

# G-Class

Mercedes-Benz

# Rawsome.

For more than three decades the G-Class has been synonymous with outstanding off-road capabilities and innovative, reliable engineering. Practically unchanged since the market launch in 1979, the exterior design is impervious to any trend and makes the G-Class a timeless classic. The G-Class combines the practicality of a genuine off-roader with an unrivalled level of ride and operating comfort, while exuding an exclusive, stylistically assured interior ambience with its high-grade materials and well-chosen details.

## G-Class

# A timeless classic.

It would be a great challenge to keep reinventing itself without losing its traditions, to build new G-Class based on its previous model. However, we have managed to continue the legend: we didn't redesign the G-Class, but rather innovatively passing on the tradition.

# The height of luxury.

If you want to get to the top, you will find you have pretty much made it as soon as you get in. But it's not just the commanding seating position that makes the G-Class so special. The ergonomically optimized design contributes to the driver's sense of well-being. On the road or off the road, whether you are taking a drive in the mountains or heading for an economic summit, the G-Class boasts a style of its own.

# Off-road capability: either you've got it, or you fall by the wayside.

Special challenges call for special measures: engines whose capacity and power delivery are perfectly matched to the demands of this versatile cross-country vehicle are a case in point. They are complemented by three fully-lockable differential locks, which allow the G-Class to cope with the challenges presented by just about any situation or any terrain.
