

GLE AMG

Mercedes-AMG GLE 63 S fuel consumption combined: 11,8 l/100 km; combined CO₂ emissions: 276 g/km

Performance. For many, just a word. For us, a whole world.

Mercedes-AMG is not just a manufacturer of performance vehicles and sports cars, AMG is a promise. It's the promise always to look for a challenge and to go one step further; to expect much and give absolutely everything. This is how we create exceptional automobiles for exceptional people.

The Mercedes-AMG GLE likewise stands for our determination to make the most of everything – every moment, every meter.

Welcome to the world of AMG.

Freedom movement with three letters.

The horizon knows no limits. And the same applies to drivers of the Mercedes-Benz GLE 450 AMG. This vehicle offers entry into a world where performance and passion matter. It combines the superior technology of high-performance vehicles with the irrepressible power of an SUV. The result is V6, 270 kW (367 hp), 520 Nm from 2000–4200 rpm and intensity on every meter – for those who take it all on. Because the more ambitious the destination, the more exciting the journey.

Adventure calls. The chassis answers.

The definition of perfect road holding? It lets the driver break out from everyday life – but not from the bend. The permanent AMG Performance 4MATIC all-wheel drive guarantees that the vehicle stays firmly on the ideal line. The 40:60 rear-biased torque distribution ensures the necessary power delivery paired with maximum agility. The outcome in the cockpit is 100% pure driving pleasure.

Performance athletes assembled.

No room for doubt. The GLE models from Mercedes-AMG have been setting the standard for high-performance SUVs worldwide since 1999 – no one else has ever come close. From the Mercedes-Benz GLE 450 AMG through the Mercedes-AMG GLE 63 to the Mercedes-AMG GLE 63 S the performance philosophy of the AMG brand becomes tangible in all its facets.

The only question that remains to be answered is: Which model is best for you?

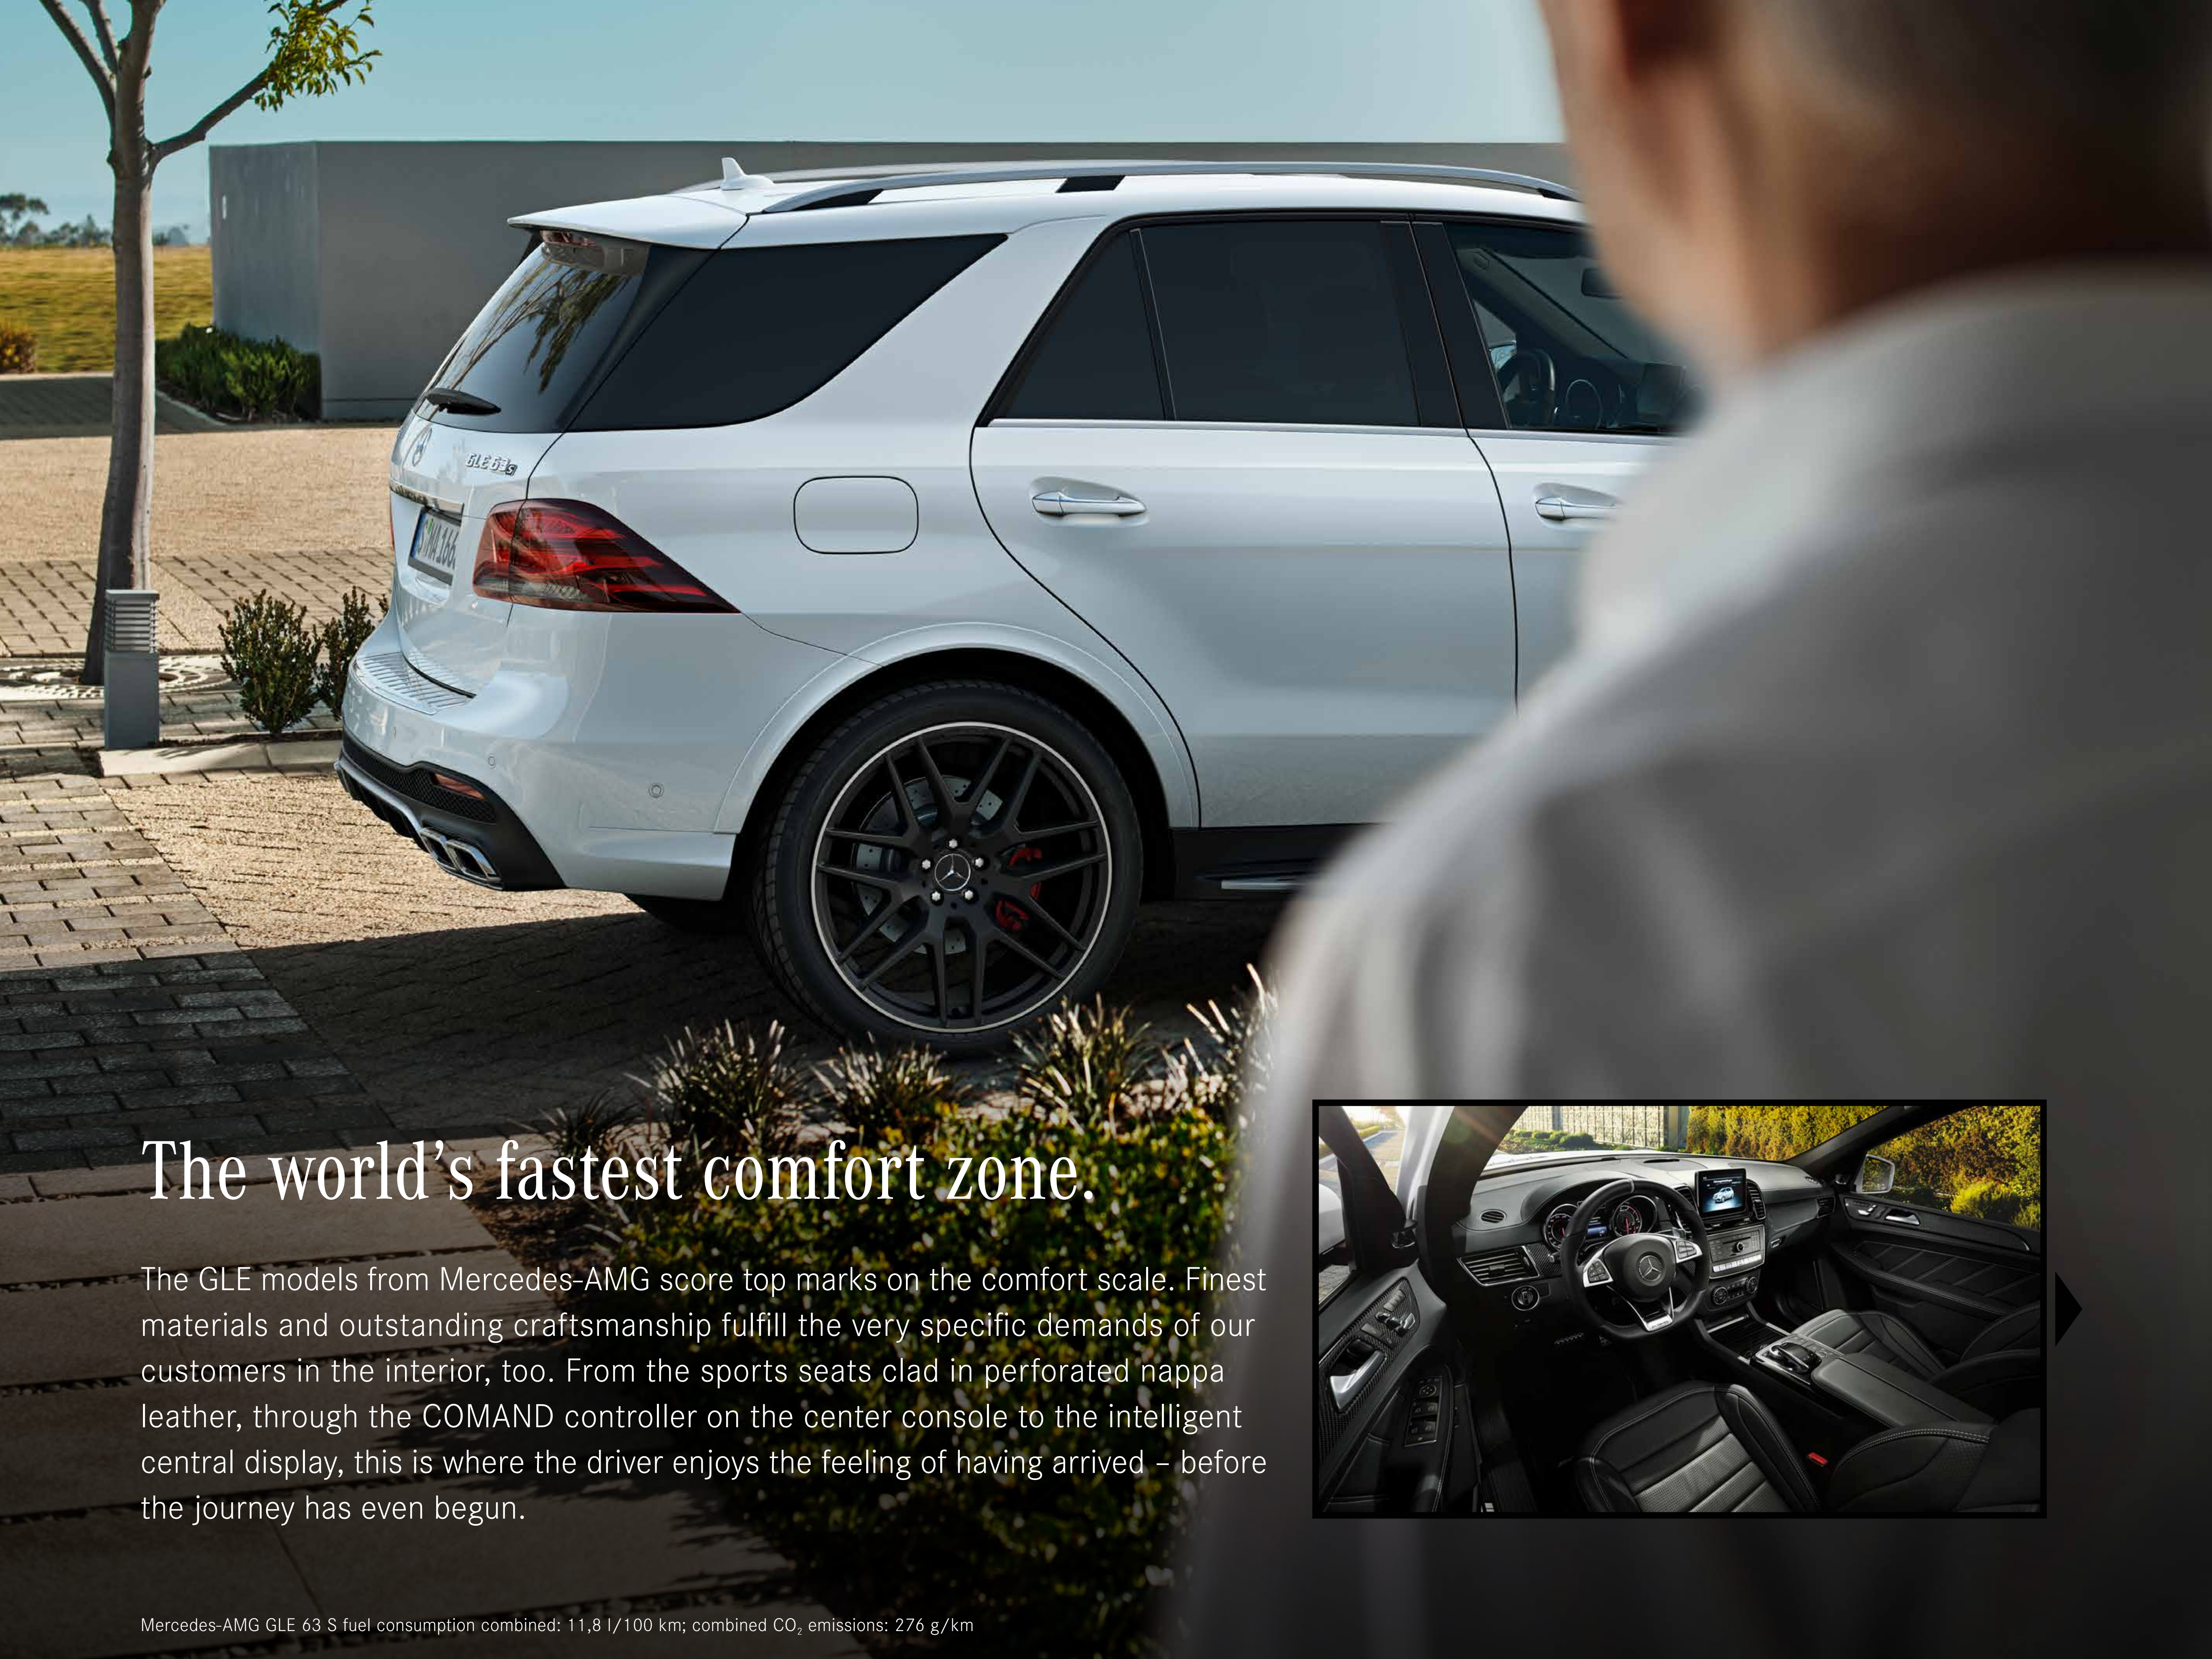

ENGINE AND PERFORMANCE	Mercedes-Benz GLE 450 AMG 4MATIC	Mercedes-AMG GLE 63 4MATIC	Mercedes-AMG GLE 63 S 4MATIC
Engine	3.0-liter V6 biturbo	5.5-liter V8 biturbo	5.5-liter V8 biturbo
Displacement (ccm)	2996 ccm	5461 ccm	5461 ccm
Power (kW/hp)	270 kW/367 hp	410 kW/557 hp	430 kW/585 hp
Torque (Nm @ rpm)	520 Nm @ 2000–4200 rpm	700 Nm @ 1750–5500 rpm	760 Nm @ 1750–5250 rpm

Mercedes-Benz GLE 450 AMG fuel consumption combined: 8,6 l/100 km; combined CO₂ emissions: 199 g/km. Mercedes-AMG GLE 63 fuel consumption combined: 11,8 l/100 km; combined CO₂ emissions: 276 g/km. Mercedes-AMG GLE 63 S fuel consumption combined: 11,8 l/100 km; combined CO₂ emissions: 276 g/km.

A white Mercedes-AMG GLE 63 S SUV is parked on a cobblestone driveway. A man in a white shirt and dark trousers stands to the left of the car, looking towards it. The background features a modern building with a large green wall and a clear blue sky. The car's license plate is 'S MA 1663'.

Our definition of luxury – more torque.

The performance begins when the sheer anticipation sets the driver's pulse racing. And taking it up a notch is effortless – because 585 horsepower (430 kW) are lurking under the hood of the Mercedes-AMG GLE 63 S just waiting to be released. Thanks to the DYNAMIC SELECT programs, they can master every pace from a gentle trot to an unharnessed gallop. Up to 760 newton meters at 5250 rpm – this power makes sure that the fascination of AMG escapes nobody.

The world's fastest comfort zone.

The GLE models from Mercedes-AMG score top marks on the comfort scale. Finest materials and outstanding craftsmanship fulfill the very specific demands of our customers in the interior, too. From the sports seats clad in perforated nappa leather, through the COMAND controller on the center console to the intelligent central display, this is where the driver enjoys the feeling of having arrived – before the journey has even begun.

Hold on tight. But not to convention.

Designed for the limits of physics – the sports seats in the Mercedes-AMG GLE 63 S are an in-house design and deliver excellent grip. The open road ahead, the AMG Performance steering wheel in your hands, the shift paddles at your fingertips – performance feels this good. The distinctive sound of the AMG sports exhaust system makes a clear statement for all to hear – keeping up will not be easy.

Powerplay. With the focus on power.

Here comes the energy. The AMG 5.5-liter V8 biturbo engine sends shivers down the spine with its tremendous power, catapulting the Mercedes-AMG GLE 63 S to 100 km/h in just 4.2 seconds. Every engine is handcrafted by our specialists – according to the AMG philosophy “One Man – One Engine”. The engine plaque bearing the personal signature of the technician marks a seal of quality and a promise that the power of this engine is designed to thrill.

Our engineers have created what you want.

The best things in life are the ones you control yourself. AMG DYNAMIC SELECT offers five electronically controllable drive programs for delivering the vehicle's performance to the road in exactly the way you want. Be it "Comfort", "Sport", "Sport +", "RACE" or "Individual", the intelligent damper adjustment ensures perfect traction at all times. With the Mercedes-AMG GLE 63 S, dynamic performance is a given – and every road something truly special.

The beauty and power of 585 horses.

The Mercedes-AMG GLE 63 S is an irresistible force of nature, with AMG styling like the front skirt with its characteristic A-wing, the twinblades in the radiator grille and the mighty powerdomes on the bonnet. The transmission is equally agile – the AMG SPEEDSHIFT PLUS 7G-TRONIC adapts to each drive program selected in mere fractions of a second. There can be no doubt that this is a true thoroughbred.

Driving Performance. Even when braking.

The engine powering the Mercedes-AMG GLE 63 S has only one opponent of equal stature – identifiable by the red brake calipers. The AMG high-performance braking system demonstrates precision and responsiveness and its internally ventilated, perforated brake discs deliver phenomenal stopping power. If you do choose to stop, you can use the break to cast an eye over the “V8 BITURBO” badge. Those few letters show just what this automobile stands for – driving experiences at the limits.

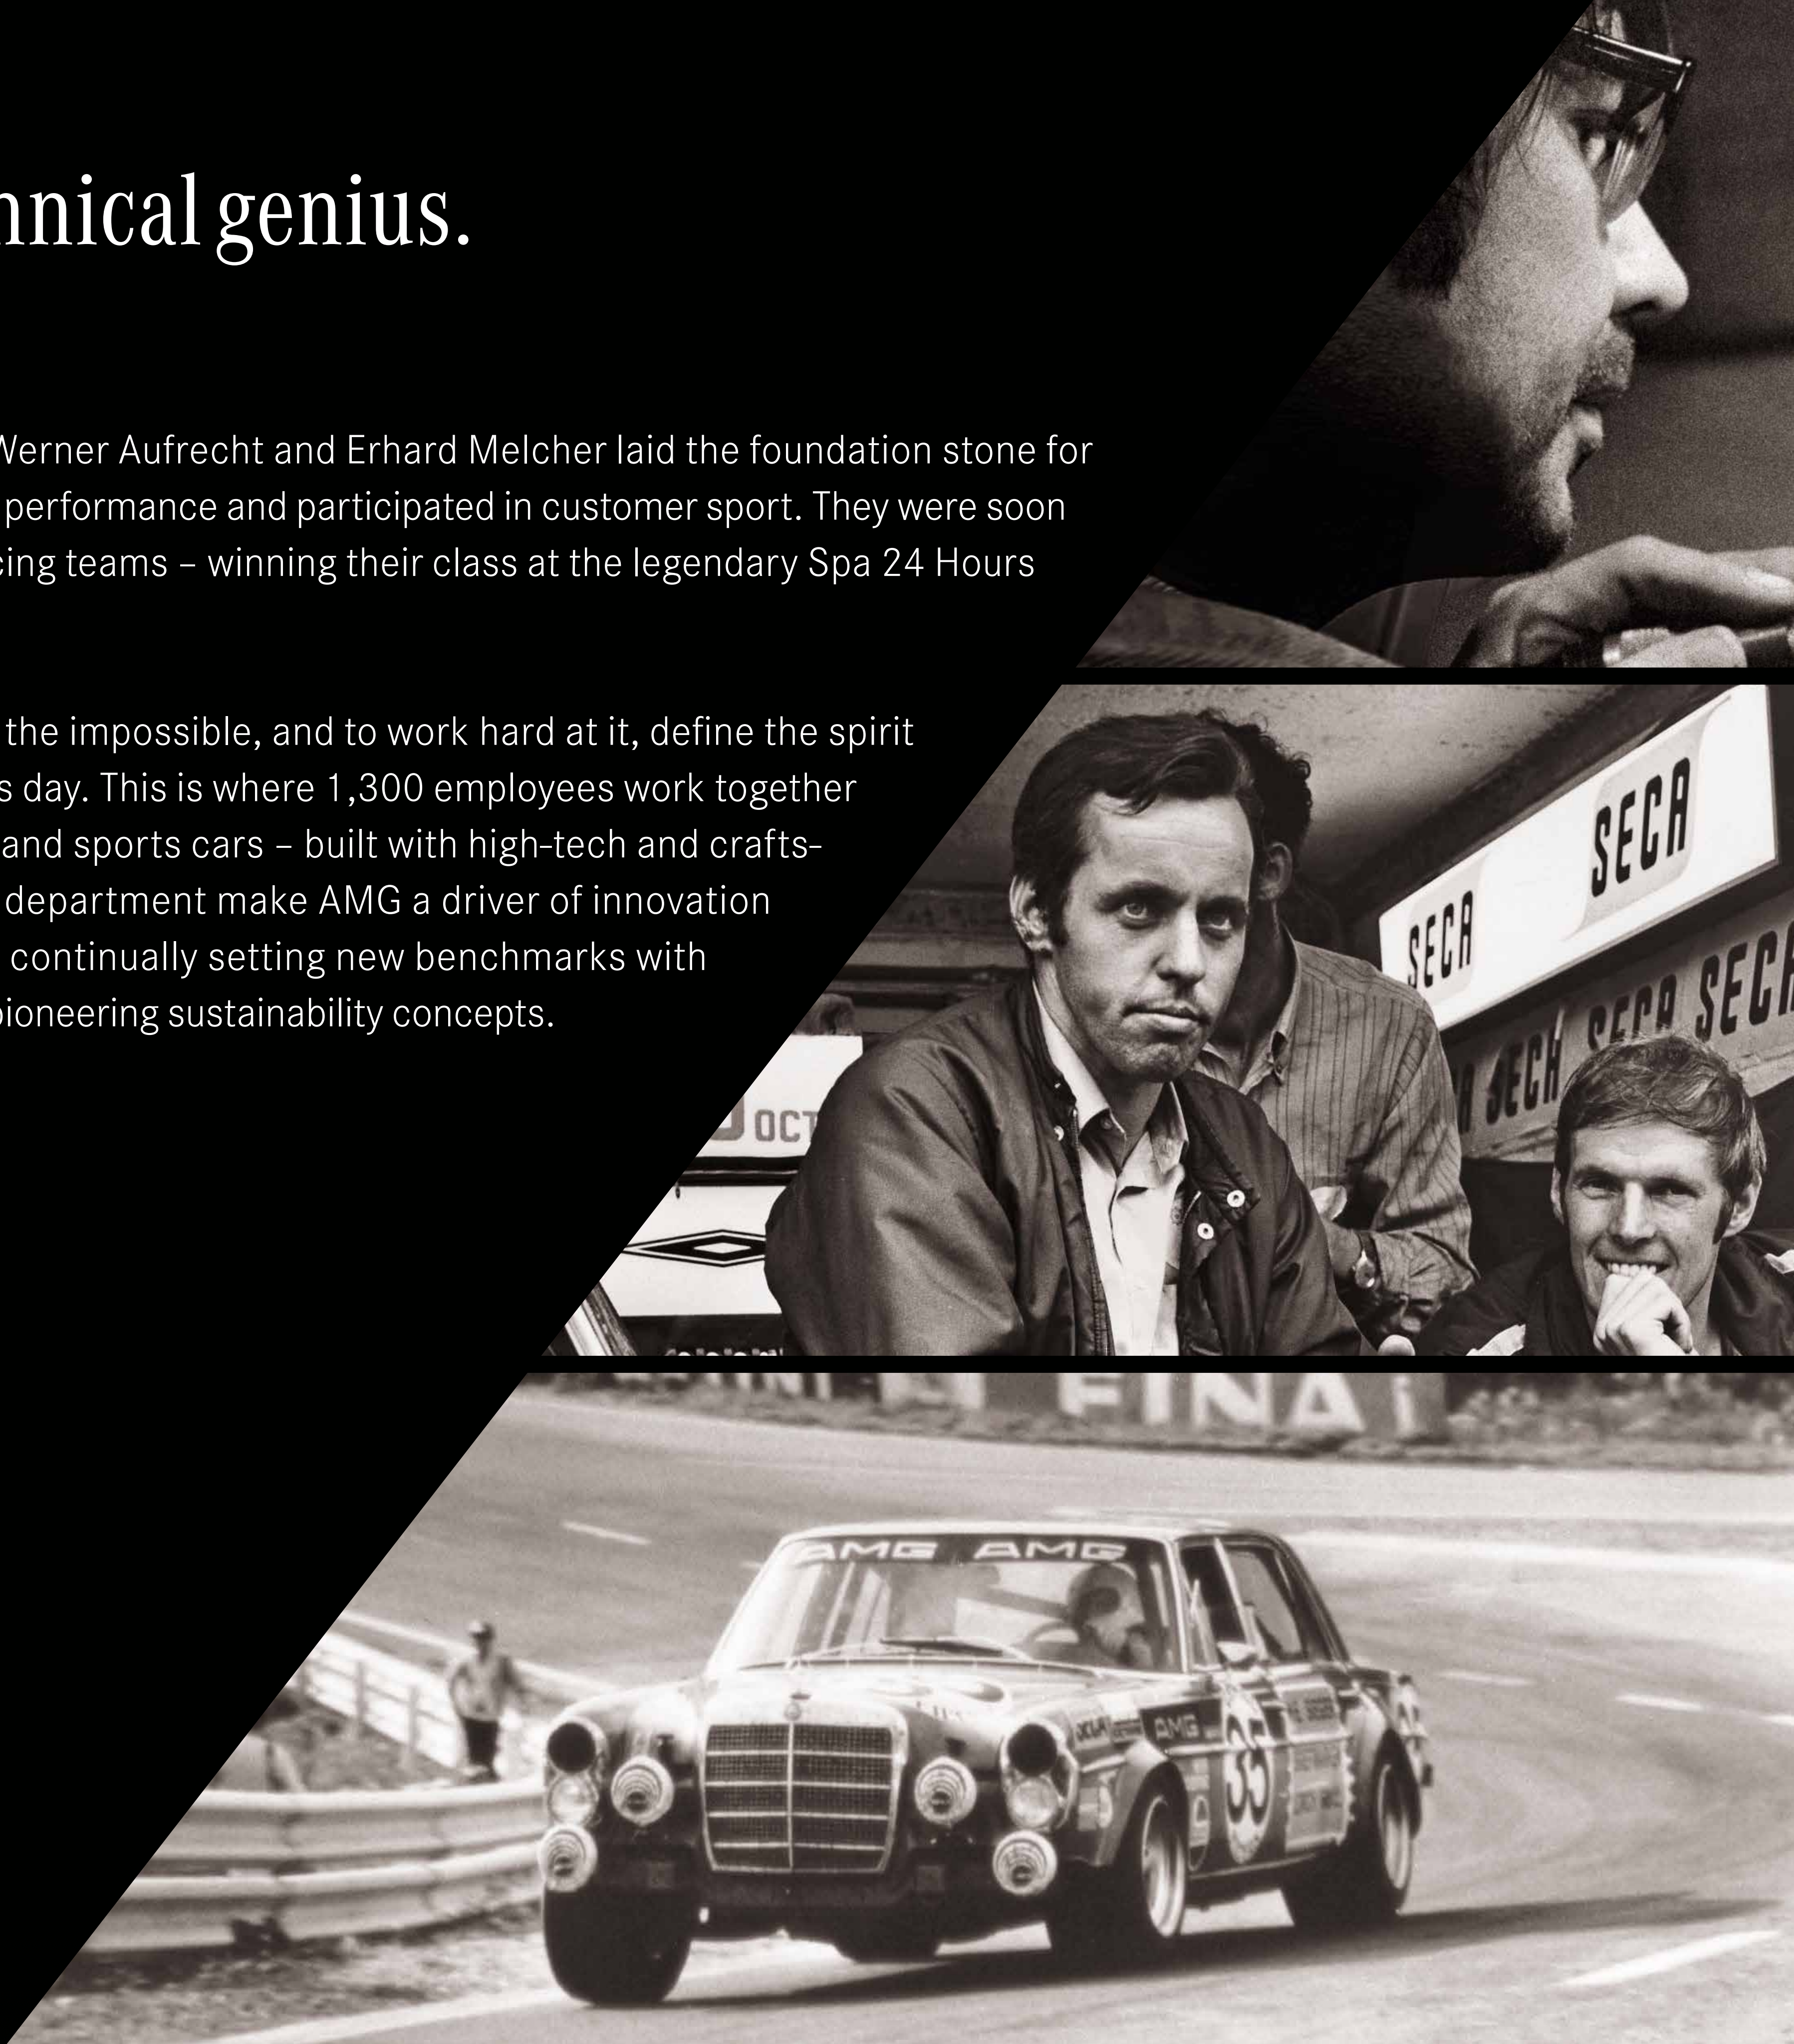

Supremacy needs technical genius. And a home.

With the conviction that they can win, Hans-Werner Aufrecht and Erhard Melcher laid the foundation stone for AMG in 1967. Together, they optimized engine performance and participated in customer sport. They were soon competing against strong and established racing teams – winning their class at the legendary Spa 24 Hours in 1971 with the AMG 300 SEL 6.8.

Their courage and their determination to risk the impossible, and to work hard at it, define the spirit of our Affalterbach development facility to this day. This is where 1,300 employees work together to develop fascinating performance vehicles and sports cars – built with high-tech and craftsmanship. 700 engineers in the development department make AMG a driver of innovation within the sector. Our development center is continually setting new benchmarks with state-of-the-art production management and pioneering sustainability concepts.

We don't just build cars. We make dreams come true.

Passion grows if you share it. The AMG Private Lounge is our community for the world of AMG. This is where AMG customers meet at first-class events and use the online platform to discuss the latest developments from Affalterbach. They also benefit from special offers and the direct link to the AMG headquarters:

Take-back of end-of-life vehicles. At the end of its long life, you can return your passenger car to us for environment-friendly disposal in accordance with the European Union (EU) End-Of-Life Vehicle Directive. But that day is a long way off.

A network of vehicle take-back depots and dismantlers has been established to make it as easy as possible for you to return your vehicle. You can leave it at any of these points free of charge. In so doing, you will be making a valuable contribution towards completing the recycling loop and preserving resources.

For further information about the recycling and disposal of end-of-life vehicles and take-back conditions, please visit your national Mercedes-Benz website.
