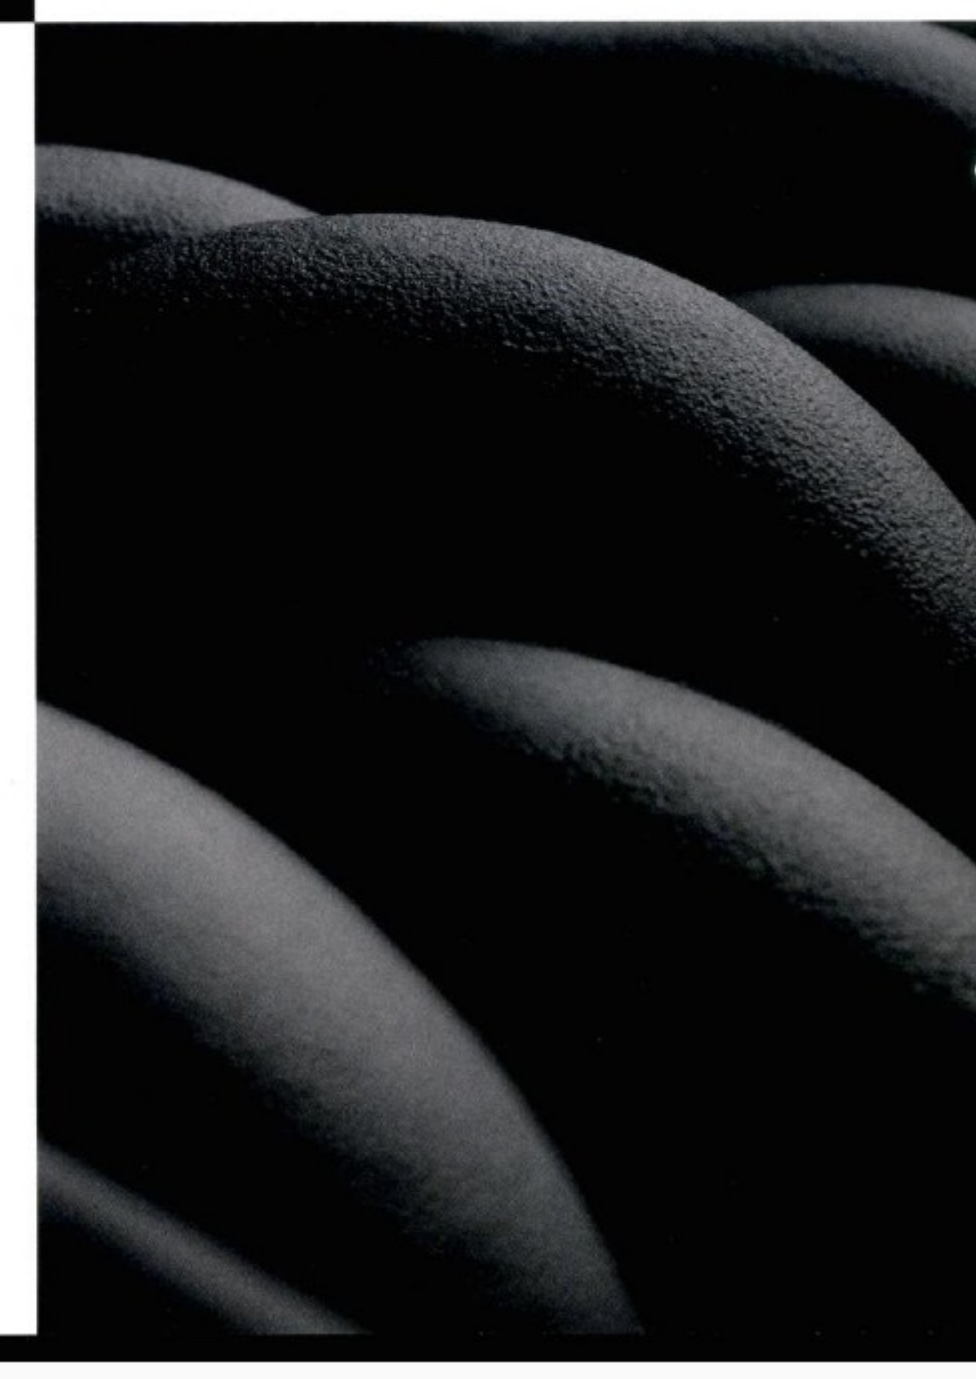

Located in the driver's visor, the standard **HomeLink®** allows up to three remote devices—your garage door opener or patio and driveway lights, for example—to be activated from inside Continental. This will eliminate the frustration of having to juggle old-fashioned hand-held remotes while trying to park or depart.

Lincoln's **Driver Select System¹** refers to a set of available driving conveniences that afford the driver a superior level of control. These conveniences include such things as selectable ride control, a semi-active suspension, duplicate steering wheel audio and climate controls, and the Memory Profile System.

¹Standard with 5-passenger seating.

Always mindful of the most intimate details, we've designed a gorgeous **rosewood and leather-trimmed steering wheel** with duplicate audio and climate controls. Proof that, with the Lincoln Continental, things can never be too luxurious or accommodating.

Continental's sophisticated 4.6L 32-valve **DOHC InTech™ V8 engine** delivers an impressively responsive, yet incredibly smooth 275 horsepower, and under normal driving conditions and with recommended fluid and filter changes will perform for 100,000 miles before a single scheduled tune-up.

The standard **All-Speed Traction Control** on the Lincoln Continental helps to maintain superior handling and steering on a variety of slippery road surfaces by electronically and automatically modulating engine torque output as well as brake behavior.

Even under adverse conditions, Continental's four-wheel disc **Anti-lock Brake System** contributes greatly to improved control during hard braking on a variety of road surfaces.

In addition to housing the available Alpine® Audio 6-disc **CD changer**, Continental's center console is conveniently designed in tandem with the gear shifter. This is just one of the many luxuries contributing to the interior's truly handsome appearance.

In a luxury car already well-equipped with safety features, **driver and front passenger side-impact head/chest airbags**¹ supplement Continental's existing airbag system, adding a whole new level of safety. A testament of our commitment to passenger safety.

¹Always wear your safety belt and secure children in the rear seat.

Coil-on-plug **electronic ignition** provides dependable spark sequences as well as more effective combustion chamber detonation—totally eliminating the need for spark plug wires.

On bad weather days, Continental's **exterior mirrors** can be heated to quickly melt away ice and snow for better clarity and safety. What's more, these mirrors will also tilt down automatically when the driver shifts into reverse, creating better curb visibility.

Contributing to a more comfortable and sophisticated ride, there's Continental's Short- and Long-Arm **independent rear suspension system** with stabilizer bar and air springs.

To ensure we're offering our customers the best service possible, we proudly offer the **Lincoln Personal Consultant**. Just visit our Web site at www.lincolnvehicles.com/pc and one of our manufacturer's representatives will help with anything from price quotes to product features to arranging a test drive at your local dealer—at no cost or obligation.

To satisfy the high standards of Lincoln customers, Continental features an independent **MacPherson strut front suspension**. This design is well-known for its superior cornering and excellent overall handling characteristics—helping to create a better ride.

The available Driver Select System contains the **Memory Profile System**¹ which delivers the comfort and convenience of programmable seats and mirrors, activated via a remote keyless entry key fob, keyless entry keypad or menu button on your message center.

¹Standard with 5-passenger seating.

The **overhead console** on the 2001 Lincoln Continental provides much more than mere maplights. It also offers storage for things like sunglasses and a tissue holder.

Even in the unfortunate event of lost or misplaced keys, you can still gain access to Continental, via the key fob or **programmable keypad** on the driver's side door, which will unlock the car after you have entered your personalized identification number.

A **remote Keyless Entry system** located on your keychain comes standard, providing Continental owners with the convenience of remote locking and unlocking, trunk release and a "panic" button to set off the horn and marker lights in an emergency.

The available Personal Security Package with the **SecuriTire® System** includes special tires with reinforced sidewalls, enabling the driver to maintain control after total tire air pressure loss. More importantly, the driver can safely continue traveling for up to 50 miles after tire pressure loss—depending on load, speed and driving conditions.

Drivetrain	
ENGINE	
LAYOUT	Transverse mounted front engine, front-wheel drive
TYPE	DOHC 32-valve InTech™ V8 with aluminum block and cylinder heads
DISPLACEMENT	4.6 liter /281 cu in
BORE & STROKE	90.2 mm x 90.0 mm /3.55 in. x 3.54 in.

Following publication of this brochure, certain changes in standard equipment, options, prices and the like, or product delays may have occurred which would not be included in these pages. Your Lincoln dealer is your best source for up-to-date information. Lincoln reserves the right to change product specifications at any time without incurring obligations. 2001 EPA mileage estimates were unavailable when this brochure was printed. Options shown or described in this brochure are available at extra cost and may be offered only in combination with other options or subject to additional ordering requirements or limitations. Information based on AAMA specifications.

A large sailboat is shown on the water at sunset. The sky is filled with dramatic, colorful clouds in shades of orange, yellow, and blue. The boat's mast and rigging are silhouetted against the bright sky. The water is dark and calm.

Precisely designed, Continental is your private charter

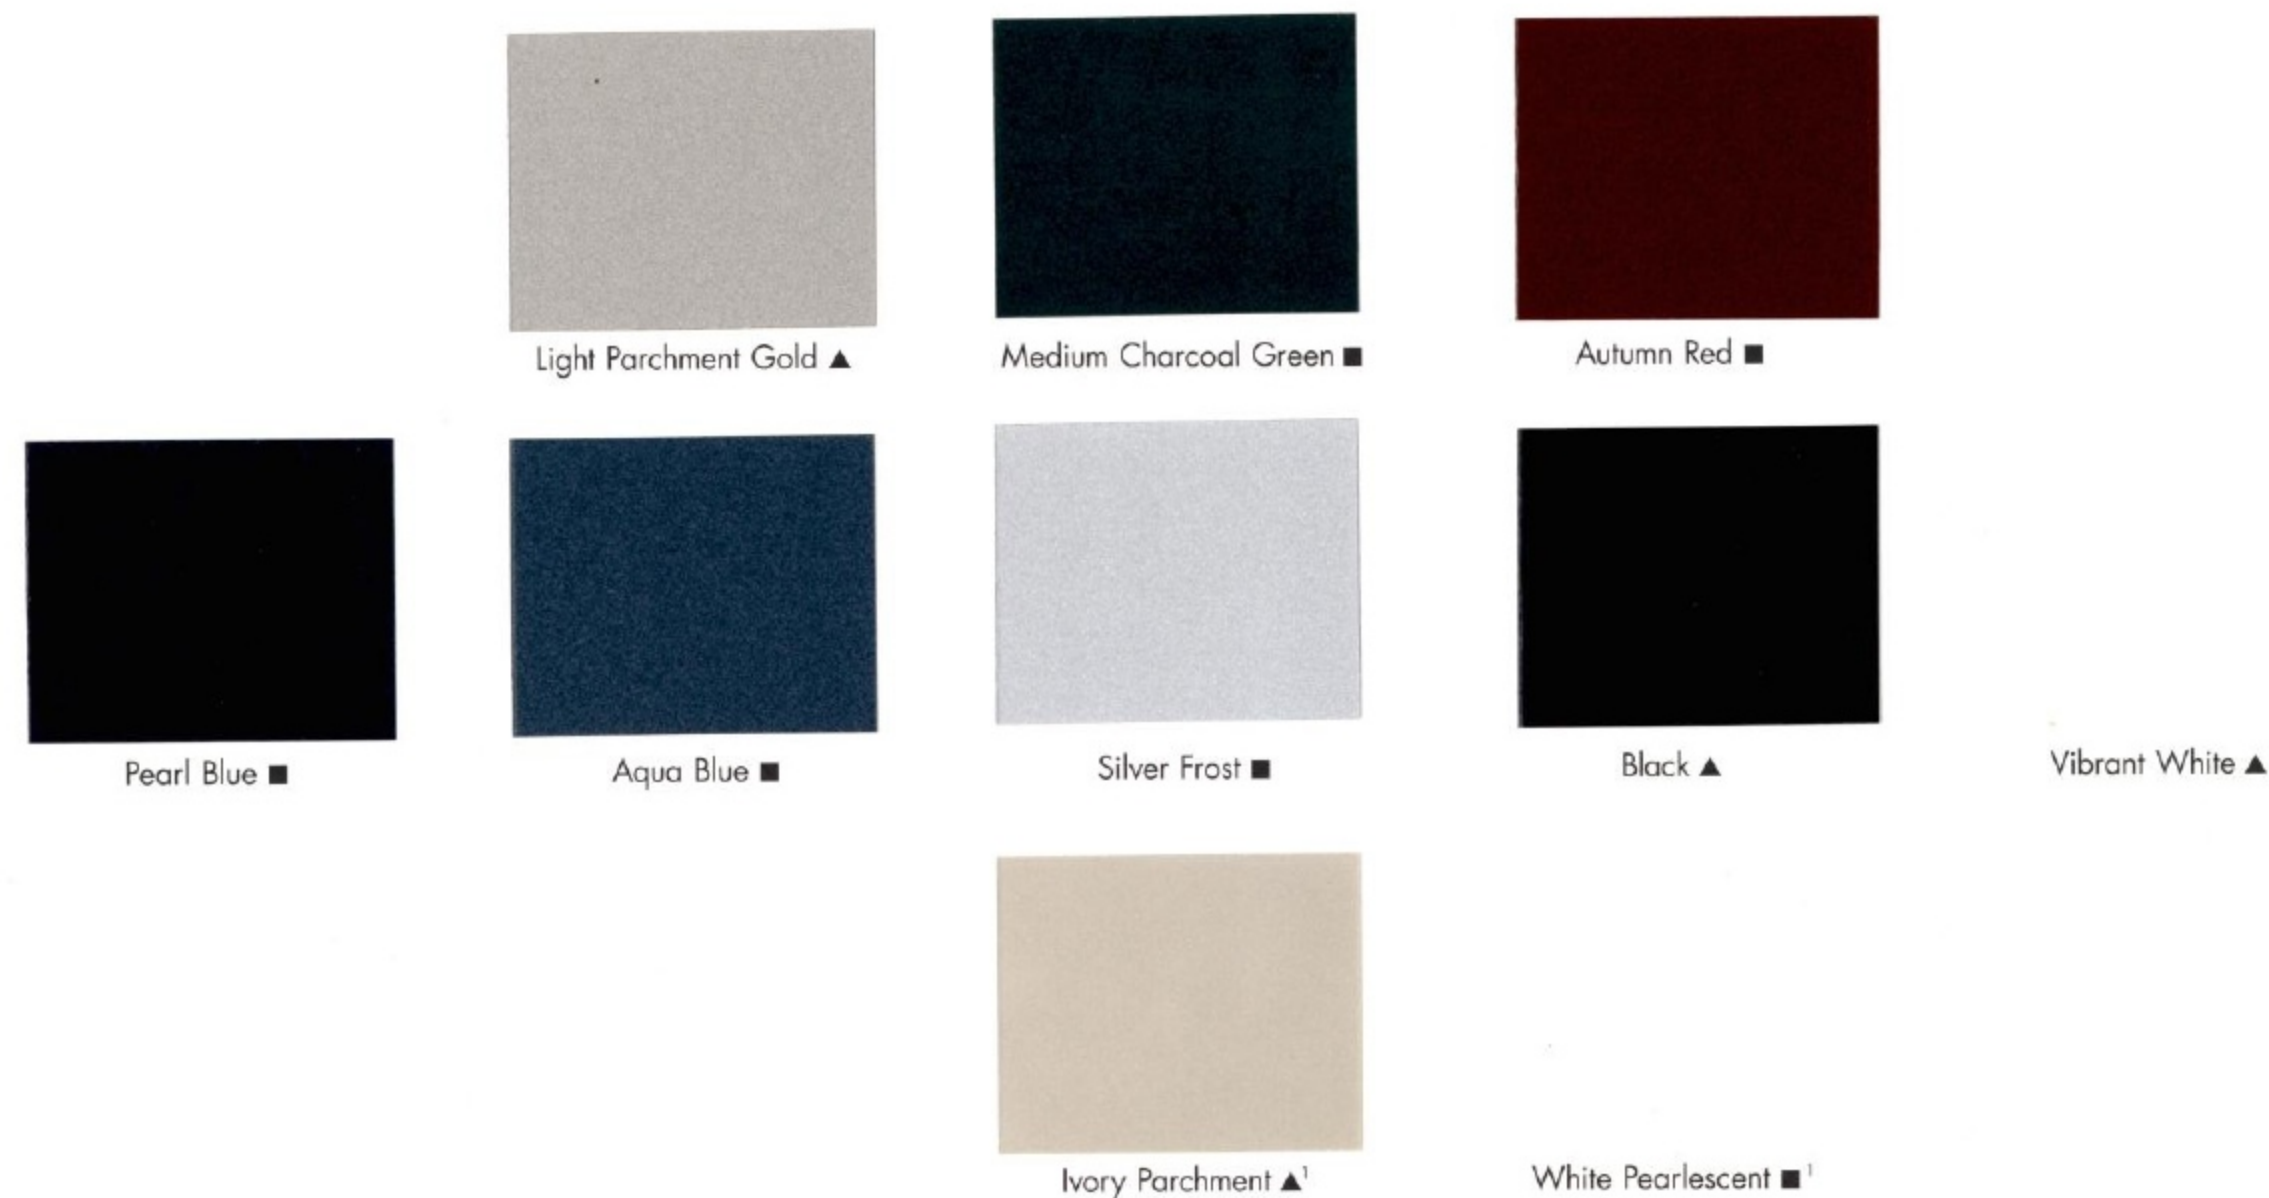

to the finer things in life. Its beauty is both

classic and contemporary at the same time. And most

everything you've come to expect from a Lincoln.
