R-Class Grand Tourer

More space is provided for success in pleasant communication atmosphere.

The R-Class Grand Tourer is more spacious and comfortable. It not only provides you with more luxury space in your leisurely riding, but also enlarges the space for success in pleasant communication atmosphere.

His Majesty in new robes.

Building a generously dimensioned car is one thing. But combining legendary standards of comfort with high agility is not something very many manage at this level. The new R-Class impresses with dynamism of a calibre you wouldn't necessarily expect of a car with these proportions. But a Mercedes is the exception.

Why not simply take your entire entourage with you?

You like travelling in a more distinguished fashion? The R-Class is your private jet for the road: up to three rows of seats, plenty of legroom, armrests, cup holders, two optional 8-inch screens. Plus an individually adjustable air conditioning system—as an option in the rear, too.
