**AMG**  
DRIVING PERFORMANCE

Mercedes-Benz

# The power of a new generation.

It is an unbridled attack: on your eyes and on your heart. With intelligent distribution of front and rear wheel power, A 45 AMG 4MATIC can turn the roads into tracks at any time. AMG Aerodynamic package makes it a pleasure to drive against the wind. An athlete through and through on the inside, too, thanks to the AMG sports seats and AMG steering wheel. And when you are then finally sitting in it and driving it, you will feel the unprecedented power in the new A 45 AMG 4MATIC.

# A 45 AMG 4MATIC

# 450 Nm\*

\*Refresh your knowledge of physics in 4.6 seconds.

The A 45 AMG 4MATIC stands for sport, dynamism, power and above all for itself. Because with its AMG 2.0-litre 4-cylinder turbocharged engine it achieves 360 hp, making it the undisputed leader in its segment. This means more hp, more torque and more AMG, sending the vehicle shooting over the road and the adrenaline through your veins.

A white Mercedes-AMG A 45 is shown from the rear three-quarter view, driving on a racetrack. The track has a red and white curbing. In the background, there are concrete barriers and a fence. The sky is a mix of orange and blue, suggesting sunset or sunrise. The car's rear wheel and side mirror are visible.

# 7.5 litres\*

\*No other vehicle drives past so many filling stations with this much power.

With great strength the A 45 AMG 4MATIC also assumes a lot of responsibility. By way of example, with 360 hp and 450 Nm it consumes an average of just 7.5 litres per 100 kilometres. Because for sports cars from Affalterbach every drop counts just as much as every tenth of a second.

## Model Prices

Model	A 45 AMG 4MATIC
