

The new Mercedes-AMG C 63.

Accelerates independence.

Mercedes-Benz

A long day behind us. Next step: freedom!

How long does it take to clear your mind? Get in. Buckle up. Your right foot positioned, ready, full of expectation. The V8 engine awakens with a deep rumble. Your pulse quickens and you look forward to the day's best diversions. Hands on the steering wheel, eyes on the road. And we head out towards freedom.

Free your mind in 4.0 seconds.

Why AMG? Because a Mercedes-AMG isn't simply a car, it's a tribute to the road. Because you'll immediately be captured by gut feeling. Because you'll be held riveted in the performance seat while the exhaust system plays a symphony for your senses. And because it sometimes only takes four seconds to free your mind.

Adrenaline. A matter of choice.

Switch to emotion and choose the setup for your evening. Set the AMG DYNAMIC SELECT to Comfort mode and relax. Or turn up the volume to Sport: suspension becomes harder, switching times get shorter, the motor reacts more directly. In every mode, the adjustable AMG RIDE CONTROL performance handling system ensures that the vehicle remains in optimal control. Perfect for any excursion.

Welcome to the limits of physics.

At Mercedes-AMG, 700 engineers work not to please the masses, but exclusively for driving experience. For greater agility and driving enjoyment with the electronic rear axle limited-slip. For improved cross-dynamics and at the same time greater driving comfort - thanks to the improved engine mount, among others. Ready for a controlled escape from daily routine? The next turn is already waiting.

Leaves everything else behind. The new generation of V8 engines.

Take off with the completely newly-developed 4.0 litre V8 biturbo engine: It consumes 8.2 litres per 100 kilometres. A full 350 kW (476 HP) or 375 kW (510 HP) in the S-model. A maximum torque of 700 Newton metres from 1,750 to 4,500 rpm. Hand-built following the AMG maxim of „One Man – One Engine“. Simply provoke the gas pedal and leave the day behind you. You'll be astonished at how fast it happens.

A high-angle, night-time photograph of a silver Mercedes-AMG C 63 S driving on a winding, elevated road. The car is positioned in the middle of the frame, moving away from the viewer. The road is bordered by a low stone wall and has a white line marking. In the background, a dense urban landscape is visible, with numerous buildings and streets illuminated by city lights. The overall scene conveys a sense of speed and luxury.

Push the limits. Turn after turn.

Exceeds its own benchmark: the Mercedes-AMG C 63 S. With even more power. Even more technology. Even more breath-taking acceleration. An even shorter braking distance. For thrilling overall performance on every meter of the homestretch. Where high performance meets exhilaration.

Smooth and efficient thrill. The high-performance brake system.

Racetrack flair for your favorite route: Make textbook turns with the high-performance composite brake system and the ultra-lightweight 19" forged wheels. A quick look in the carbon exterior rear-view mirror, brake with precision, then accelerate with fervor. And the enjoyment is unstoppable.

At the climax: pause.

Take a deep breath, enjoy the moment. Still firmly holding onto the performance steering wheel. Gradually your pulse slows and your thoughts switch to autopilot. Your eyes wander across the dashboard, the decorative red seams and take in the sporty stylishness. Should you really stop just when it feels best?

A silver Mercedes-AMG C63 S is shown from the rear, parked on a dark asphalt road. The car's taillights are illuminated, and the license plate reads 'D S C 63'. The background features a dramatic mountain landscape with a winding road and a city visible in the distance under a cloudy sky.

Finally found: The ideal line for the perfect day.

Get out and hold on to the moment. The exhaust system crackles hotly, reminiscent of thrilling moments. Taking a look at the brawny rear end, the four trapezoidal tailpipes, the sporty contours. An exciting day draws to a close. How can it get any better than this?

Driving Performance. The next level.

A thoroughbred sports car on the one hand, lots of room for an active lifestyle on the other. The Mercedes-AMG C 63 S T-model takes sportiness to a new level. With outstanding deceleration values, the ceramic high-performance composite brake system makes sure you stop precisely at every destination. The best pre-requisites for a new kind of independence.

Too fast for life's baggage.

Intensifies the possibilities. Because its spaciousness is just as generous as its power reserves. Baggage for a weekend trip? Equipment for a sporting event? Whatever is on your schedule: its broad shoulders will ensure a satisfying experience.

Off the cuff: high spirits.

What makes for genuine character? Natural superiority. The T Model's low-slung radiator grille and prominent front apron flics – like those of the sedan – announce its arrival on any road. High time for a new sense of pleasure – the next adventure is closer than you think.

Take-back of end-of-life vehicles. At the end of its long life, you can return your Mercedes-AMG C 63 to us for environment-friendly disposal in accordance with the European Union (EU) End-Of-Life Vehicle Directive. But that day lies a long way off.

A network of vehicle take-back depots and dismantlers has been established to make it as easy as possible for you to return your vehicle. You can leave it at any of these points free of charge and, by doing so, make an important contribution to completing the recycling process and conserving resources.

For further information about the recycling and disposal of end-of-life vehicles, and the take-back conditions, please visit the national Mercedes-Benz website.

Please note: changes may have been made to the product since this brochure went to press (01.10.2014). The manufacturer reserves the right to make changes to the design, form, colour and specification during the delivery period, provided these changes, while taking into account the interests of the vendor, can be deemed reasonable with respect to the purchaser. Where the vendor or the manufacturer uses symbols or numbers to describe an order or the subject of an order, no rights may be derived solely from these. The illustrations may show accessories and items of optional equipment which are not part of standard specification. Colours may differ slightly from those shown in the brochure, owing to the limitations of the printing process. This brochure is distributed internationally. It provides a general indication of the range of models, features, optional extras and/or colours available in various countries. Some of the models, features, optional extras and/or colours shown may not be available in your country or may only be available in combination with others. For current and more specific information in relation to the range of models, features, optional extras and/or colours available in your country, and their pricing, you should contact your nearest authorised Mercedes-Benz Passenger Car Dealer.
