

# B-Class

Mercedes-Benz

# First impressions

Life is full of surprises. With the B-Class you can make the most of them – with plenty of beautifully designed space, plenty of attitude, and plenty of forward-thinking technology. For example, the B-Class is packed with the latest electronic assistants, including Collision Prevention Assist, to ensure you experience a

comfortable and safe journey. And for a more efficient drive, there is BlueEFFICIENCY technology. It's our way of taking care of a more sustainable future. The new B-Class looks smart. Is smart.

[Overview](#) | from page 4    [Insights](#) | from page 16

## Featured models:

---

**B 200 CDI BlueEFFICIENCY Sport** | metallic paint | front cover and from page 2

18" bi-colour alloy wheels, panoramic sliding sunroof, Active Park Assist, Exclusive Package, Hazelnut Brown leather upholstery, Black Ash wood high-gloss trim

---

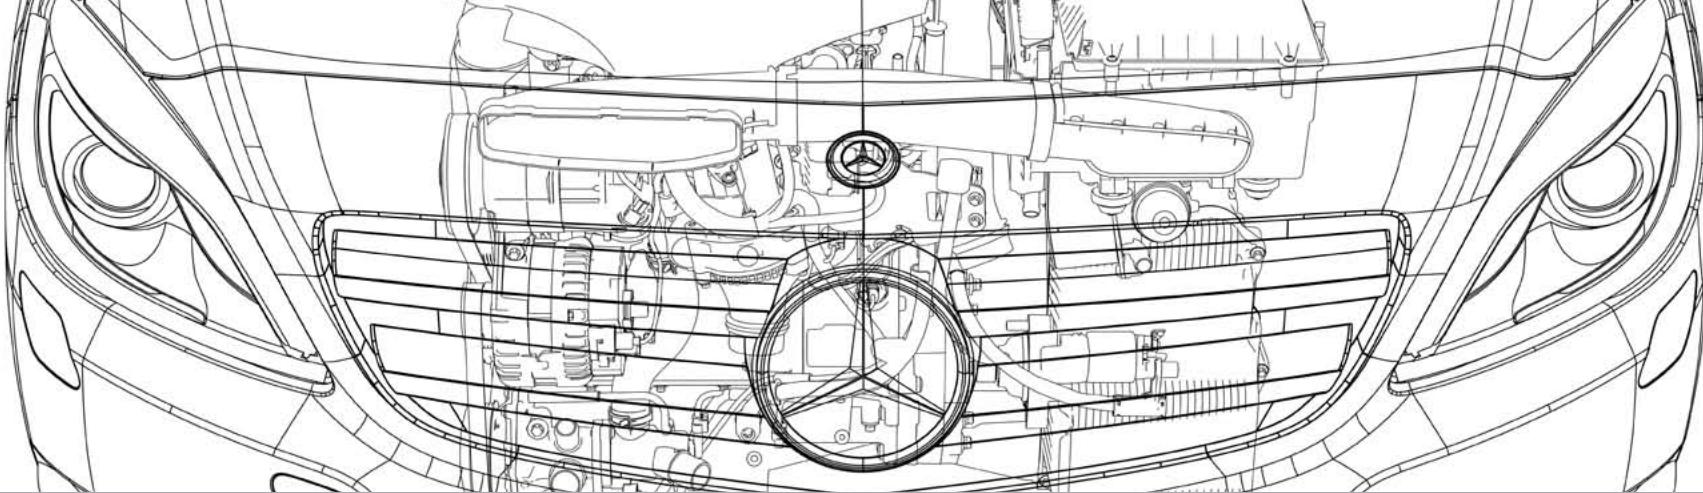

**B 180 BlueEFFICIENCY SE** | metallic paint | from page 10

17" alloy wheels shown (not available in the UK), Intelligent Light System, Domburg fabric upholstery in Grey, Matrix-look trim, luxury automatic climate control, heated seats, rear centre armrest

Specifications shown may include optional equipment and accessories

**See Mercedes-Benz in a new light.** With a wide selection of new finance and upgrade offers available across our model range, now is a great time to get yourself behind the wheel of a Mercedes-Benz. For further information contact your local Mercedes-Benz Retailer or visit [www.mercedes-benz.co.uk/offers](http://www.mercedes-benz.co.uk/offers)

# Facts

**For a pleasant journey:** BlueEFFICIENCY technology, diesel and petrol engines, plus two new transmissions - 6-speed manual and 7G-DCT 7-speed dual-clutch automatic.

Engines and suspension | from page 20

**For a safe arrival:** technologies that help prevent accidents and enhance occupant protection, including Attention Assist, Collision Prevention Assist, Adaptive Brake Assist and driver's kneebag.

Safety | from page 28

**For everyday luxury:** comfort features include ambient lighting, leather-trimmed multi-function steering wheel, driver's and front passenger's seat height adjustment, rain-sensing windscreen wipers and Light Assist with automatic light activation.

Comfort and convenience | from page 32

**For endless choice:** comprehensive standard equipment, plus optional Exclusive Package, alloy wheels and Retailer-fit accessories.

Equipment | from page 41

**For the best service:** test drive, Mercedes-Benz Finance and Insurance, Factory Collection, Interactive Owner's Manual, Roadside Assistance and Mercedes-Benz World.

Services | from page 56

**For the finer details:** technical data, dimensions and paint finishes.

Facts and finishes | from page 58

Space for even the fullest of lives

Whatever you've planned, the B-Class is ready for it. The B-Class provides the comfort required for those longer journeys and the space to carry plenty. Combine this with the joy of driving this exciting Mercedes-Benz with its even sportier, stylish look inside and out. The striking front with high-tech headlights and a ravishing side profile provide plenty of attitude. Pair this with the latest Mercedes-Benz safety systems and you have all the ingredients for a perfect day on the road.

B-Class Sport with optional panoramic sliding sunroof, Active Park Assist and metallic paint

Room for five and your inspiration

B-Class Sport with optional panoramic sliding sunroof, Active Park Assist and metallic paint

B-Class Sport with optional panoramic sliding sunroof, Active Park Assist and metallic paint

Your favourite song is on the radio, your friends in the rear provide you with the latest gossip. Sometimes one pair of eyes just doesn't seem enough to stay completely focused. To make sure you're well equipped for what's ahead, the B-Class is fitted with Collision Prevention Assist as standard – a first for a car in this class. This system constantly watches the road without ever getting distracted by events elsewhere. And with the possibility of up to ten other electronic assistants on board, it's just one of many ways the new B-Class looks out for you. → Page 28, 29, 34, 35

Always looks where you're going

B-Class Sport with optional panoramic sliding sunroof, Active Park Assist and metallic paint

Compact enough to fit in most parking spaces, spacious enough to accommodate all your adventures. The 486-litre load compartment provides plenty of room for your weekly shopping, luggage or pushchair. Need more space? Simply opt for the Easy-Vario-Plus system. For all your smaller items, there are clever storage compartments throughout, and should you need further space to keep those important items safely packed away, you can opt for the Storage Package. Needless to say, you and your passengers will enjoy lots of room to stretch your legs. → Page 36, 37

Interior shown includes optional luxury automatic climate control, COMAND Online system, Exclusive Package, Memory Package, Harman Kardon® Logic 7® surround sound system, automatic transmission and rear centre armrest

Whether you choose  
Jupiter Red or Cirrus White,  
there are blue skies ahead

With the new B-Class you're always one step ahead. By saving fuel and reducing emissions, recycling materials and protecting resources, we're helping you look after the future. In addition to the standard BlueEFFICIENCY and ECO start/stop technologies, the B-Class also features one of the best drag coefficients around, making it even more efficient – what ever paint finish you choose. → Page 20, 21

B-Class SE shown in optional metallic paint with optional bi-xenon headlamps and LED daytime running lights. Alloy wheels shown not available in the UK

Everyone loves surprises, but wouldn't you like to know what's around the corner?

B-Class SE shown in optional metallic paint with optional bi-xenon headlamps and LED daytime running lights. Alloy wheels shown not available in the UK

Brains and beauty

B-Class SE shown in optional metallic paint with optional bi-xenon headlamps and LED daytime running lights. Alloy wheels shown not available in the UK

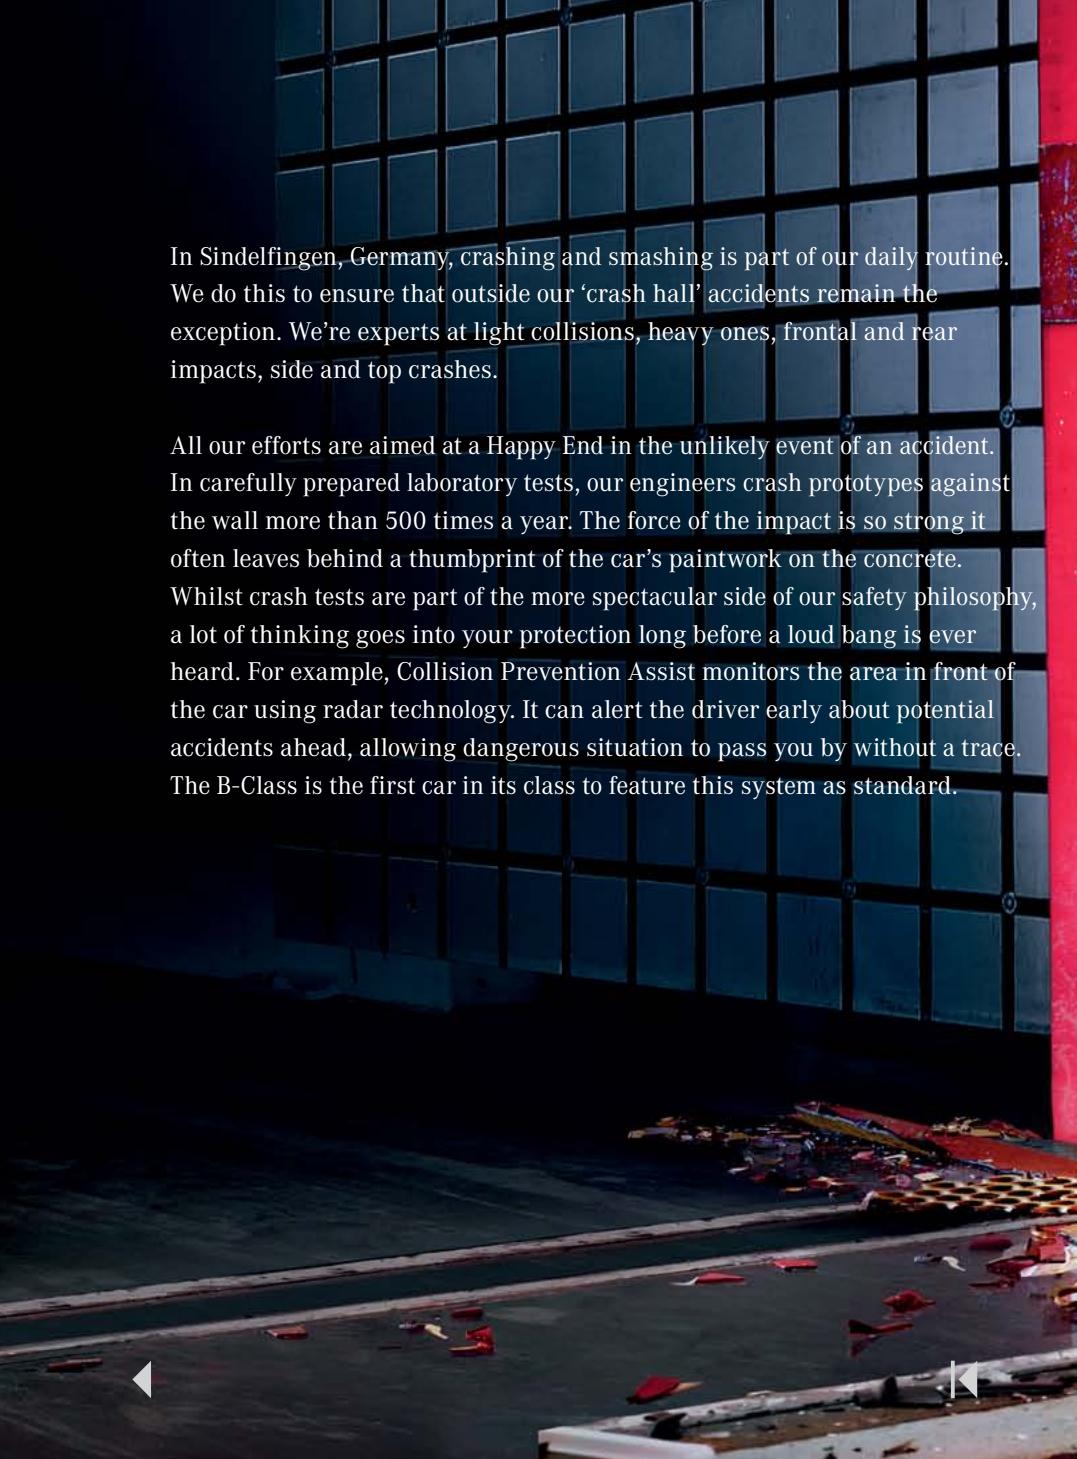

Wherever life takes you, with the B-Class you're travelling in style. Choose the B-Class SE for comprehensive standard equipment including leather steering wheel, chrome styling and Active Park Assist. The B-Class Sport stays true to its name with features such as 18" bi-colour alloy wheels, sports suspension, Direct Steer system, bi-xenon headlamps and privacy glass. For further luxuries, the optional Exclusive Package has sumptuous leather and wood trim. Whether you prefer stylish chrome details throughout the cabin, heat-insulating privacy glass or beautiful ambient lighting, the B-Class' attention to detail creates a unique atmosphere of well-being. → Pages 41-60

In Sindelfingen, Germany, crashing and smashing is part of our daily routine. We do this to ensure that outside our 'crash hall' accidents remain the exception. We're experts at light collisions, heavy ones, frontal and rear impacts, side and top crashes.

All our efforts are aimed at a Happy End in the unlikely event of an accident. In carefully prepared laboratory tests, our engineers crash prototypes against the wall more than 500 times a year. The force of the impact is so strong it often leaves behind a thumbprint of the car's paintwork on the concrete. Whilst crash tests are part of the more spectacular side of our safety philosophy, a lot of thinking goes into your protection long before a loud bang is ever heard. For example, Collision Prevention Assist monitors the area in front of the car using radar technology. It can alert the driver early about potential accidents ahead, allowing dangerous situation to pass you by without a trace. The B-Class is the first car in its class to feature this system as standard.

Now a feature in all the best families

Let's face it – smaller passengers often forget their manners. They work on their singing career during the rush hour, redesign your rear seats with biscuit crumbs, or pull faces at fellow drivers at the traffic light. They simply do what they do best: being a child.

If you're looking for a relaxed and uninhibited environment where you and your passengers can be yourselves, get into the B-Class. The carefully crafted interior provides a cosy home from home with heat-insulating privacy glass for the rear windows (standard on the Sport). All the world will get to see, is a striking car with a truly respectable family inside.

## BlueEFFICIENCY – quicker from today to tomorrow

Our comprehensive BlueEFFICIENCY measures have already brought significant cuts in fuel consumption to many current Mercedes-Benz models, helping to lower both their CO<sub>2</sub> emissions and their running costs. What's more, we are continuing to develop new environmentally friendly technologies that will reduce emissions even further and help to make motoring more sustainable in the long term.

**BlueEFFICIENCY – the Mercedes-Benz efficiency drive.** In addition to highly advanced and efficient engines, BlueEFFICIENCY models come with a range of energy-saving measures that enable fuel consumption and CO<sub>2</sub> emissions to be reduced by up to 25%. These measures vary from model to model but can include ECO start/stop, on-demand ancillary components and low-resistance tyres, as well as aerodynamic optimisation and the use of lightweight materials.

**BlueTEC – cleaner diesel power.** BlueTEC is our cleanest diesel technology to date. Its combination of advanced common-rail direct injection, optimised combustion and modular emissions control systems reduces particulate levels by up to 95% and removes up to 90% of nitrogen oxides, leaving little but water, harmless nitrogen and the satisfaction of knowing you've done your bit for the environment.

**HYBRID and BlueTEC HYBRID – the future of internal combustion.** The next stage in our efficiency drive, hybrid drivetrains will bring new levels of fuel efficiency and emissions reduction to tomorrow's Mercedes-Benz passenger cars. The diesel equivalent, BlueTEC HYBRID, combines the benefits of hybrid drive with the clean-burn technology of BlueTEC.

**Innovative designs, the new direction: E-CELL and F-CELL.** We have developed two locally emission-free drives, which since 2010 are produced in small numbers. The B-Class F-CELL<sup>1</sup> utilises hydrogen to generate electricity for the electric motor; the A-Class E-CELL<sup>1</sup> draws its energy directly from two lithium-ion batteries.

**Design for Environment.** Our environmental philosophy is not just about in-car technologies. It also involves taking the entire lifecycle of each vehicle into account, from its initial planning to its end-of-life recycling. In addition, Mercedes-Benz is involved in the development of alternative fuels and conducts research in the field of bionics.

For more information about our holistic approach, see [www.mercedes-benz.co.uk/blueefficiency](http://www.mercedes-benz.co.uk/blueefficiency)

<sup>1</sup> Provisional efficiency rating: A++

Figures are not based on an individual vehicle and do not constitute part of the product offer; they are provided solely for purposes of comparison between different models

## B-Class BlueEFFICIENCY

With its comprehensive sustainable approach, the new B-Class combines performance and dynamics with pioneering efficiency technologies and innovative measures to reduce both fuel consumption and harmful emissions.

Every B-Class comes with BlueEFFICIENCY as standard. As a testament to its green credentials ranging from the manufacturing process through to its recycling measures, the B-Class has been awarded with the environment certificate 'Design for Environment' (ISO/TR 14062).

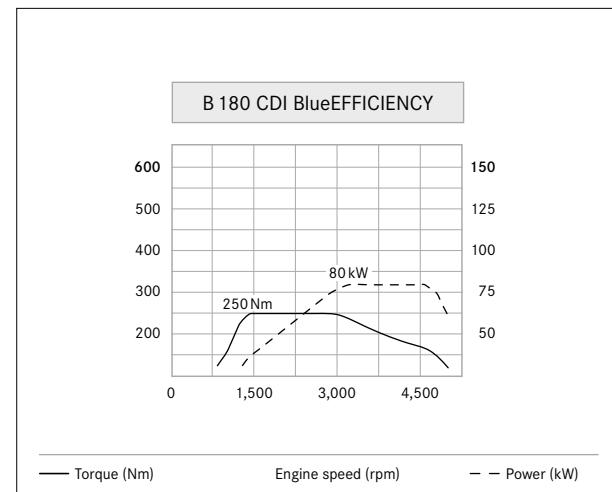

BlueEFFICIENCY covers a range of measures:

- 1 Energy-saving ancillaries
- 2 Adjustable radiator shutters and intelligent oil pump management
- 3 Highly efficient generator
- 4 New engines with petrol direct injection; optimised diesel engines
- 5 Air-conditioning compressor feature
- 6 Enhanced aerodynamics. Improvement by 13% compared to previous model (drag coefficient 0.26)
- 7 ECO start/stop function
- 8 Driver information to encourage fuel-efficient driving
- 9 Euro 5 emissions standard across the range
- 10 Tyres designed for lower rolling resistance
- 11 New 7G-DCT 7-speed dual-clutch automatic transmission (optional)

## Diesel engines

Cleaner, more efficient, more powerful: The new B-Class is a showpiece for Mercedes-Benz diesel technology. The engines are quiet yet bursting with energy, offering low fuel consumption and reduced emission levels.

**4-cylinder diesel engines.** The 4-cylinder diesel engine offers a torquey performance and an impressive response even at a low engine speed, while also ensuring improved fuel efficiency and reduced CO<sub>2</sub> emissions.

The B 180 CDI BlueEFFICIENCY engine reaches maximum torque between 1,400 and 2,800 rpm

Noise and vibration levels have also been significantly reduced. The key to this impressive set of achievements is a combination of advanced technologies. The engines' fourth-generation common-rail system boasts ultra-precise magnet valve injectors, increased pressures of 1,800 bar and further optimised combustion chambers. The higher ignition pressure and turbocharging mean high levels of torque are available at any engine speed.

A whole range of measures helps to further increase overall vehicle efficiency of the B-Class. These include tyres with lower rolling resistance, improved aerodynamics and intelligent ancillary unit management. In addition, the current engine generation boasts impressive performance and high levels of torque whilst keeping fuel consumption and CO<sub>2</sub> emissions low.

All diesel engines feature the ECO start/stop function, which temporarily shuts off the engine when the car is stationary. They also meet the Euro 5 standard for exhaust emissions.

There are two 4-cylinder diesel engines to choose from:

- B 180 CDI BlueEFFICIENCY – 109 hp (80 kW) with 250 Nm maximum torque
- B 200 CDI BlueEFFICIENCY – 136 hp (100 kW) with 300 Nm maximum torque

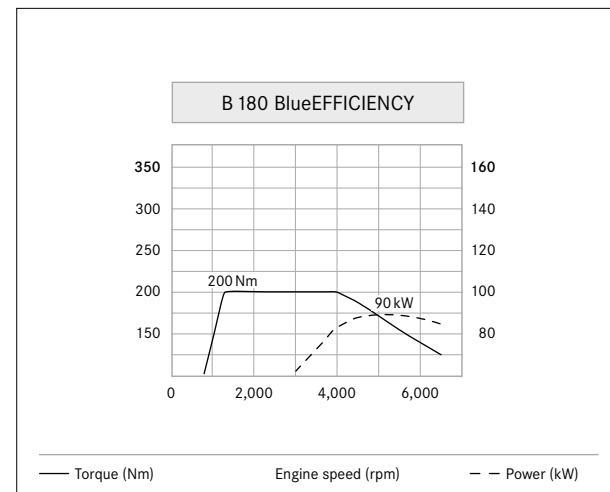

The new 4-cylinder B 180 CDI BlueEFFICIENCY diesel engine combines high levels of torque with low fuel consumption and reduced emissions

## Petrol engines

The new petrol engines deliver on all fronts: they boast significantly lower fuel consumption and reduced CO<sub>2</sub> emissions, with performance continuing to be impressive.

**4-cylinder petrol engines.** Direct petrol injection, variable valve control and turbocharging help this all-new 1.6-litre 4-cylinder petrol engine to deliver high levels of power and torque along with low fuel

The B 180 BlueEFFICIENCY offers 200 Nm maximum torque between 1,250 and 4,000 rpm

consumption and emissions, as well as reduced noise and vibration levels.

For higher combustion efficiency and performance which, in turn, guarantees lower fuel consumption, the refined combustion system works with direct petrol injection and highly precise piezo injectors. Variable camshaft control ensures precisely the right amount of fuel is used for any given situation. Weight-savings and lower internal friction also help to further reduce fuel consumption.

But that's not all: the standard ECO start/stop function equally increases the engine's efficiency. As soon as the car is stationary, at a traffic light or in a traffic jam, the engine is switched off to save fuel and to lower CO<sub>2</sub> emissions.

The new petrol engines also benefit from BlueEFFICIENCY measures to reduce the warming up phase, intelligent oil pump management and a highly efficient generator.

There are two 4-cylinder petrol engines to choose from:

- B 180 BlueEFFICIENCY with 122 hp (90 kW) with 200 Nm maximum torque
- B 200 BlueEFFICIENCY with 156 hp (115 kW) with 250 Nm maximum torque

Both 4-cylinder B-Class petrol engines meet the current Euro 5 emissions standards.

The newly developed B 180 BlueEFFICIENCY 4-cylinder petrol engine features direct injection with piezo injectors and turbocharging

## Transmissions

Whether you choose the 6-speed manual or our latest 7G-DCT 7-speed dual-clutch automatic, both transmissions are tailor-made to suit the B-Class' individual engines with optimised weight and excellent levels of performance and drive comfort.

**6-speed manual transmission (standard).** All engines come with our new 6-speed manual transmission combined with ECO start/stop function as standard. The 6-speed manual transmission benefits from short, precise shift throws while the transmission ratios are ideally matched to the engine and the final drive ratio. The ECO start/stop function temporarily switches the engine off when the car is coming to a standstill, for example, at a red traffic light, or when in a traffic jam. It restarts as soon as you touch the accelerator or depress the clutch. Additionally, a shift point indicator and current fuel consumption display helps you to drive more efficiently.

**7G-DCT 7-speed dual-clutch automatic transmission (optional).** The dual-clutch transmission achieves a unique combination of comfort, sportiness and efficiency. It consists of two part-transmissions, each featuring its own clutch. One is responsible for the 'even' gears, the other takes care of the 'odd' ones. During acceleration or braking, the transmission that is currently not in use will preset the next higher or lower gear. When changing gear, the system switches to the currently inactive transmission. As a result, gear changes are delivered faster without loss of throttle. Both clutch and gear changes are fully automatic to ensure significantly smooth gear shifts. The driver can choose between 'Economy', 'Sport' and 'Manual' modes to suit their individual driving style. The 'Sport' mode, for example, will choose a higher gear at higher revs than in 'Economy' mode, and lower gears are activated sooner. For an even sportier driving style, drivers can shift gears via the 'Manual' mode, or use the steering wheel shift paddles.

For greater efficiency, the transmission also features ECO start/stop function. Additionally, an ergonomic Direct Select gear shift lever, Cruise Control and Speedtronic are also standard on the 7G-DCT 7-speed dual-clutch automatic transmission.

Comfortable gear shifts without throttle disruption: the new 7G-DCT

# Suspension

Whatever suits your day. The B-Class offers a refined choice of suspension packages, including sports suspension and direct steering.

**Suspension and steering.** Completely redesigned and optimised, the new suspension combining McPherson front axle and new four-link front suspension ensure optimum road holding and ride comfort. The standard rack-and-pinion steering system with integrated Steer Control offers precise handling in critical driving situations. For additional comfort and safety, the electro-mechanical power steering decreases at increased speeds.

**Sports suspension** (as part of the B-Class Sport). The sports suspension with selective dampers combines agility and drive safety with excellent body control. Springing and gas pressure dampers are firmer than on the comfort suspension. The sports suspension also features a 15 mm lower chassis for reduced bodyroll and greater road holding abilities.

**Direct Steer system** (as part of the B-Class Sport). Featuring an innovative spur rack, this system blends driver comfort and safety with a sporty edge. Working together with the suspension system, the Direct Steer system allows a more spontaneous response to steering movements. At lower speeds, in tight corners or, when parking, for example, very little steering effort is required. At higher speeds, straight-line stability is outstanding.

The sports suspension with electronic damping and automatic damping force

# Safer driving

A relaxed driver is a better driver. That's why the B-Class helps avert critical situations with electronic assistants that come to your aid before a potential accident occurs.

**Attention Assist** (standard). If it detects signs of tiredness, Attention Assist alerts the driver via visual and acoustic warnings and recommends taking a break. It monitors driver behaviour via an array of sensors and registers unexpected changes that may indicate drowsiness or concentration lapses.

Attention Assist recommends a break when the system detects tiredness or a lack of concentration

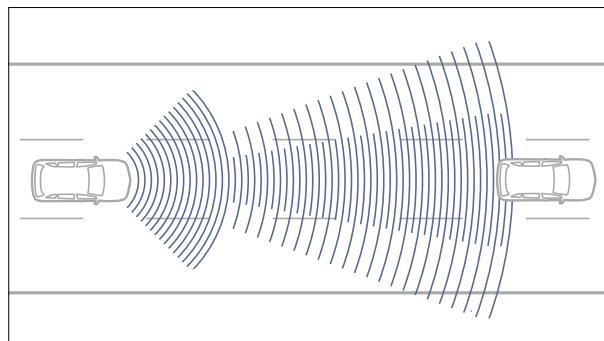

**Collision Prevention Assist** (standard). Collision Prevention Assist can alert the driver if the distance to the vehicle in front decreases with unusual rapidity, thereby helping you to avoid front-end shunts. The radar-assisted warning system works from speeds around 20 mph. When the brakes are then applied, the Adaptive Brake Assist function can automatically increase the brake force if necessary, ensuring the available stopping distance is exploited to the full and thereby increasing the chances of avoiding an impact.

Collision Prevention Assist alerts the driver via acoustic and visual warning if the distance to the car in front becomes too low

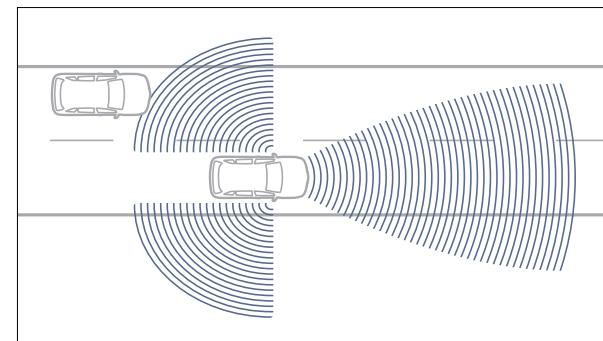

**Adaptive Brake** (standard). In conjunction with anti-lock braking system (ABS), this modular driving dynamics system helps improve traction and drive comfort, enhancing the B-Class' safety performance in critical driving situations. It includes automatic brake drying for driving in wet conditions, ensuring a faster reaction to the pedal and thus a shorter stopping distance. By priming the brakes, the system automatically moves the brake pads into surface contact with the brake discs when the driver suddenly takes the foot off the accelerator. This enables the brakes to engage fully and firmly in less time. During hill starts, the system helps prevent unintentional rolling backwards when switching from brake pedal to accelerator. Additionally, the hold function, activated by pressing the pedal twice, holds the car stationary, even if the driver takes the foot off the brake pedal.

**Distronic Plus** (optional). Distronic Plus helps you keep the required distance to the car in front. The system is especially beneficial in urban traffic, as the sensors stay active between 0 and 200 meters. Distronic Plus applies the brakes automatically (bringing the car to a standstill if necessary) and accelerates again once the situation allows. There are two short-range radar sensors located behind the front bumper, with the long-range radar behind the radiator grille.

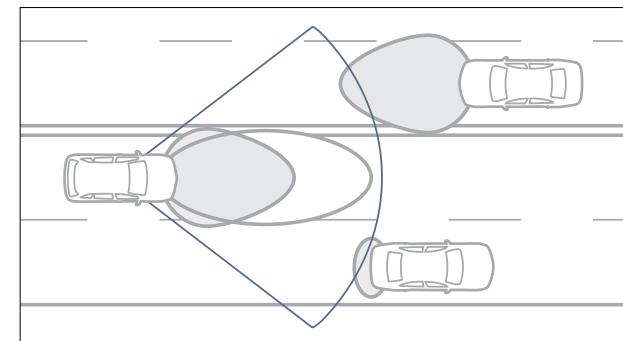

Distronic Plus helps the driver keep the required distance to the car in front

**Lane-Keeping Assist/Blind Spot Assist** (as part of the optional Lane-Tracking Package). Lane-Keeping Assist reads lane markings by recognising contrasts on the road surface in front of the car. Should the car cross these markings unintentionally, it alerts the driver by gently vibrating the steering wheel. Blind Spot Assist, detects the presence of a vehicle in one of your blind spots using two radar sensors. If a collision with another vehicle during overtaking seems imminent, the system alerts you via acoustic and visual warnings from speeds of 30 mph.

Lane-Keeping Assist/Blind Spot Assist are designed to warn the driver about potentially dangerous situations

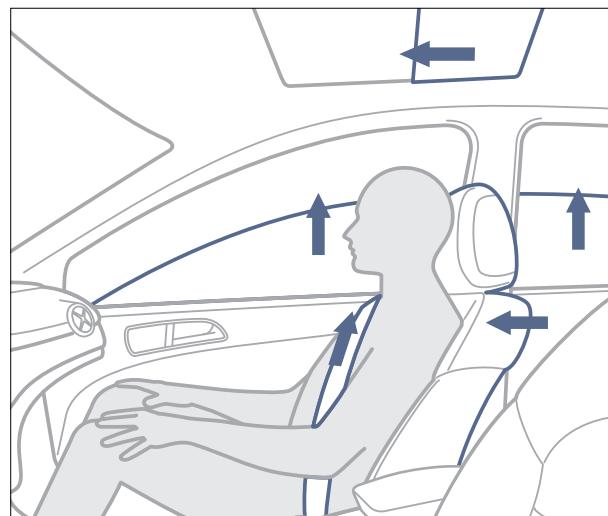

**Intelligent Light System** (optional). The Intelligent Light System comprises a variety of modes and functions that help your visibility at night or in other low-visibility conditions. Country mode and motorway mode adjust the light to suit the road, while the Active Light System enables the beams to follow your steering angle. Also included is Adaptive High Beam Assist, which dips the headlamps automatically when on high beam, if the lights of an oncoming vehicle are detected. Additionally, the chrome-trimmed LED daytime running lights in the front bumper and LED tail lights, further enhance visibility on the road.

The Intelligent Light System automatically adapts to changing light and driving conditions

## Anticipating danger and protecting occupants

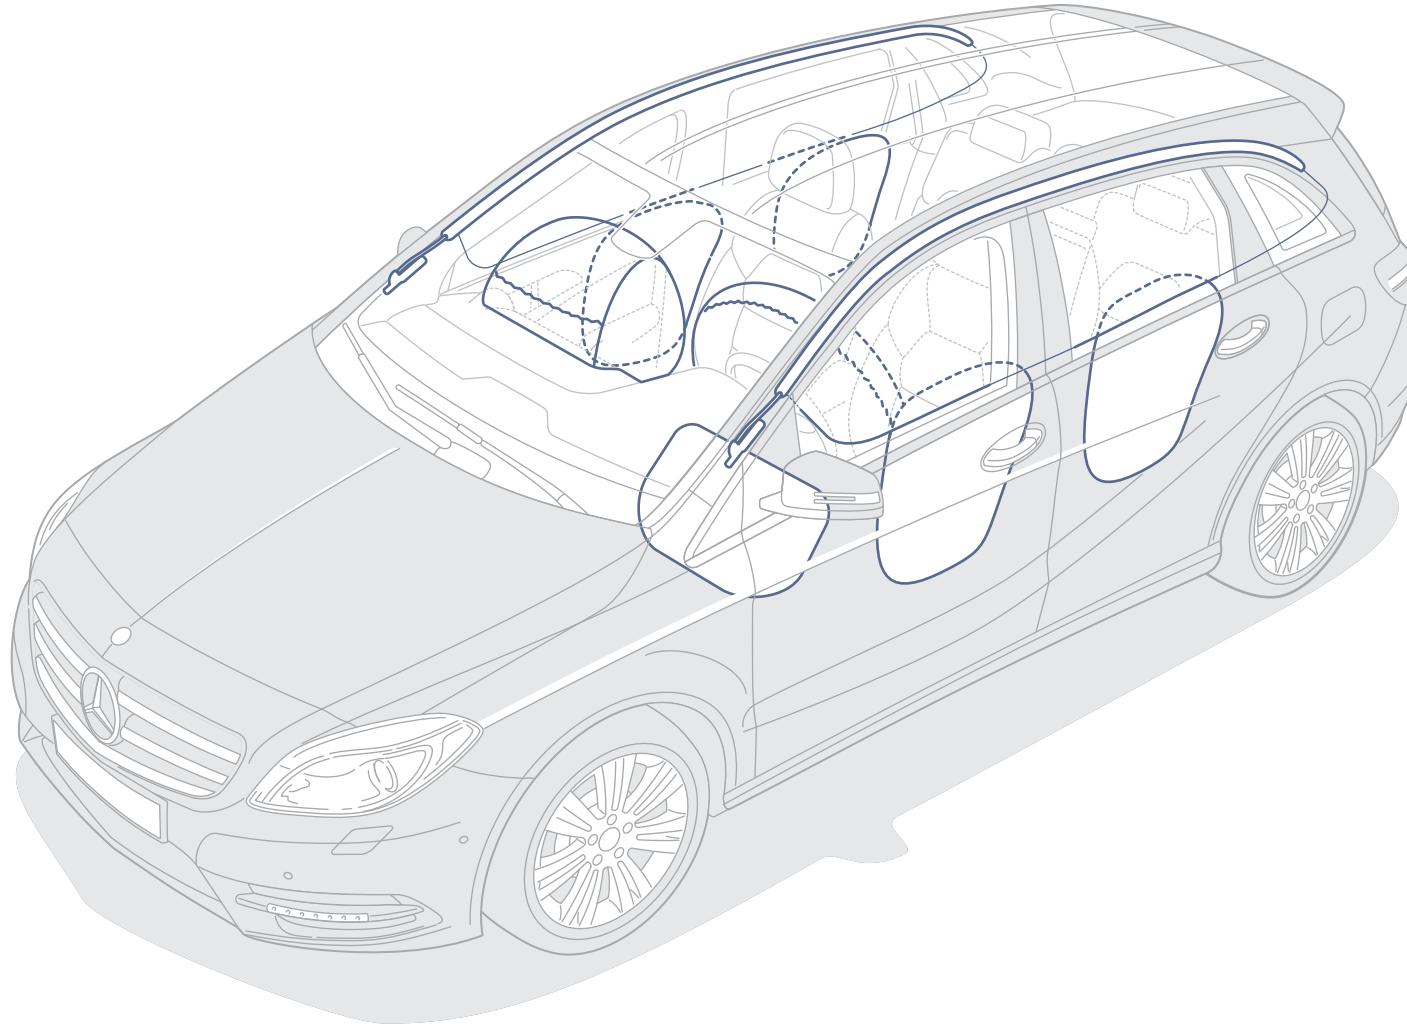

If a collision cannot be avoided, the B-Class offers its best possible protection for you, your passengers and pedestrians.

The Pre-Safe® system helps to enhance safety belt and airbag performance

**Pre-Safe®** (optional). If it detects a probable accident scenario, Pre-Safe® can take a range of anticipatory measures to reduce the risk of injury to the occupants. Triggered by events such as emergency braking, these can include activating the front seat belt tensioners and automatically closing the windows and sunroof (if fitted), ensuring maximum protection from airbags and seat belts should an impact then occur.

**Airbags** (standard). In addition to the rigid passenger cell, seven standard airbags further reduce the risk of injury: dual-stage front airbags, which are triggered according to the severity of the impact, windowbags, pelvisbags for driver and front passenger, and a driver's side kneebag. Sidebags for rear seat occupants are available as an option.

Seven airbags help to significantly reduce the risk of injury in a collision

## Multimedia systems

The B-Class offers plenty to keep you entertained: Audio 20 CD/radio, optional Becker® Map Pilot through to a comprehensive optional multimedia system.

COMAND Online is your all-in-one gateway to audio, navigation and communication featuring a high-resolution 7-inch display

**COMAND Online** (optional). The COMAND Online multimedia system combines hard-drive navigation with in-car internet access and a wide range of entertainment features. These include speed-sensitive volume adjustment, a music library with 10 GB of storage space for audio files and a DVD drive that plays CDs, MP3s, and video or audio DVDs. It also enables you to connect a variety of external devices and storage media – via USB port, Media Interface, SD memory card slot or Bluetooth® interface – and lets you access the internet as well as a variety of Mercedes-Benz online services (internet-enabled mobile phone required). Maps and menus are presented on a high-resolution 7-inch colour display, and all key functions can be operated either via the central controller, from the multi-function steering wheel or using Linguatronic voice control. Three years of map updates are offered free of charge.

**Audio 20 CD/radio (standard).** The Audio 20 system offers all the key features of a modern in-car entertainment system: radio, CD drive, MP3, WMA and AAC playback, USB and aux-in ports and Bluetooth® interface. It also now comes with a larger 5.8-inch central display and can be further enhanced with options such as a 6-disc CD changer and our Media Interface. Whilst all Audio 20 CD/radio functions can be operated via the central controller, aux-in and USB ports are located in the centre armrest for your convenience. Additionally, six speakers throughout the cabin ensure excellent sound quality.

**Becker® Map Pilot (optional).** Becker® Map Pilot can be integrated with the Audio 20 CD/radio system's central controller and display, turning it into a fully featured 3D map navigation system. Downloading additional functions and map updates helps you tailor it to your needs. You can operate the system using voice recognition, via the central controller, or from the multi-function steering wheel. The control unit can be quickly secured and connected via a plug-in port in the glove compartment and removed at any time.

The Becker® Map Pilot system shows vital information both via the Audio 20 CD/radio display, and the multi-function colour display

**Harman Kardon® Logic 7® surround sound system (optional).** With its 12 high-performance speakers and Logic 7® multi-channel spatial sound technology, this 450-watt surround sound system with 9-channel DSP-amplifier makes every journey a listening experience to remember. Combined with COMAND Online, it also features a Dolby-Digital 5.1-system. Additionally, the system can be adjusted to provide the perfect surround sound for specific areas of your B-Class, for the entire cabin, front, centre or rear area.

Concert-like sound quality is delivered by the Harman Kardon® Logic 7® surround sound system

## Electronic assistants

It's not just safety features that premier in the new B-Class. There are also plenty of new electronic assistants designed to keep you relaxed and safe.

### Reversing camera (standard on Sport, optional on SE).

This rear-mounted wide-angle camera makes for safer and easier parking manoeuvres. Activated automatically as soon as the driver engages reverse, it captures the area immediately behind the car and enables you to see the image on the dashboard's central display (or in the COMAND Online display, if fitted).

The central COMAND Online display shows the area behind the car during a parking manoeuvre

The multifunction display informs the driver about the current parking process

**Active Park Assistant including Parktronic** (standard on SE, optional on Sport). Active Park Assist can assess parallel parking spaces as you drive and, if it finds one that fits, it'll even help you steer the car in. When driving at up to 20 mph, the system will recommend a parking space. Once this is approved by the driver and the car is in reverse, the system parks the car at a touch of a button. All the driver has to do, is apply the clutch, brake and accelerator, the car does the steering for you. Active Park Assist works very precisely, the parking space only needs to be 1.30 metres longer than the car. It works with ten Parktronic ultrasound sensors, placed at the front and the rear of the vehicle, and a control unit to calculate the best possible parking angle and parking space.

**Speed Limit Assist** (fitted with the optional COMAND Online system). This system reads speed limit signs and displays the permitted maximum speed in the car's instrument panel until the limit changes. Its front-mounted camera detects signs mounted above the carriageway as well as those by the side of the road and is particularly useful in areas where the speed limit varies or when passing through roadworks. To help identify the limit correctly, it compares speed limit signs with map data from the navigation system, enabling it to recognise when you are entering or leaving built-up areas for instance. Speed Limit Assist not only helps the driver stay within the speed limit, it also enhances driving comfort, especially on longer journeys with frequently changing speed limits.

The Speed Limit Assist alerts the driver to the current speed limit

# Versatility

Because no day is the same: the rear seats and the load compartment are designed to adjust to your varying needs.

**Rear seats.** The B-Class greets rear passengers with ample legroom and head restraints for all three rear seats (with the middle one designed to give the driver optimum visibility). The outer seats feature ISOFIX child seat points with TopTether anchorage points. Two integrated child seats for the outer seats with removable head restraints are available as an option.

The B-Class helps you create an almost completely flat luggage area in seconds

**Load compartment.** When you need extra space, the individual sections of the 60:40 split rear seats can be folded to create an almost completely flat loading area measuring 1.57 metres with a luggage capacity of 1,545 litres. If you're using the B-Class as a 5-seater, you'll enjoy 486 litres of luggage space. For added flexibility, the height-adjustable load compartment floor is available as an option. Additionally, the B-Class features bag hooks, four load-securing rings and a load compartment cover to keep your cargo safe from prying eyes

Set in the upper position, the optional height-adjustable load compartment reveals a handy stowage area

**Easy-Vario-Plus system (optional).** Adapting the B-Class to your requirements couldn't be simpler. Easy-Vario-Plus includes rear seats with fore/aft and tilt-angle adjustment and a folding rear armrest with twin cup holders.

**Load Compartment Package** (standard with Easy-Vario-Plus system). It includes a height-adjustable load compartment floor and folding storage. As an additional option, the package is also available with an integral safety net, which can be extended between either the B- or C-pillars depending on the cargo volume, helping to guard against injury from objects in the load compartment.

With the rear seats folded flat, the B-Class offers an almost entirely flat loading area with 1,545 litres of luggage space

## Seats and Memory Package

A totally new modular seating system was developed for the new B-Class, equally satisfying the requirements of ergonomics, comfort and safety.

**Seats.** Front and rear passengers enjoy exceptionally comfortable seats and generous levels of leg and shoulder room. The driver also benefits from partial seat height adjustment. The stylish standard 'Domburg' fabric upholstery is available in grey or black. The Sport model features Artico artificial leather upholstery in a choice of stylish colours to suit your individual taste.

**Seat Comfort Package.** To provide further comfort and individual ergonomic settings, especially for longer journeys, the driver and front passenger seats come with height and seat angle adjustment.

**4-way lumbar support for driver and front passenger (optional).** For the best support and comfortable seating positions, the backrest of both driver and front passenger seat can be individually adjusted. Both seats feature air chambers that can be set to your individual requirements for added lumbar support. Additionally, the air chamber height can also be modified.

The B-Class front seats offer a wealth of options for the most ergonomic and comfortable seating position

**Memory Package (optional).** With the optional Memory Package, the B-Class driver's and front passenger's seats feature full electric adjustment. The package also includes a memory function that can store up to three sets of positions for the driver's seat, head restraint and exterior mirrors. All settings can be retrieved at the touch of a button. When reversing, the exterior mirror on the passenger side is automatically lowered as well.

The Memory Package with full electric adjustment stores up to three individual seating positions

## Sight and Light

Sight and Light features multiple benefits: it enhances the ambiance of the beautiful interior and makes driving the B-Class a truly comfortable and reassuring experience.

**Sight and Light.** These features improve driving conditions and your safety considerably, especially when driving at night or in bad weather. It helps you to see and be seen more clearly. The Sight and Light features include rain-sensing windscreen wipers complete with larger screen-wash container, as well as warning lights on front doors and tailgate. Inside, the illuminated instrument panel, door trim and door handles all form part of the integrated ambient interior lighting, adding to the exclusive, welcoming feel of

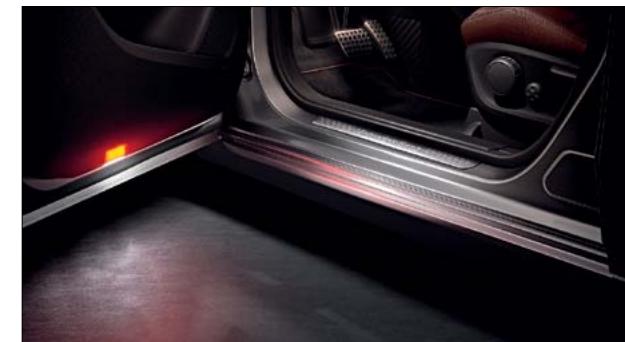

the B-Class. Whilst the sun visors with vanity mirror, the rear-view mirror and the front footwells also feature elegant lighting, passengers in the rear can enjoy an ambient uplight and separately controllable left and right reading lights.

At night-time, the ambient interior lighting creates a stylish atmosphere on-board the B-Class

The tailgate features a handy warning light illuminating the area around the car

Both front footwells and doors are illuminated for your comfort and safety

## B-Class SE

The B-Class SE offers the kind of premium equipment you'd expect from a Mercedes-Benz, combined with plenty of space and versatility. The Sight and Light features and Active Park Assist come as standard, along with an Audio 20 CD/radio system that includes Bluetooth® and USB interfaces, an intuitive controller and a new tablet-style central display. It also features innovative electronic assistants such as Collision Prevention Assist and Attention Assist.

### EXTERIOR

## Exclusive Package

The optional Exclusive Package is designed for all those who demand a little more luxury. It includes seats with real leather upholstery and 4-way lumbar adjustment in the front. There's a choice of three carefully appointed leather options: Lava Black, Hazelnut Brown and Crystal Grey. These colours are repeated throughout on door panels, armrests, and, if you opt for Crystal Grey, also beneath the dashboard

and centre console. Chrome elements on dashboard dials and controls as well as on the gear shift lever are perfectly balanced with the chosen interior colour, and set against Lava Black for the remainder of the interior with floor mats in the appointed interior colour.

The dashboard is fitted Black Ash wood or matt-finish Brown Burr Walnut wood interior trim.

### INTERIOR

Leather upholstery with top-stitching

Heated front seats

Storage – covered in black synthetic material

Adjustable centre console armrest with Artico artificial leather and top-stitching

Armrest on door panels with Artico artificial leather and top-stitching

Stainless steel door sills

Floor mats with inset appointed interior colour

Black Ash wood

Grey roof lining (for Lava Black, Crystal Grey upholstery)

Black roof lining (for Hazelnut Brown upholstery)

Door panels in Artico artificial leather with top-stitching

Electronic locking system with infrared remote control

Leather-trimmed gear shift/selector lever with silver chrome ring

Front seats with 4-way lumbar adjustment

### LEATHER

201 Lava Black

204 Hazelnut Brown

208 Crystal Grey

### TRIM

736 Black Ash wood

H03 Brown Burr Walnut wood (matt finish, no-cost option)

## Alloy wheels

Standard on B-Class SE: 16" 10-spoke alloy wheels, tyre size 205/55 R 16 (code 55R)

Standard on B-Class Sport: 18" bi-colour alloy wheels, tyre size 225/40 R 18 (code 01R)

Optional for B-Class SE: 17" 7-twin-spoke alloy wheels, tyre size 225/45 R 17 (code 26R)

Optional for B-Class Sport at no extra cost: 17" 5-spoke alloy wheels, tyre size 225/45 R 17 (code R24)

## Retailer-fit accessories

Concert hall, sports companion, holiday hold-all: adapting the B-Class exactly to your needs couldn't be simpler. → [www.mercedes-benz.co.uk/accessories](http://www.mercedes-benz.co.uk/accessories)

Great entertainment for the rear seats – with two high-resolution LCD colour displays

**Rear seat entertainment system.** This elegant DVD system enables passengers to view their favourite films and video games on the high-resolution 7-inch LCD colour display without disturbing the driver. One of the monitors is fitted with a DVD player, USB and SD outlets to cater for various media. Whilst the second monitor serves as display only, both monitors can easily be removed, and if required, used externally via the 230V/12-volt power supply.

The comprehensive equipment includes USB and SD interfaces, two infrared headphones and remote control. As an option, the monitors are available separately. Your B-Class does not require any pre-rewiring, allowing the rear seat entertainment system to be fitted at a later stage.

**Zig-zag load sill protection.** For scratch-free and comfortable loading, the B-Class can be fitted with a protective mat featuring highly durable nylon. When the load sill protection is not in use, it can be secured with velcro fittings and neatly tidied away on the luggage compartment floor behind the tailgate. For added comfort, the mat can be simply unfolded with one hand.

**The rear-mounted bicycle rack.** This lockable rear-mounted bicycle rack offers safe and comfortable transport for two or three bikes. Securing the bicycles is effortless, while the rack is easy to attach to the tow bar. A simple fold-down mechanism means that the boot can still be opened. When folded, the rack can be stored in a handy nylon bag.

**Roof boxes.** These highly durable roof boxes have been aerodynamically designed to suit the B-Class. For easy loading and unloading, they can be opened from both sides. The boxes are available in two sizes: the Family box in metallic Black or matt Silver has a loading capacity of 450 litres, whilst the Sport Box in metallic Titan or matt Silver offers 330 litres.

The load sill protection prevents scratches when loading and unloading

The rear-mounted bicycle rack is available for two or three bikes

## Services

**Test drive.** A Mercedes-Benz is most at home on the road. This is the only way to experience the effortlessly superior driving feel that lends every Mercedes model its inimitable class. Feel the power of efficient engines with low fuel consumption, and precise steering designed to put you in the mood for driving. And experience what true comfort really feels like. The unique feeling of driving a Mercedes cannot be put into words, however. Which is precisely why we'd like to invite you to take a test drive. Your Mercedes-Benz Retailer will be happy to make all the necessary arrangements for you. Simply visit [www.mercedes-benz.co.uk/testdrive](http://www.mercedes-benz.co.uk/testdrive) to request a test drive. We look forward to seeing you.

**Mercedes-Benz Finance.** At Mercedes-Benz Finance, our single-minded aim is to provide optimum financial solutions for all those who share the Mercedes-Benz philosophy of absolute commitment to quality. Whether you are a private customer or a business user, our finance and leasing packages can be tailored to meet your individual needs. For further information on Mercedes-Benz Finance, please contact your local Mercedes-Benz Retailer.

**Mercedes-Benz Insurance** offers a fully comprehensive 5 star<sup>1</sup> Motor Insurance policy specifically designed to give you the cover you would expect from Mercedes-Benz. For a quotation, please call 0845 600 2180.<sup>2</sup>

**Factory Collection.** What can possibly heighten the experience of taking possession of your brand new Mercedes-Benz? The highlight might just be to see and experience where it was built in either Stuttgart, Rastatt or Bremen, and to take the long way home by driving it through some of Europe's most beautiful countryside. The Mercedes-Benz Factory Collection offers just that. Included in the Collection is an airport transfer to your hotel, one night's accommodation for one person with dinner and breakfast, a tour of the Mercedes-Benz factory, five days fully comprehensive insurance, and a return crossing by Eurotunnel (Standard Class). All you will need to pay for is your

one-way flight to Germany. For more information, please contact your local Retailer, the Mercedes-Benz Factory Collection team on 0845 273 9705 or visit [www.mercedes-benz.co.uk/factorycollection](http://www.mercedes-benz.co.uk/factorycollection)

**Interactive Owner's Manual.** The website also offers an interactive tour, enabling you to take a closer look at your desired model. This simulation is the ideal way to acquaint yourself with your dream car. You can view key functions in detail, gain an insight into the car's inner workings or look at the benefits of each model. For further details, visit [www.mercedes-benz.co.uk/bclassmanual](http://www.mercedes-benz.co.uk/bclassmanual)

**Roadside Assistance.** Rest assured that should you ever need help, Mercedes-Benz Roadside Assistance is there for you. In the unlikely event of a technical breakdown<sup>3</sup> you can rely on the Mercedes-Benz Roadside Assistance Team – anywhere in Europe. Simply phone our Customer Assistance Centre on 00800 1 777 7777,<sup>4</sup> where our specialists will organise assistance for you. Mercedes-Benz will also assist you in the event of a minor mishap preventing you from driving your vehicle.<sup>5</sup> Whether you lose your key, run out of fuel or your vehicle is damaged due to an accident or vandalism, Mercedes-Benz ensures that you still reach your destination. Often the problem can be rectified on the spot, but if this is not possible, we will naturally ensure that your vehicle is taken to the nearest Mercedes-Benz Official Workshop to get you back on the road as quickly as possible.

**Mercedes-Benz World at Brooklands.** Celebrate the story of Mercedes-Benz and you'll celebrate the story of motoring itself at Mercedes-Benz World in Surrey. A World of experiences. A World of discoveries. A World you will love to explore. Discover Mercedes-Benz racing heritage, from its connections to the famous Brooklands circuit through to present-day Formula 1™ brought to life in the most sensational way. View, touch and sit in every car from the Mercedes-Benz range, and encounter automotive legends like the 'Gullwing' and many other classic icons, in the UK's largest Mercedes-Benz showcase. Then set your pulse racing by booking one of our thrilling Driving Experiences. Enjoy AMG performance on the purpose-built Handling Circuits or Wet Skid Circle, an axle-twisting off-road adventure, or treat your kids over 1.5 metres tall to their own driving experience in an A-Class or on the off-road terrain in an M-Class. And for kids even younger and under 1.3 metres tall, let them be a 'Little Learner' in their own miniature electric version of the desirable Mercedes-Benz SL. For more

interactive action, take a virtual 3D journey along the production line in 'Build' and take a seat in the cinema to accelerate from the birth of the car to the latest innovations in 20 eye-opening minutes.

Relax and refuel in Café 1886, or for something more enjoy the delicious menu and elegant surroundings of the Gullwing Restaurant. Finally, extend your visit with a short stroll to Brooklands Museum to see their collection of classic cars, aviation exhibitions – and the legendary Concorde. For more information visit [www.mercedes-benzworld.co.uk](http://www.mercedes-benzworld.co.uk)

<sup>1</sup> As rated by Defaqto, a leading UK independent financial research company. Mercedes-Benz Motor Insurance is underwritten by Aviva Insurance Limited

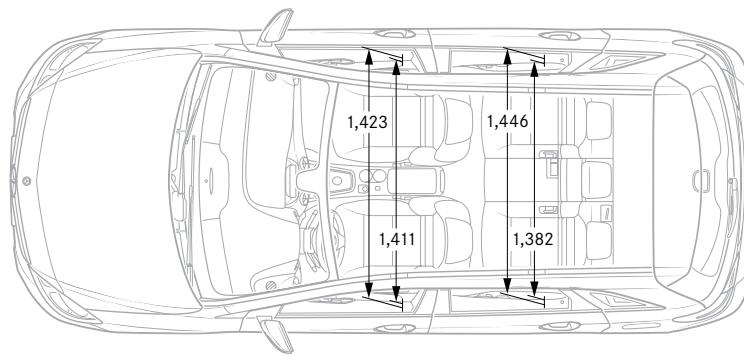

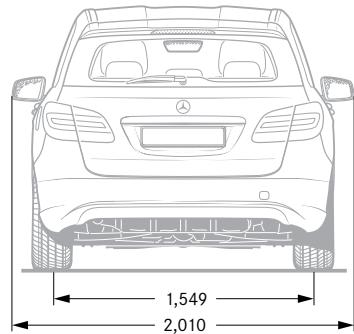

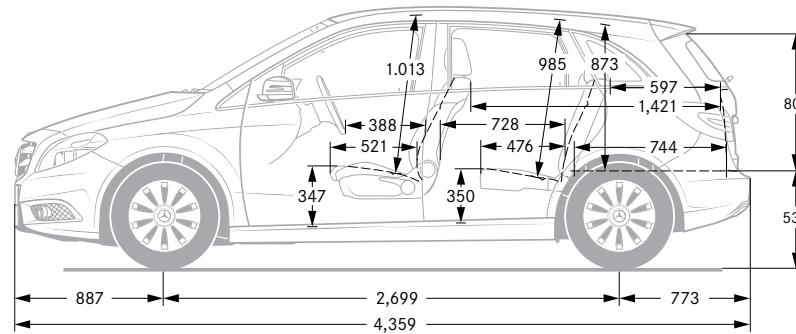

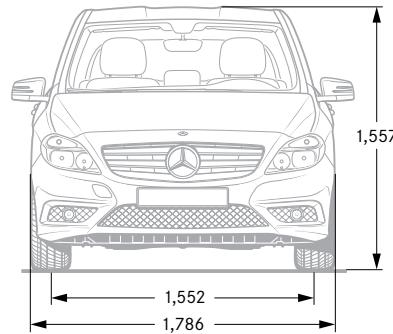

<sup>2</sup> Calls are charged at local rate and may be recorded

<sup>3</sup> Technical breakdown cover is initially valid for your vehicle for four years from the date of first registration. This can be extended from the fifth year, up to a maximum of 30 years, on completion of each scheduled maintenance service, providing that this service is carried out by a Mercedes-Benz Official Workshop

<sup>4</sup> In non-affiliated European countries: +44 20 7975 7077

<sup>5</sup> This cover can be retained from the fifth year. Your Mercedes-Benz Official Workshop will provide details of how to renew this cover once your initial four year term has expired

**Take-back of end-of-life vehicles. Coming full circle.** At the end of its long life, you can return your B-Class to us for environment-friendly disposal in accordance with the EC End-of-Life Vehicle Directive.<sup>1</sup> But that day lies a long way off.

<sup>1</sup>Applies in accordance with national regulations to vehicles up to 3.5 t permissible gross weight. The B-Class has met the statutory regulations governing the suitability of the vehicles' design for reuse and recycling for a number of years now. A network of vehicle take-back depots and dismantlers has been established which will process your vehicle in an environment-friendly manner. The ways in which both vehicles and parts can be recovered are subject to ongoing development and improvement. Consequently, the B-Class will be able to comply with any future increases in the recycling quota within the stipulated time limits. Further information is available at [www.mercedes-benz.co.uk](http://www.mercedes-benz.co.uk) or call 0808 156 6606.

**Please note:** this online version of the printed brochure may contain abridged copy or other content changes. The manufacturer reserves the right to make changes to the design, form, colour and specification during the delivery period, provided these changes, while taking into account the interests of the vendor, can be deemed reasonable with respect to the purchaser.
