A long-standing vision, with no end in sight.

In 1972, a cooperation agreement between Daimler-Benz and Steyr-Daimler-Puch in Graz, Austria marked the start of a vision to create a robust, customizable off-road vehicle. The Mercedes-Benz G-Class remains a striking feat of style, engineering and luxury. Today, the G-Class is revered for its extreme ability to conquer its own path both on and off the road.

G-Class

The dawn of a new driving force.

Before being assembled and tested, the G-Class began as an idea. Partners Daimler-Benz and Steyr-Daimler-Puch shared a passion for performance, aesthetics and luxury – a passion for remarkable engineering. After exhaustive deliberations surrounding a variety of concepts, the partners agreed on creating a vehicle far different from the other all-wheel drive vehicles of the time. Since its inception, Mercedes-Benz has not departed from the original spirit that made the G-Class what it is.

Only the best will do.

Taking into consideration the conditions in which the G-Model was designed to be driven, there was no room for cutting corners. Three fully locking differentials offer outstanding traction, while the ladder-type chassis provides exceptional structural integrity.

1979 230 GE 2 Door Convertible

Timelessly sharp on and off the road.

The G-Class embodies the cross-country spirit in all dimensions. The frame features strong, straight lines, finely balanced proportions and square-cut wings. This design allows for a clear view of surface conditions, supporting extremely precise driving. The lines of the body have hardly changed since the first 1:1 wooden model was created in 1973, and has since remained a striking form that epitomizes the vehicle's strong and distinctive character.

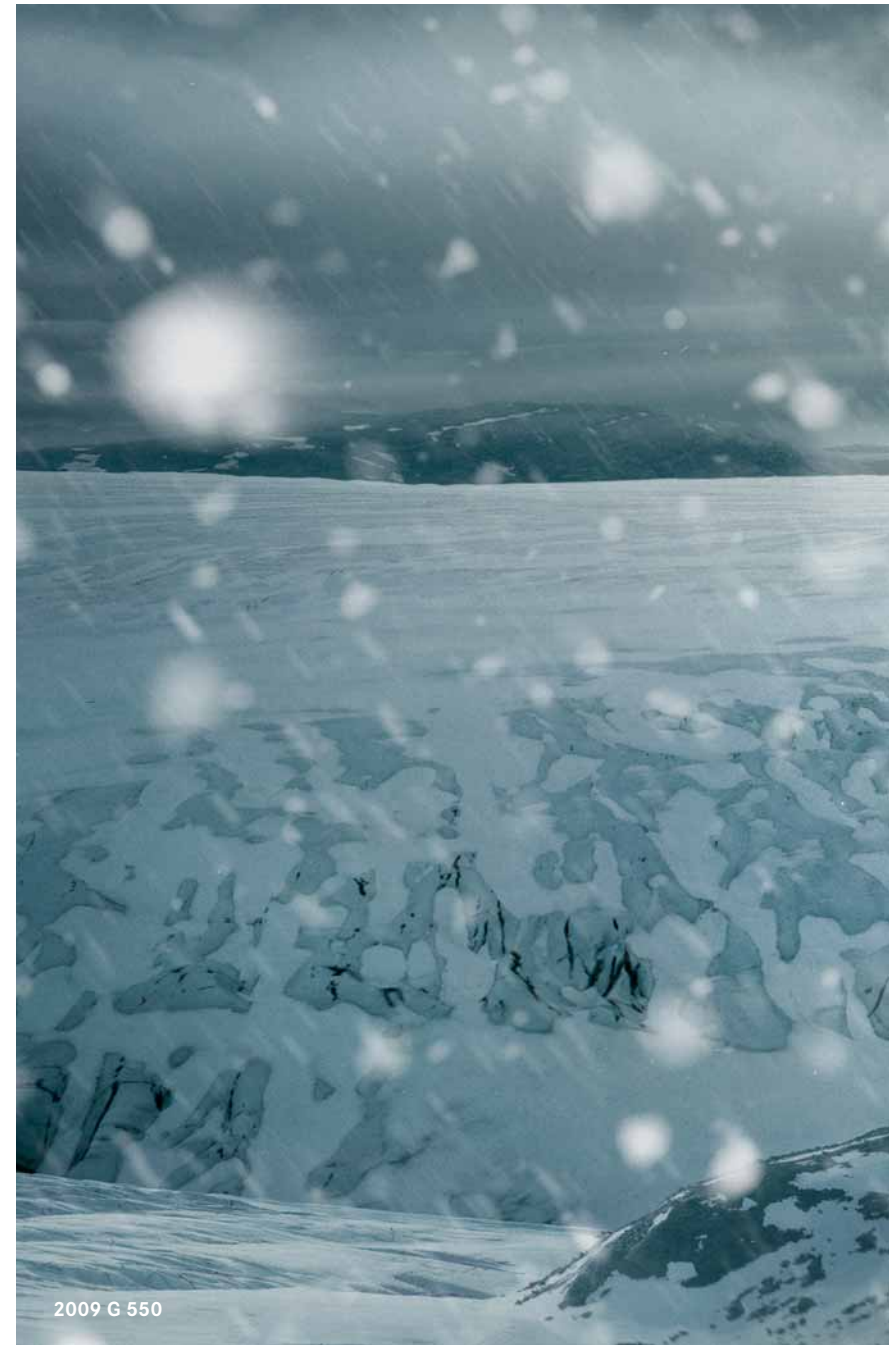

Practice made perfect.

Even at the earliest stages of development, the G-Class was tested to perform in the toughest possible conditions. Test tracks were selected in different areas of the globe to force the G-Class to demonstrate its full range of capabilities. The cross-country vehicle faced boulders and sand, water and mud, steep inclines and treacherous declines in a coalfield between Cologne and Aachen. It faced corrosion tests in the salt lakes of the Sahara desert and the cold tundra beyond the Arctic Circle. Only after proving itself in these conditions was it deemed fit to be branded with the Mercedes-Benz star.

2009 G 550

Engineered to disregard limits.

The outstanding qualities of the G-Class have confirmed it as the top cross-country automobile in competitions and publications alike. Its numerous wins in German championships and European trials as well as countless "off-roader of the year" titles in various motor publications only serve to prove that the G-Class truly stands above any other in its category.

Does everything but compromise.

It knows who it is. It knows what it stands for. It is the ultimate cross-country vehicle, and was not simply handed that title. It worked for it — earned it. The G-Class is given nothing, and takes everything it desires. It desires the roughest paths, the hardest terrain, and the most difficult descents. It represents boldness, and won't apologize for it. The G-Class represents the hard work behind every achievement, for it itself is a true achievement.

“The G-Class is a bold statement about adventure. Since the off-roader was created, it really hasn't changed. It speaks volumes about us as people — about our never-ending hunger for adventure.”

Born to lead.

The G-Class was designed not just for excursions, but expeditions — because every driver knows the difference. It is not simply sitting in the seat behind the wheel that makes you the driver; it is the refusal to be the passenger. It is refusing to follow. It is the spirit of a natural-born leader — the spirit that has lived in the heart of the G-Class since before it was even created.

Expect the exceptional.

The G-Class does not follow trends — it sets them. Its sense of style has endured as much as the vehicle itself as a bold statement of simple sophistication. The square-edged body of the G-Class was designed to stand apart from the wilderness it embraces as much as the competition it dismisses.

► “At first glance, the G-Class seems like the opposite of its Mercedes-Benz brethren. But for that very reason it completely encompasses what Mercedes-Benz stands for. It distinctly knows what it is and what it isn’t. No one can tell it otherwise.”

[gə'leɪnd]

əvɑːxɡnɪ]

A single word can speak more eloquently than an entire manuscript. It projects pictures onto the retina of the mind's eye and sends emotions coursing straight to the heart. "Gelandewagen" (the official German designation of the G-Class, which translates as "cross-country vehicle") is one such word. More than "off-roader" or "SUV", it conjures up images of loading supplies for an expedition, of poring over large-scale maps, of anticipation and excitement before the start, and of the sense of being part of a great adventure. It is the invitation to plough through desert sands and the sense

of achievement on reaching places you had only ever dreamed of. It evokes the sound of the scree dislodged by the vehicle's progress, the swish of the tires on endless sand tracks, the smell of rare drops of rain on parched grassland... This inner film has countless plots, but always the same protagonist. Its name may not have found its way into the dictionary yet, but it has long occupied a unique place in the hearts of those who drive it: the G-Class.

An exterior as independent as the driver within.

Performance for the eyes.

Having mechanically proven itself in the most extreme conditions, the G-Class is also designed to exude power without ever turning a wheel. Every exterior detail not only serves the viewer, but also serves a purpose. The robust front bumper and grille won't flinch while facing the toughest environment, while the integrated oval fog lamps¹ illuminate the challenges the G-Class lives for. The stainless steel spare wheel cover accented with 3D star keeps the rear as sharp as the front.

¹Only available on the G 550.

Form and function, on equal footing.

Even the most beautiful features are functional. The LED daytime running lamps situated under the headlights will undeniably make you noticed. The sports exhaust system with twin stainless steel tailpipes on both sides makes a strong impact both visually and in performance.

Bold beyond the basics.

The G-Class also features exterior design elements that both look and perform well in and outside the city. The new 18" wheel design is assertively rugged yet refined, while the new power folding exterior mirrors with Blind Spot Assist make sure you notice everything while being noticed.

A dual chrome exhaust adds distinction and a powerful elegance to the G 63 AMG.

A muscular backend with bold detailing offers a very unique exterior character.

Front oval lights define the particular exterior design of the G 63 AMG.

An uncommon thread.

With as much as 810 metres of thread coursing through 45,985 stitches, the G-Class was built on genuine strength down to its very soul, while maximizing the level of comfort for the driver and passengers. And without a single stitch ever more than a millimeter out of place, the G-Class features a precision interior for the most precise driving experience.

The image shows the interior of a Mercedes-Benz G-Class vehicle. The seats are upholstered in tan leather with a perforated texture. A small, circular silver emblem with the Mercedes-Benz logo is visible on the side of the front seat. The center console is black with a leather-covered armrest. The rear seat also features the same tan perforated leather upholstery. The window shows a dark, mountainous landscape under a blue sky.

Get the best view.

No matter where you find yourself, you'll have the best seat in the house. The G-Class features a new instrument panel with colour display and leather covered dashboard with integrated 7-inch COMAND display so the view is always beautiful.

Always be in control.

The G-Class is driving dominance. A gear selector lever keeps you in control at all times, while the centre console with climate controls keeps precise comfort options all within reach from the driver's seat.

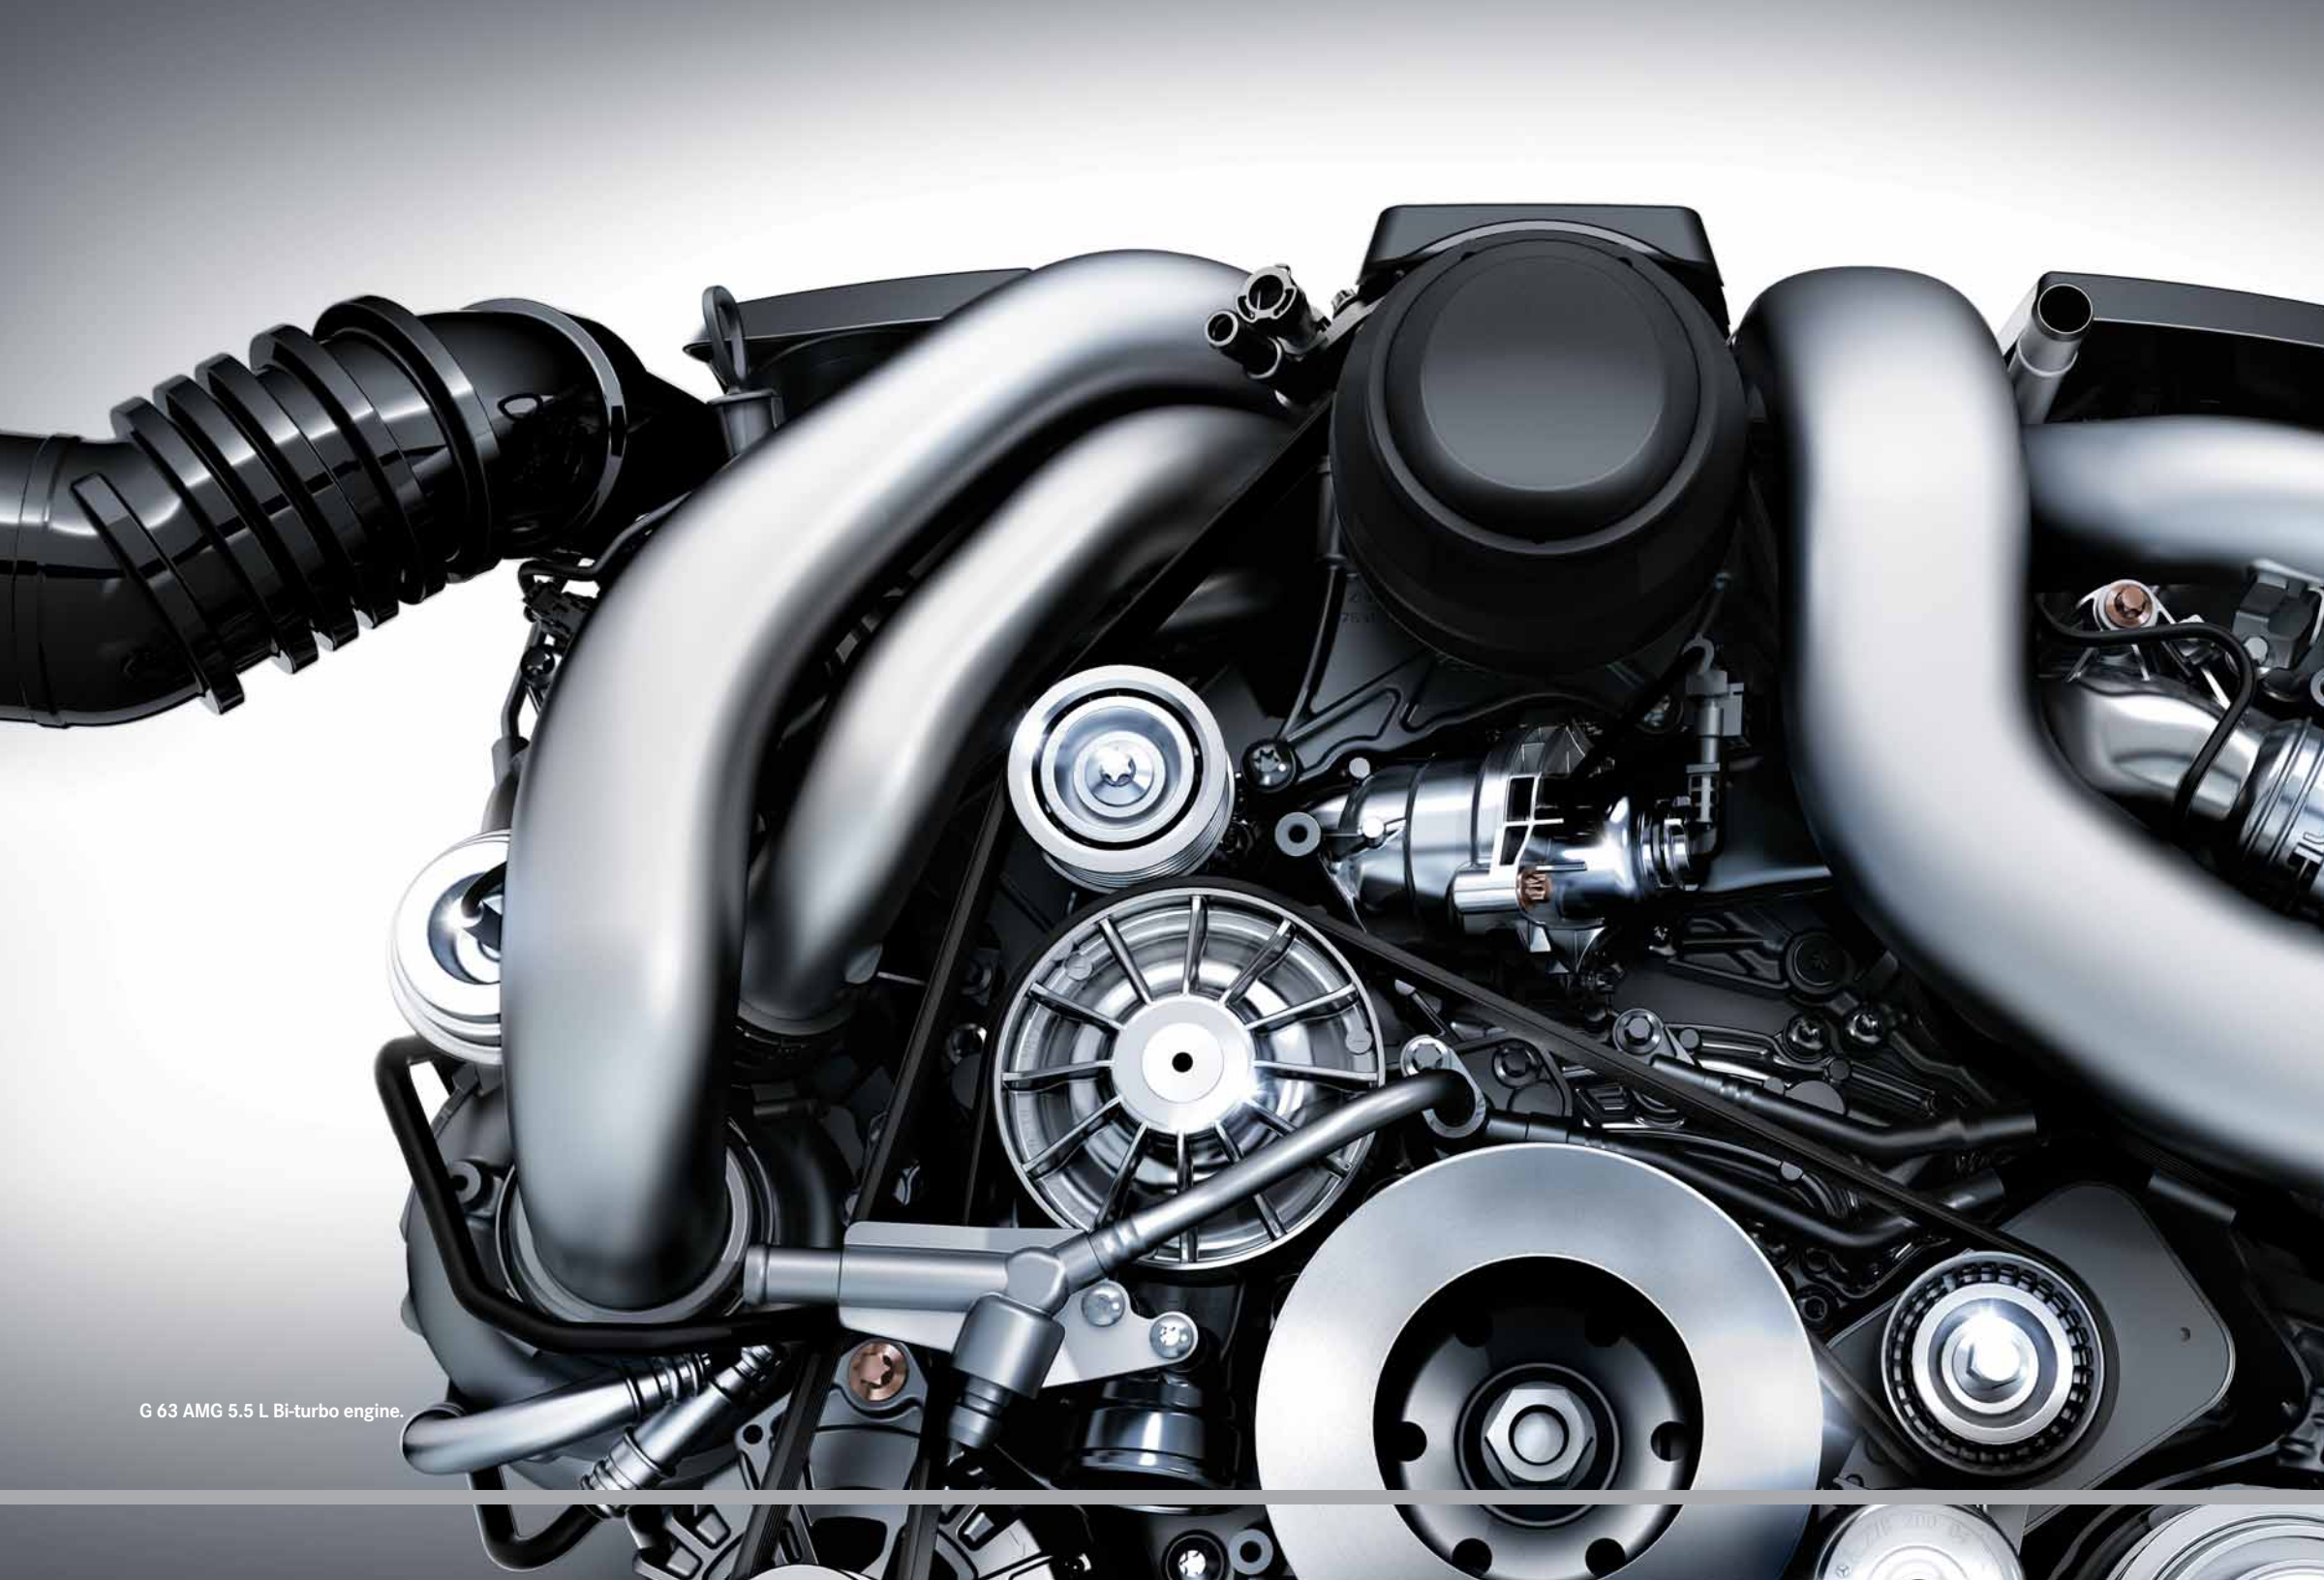

Convenient climate controls are complemented with fine interior trim detailing.

The three electrically engageable fully lockable differential locks play a key role in the off-road capability of the G-Class.

The G 550 interior cabin with optional *designo* Porcelain leather.

G 63 AMG 5.5 L Bi-turbo engine.

► The high power of the G 550 is achieved with a naturally aspirated electronic fuel injected engine.

The power to outpace.

Under the hood of the G 550 lives a long-standing legend of capability. The 5.5 litre V8 engine with 382 horsepower and 391 lb-ft of torque, is beyond powerful to take you beyond all boundaries. Even within the city, the G-Class is powered to dominate any street in any condition.

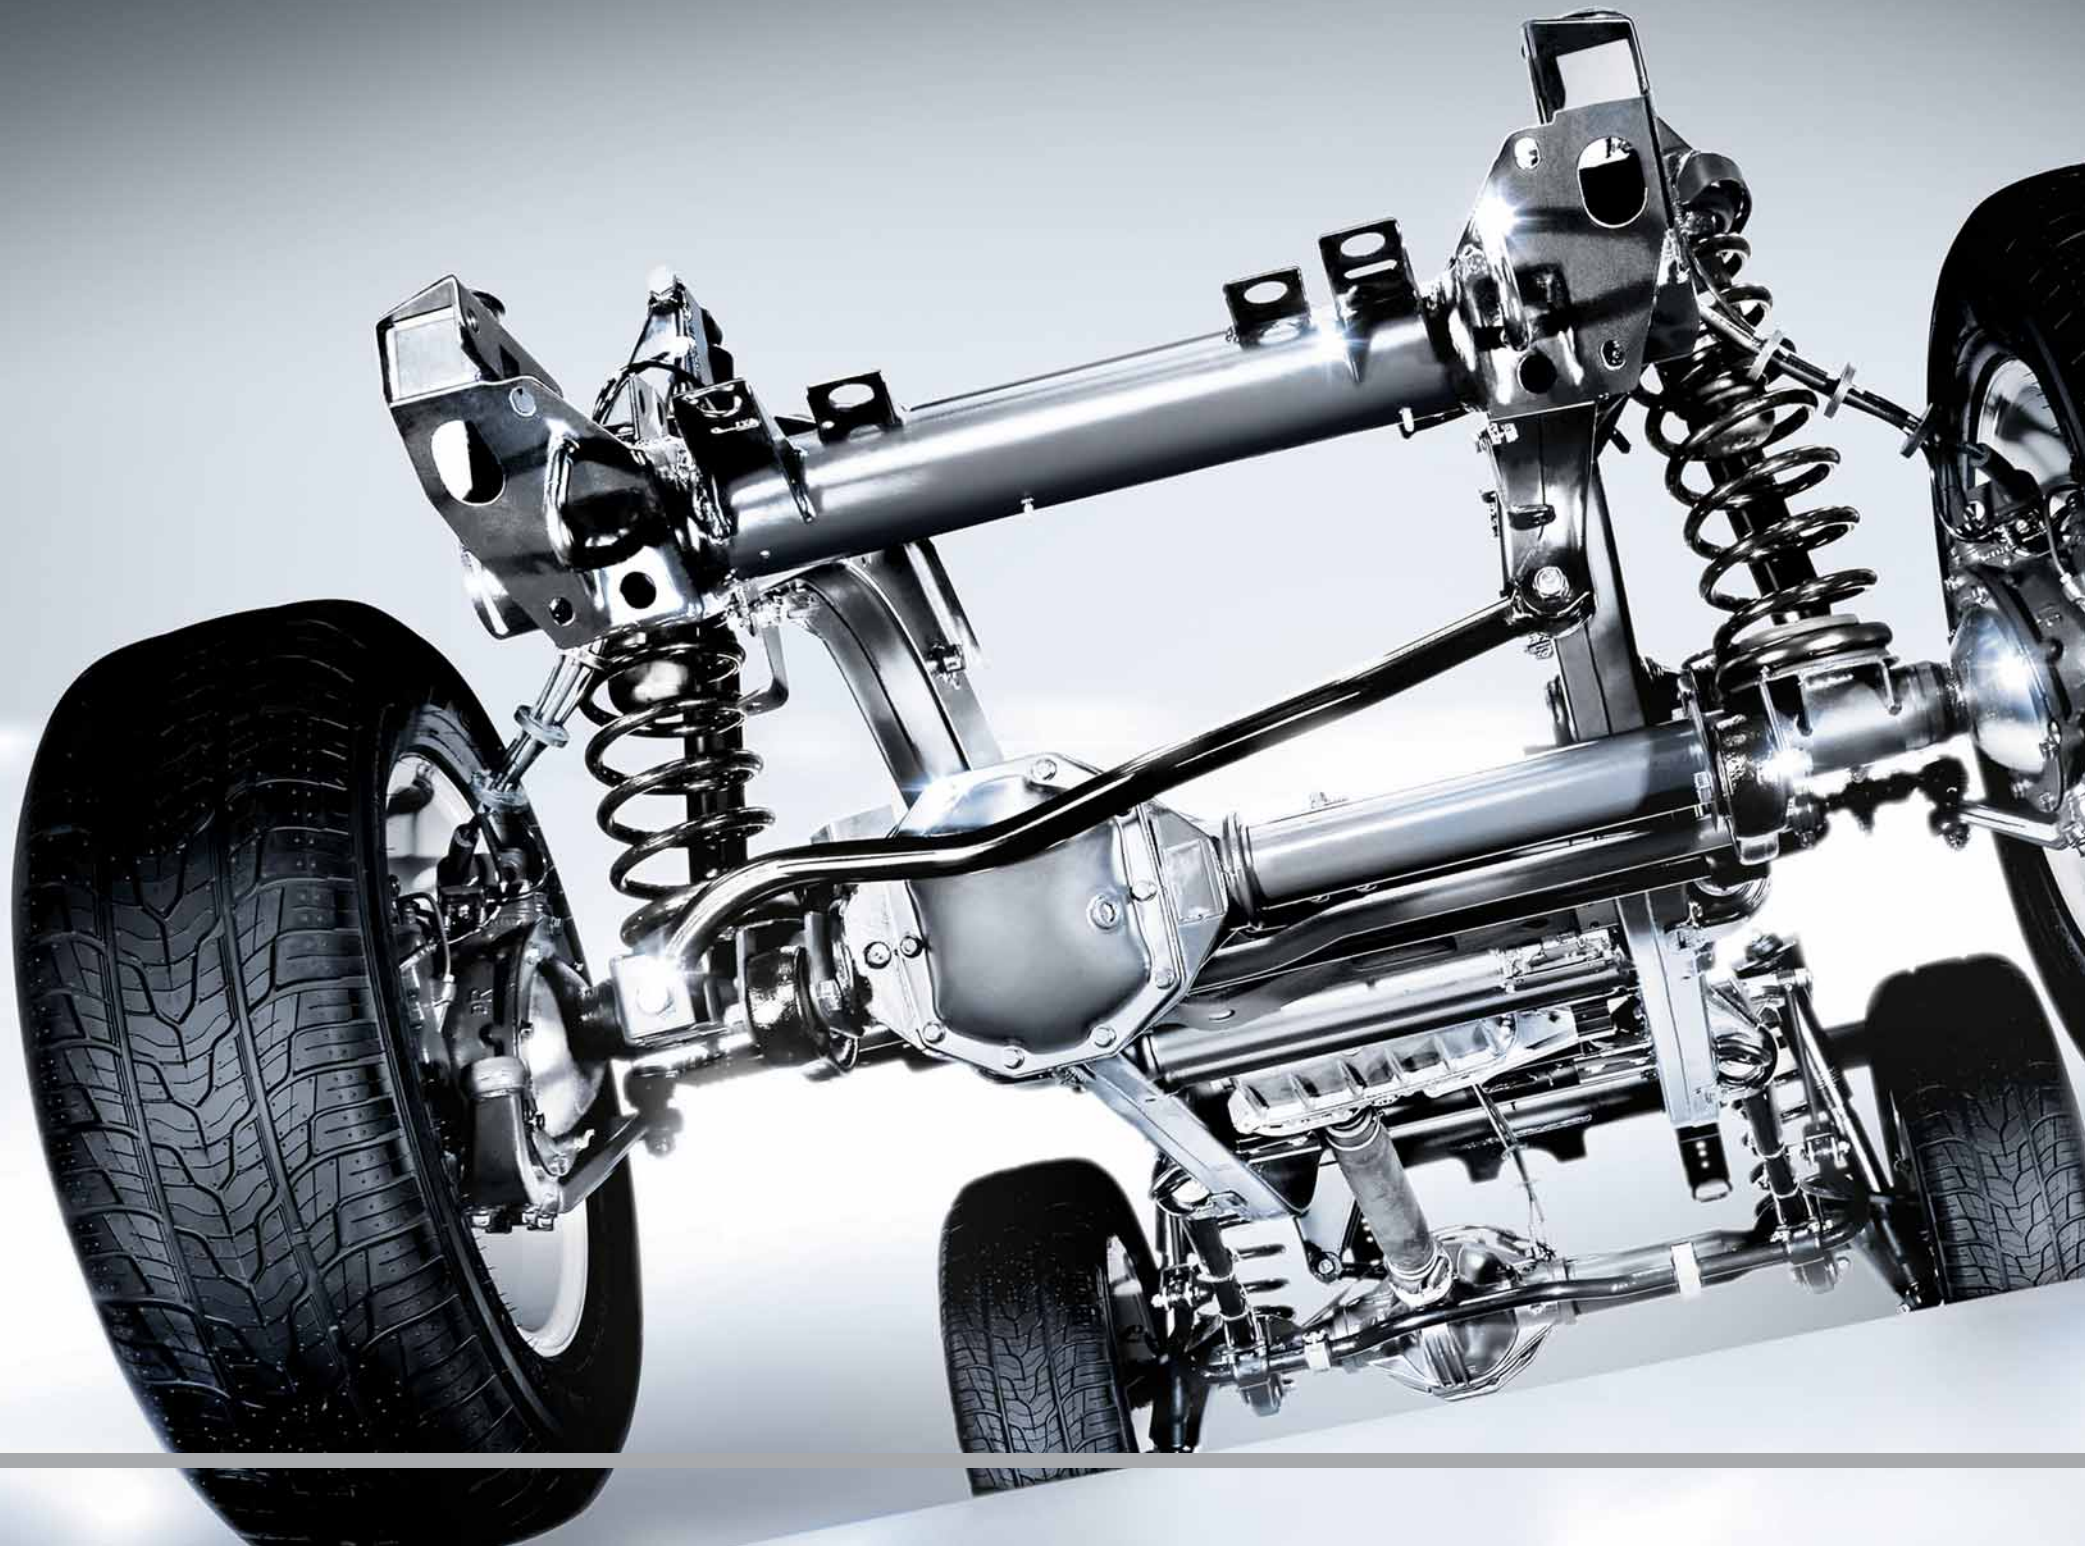

► The G-Class frame, vehicle floor and body undergo extensive surface treatment, replicating the anticipated conditions to ensure the required resistance to water, snow, road salt and sand.

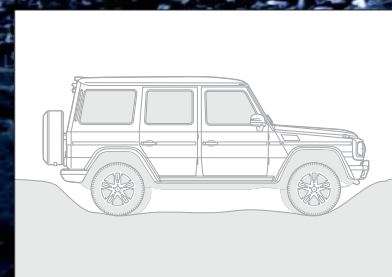

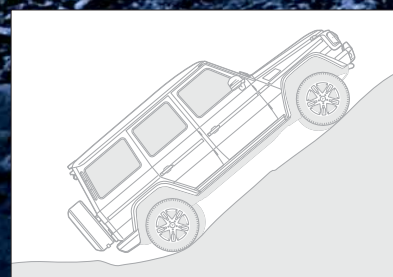

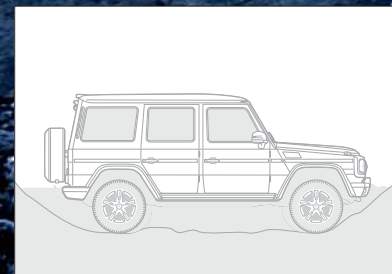

Go anywhere, not somewhere.

As good as it looks, it performs even better. The ladder-type frame consisting of sheet-steel used in the G-Class is not only more robust, but more forgiving for off-road use. It is the same construction type used since the very first G-Model was produced, and for good reason – the structure allows for the best possible handling on the most demanding terrain.

The high ground clearance and long spring travel in the chassis of the G-Class enables it to drive at greater maximum angles than any other off-roader in its class.

Stop for no one.

While compromising neither style nor performance, the G-Class is based on a chassis designed to cope with the most demanding off-road terrain. With a slope-climbing ability of up to 80% and retaining its driving stability at inclined angles up to 54%, the G-Class will always be on top. Also featuring ground clearance of 21 cm, a maximum fording depth of 60 cm, and angles of approach and departure of 36° and 27° respectively, the G-Class will thrive in any environment.

Top-notch performance turned up.

The G 63 AMG includes aesthetic and performance upgrades to keep even the most demanding drivers satisfied. Up front are the AMG grille with two chrome lamellas and AMG specific front air intakes integrated into the bumper. Around the sides are newly designed 20" AMG wheels and front and rear wheel arch flares. It can also reach 100km/h in as little as 5.4 seconds, utilizing the all-new AMG 5.5L Bi-turbo engine, fitted with direct-injection and turbo-charging to make it one of the world's most powerful standard-fit V8 Bi-turbo engines.

Strength meets spectacle.

Continuing along the sides are the stainless steel running boards, red painted brake calipers, and AMG sports exhaust system with twin chrome tailpipes on both sides. AMG and 'V8 BITURBO' badges located above the front fenders also highlight the performance upgrades featured in the G 63 AMG.

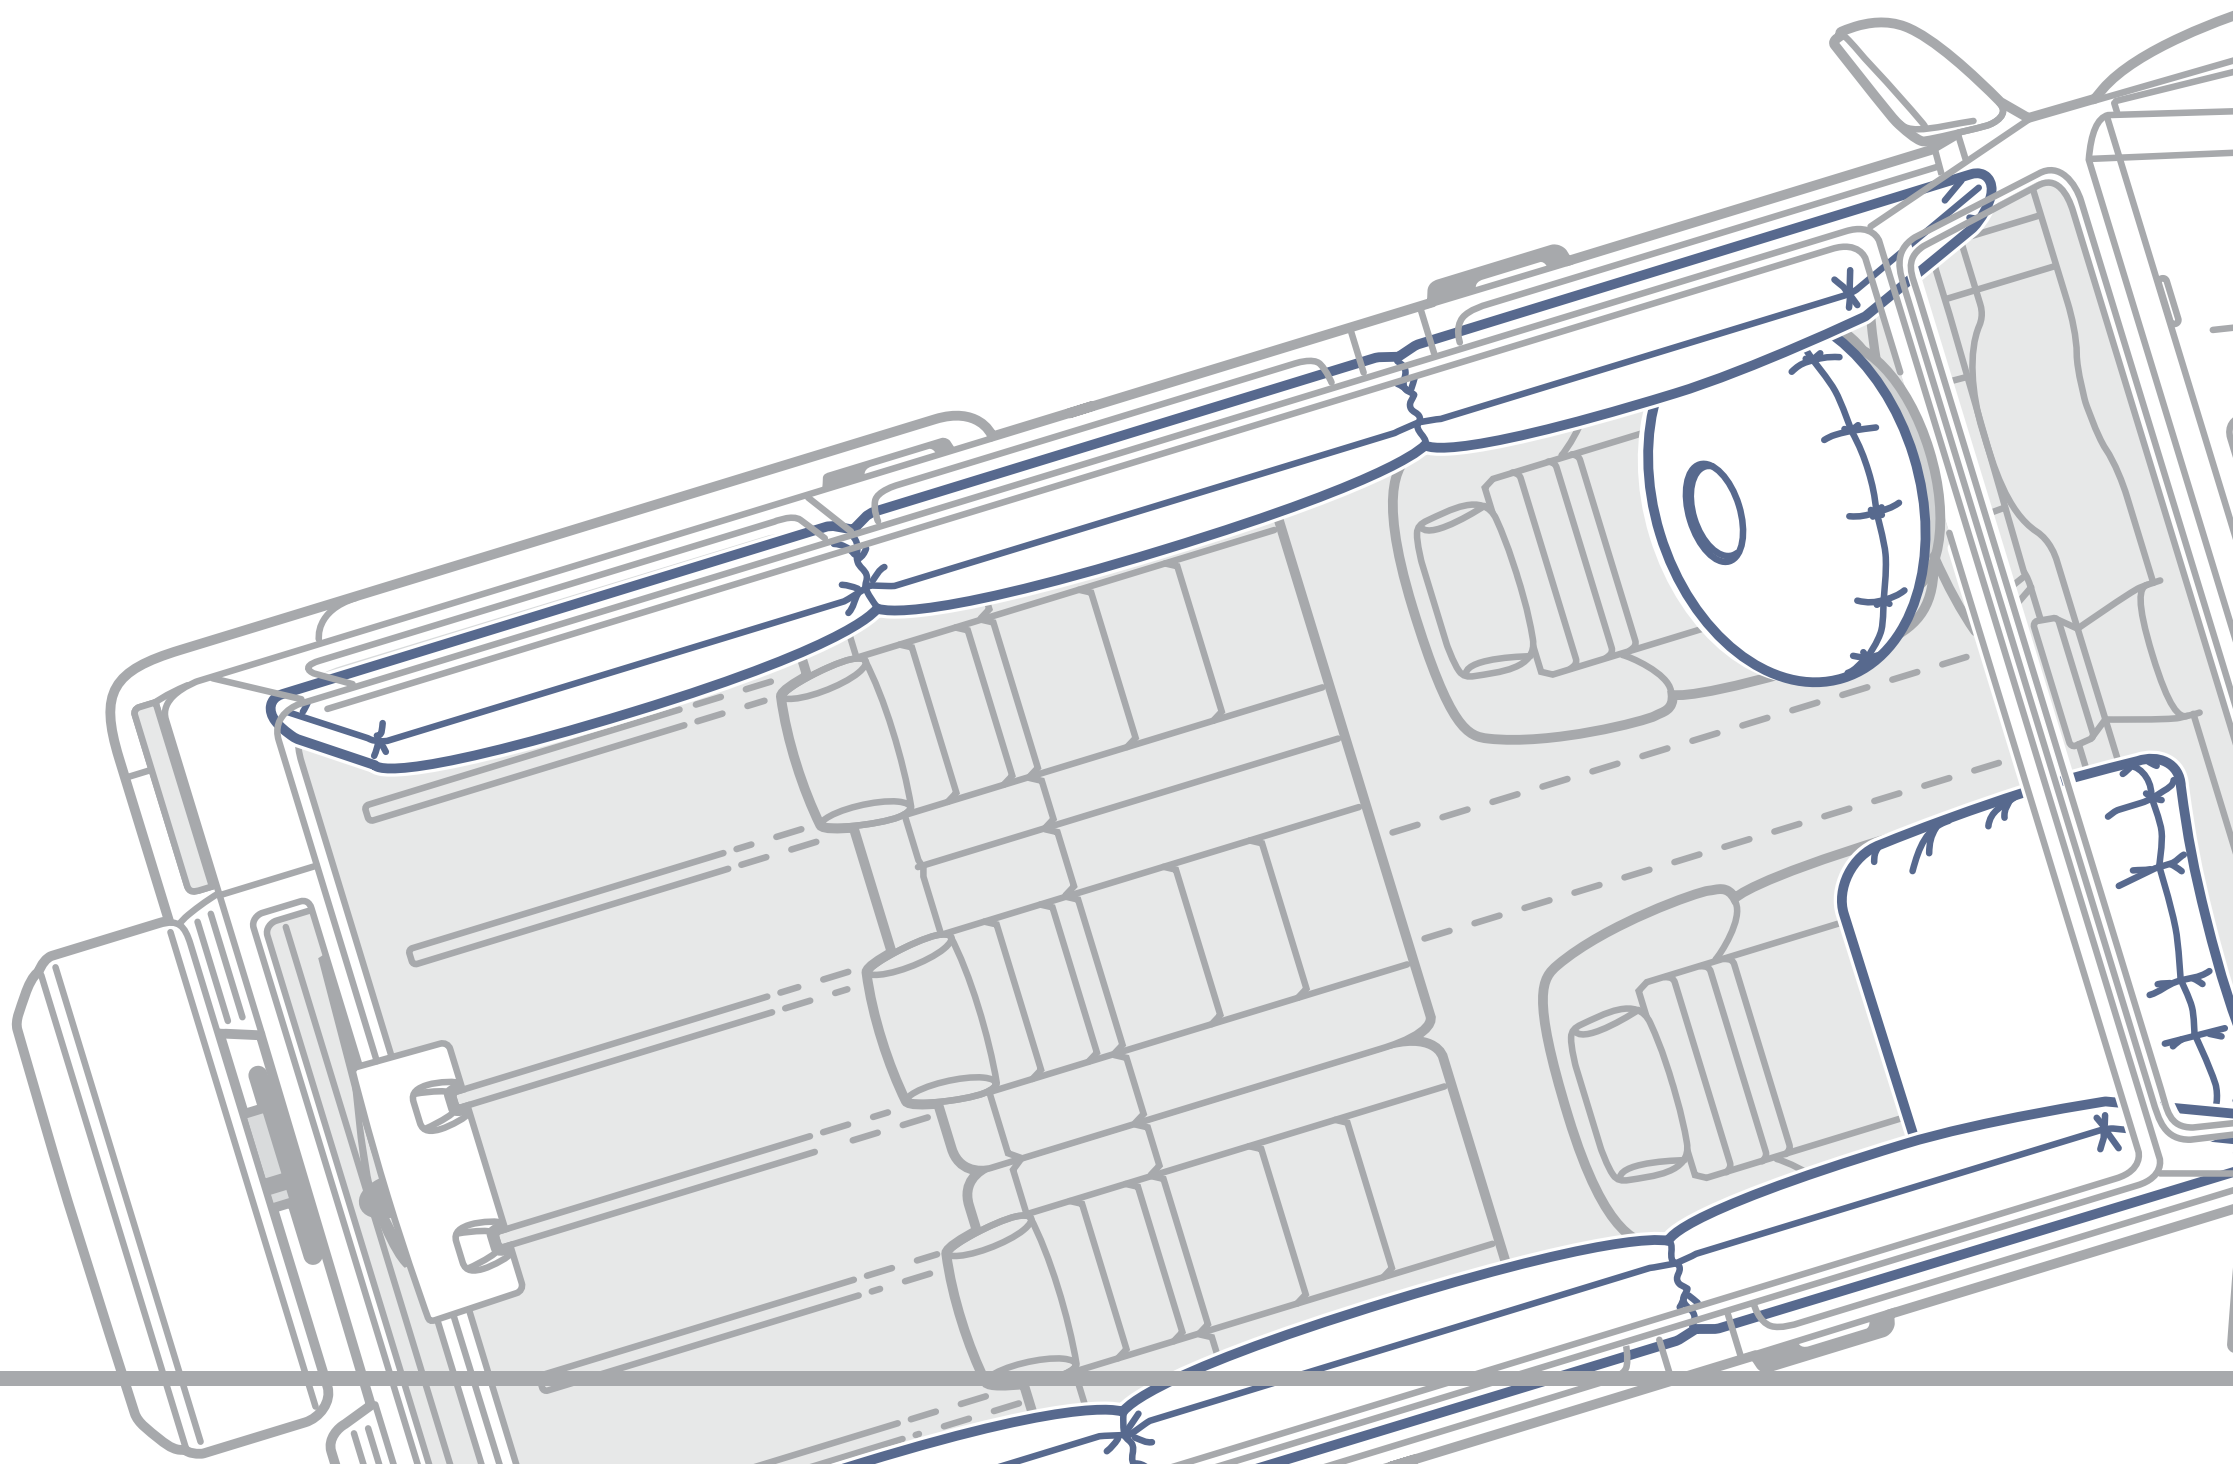

20" AMG 5-Spoke Alloy Wheels in Matte Black (With High-Shine Accents) exude pure confidence.

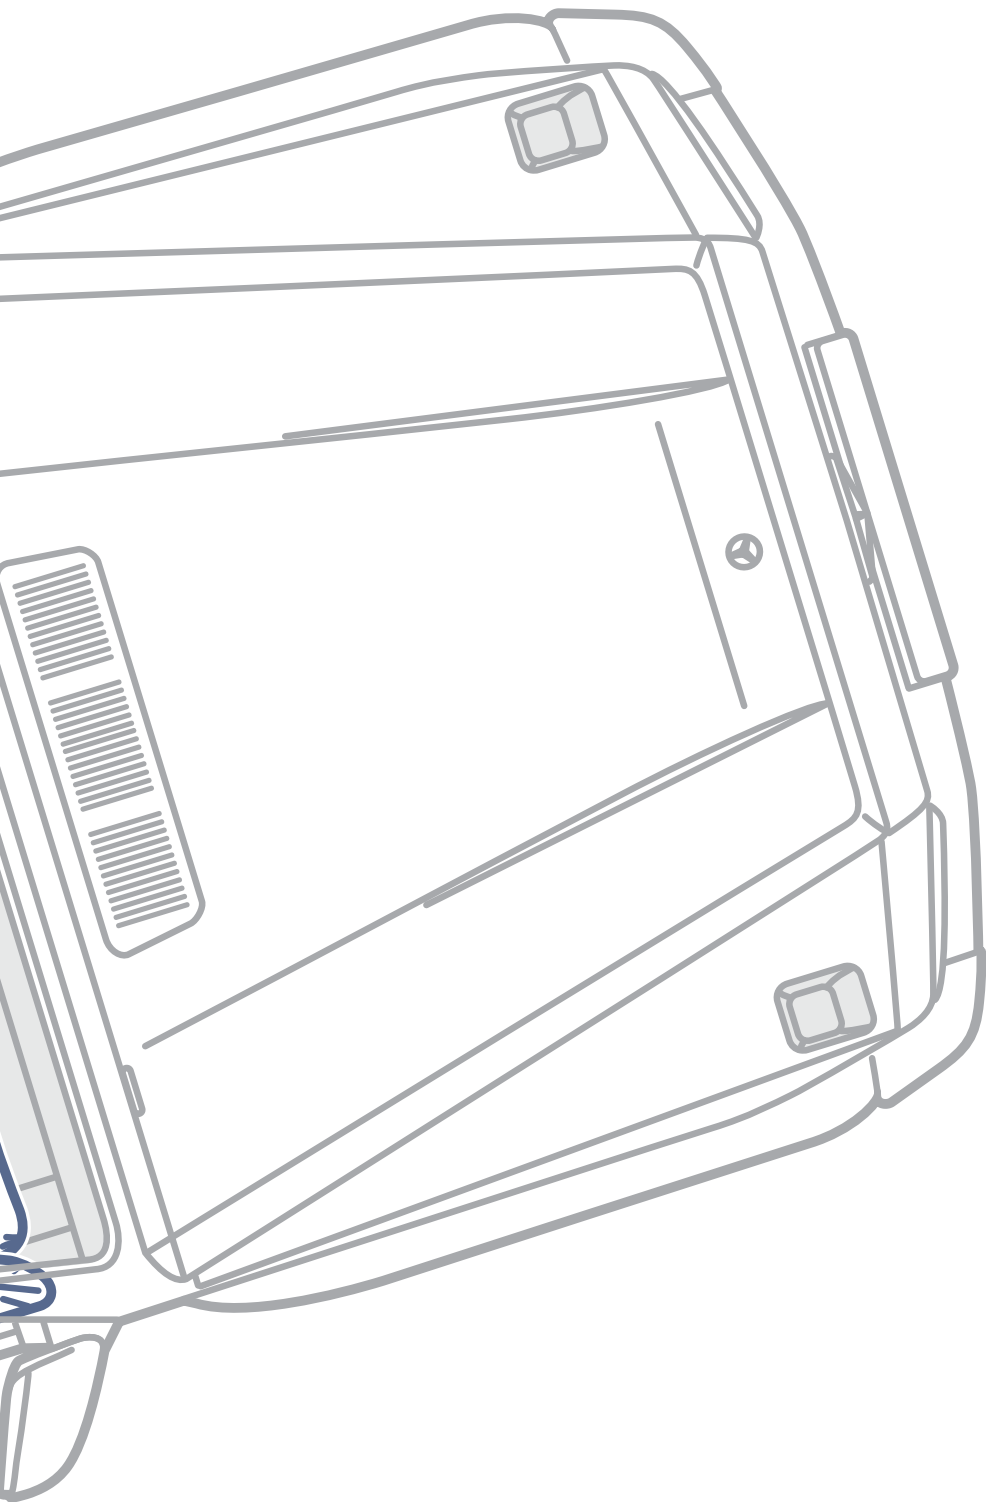

Stainless Steel Running Boards standard on the G 63 AMG.

The G 63 AMG interior adorned in *designo* Titan Pearl Nappa leather.

Safe when your surroundings aren't.

Never feel threatened with Blind Spot Assist, Front and Rear PARKTRONIC, rear view camera, DISTRONIC PLUS, heated front windshield, differential locks, and a tire pressure monitor system. The G-Class is also equipped with airbags for the driver and front passenger which respond adaptively in the event of an accident, deploying in one or two stages depending on the predicted characteristics of the accident.

Sensational made unforgettable.

Exclusive to the G 63 AMG, the optional *designo* Exclusive Package features two-tone Nappa leather, seat and door centre panels and rear door insert in designo leather with diamond stitching, and *designo* black Nappa leather upper and lower dashboard portions.

designo Porcelain leather interior door panels

designo Champagne White Piano Lacquer trim

The G 63 AMG in *designo* Porcelain/Black two-tone leather.

A declaration of supremacy.

A particularly alluring training event takes place from January to April each year in Arjeplog, Sweden, close to the Arctic Circle: the AMG Winter Sporting ADVANCED and PRO event. Participants drive the AMG high-performance cars provided exclusively at a closed-off ice-covered site, generally with the 3-stage ESP® Electronic Stability Program disabled, and outfitted with special spike tires which ensure a precisely defined level of traction. Specially developed programs on scaled-down versions of international race circuits guarantee an optimum combination of training success and driving pleasure.

Stealing the show.

As a tribute to the 65th anniversary of the Palme d'Or, the golden Mercedes-Benz G-Class was driven through Cannes offering VIP guests of the film festival an outstanding shuttle service. The gold-wrapped shuttle ensured attendees made a spectacular entrance when they arrived on the red carpet.

Dressed for any occasion.

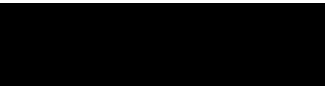

The G-Class is available in a selection of paint colours and types, all featuring a resilient clear-coat to help hide everything you put it through. But the G-Class wears its battle wounds with pride, so we won't be offended if you don't come back for touch-ups.

Make the most of your G-Class.

When it's more than driving, Mercedes-Benz offers more than just standard equipment. The G-Class is available with an array of optional features and finishing touches to elevate the capability, convenience and style you have come to expect from Mercedes-Benz.

Rear Entertainment System (Dual 7" monitors with DVD Player and Wireless Headphones)

20" AMG 5-Spoke Alloy Wheels in Matte Black (With High-Sheen Accents)

A lasting attention to detail.

A passion for craftsmanship and precision – it's what you'd expect from Mercedes-Benz. It drives us to set new standards in design, performance, comfort and safety.

24-HOUR ROADSIDE ASSISTANCE.

Mercedes-Benz Roadside Assistance is at your service 24/7 every day to anyone driving a Mercedes-Benz in Canada or the continental U.S.¹ We'll bring you fuel, replace a flat tire with your spare, or jumpstart your car. When needed, a towing service will be provided to the nearest Mercedes-Benz dealership.

WEAR AND TEAR PERIOD.

Brake pads, brake discs, brake pad wear sensors and light bulbs are all covered for wear and tear during the first 24 months or 40,000 km, whichever comes first.

MERCEDES-BENZ WARRANTIES.

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km – whichever comes first. Mercedes-Benz Extended Limited Warranty is also available.²

CUSTOMER SERVICE.

Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday. Our knowledgeable Mercedes-Benz experts can talk you through the finer points of working your car's audio system – or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100.

TRIP INTERRUPTION REIMBURSEMENT.

If a breakdown covered by your New Vehicle Limited Warranty or optional Extended Limited Warranty occurs more than 80 km from your home – leaving your vehicle inoperable or unsafe to drive with required overnight repairs – you'll be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternative travel expenses per incident, while your car is repaired at an authorized Mercedes-Benz dealership.

MERCEDES-BENZ IS VIRTUALLY YOURS.

mercedes-benz.ca is your online window to Mercedes-Benz Canada. Revel in the incredible photography while you access information on any of our current or upcoming models, and configure your dream Mercedes-Benz online. You'll also find details about the Mercedes-Benz Extended Limited Warranty, vehicle ownership, and the fascinating history behind one of the world's most recognizable brands.

TO BE CONTINUED. WITH A TEST DRIVE.

Nowhere is your G-Class so convincing as on the road. Only there can you fully experience the superior handling and power that makes this car so special. Feel the engine move you forward, and watch your heart rate rise with the speedometer. That unique feeling cannot be captured on paper. That's why we invite you in for a test drive at your local Mercedes-Benz dealer. Reserve your appointment today or visit mercedes-benz.ca.

We look forward to seeing you.

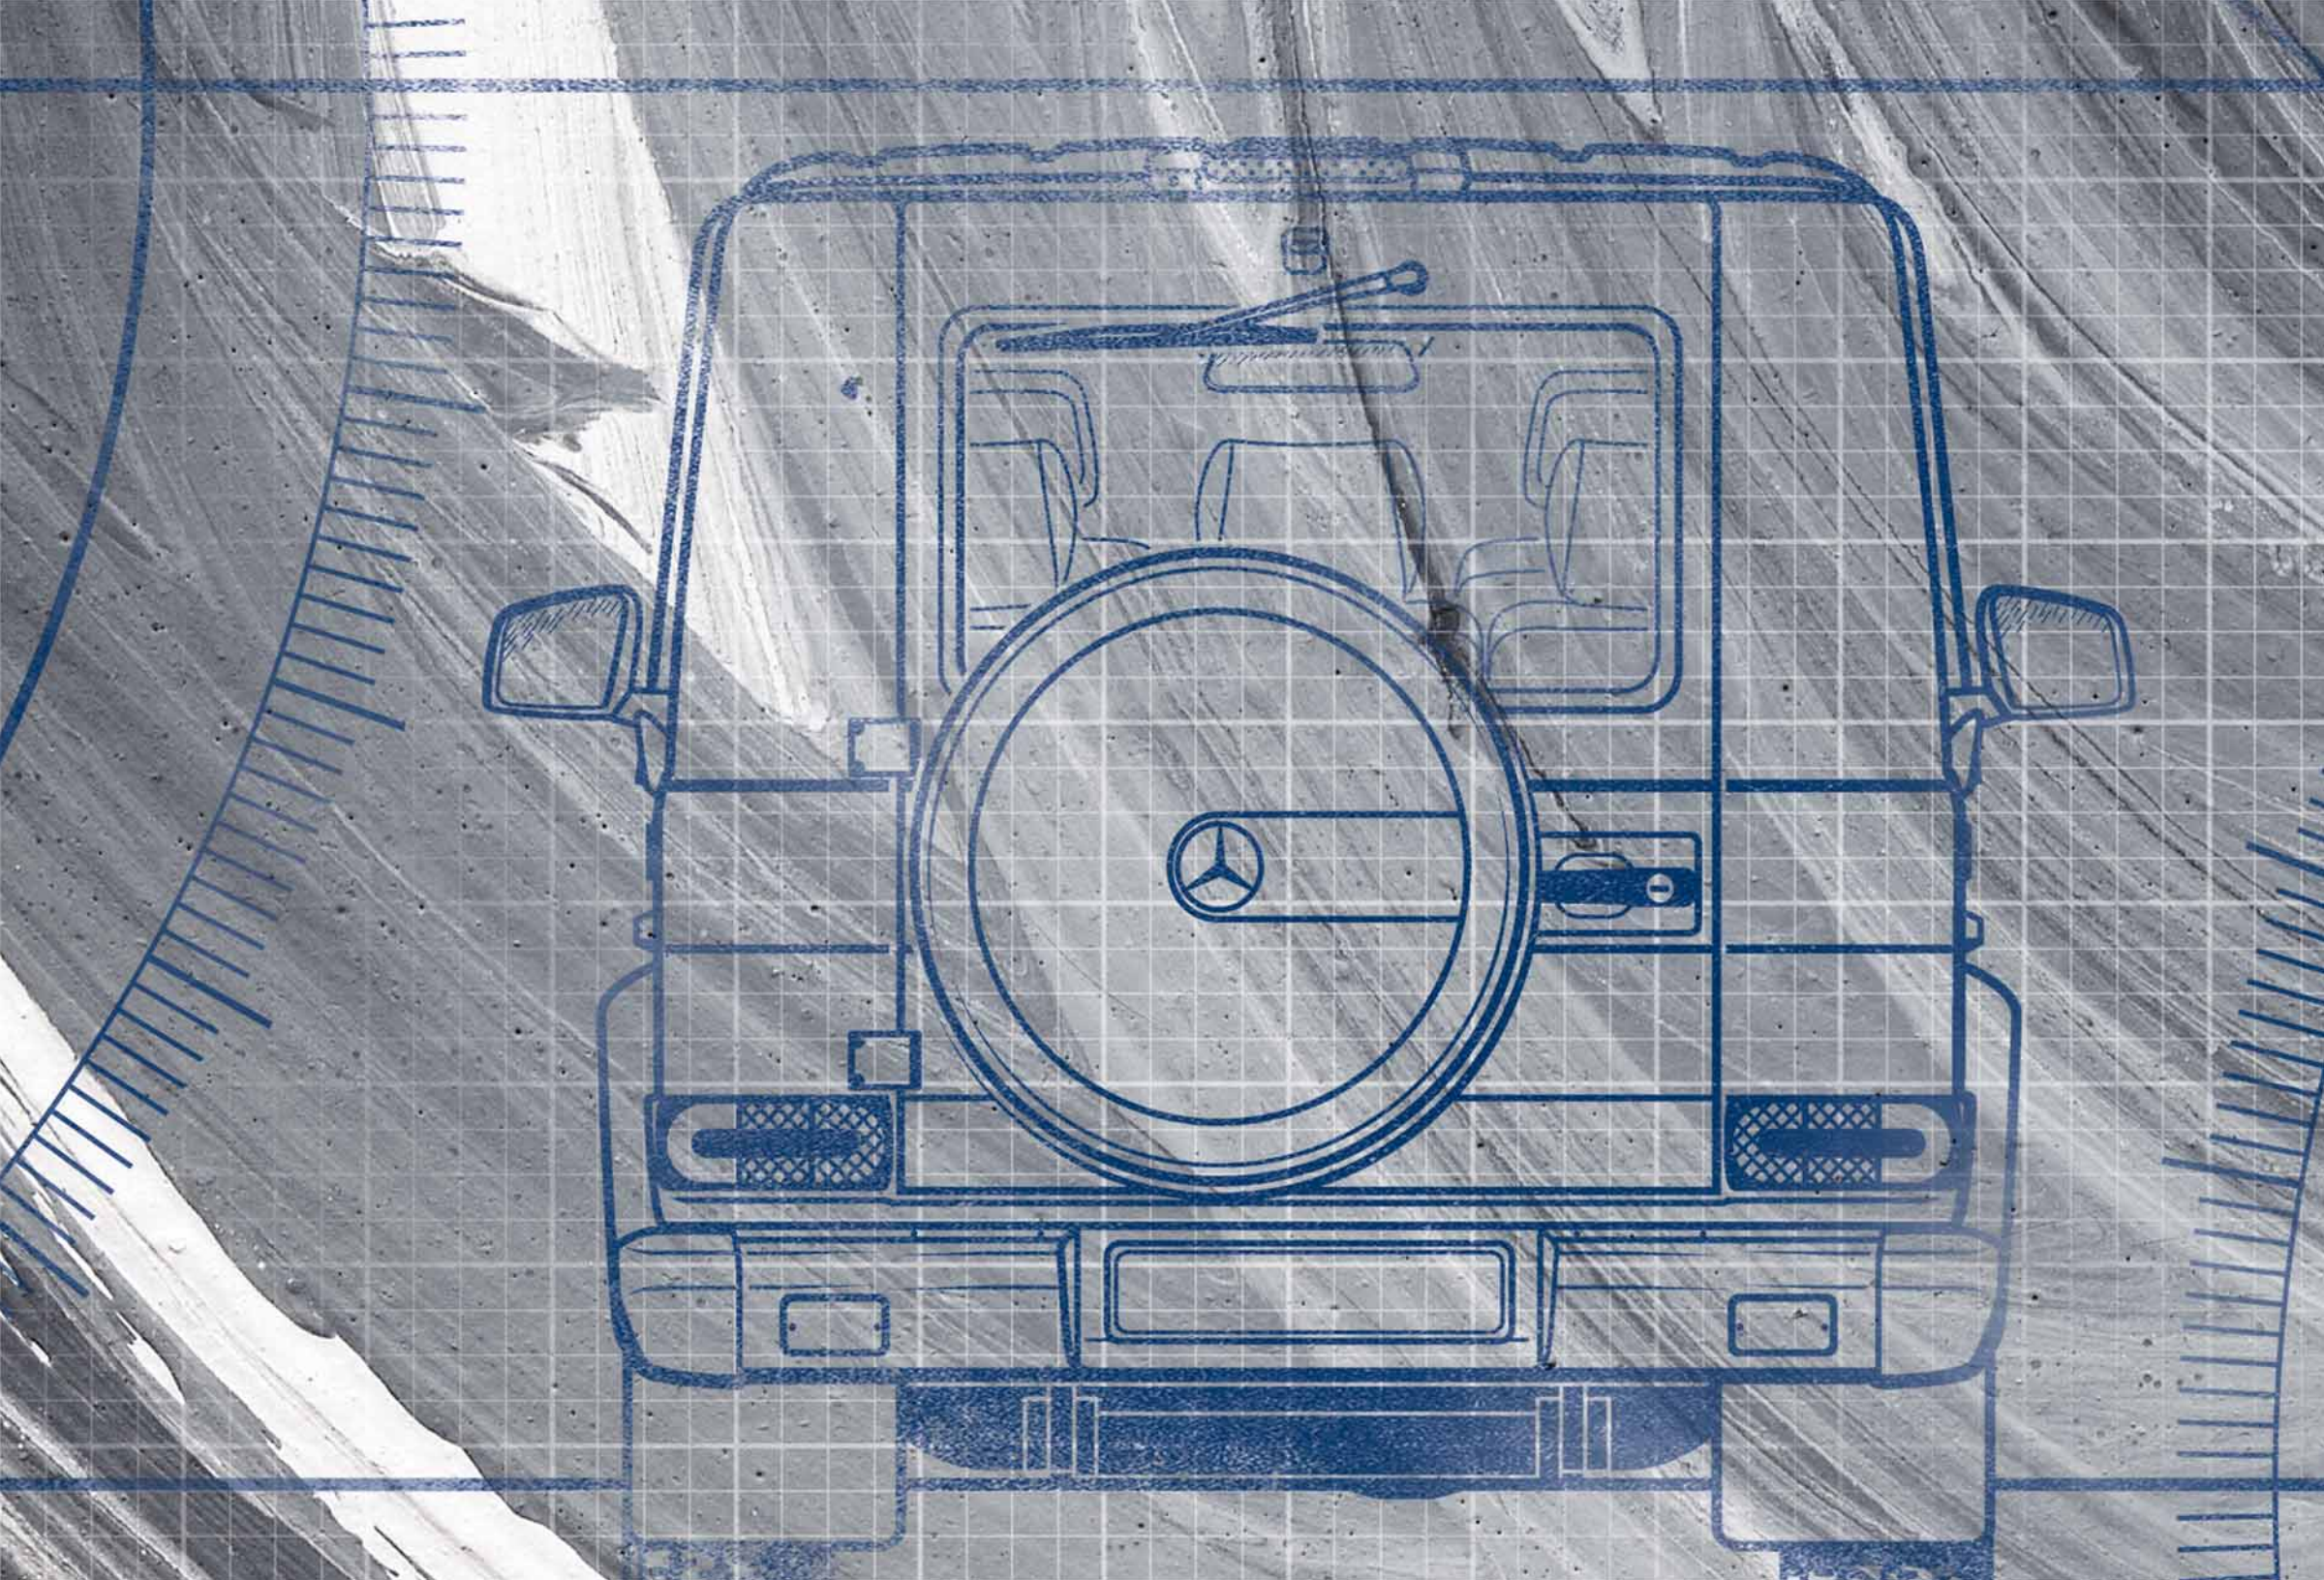

¹Vehicle must be accessible from main roads. Roadside Assistance may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service provider, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer. ²Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options.
