New Generation B-Class Sports Tourer

More charisma, more love.

A redesigned dynamic front apron, delicately styled headlamps - and a unique light show which pays as much attention as it draws: in conjunction with the optionally available LED High Performance headlamps the driver is greeted by a blue light when unlocking the doors. Get in and feel good. In a generous interior which is optimally prepared for all activities.

More space, more love.

The combination of 1,547L supersized trunk space and fine materials characterises its style. The multifunction steering wheel features a 3-spoke design, while the luxury seats with upholstery in leather, for example in cranberry red, add a fashionable flourish and fine highlights with contrasting topstitching.

AIRBAG

More assurance, more love.

Whether you are on your way to the mountains alone or to the sea with the whole family. The reassuring feeling of driving a Mercedes-Benz accompanies you everywhere. Innovative driving assistance and safety systems support the driver and protect the occupants and other road users better than ever before. Like the COLLISION PREVENTION ASSIST PLUS, which can warn the driver visually and acoustically about an impending rear-end collision and if necessary even instigate a brake actuation. This is New Generation B-Class Sports Tourer with Mercedes-Benz Intelligent Drive.
