

C 63 AMG Coupé Black Series

AMG

Mercedes-Benz

How about a bad-time story for a change?

Exclusivity and racetrack capability rolled into one – the C 63 AMG Coupé Black Series has its own unique profile. Its most striking attributes: even lighter in weight, even more power, even more performance. Not to mention a design which impressively underlines this dynamism. When you're sitting at the wheel of this car, few will be able to match you on the racetrack. Or on the way there, for that matter.

The background of the advertisement is a photograph. It shows a close-up, low-angle view of a brick wall on the left, with the bricks appearing aged and weathered. On the right, there is a stone pedestal or balustrade. Atop the pedestal sits a sculpture of a lion, possibly a gargoyle or a similar mythical creature, in a crouching, roaring pose. The lighting is dramatic, coming from the upper left, casting long shadows and highlighting the textures of the brick and stone.

Showdown in the combustion chamber

The only person able to keep pace with you when you're driving this Coupé will be your passenger. Thanks primarily to the powerful engine with its exceptional performance figures. The AMG 6.3-litre V8 unit develops an impressive 517 hp, delivers an immense torque of 620 Nm and accelerates from 0 to 100 km/h in 4.2 seconds. Figures which translate into sheer driving pleasure. On the road as well as on the racetrack. For a truly motorsport-esque driving feel.

A night like this makes your day

To make every metre driven an exhilarating experience, the Coupé is designed solely with performance in mind. Featuring an AMG SPEEDSHIFT MCT 7-speed sports transmission, weight-optimised and individually adjustable coil-over suspension, lightweight AMG forged wheels, a widened rear axle, and a high-performance composite brake system with large brake discs. Goosepimples come courtesy of the powerfully sporty sound produced by the AMG sports exhaust system.

Storm warning for the wind

Extremely sporty and brimming with individuality. The high-performance Coupé reveals its character right away. With powerful and distinctive features such as the front apron, air intakes, flared wings, bonnet with air outlets, side sill panels and rear apron with integrated tailpipes. Optionally available: the AMG exterior carbon-fibre package to individualise the coupé even further with striking carbon-fibre trim elements.

When you don't have the time to correct your work-life balance

The interior is likewise a tribute to the motorsport-infused vehicle concept: lightweight sports bucket seats with black upholstery, the AMG performance steering wheel, red seat belts. What's more, highlights in black DINAMICA and red topstitching create strong and succinct contrasts throughout the interior. The two-seater features a carpet-lined rear compartment as standard, while carbon-fibre trim elements are available as an optional extra. Further options include a four-seater variant of the Coupé with AMG front sports seats and single rear seats.

The fastest way to set yourself apart

Even the already exceptional driving dynamics of the C 63 AMG Coupé Black Series can be further enhanced: Optional extras include the AMG Aerodynamics package with adjustable rear aerofoil, optimised front splitter and two carbon fibre flics on the front apron – for even better balance and added front and rear downforce. Plus, for the racetrack, the AMG Track package with active rear axle drive cooling and specially developed Dunlop sports tyres for even better grip. The only thing the driver could possibly want for is his or her own pit crew. The C 63 AMG Coupé Black Series. Optimised to outperform.

² Figures in accordance with Directive 80/1269/EEC in the currently applicable version

³ The figures shown were obtained in accordance with the prescribed measuring process (Directive 80/1268/EEC in the currently applicable version). The figures are not based on an individual vehicle and are provided solely for purposes of comparison between different vehicle models. They do not constitute part of the product offer

⁴ Figures according to DIN 70020 (kerb weight, fuel tank 90% full, no occupants) for standard-specification vehicles. Optional extras and accessories will generally increase this figure and reduce the payload accordingly

Take-back of end-of-life vehicles. Coming full circle. At the end of its long life, you can return your C 63 AMG Coupé Black Series to us for environment-friendly disposal in accordance with the EU End-Of-Life Vehicle Directive¹. But that day lies a long way off.

¹ Applies in accordance with national regulations to vehicles up to 3.5 tonnes gross weight. Mercedes-Benz vehicles have met the statutory regulations governing the suitability of their design for reuse and recycling for a number of years now. A network of vehicle take-back depots and dismantlers has been established which will process your vehicle in an environment-friendly manner. The ways in which both vehicles and parts can be recovered are subject to ongoing development and improvement. Consequently, the C 63 AMG Coupé Black Series will be able to comply with any future increases in the recycling quota within the stipulated time limits.
