

MODEL YEAR 2020

S-CLASS

THE 2020 S-CLASS

Where it comes from is where everyone else goes.

As the flagship of the marque that earned the patent on the automobile itself, there is arguably no car whose lineage surpasses the S-Class. It has not, however, ever cashed in its inheritance. For generations, it has not just advanced its own family legacy but repeatedly elevated what all cars can do: How they please and protect their occupants. How they engage their drivers and relieve them of stress. Even how they interact with other vehicles. The heritage of the S-Class has always been rooted in a tomorrow other cars can reach for. And that you can enjoy today.

Hands-free Active Parking Assist

MAGIC VISION CONTROL® heated wiper/washer system

AMG DRIVE UNIT performance controls on steering wheel*

*Optional or not available on some models. Please see back of brochure.

With more than 100,000 patents, Mercedes-Benz has repeatedly redefined where all cars will go next. It's why the S-Class might be the only car in the world that aspires only to outdo itself.

THEIR ONLY OPTION IS TO SET THE STANDARD

Leadership with a comfortable lead

Any luxury car can assert that it's comfortable. At least to ride in. The S-Class is comfortable in many additional ways. It's at ease when the road turns. Composed when the weather turns. And with a combination of foresight and fortitude, it's in its element if a situation turns for the worse. It all comes from an unwavering commitment to lead by example, and comfort you like no other car.

Breadth of choice, depth of character

While much of what defines an S-Class is singular, even superlative, it offers a choice of 11 models in three body types—spacious sedan, sleek coupe, or soft-top cabriolet. All have biturbo power—with six, eight or 12 cylinders, or six plus an electric motor. And all meld modern with timeless—raising the state of the art, and of the artisan.

A high-angle, wide shot of the front interior of a Mercedes-Benz S 560 Sedan. The car features a light beige leather interior with a quilted diamond pattern on the seats and door panels. The dashboard and center console are finished with dark wood trim. The steering wheel is also quilted and features the Mercedes-Benz logo. The car has a large sunroof and ambient lighting. The overall design is luxurious and modern.

MAGIC SKY CONTROL®

HOW IT FEELS TO DRIVE **PROGRESS**

The very definition of poise under pressure

The swell of turbo-boasted torque can make a highway merge feel like ballet. The agile reflexes of adaptive air suspension helps iron out bumps, unravel winding roads, and keep an even keel as you load cargo or welcome passengers aboard. And the aerodynamics of its athletic yet majestic body help an S-Class slice through the wind with quiet efficiency, cleave to the road surefootedly, and cut a dashing profile whether it's parked or, well, dashing. Whether taking off from a stoplight or taking on a mountain switchback, an S-Class condenses air, fuel, spark and pressure into pure pleasure.

Performance highlights

Biturbo engines: V6 or V8; V6 with EQ Power plug-in hybrid electric motor; or handcrafted AMG V8 or V12

4MATIC® all-wheel drive,* or fully variable AMG Performance 4MATIC+ (S 63)

Adaptive AIRMATIC® suspension, or fully active MAGIC BODY CONTROL® with road-scanning camera and curve tilting* (AMG Adaptive Suspension on S 63; AMG Active Suspension on S 65)

Automatic 4-wheel level control

DYNAMIC SELECT drive modes

Fuel-saving ECO Start/Stop system

Breakthroughs in performance are how the S-Class has driven change for decades. And how it responds to change in milliseconds.

*Optional or not available on some models.
Please see back of brochure.

WHERE EVERY SENSE GETS A SENSATION

Seamlessness from a thousand stitches

Leather, wood and metal flow together in a cabin that's as sculptural as it is spacious. Beyond impeccable, the details approach impossibly precise: Stitching that runs around the perforations. Drilled metal speaker grilles that redefine audiovisual. And multiple zones of LED ambient lighting with 64 colors to choose and combine.

Ambiance you can tailor for yourself

ENERGIZING Comfort orchestrates front-seat heating, ventilation and massage options with ambient lighting, climate settings, fragrance and music. Pioneered by the S-Class, it offers a range of programs that can help rejuvenate, revitalize or relax you in body and spirit.

Whether you inspect them up close or sit back and take it all in, the cabin's details are crafted to reward all your senses – especially your sense of style.

Luxury highlights

Heated front seats with ventilation* and "hot stone" massage*

Multiple rear seating configurations* for Sedans, including Executive right seat or dual seats with folding tables

Burmester® Surround Sound, or Burmester High-End 3D Surround Sound with up to 26 speakers*

AIRSCARF® neck-level heating, intelligent climate control (cabriolets)

Panorama roof, with MAGIC SKY CONTROL® electronically variable tint* (sedans, coupes)

*Optional or not available on some models.

WATCHFULNESS IS A CONSTANT

Advancements to protect your future

Mercedes-Benz engineers have spent decades preparing for events they hope you'll never experience. Car-to-X Communication⁴ lets your S-Class learn about hazards ahead and help notify others. If an impact is sensed as imminent, PRE-SAFE[®] Sound can emit a special tone to trigger your ears' natural defenses before a loud crash.⁵

Innovations to flow with the present

An available suite of driver assists⁶ lets you change lanes with a tap of a turn signal, uses GPS to help the cruise control slow for tolls or exits, watches the speed limit, and more. It can also help you execute an evasive move, and prepare for an impending front or rear impact.

Safety highlights

*An advanced network of sensors
watches ahead and around you.
S-Class safety innovations peer into
the future, to look out for yours.*

THOUGHTFULNESS MAKES IT ADAPTABLE

Seamless connections, multiple options

Dual 12.3" screens team with a console touchpad and Touch Control Buttons on the steering wheel, for clear display of information and intuitive control of audio, navigation¹⁰ and comfort settings. You can also control a wide array of cockpit features—from navigation to audio to turning on the heated seats—with your voice.

Variable visuals, custom-tailored sound

The digital instrument cluster lets you reconfigure its displays and change gauge styles. Germany's renowned Burmester has created two surround sound systems for the S-Class: a 13-speaker digital system, or an analog/digital High-End 3D system^{*} with up to 26 speakers.

*Human-focused tech expands what your
hands and voice can perform. And elevates
what your eyes and ears can perceive.*

(Available on all S 450 and S 560 models.)

Bring your dream to your driveway

Even with an abundance of standard features, a menu of enticing options lets you create an S-Class that’s a perfect fit for your life and your style. Thoughtfully curated option packages—like the selection shown here—make it easy to add the most popular features, or group features that perform even better in concert than they would individually. There’s also a wide selection of individual options and Genuine Mercedes-Benz Accessories that help you take the S-Class that’s in your dreams and put it in your driveway.

Package contents and standard equipment vary by model. Turn to page 51 or visit MBUSA.com for details.

Other packages

Rear Seat Package
Executive Rear Seat Package
Executive Rear Seat Package PLUS
Driver Assistance Package

Exclusive to AMG models:
AMG Exterior Carbon Fiber Package (AMG models)
AMG Exterior Night Styling Package (AMG models)
AMG Aerodynamics Package (S 63 Coupe)

There are countless ways to make your S-Class a perfect fit from the moment you drive it home. Better yet, with numerous reconfigurable features, you can tailor your S-Class to suit your desires over and over.

Please see endnotes at back of brochure.

Tailored for a perfect fit.

A progressive series of cabin-comfort packages let you make your S-Class an increasingly indulgent haven for its passengers. AMG models also offer special styling options that reflect their rich racing heritage. An array of individual options let you tailor your S-Class precisely to suit your needs and desires. Among them, sedan rear passengers can enjoy a dual-screen, multiple-input entertainment system that also offers easy control of numerous rear-cabin comfort features via on-screen menus and the included wireless remotes.

Package contents and standard equipment vary by model. Turn to page 51 or visit MBUSA.com for details.

Other options

- Night View Assist PLUS
- MAGIC BODY CONTROL® (S 560 Sedan)
- Head-Up Display
- Electrically heated windshield
- MAGIC SKY CONTROL® (sedans, coupes)
- Heated steering wheel
- Burmester® High-End 3D Surround Sound system
- CD player in glovebox (sedans)
- Rear-cabin wireless charging (sedans)
- Headlamps with Swarovski crystal accents (coupes, cabriolets)
- Refrigerator box for rear cabin (sedans, coupes)

- Exclusive to AMG models:
- AMG Ceramic Composite Braking System
 - AMG Performance steering wheels
 - AMG DRIVE UNIT steering-wheel controls (coupes, cabriolets)

AMG EXTERIOR PACKAGES

- Carbon Fiber Package (S63 models and S65): Carbon fiber front apron “jet-wing” trim, side mirror covers, side-sill and rear apron inserts
- Night Package (S63 models and S65): Gloss Black exterior accents; black chrome tailpipes
- Aerodynamics Package (S 63 Coupe): Deeper front splitter, rear spoiler, both in carbon fiber

SEDAN REAR SEAT PACKAGES

- Rear Seat Package: Power right rear footrest; 4-zone climate control; EASY-ADJUST front head restraints
- Executive Rear Seat Package: Multicontour rear seats with massage; Executive right rear seat; Cushionbag® seat-integrated air bag
- Executive Rear Seat Package Plus: 4-place seating with dual power rear seats and console; rear folding tables; heated and cooled rear cupholders

REAR SEAT ENTERTAINMENT

- LCD monitors built into front head restraints
 - USB and HDMI inputs
 - Blu-ray® DVD player between rear seats
 - Dual wireless remotes (includes key rear-cabin comfort controls via on-screen menus)
 - Two sets of wireless headphones
- (Available on sedans.)

OPTION PACKAGES

Please see endnotes at back of brochure.

THE S-CLASS SEDANS

*There may be no sedan
that inspires like an
S-Class. And no sedan
that's so widely admired.
For those who drive one,
there's simply no car
that's so deeply desired.*

Composure without compromise

Semi-active AIRMATIC® suspension can adapt for changing roads, passenger and cargo loads, and the driving modes of DYNAMIC SELECT. It helps keep the car level, can lower it to enhance efficiency and stability at speed, and continually adjusts to balance precise handling feel with an air-cushioned ride.

Sumptuousness with support

Heated, power front seats are designed for comfort you can feel right way and enjoy for hours of travel and years of ownership. The Premium Package adds ventilation, rapid heating and multicontour features that can enhance side support in corners, or offer a range of massages including “hot stone” treatments.

Spaciousness is a specialty

Multiple cabin configurations lets passengers make the most of the S-Class sedans’ exceptional legroom. Beyond heating, ventilation, power adjustment and massage options, an Executive right seat adds power calf and footrests. Twin lounge chairs have foldaway writing tables. You can even add a refrigerator box.

Progress with peace of mind

Available driver assists help you de-stress in traffic. Radar/GPS-based cruise control can adapt to posted speeds or slow for an offramp. A tap of a turn signal can expertly perform a lane change. Other systems can watch out for crossing traffic and pedestrians.⁶

Put an S-Class in motion, and you’ll feel elegance become exuberance. And you’ll quickly understand how its greatest tradition is to always advance.

FOR CHANCELLORS, KINGS AND
PRECEDENCE

The S 450 and S 560 Sedans

There’s a reason so many heads of state have long elected to be driven in an S-Class sedan. And it goes far beyond ample room for their heads, and legs. It’s much the same reason you’ll find champion racecar drivers leaving the track behind the wheel of one. Simply put, there’s likely no other car that leads the way in so many measures of an automobile at once: Innovation in safety, performance and luxury. Elegance in its design, appointments, and its agile, athletic moves. And with an unbroken tradition of redefining what’s new, while remembering what matters.

This is also why so many heads of car companies look to the S-Class for inspiration. For generations, its industry-first features, from adaptive headlamps and intelligent cruise control to ventilated seats and 100% LED lighting, have previewed how all cars will be in the future. S-Class drivers and passengers, however, get to enjoy these firsts, first. Because whether you’re riding like royalty in its spacious rear cabin, or relishing its biturbo torque, crisp handling and available 4MATIC® all-wheel drive, no sedan leads—and leads you to enjoyment—like an S-Class can.

Driver Assistance Package

WHEN YOU WANT TO FEEL **ENERGIZED**

The S 560e EQ Power Plug-in Hybrid Sedan

There's only one car that can claim to be the S-Class of plug-in hybrids. Because there's only one sedan that delivers its innovation, inspiration and indulgence with advanced gas-electric power. A smooth, strong biturbo V6, a 90kW electric motor, and a compact lithium-ion battery join forces for a combined 469 hp. Radar helps it recuperate energy intelligently as you slow down. Its navigation system helps optimize the use of gas and electric power along your route, or up to four miles ahead if you're not using guidance. And it can return up to 64 MPGe in combined city/highway driving.¹⁵

Plug-in hybrid highlights

469 hp (combined) V6 biturbo gasoline engine with 90kW electric motor

Compact underhood lithium-ion battery¹⁶ charges at home or public charging station

Adaptive, self-leveling AIRMATIC[®] suspension, 19" multispoke wheels¹

Haptic accelerator pedal offers efficient driving feedback via gentle pulsing

Route-Based Battery Optimization and Anticipatory Operating Mode

Radar-based Regenerative Braking System

Can sumptuous be sensible? The S-Class has already proven that luxury can be sporty, and safety can be stylish. Imagine a plug-in hybrid that can recharge you.

Please see endnotes at back of brochure.

THE S-CLASS COUPE

Its most beautiful features are concealed from sight: a pillarless profile that's uninterrupted by visible framework, and peerless engineering that's never restrained by the ordinary.

Magnetic attractions

Whether you follow the sun or are guided by stars, the standard Panorama roof offers a grand vista. Available MAGIC SKY CONTROL® adds an entirely different dimension: instant darkening of the roof. Switch it on, and electromagnetic particles align to let light in. Turn it off, and they scatter to block it.

Organic technology

Wafer-thin organic LED elements (OLEDs) turn the taillamps into three-dimensional sculptures of light that change with your viewing angle. The jewel-like nuances of optional Swarovski® crystal accents add further intrigue to the intelligent LED headlamps.

Natural beauty

Supple Nappa leather, notable for its smooth grain, is fitted by hand to all four individually contoured seats. Even more exquisitely crafted *designo* Nappa is available in seven solid and two-tone motifs. All six of your wood trim options are finished by hand.

Functional artistry

Six wheel choices are available in 19" or 20" sizes¹ and a range of styles. Included are an AMG® wheel in each size to complement the even more athletic, aerodynamic and aggressive look that the available AMG Line brings to the coupe's wind-honed design.

The unencumbered view out of an S-Class Coupe also reveals what's enshrouded within. The engineering that can create a body that's both airy and strong, and performance that even passengers can enjoy.

FOR A MORE ENLIGHTENED PERSPECTIVE

The S 560 4MATIC Coupe

If it seems like most cars are a compromise born from a battle between designers, engineers and accountants, the S-Class Coupe is an emphatic exception. For one, the engineers at Mercedes-Benz are quite passionate about styling. One walk around the showroom or a classic car event should make that long-held tradition clear. What you see in the S-Class Coupe—or more importantly, do not see—is further proof. Since 1961, it's been the only car in continuous production with a “pillarless” design. Its four retractable side windows are uninterrupted by

visible framework, for an airy lightness with the windows open or closed. And yet it offers a Mercedes-Benz level of strength and solidity, which might explain its singular longevity. Of course, there's also everything that makes it an S-Class: The groundbreaking innovation in luxury, safety and driving ease. The breathtaking thrust of a 463-hp biturbo V8. The surefooted confidence of 4MATIC® all-wheel drive. And the graceful agility of AIRMATIC® suspension. Invisible strengths define the character of an S-Class, but its powerful allure is there for all to see.

THE S-CLASS CABRIOLET

An S-Class is a car that follows only its own star. So there might be no more perfect expression of it than one that also outshines the sun.

Season extension

AIRSCARF® can envelop your neck and shoulders in warm air via vents below each front head restraint. Heated rear seats and front armrests are available, too. ENERGIZING Comfort can create rejuvenating environments by teaming front-seat heating and massage with cabin lighting, music and fragrance.

Tailored tradition

The “acoustic” soft top is crafted from three layers. A rich fabric covering is bonded to a thick inner layer that insulates noise and temperature for coupelike comfort. In under 20 seconds, at up to 31 mph, the power top vanishes under the sculpted rear deck.

Seamless transition

The intelligent climate control is designed to adapt automatically to top-down driving. Likewise for the Burmester® surround sound—not just volume but the full audio profile. AIRCAP® raises a wind deflector atop the windshield and a draft stop near the rear head restraints to minimize top-down turbulence.

Splashless vision

MAGIC VISION CONTROL® emits heated windshield washer fluid from laser-cut holes along each wiper blade. Spraying only in the direction of wiping so it’s quickly swept away, it can clean the glass without overspray that might reach the open-topped cabin.

*Innovation that can extend seasons.
Performance whose immediate joys
endure. Style that’ll outlive trends.
You won’t count minutes in this car.
Instead, an S-Class Cabriolet has a
way of making every minute count.*

FUTURE HERITAGE, LIVING IN THE PRESENT

The S 560 Cabriolet

On any given day, we encounter bridges to other times in our lives. Family photos look into our past. An investment portfolio focuses on the future. If you’re an enthusiast of automobiles, they might do both—especially those that have earned notoriety as collectibles, like any number of Mercedes-Benz cabriolets from generations past. Does such a rich heritage matter in a new car? Consider this: Of all classic marques, how many are still in production? The S-Class has endured not by growing old gracefully, but by continually redefining new. Boldly. And gracefully.

The S 560 Cabriolet has a knack for transcending time in numerous ways. Its 463-hp biturbo V8 and AIRMATIC® suspension let you revel in the moment for hours on end. Its clever comfort features can make a chilly evening the perfect time for a starlit, top-down cruise. And the highly advanced driver assists and cabin technologies available can make an everyday commute feel like an escape. With every generation, the S-Class Cabriolet has renewed its defining tradition: Like no other car, it lets you live in the present, celebrate history, and preview the future.

A MARRIAGE OF PASSION

Mercedes-AMG was founded in 1967 when two former Daimler-Benz engineers created a racing champion from a red S-Class sedan. For 50-plus years, the racers of AMG have been hands-on in developing every new model. And every AMG V8 and V12 is still handcrafted by its own master technician. Pairing S-Class leadership with AMG's perfectionism brings this shared passion directly to you. You can feel it in the teamwork of AMG intakes, exhausts, brakes and suspensions. You can touch it in exquisitely crafted cabins and crisp controls. If you're sizing up its horses, remember: The height of a thoroughbred is measured in hands.

AMG handling highlights

AMG DYNAMIC SELECT drive modes

AMG Adaptive Sport Suspension based on AIRMATIC® (S 63), or AMG Active Suspension based on MAGIC BODY CONTROL® with CURVE function (S 65)

A RUSH TO BE SAVORED

Torque from twin turbos

Twin turbos nest in the “hot V” between the handcrafted V8’s cylinder banks in an S 63 Sedan, Coupe or Cabriolet. The layout cuts lag and losses, for massive power and 0–60 in as little as 3.4 seconds.¹⁸ A hand-built biturbo V12 with 738 lb-ft of torque thrusts the superlative S65 Sedan.

Power to the pavement

AMG Performance 4MATIC+ all-wheel drive can vary an S63’s front-to-rear torque split from 50/50 to 100% rear-wheel drive. The system can adapt to conditions as well as the driving modes of AMG DYNAMIC SELECT—for quicker acceleration without sacrificing the agility that AMG drivers cherish. All models wear staggered-width AMG® wheels¹—with wider rear tires for greater launch grip—in any of six 20" options, nearly all forged-alloy.

THE DIFFERENCE IS IN EVERY

EXPERIENCE

The moment you take delivery of your new Mercedes-Benz, it starts to deliver for you. The joys of driving are engineered to excite and endure. Its progressive technology is designed to keep you connected now, and at the forefront of a changing world. And the people who stand behind your Mercedes-Benz are devoted to earning their Star, and your trust.

Daily commute or roadtrip, thoughtful technology helps make any journey a joy.

Mercedes me connect puts a network of features in your car, on your smartphone, and in the digital world around you.³ And all of them collaborate to help keep you on track, on time, and feeling you're on top of your real world.

- You can remote-start your car, locate where it's parked, configure vehicle settings from your phone, and more.

- You can look up destinations on your phone and send them to the COMAND® navigation system in your car.

- You can offer WiFi to your passengers, and enjoy audio from all over the planet with TuneIn Radio.

Models with Car-to-X Communication can share info on traffic, road hazards and other conditions with each other, via a central reporting base. So you might find out about a tie-up on your route before you get caught up in it.

Your car's navigation map database can be updated in your driveway, over the air, up to twice a year for three years. There's no need to bring it to the dealership.

Wherever you drive, there's a team of supportive people looking out for you.

Mercedes-Benz was the first automaker to introduce its own **Roadside Assistance Program** in the US. For more than 35 years, customers have called on—and counted on—factory-trained experts in times of need.³¹

- A button in your car can connect you. If an air bag or seat-belt tensioner is activated, your car can place the call on your behalf, and even transmit your location.

- They can send help—usually a trained dealer service technician—to your location, even for a jump-start.

- If you see a warning light, so can the experts, and they can often help diagnose trouble over the phone.

Mercedes me Concierge can fulfill a range of requests like hotel and restaurant reservations for a monthly fee.

- They can look up a destination or point of interest for you, then download it right to your car's navigation.

- They can give turn-by-turn directions as you drive.

Your Mercedes-Benz experience should always feel special.

Driving a Mercedes-Benz feels like joining a club, as well as a family. Wherever you go, you're part of a history that started with the first car, and always keeps racing ahead.

- For decades, groundbreaking innovations have protected, entertained and indulged Mercedes-Benz drivers first. While many have gone on to become the standard for all cars, you get to drive the future, today.

- From the AMG Lounge to #MBPhotoPass on Instagram, Mercedes-Benz owners have many ways to connect and interact.

Your car and your dealer are in on it, too.

- *Mercedes me* lets your car communicate its service needs to your preferred dealer.

- Your dealer can reach out to you to book an appointment or offer drive-in service.

Committed to Community

Mercedes-Benz USA is committed to educating and empowering the next generation of diverse leaders. To help equip them with the tools for success, MBUSA partners with two national organizations that invest in the futures of young people in communities across the country. As a Mercedes-Benz driver, you become a part of this effort to give hundreds of thousands of youth a better life today, and all of us a brighter tomorrow. *Learn more about how Mercedes-Benz USA gives back at MBUSA.com/community*

A nationwide network of youth sports programs, Laureus Sport for Good USA is focused on improving the health, education, employment and social cohesion of youth in underserved communities. Since 2012, Laureus USA has helped nearly half a million young people in 150 cities. *To learn more, visit laureususa.com*

JOHNNY MAC SOLDIERS FUND

Johnny Mac Soldiers Fund helps honor military service and sacrifice by providing scholarships to veterans and military family members—particularly the children of our nation's fallen and disabled. Since 2014, Johnny Mac has awarded \$12 million in scholarships to more than 1,000 students. *To learn more, visit johnnymac.org*

ENDNOTES

- * Item is optional or not available on some models. See Packages and Options listing in this brochure or visit MBUSA.com for more information.
- 1 Lower-aspect-ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.
- 2 The roll bar system is designed to enhance the level of rollover protection compared to a vehicle without one. No system, regardless of how advanced, can eliminate the chance of injury in an accident. Please always wear your seat belt.
- 3 All *Mercedes me* services operate only where cellular and GPS signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. *Mercedes me connect assist* services, and 3 years of *Mercedes me connect* services are included at no additional charge with new-vehicle sales and leases at an authorized Mercedes-Benz dealer. Models with COMAND navigation also include 3 years of over-the-air map updates, 3 years of live traffic information provided by HERE Technologies, 1 year of Concierge Service, and a 1-month trial (up to 1GB) of in-vehicle WiFi and streaming audio. Subscriber Agreement is required for service to be active. Some services are only available on select vehicles. Your PIN is required to use certain services. Connection may be limited by cellular signal and other factors. Features may be introduced and updated at varying dates, and may also require a vehicle software update. Some services may be limited or restricted in some areas. Driver is responsible for complying with traffic and other laws. The *Mercedes me connect* Mobile App is compatible with Apple iPhone® models and Android-based phones, and may require a software update. See your dealer or MBUSA.com/mercedesme for details.
- 4 Car-to-X services are activated as part of *Mercedes me connect*. Connected services operate only where cellular and GPS satellite signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. See your dealer or MBUSA.com/mercedesme for details.
- 5 Audio/multimedia system must be turned on for PRE-SAFE Sound to operate.
- 6 Even the most advanced safety systems may not be sufficient to avoid an accident. Please refer to more detailed information on specific systems elsewhere in this brochure, at MBUSA.com, and in the vehicle's Operator's Manual.
- 7 Parking assistance systems are not substitutes for driver attention to the immediate surroundings, as well as any people, animals or vehicles in or approaching the vehicle's maneuvering range. System cannot determine if a space is legally available or of a suitable surface for parking. Rear Cross-Traffic Alert is not a substitute for actively checking around the vehicle for any obstacles or people. It may not detect certain objects based on their size, path, proximity or speed and angle of approach, or due to sensor obstruction, and does not control steering angle. See Operator's Manual for additional information, tips and warnings.
- 8 Blind Spot Assist is a warning system only, and may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a substitute for driver awareness and checking of surrounding traffic conditions. Exit Warning Assist feature operates up to three minutes after vehicle is switched off, or until indicator in mirror flashes three times. See Operator's Manual for system operating speeds and additional information and warnings.
- 9 Rearview camera and Surround View System do not audibly notify driver of nearby objects and are not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions and the presence of dirt, ice or snow on the cameras.
- 10 While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or visual displays once the vehicle has been stopped in a safe place. Maps do not cover all areas or all routes within an area, may require periodic updating, and may not reflect recent or temporary changes to roadways.
- 11 Display may not be visible with certain eyewear, including polarized glasses.
- 12 Apple CarPlay™ is a product of Apple Inc. Android Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges and restrictions in user's wireless plan. Vehicle's factory audio/information interface may not be used simultaneously with Apple CarPlay or Android Auto. When Apple CarPlay or Android Auto is in use, the steering-wheel voice control button accesses Siri® or Google voice recognition software for voice commands.
- 13 The purchase of a new, SiriusXM®-equipped vehicle includes a 6-month introductory subscription to the SiriusXM All Access package. If you decide to continue your subscription after your trial, the plan you choose will automatically renew and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change.
- 14 Wireless charging and NFC pairing available only for devices with compatible technology and size. See Operator's Manual for more information. Devices sold separately.
- 15 2020 EPA estimated fuel economy. Compare the estimated mpg to the estimated mpg of other vehicles. You may get different mileage depending on how fast you drive, weather conditions and trip length. Highway estimate is with a fully charged battery.
- 16 Driving range may vary based on terrain, temperature, driving style and other factors. Charging times are estimated and may vary by location and equipment. Charging stations must be J1772-compatible. See your dealer for more information.
- 17 The carbon-ceramic brakes are designed expressly for high-performance braking. It is a characteristic of their materials and design that brake noise/squeal may result, along with differing brake pedal feel at lower brake temperatures compared to higher operating temperatures.
- 18 Stated rates of acceleration are estimated based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
- 19 Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary or suddenly moving objects or pedestrians, may not react in certain situations where objects cannot be clearly identified, nor does it recognize or predict the curvature and/or lane layout of the road or every movement of vehicles and pedestrians ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system operating speeds and additional information and warnings.
- 20 Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® is a warning system only. ATTENTION ASSIST and Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury. See Operator's Manual for system's operating speeds and additional information and warnings.
- 21 SEE OPERATOR'S MANUAL FOR ADDITIONAL WARNINGS AND INFORMATION ON AIR BAGS, SEAT BELTS AND CHILD SEATS. Always use LATCH or ISOFIX to fasten a child seat in a vehicle with an Integrated Restraint System. For vehicles equipped with the optional rear-cabin air bags, only use a Mercedes-Benz approved booster seat. Never use an air bag-equipped seat belt to fasten a front- or rear-facing child seat or a non-approved booster seat.
- 22 Active Distance Assist DISTRONIC® cruise control is not a substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. Active Steering Assist requires driver to hold steering wheel and be ready to steer vehicle at any time. It may not recognize lane markings in some lighting, weather and road conditions. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Even with Route-based Speed Adaptation, driver is responsible for safely slowing and/or stopping vehicle at intersections, and for giving right-of-way to other drivers. System is not a substitute for driver awareness to posted speed limits and other conditions. Driver is responsible for safely operating vehicle in accordance with local traffic laws and driving conditions.
- 23 Active Lane Change Assist is not a substitute for active driving involvement. It estimates but does not predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the driving inputs necessary to retain control of the vehicle. System may not detect some objects, obstacles or vehicles in the area into which the vehicle would move. See Operator's Manual for system operating speeds and additional information and warnings.
- 24 Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system operating speeds and additional information and warnings.
- 25 No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Driver's deliberate steering inputs are required to initiate the system's action, and can override its intervention at any time. See Operator's Manual for system operating speeds and additional information and warnings.
- 26 System cannot prevent a collision, and does not alert the driver of an impending collision or system activation. It does not intervene if vehicle is backing up, and does not apply the brakes if the driver is accelerating or if Active Parking Assist is operating. When PRE-SAFE closes the side windows, a small gap is left near the fully closed position.
- 27 Night View Assist PLUS does not replace the use of headlamps and must not be used as the primary visual source for the driver. System is designed not to flash detected animals, as their reactions are unpredictable.
- 28 Neither the Warmth & Comfort Package nor the wood/leather steering wheel are available with *designo* Natural Grain woods on S450, S560 and S560e Sedans, or with Satin Grey Ash or *designo* Magnolia "Flowing Lines" wood on S560 Coupes and Cabriolets. See MBUSA.com or your dealer for details.
- 29 Option may reduce trunk space. The refrigerator box is removable.
- 30 AMG DRIVE UNIT is not available with heated steering wheel or Warmth & Comfort Package.
- 31 Roadside Assistance repairs may involve charges for parts, service and towing. Vehicle must be accessible from main roads. Depending on the circumstance, these services may be provided by an outside provider, courtesy of Mercedes-Benz Roadside Assistance. Restricted roadways, acts of nature and vehicle accessibility may limit our ability to provide services to you. For full details, eligibility requirements, and limitations/exclusions of Sign and Drive services, as well as the Roadside Assistance Program, please see your dealer.
