

# E-Class Coupé

Mercedes-Benz

# In top form.

Forwards thrust in its most elegantly sculpted form: the E-Class Coupé is like honed muscles – itching to take on the road ahead. The athletically stretched flanks symbolize sporty refinement, while the strikingly broad rear end augurs assured road holding. On top of this, innovative suspension technology, comfortable seats and uncompromising build quality provide sheer driving pleasure and make the heart beat faster.

# E-Class Coupé

A silver Mercedes-Benz E-Class Coupé is shown from the rear three-quarter view, parked on a dark asphalt surface. The car's sleek design, including its rear wheel, side mirror, and door handle, is highlighted by the warm, low-angle sunlight. In the background, a large, modern building with a flat roof and a series of windows stands under a sky with soft, wispy clouds. The overall mood is sophisticated and elegant.

Extremely charming.

Every last detail stirs the emotions – right down to the wheels with their high-sheen finish. The front-end design of the E-Class Coupé conveys sheer dynamism. The expressive headlamps signal a thirst for adventure. And the striking radiator grille with an integral Mercedes star speaks straight to your heart.

# Parking made easy.

As its name suggests, the Active Parking Assist is there to help you park. All you have to do is press the accelerator. And you can count on just as much assistance for every mile you drive. The car is designed to make every journey a relaxing one. By adapting itself to the road conditions automatically. By allowing smoother and faster gear changes with 7G-TRONIC PLUS. And even by advising you to take a break with ATTENTION AISSIT.

A silver sports car is shown from a side profile, driving on a road. The background is a blurred landscape with a bright sun setting or rising, creating a lens flare effect. The car's design is sleek and aerodynamic, with a low roofline and large wheels. The overall mood is dynamic and high-speed.

A glimpse makes the  
heart beat faster.

Forwards thrust from bumper to bumper. The dynamically rising bonnet, the muscular side lines and the elegantly flat roof line create visual excitement – and a hallmark coupé silhouette. This unique design allows a special feature in that the side windows are also retractable.
