Life is not a straight road taken at a steady pace. Periods of tranquility are punctuated by moments of turbulence—some that test your character, some that build it. It's precisely what makes the journey interesting, rewarding, and uniquely your own. When someone says they're seeking balance in life, that doesn't mean aiming for bland middle ground. In fact, it's often one extreme that facilitates the other: Training—physical or mental—equips us for playful adventure. Preparation makes room for spontaneity. The 2019 GLE SUVs and Coupes are engineered with the same spirit of balance. Rigid standards lead to their flexible capabilities. Strength and solidity underpin their supple comfort. Even their heritage—rooted in the first car, the SUV that pioneered the segment, and over 100,000 patents—is one of continual advancement in performance, safety and luxury. Whether you're taking on a challenge or taking in the scenery, a GLE is built to take it all in stride.

THE GLE 400 4MATIC SUV

YOU MIGHT JUST BE  
DRIVING IT TO THE  
STORE OR SCHOOL.  
BUT YOUR GLE HAS  
ALREADY BEEN TO  
THE SAHARA, THE  
NÜRBURGRING, AND  
THE PATENT OFFICE.

## THE GLE 400 4MATIC SUV

Say the words “capable SUV” and it’s only natural to picture something rocky, muddy or remote. But while the GLE comes from a global regimen of testing and a legacy that includes over 100,000 patents, you’re likely to appreciate how well it stays on-road far more. The direct descendant of the SUV that pioneered its class, the GLE 400 has led the way with agile handling, advanced safety, and ample room for more than 20 years. Its 329-hp biturbo V6 is exuberant yet efficient. Confident 4MATIC® permanent all-wheel drive teams with 19" wheels and a nimble suspension that can firm up in sharp turns. Even in standard form, it’s thoughtfully appointed, with heated front seats, power-folding mirrors, LED taillamps and a power liftgate. How far you go is up to you: AMG styling, a giant Panorama roof, and massaging seats swathed in Nappa leather are a few of your options. Rest assured, there will still be a ruggedly engineered GLE within. But you’ll feel its capability to please on every surface.

Having pioneered numerous **SAFETY INNOVATIONS** for SUVs, it’s no surprise the GLE is still a leader in protecting its precious cargo. It uses radar to help you avoid frontal collisions, and advanced algorithms to help sense a drowsy driver.<sup>5</sup>

The popular **PREMIUM 1 PACKAGE** bundles COMAND® navigation with a touchpad controller, Blind Spot and Lane Keeping Assists, KEYLESS-GO®, SiriusXM Radio with a 6-month All Access trial,<sup>14</sup> harman/kardon® surround sound, Apple CarPlay™, Android Auto, and more.<sup>17</sup>

Your GLE 400 expresses your style. **AMG LINE** packages add a sporty edge to the body and cabin. A Night Package cloaks it in bold black trim. Three 20" wheels<sup>1</sup> are available. Inside, choose from no fewer than four woods and nine leather options.

THE GLE DIDN'T JUST PIONEER ITS MARKET SEGMENT. IT CHANGED HOW WE TALK ABOUT SUVS – BRINGING WORDS LIKE AERODYNAMIC, AGILE, AND EVEN FUN TO THE CONVERSATION.

# AUDACITY

AN INFUSION OF AMG SORCERY TRANSFORMS THE SURE, SOLID GLE INTO THE AMG GLE 43 SUV. A FURTHER DOSE TRANSFORMS IT INTO A HIGH-PERFORMANCE, HIGH-STYLE AMG SUV-COUPE.

POWER COMES WITH A PEDIGREE in a GLE43 SUV or Coupe. Higher boost and lower friction help the 3.0L biturbo V6 unleash 385 hp. It teams up with an AMG-enhanced 9-speed and AMG Performance 4MATIC<sup>®</sup> for 0-60 in 5.6 seconds<sup>18</sup> with surprising efficiency.<sup>19</sup>

STYLISH SUBSTANCE runs road to roof. Bold AMG<sup>®</sup> bodywork—with gloss black mirrors and trim—sets off 20" or 21" AMG wheels.<sup>1</sup> The AIRMATIC<sup>®</sup>-based sport suspension can adapt its damping and ride height to roads, loads, and the modes of AMG DYNAMIC SELECT.

## HIGHLIGHTS

- AMG-enhanced 3.0L biturbo V6, 385 hp and 384 lb-ft of torque
- AMG SPEEDSHIFT TCT 9-speed
- AMG Performance 4MATIC all-wheel drive, 40:60 front/rear torque split
- AMG<sup>®</sup> wheels, 20" (SUV) or 21" (Coupe, optional on SUV)
- Blind Spot and Lane Keeping Assists
- COMAND<sup>®</sup> navigation, 8" screen, Apple CarPlay<sup>™</sup> and Android Auto, harmon/kardon<sup>®</sup> surround sound

**THE VALUE OF THE DIFFERENCE**

Getting a new Mercedes-Benz may be a dream come true. But from the vehicle and its features to the company and its people, Mercedes-Benz aims to make every experience special—now, and for many miles down the road.

**MERCEDES ME CONNECT**

More than a smartphone app with remote vehicle features, *Mercedes me connect* helps make your life easier, from the everyday to an emergency, and countless ways in between.<sup>2</sup> To learn more, visit [MBUSA.com/mercedesme](http://MBUSA.com/mercedesme)

**THE PERKS BEHIND THE STAR**

The Star on the front of your Mercedes-Benz is also a symbol of the treatment you can expect when you're part of the family. It starts at your Mercedes-Benz dealer, where your sales and service teams are equipped to take the best care of your vehicle, and eager to take the best care of you. But you're part of a much bigger world of Mercedes-Benz, too—from special events, offers and partnerships, to exclusive perks for AMG owners like an online “lounge” and the AMG Driving Academy.

**GENUINE ACCESSORIES**

Genuine Mercedes-Benz Accessories let you personalize your vehicle beyond its factory equipment. A range of items let you enhance its convenience, versatility, or appearance—all without compromising its legendary quality, safety or style.

From the Illuminated Star to chrome body accents, they're stylish. Whether helping you manage cargo, enjoy your electronic devices, or protect your car's finishes, they're functional. And they all fit like they're engineered for your car. Because they are. To see the line of accessories for your vehicle, visit [MBUSA.com/accessories](http://MBUSA.com/accessories)

**EASE OF SERVICE**

Your Mercedes-Benz dealer makes it easy to keep your vehicle at its peak of performance. Thanks to *Mercedes me assist*,<sup>2</sup> so does your car. It can alert your dealer when maintenance is due, send diagnostic info, and even have its software updated over the air.

**ROADSIDE ASSISTANCE**

The original manufacturer-provided Roadside Assistance Program is just a phone call or in-car button's push away, 24/7, to anyone driving your Mercedes-Benz. From a jump start to a tow to expert attention even before they arrive, the original still puts you first.<sup>23</sup>

**END NOTES**

\* Item is optional or not available on some models. See Packages and Options listing in this brochure or visit [MBUSA.com](http://MBUSA.com) for more information.

1 Lower-aspect-ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.

2 All *Mercedes me* services operate only where cellular and GPS signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. *Mercedes me connect Assist Services*, and 3 years of *Mercedes me connect* services are included at no additional charge with new-vehicle sales and leases at an authorized Mercedes-Benz dealer. Models with COMAND® navigation also include 1 year of Concierge Service, and a 1-month trial (up to 1GB) of in-vehicle WiFi and streaming audio. Subscriber Agreement is required for service to be active. Some services are only available on select vehicles. Your PIN is required to use certain services. Connection may be limited by cellular signal and other factors. Features may be introduced and updated at varying dates, and may also require a vehicle software update. Some services may be limited or restricted in some areas. Driver is responsible for complying with traffic and other laws. The *Mercedes me* Mobile App is compatible with Apple iPhone® models and Android-based phones, and may require a software update. See your dealer or [MBUSA.com/mercedesme](http://MBUSA.com/mercedesme) for details.

3 Unsecured cargo can become hazardous in a collision. Always secure cargo using the floor-mounted tie-downs.

4 Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary or suddenly moving objects or pedestrians, may not react in certain situations where objects cannot be clearly identified, nor does it recognize or predict the curvature and/or lane layout of the road or every movement of vehicles and pedestrians ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking.

as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system operating speeds and additional information and warnings.

5 Even the most advanced safety systems may not be sufficient to avoid an accident. Please refer to more detailed information on specific systems elsewhere in this brochure, at [MBUSA.com](http://MBUSA.com), and in the vehicle's Operator's Manual. Some systems may be optional.

6 Rearview camera and Surround View System do not audibly notify driver of nearby objects and are not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions and the presence of dirt, ice or snow on the cameras.

7 Active Distance Assist DISTRONIC® cruise control is not a substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. Active Steering Assist requires driver to hold steering wheel and be ready to steer vehicle at any time. It may not recognize lane markings in some lighting, weather and road conditions. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely.

8 Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system operating speeds and additional information and warnings.

9 System cannot prevent a collision, and does not alert the driver of an impending collision or system activation. It does not intervene if vehicle is backing up, and does not apply the brakes if the vehicle is moving or if Active Parking Assist is operating.

10 Blind Spot Assist is a warning system only. Blind Spot Assist or Active Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It must not be used as a substitute for driver awareness and checking of

surrounding traffic conditions. See Operator's Manual for system's operating speeds and additional information and warnings.

11 Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® and Lane Keeping Assist are warning systems only. ATTENTION ASSIST, Lane Keeping Assist and Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury. See Operator's Manual for system's operating speeds and additional information and warnings.

12 Parking assistance systems are not substitutes for driver attention to the immediate surroundings, as well as any people, animals or vehicles in or approaching the vehicle's maneuvering range. System cannot determine if a space is legally available or of a suitable surface for parking. See Operator's Manual for additional information, tips and warnings.

13 While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or visual displays once the vehicle has been stopped in a safe place. Maps do not cover all areas or all routes within an area.

18 Stated rates of acceleration are estimated based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.

19 2019 EPA estimated fuel economy not available at time of printing. See your dealer or [MBUSA.com](http://MBUSA.com). Compare the estimated mpg to the estimated mpg of other vehicles. You may get different mileage depending on how fast you drive, weather conditions and trip length.
