

All New GLA SUV

Mercedes-Benz

Powered by life.

The GLA SUV is designed for the fearless urban souls who were born with spirit of adventure. Its sporty characteristics are well expressed via the powerful 4-cylinder engine, the 7G-DCT 7-speed dual clutch transmission and a 211 Nm of torque, the dynamic X-shape air vents and the multifunction sports steering wheel in leather. If you have been bored with the stereotyped lifestyle, why not just start a challenging journey with the GLA SUV?

All New GLA SUV

Every ray of sunshine is like a spotlight.

If the road is a stage, the GLA SUV is a true character actor. With its typical SUV proportions and its striking front end, it exudes a self-assured presence. But the GLA SUV is not just an SUV – it is first and foremost a Mercedes. As indicated by the centrally positioned star in the radiator grille and the so-called “dropping line”. This is the design line which extends from the headlamps along the sides to the rear axle, creating an impression of fluid dynamism even when the vehicle is stationary. No wonder the GLA SUV looks so pleased with itself.

A detailed view of the interior of a Mercedes-Benz car. The image shows the driver's side, including the leather-upholstered seat with a silver door handle, the center console with gear shift and handbrake, the steering wheel with the Mercedes-Benz logo, and the dashboard. The car is parked on a road, and the side mirror is visible. The text "A night in watching TV? Or how about starring in your very own road movie..." is overlaid on the bottom left of the image.

A night in watching TV? Or how about
starring in your very own road movie...

The centerpiece of the cockpit is the large free-standing color display – the point of access to a whole world of information and entertainment in your GLA SUV, including the navigation system, phone, audio and other functions. All the equipments are clearly set and within your reach. If the road is a stage, the moment you sit into the GLA SUV, a show of road knight is about to unveil. The multifunction steering wheel, which comes with perforated grip area and 12 function buttons as well as a shift lever in leather, provides you with comfortable grip, and the journey ahead is in your full control. Moreover, the X-shape air vents are design classics in the making, embodying the traditional workmanship and use of high quality materials in the GLA SUV.

Get ready. The adventure is calling.

Only those who are truly confident, dauntless and full of adventurous spirit can maneuver the beast. The GLA SUV is driven by five of the most cutting-edge engines in its class, equipped with a high-tech package including turbocharging and direct injection. The engine power is converted virtually directly into thrust: via an efficient front-wheel drive or particularly dynamic 4MATIC all-wheel drive. It's behind every move of the urban elites to conquer the impossible.

Model Prices

Model	GLA 200	GLA 260 4MATIC
Rated Output (kW/hp/rpm)	115/156/5300	155/211/5500
