E-Class Cabriolet

Out of sight but not out of mind.

The shoulderline of the E-Class Cabriolet rises gently from the dynamically sculpted headlamps to the powerfully styled tail end. The combination of sportiness and delightful refinement achieved by this design whets the appetite for long trips – be they along scintillating, winding routes set against a Mediterranean backdrop or the wide, tree-lined roads of Provence.

A high-quality photograph of the interior of a Mercedes-Benz E-Class Cabriolet. The image shows the front passenger seat and the rear seat, both upholstered in dark blue leather with light-colored stitching. The interior panels, including the door and center console, are finished in a light tan or beige leather. The car is parked in a dark, possibly underground, parking garage, with a concrete floor and walls visible in the background. The lighting is dramatic, highlighting the textures of the leather and the sleek design of the car's interior.

Anticipation is not always the
greater part of pleasure.

Anybody who takes a seat in the E-Class Cabriolet may not want to get out again any time soon – and with good reason. High-quality, exquisitely finished materials enriched by elegant detailing create an ideal environment for exciting and sporty motoring. Or for stimulating conversation even when travelling at high speed – thanks to the reduced noise level

A silver Mercedes-Benz E-Class Cabriolet is shown from a side-front perspective, driving on a road. The car is in motion, with a blurred background suggesting speed. The car's sleek design and open top are visible.

Every drive triggers your
passion and every overtaking
ensures your joy.

The E-Class Cabriolet leaves plenty behind – including everyday worries – thanks to sophisticated aerodynamics which achieve great things in lots of small details. The AIRCAP system, which now operates based on the car's speed, keeps draughts at bay, while AIRSCARF wraps a scarf of warm air around your neck.
