

GLC

Sport Utility Vehicle

Mercedes-Benz

From stately to adventurous.

The Mercedes-Benz GLC is always just the SUV you wish for. With excellent comfort and outstanding quality.

Modern luxury in the front.
Plenty of freedom in the rear.

In the refined and spacious interior of the GLC, every journey offers a whole new level of driving pleasure. That's not just thanks to the high seat position, a hallmark SUV feature, but also to the sophisticated comfort functions which allow you to take any terrain in your stride.

An aerial, wide-angle photograph of a coastal landscape. A paved road curves from the bottom right towards the horizon. To the left of the road is a sandy beach with patches of green grass. Further left is the ocean, with waves breaking against a rocky shoreline. The sky is overcast with soft, grey clouds. The overall mood is serene and expansive.

Around town. Cross-country.

With the Off-Road Engineering package the GLC effortlessly masters the challenges of off-road driving. 4MATIC permanent all-wheel drive delivers superlative traction that lets you enjoy every inch of your ascent. Discover the GLC's off-road talents now.

Plenty of space for your dreams.

The interior of the GLC offers you plenty of freedom in every respect: a light and airy setting in the front, generous space for passengers in the rear, a clear view of the skies above – and an invitation to hit the road in the twinkle of an eye. On long journeys, big adventures or little outings in between.

A close-up, low-angle shot of the rear passenger area of a car. The seats are upholstered in a rich, tan-colored leather with prominent horizontal stitching. The perspective emphasizes the depth and width of the seating area. A black seatbelt is visible across the middle seat. The car's interior trim and door panels are also visible, showing a dark, possibly carbon fiber or black plastic, finish. Through the rear window, a glimpse of a coastal landscape with waves and a cloudy sky is visible.

Plenty of space for knees and feet,
wherever you're sitting.

Radiates pure intelligence.

The LED Intelligent Light System boasts unmistakable design, very low energy consumption, and a long service life. But above all, it offers even better visibility and greater safety.

Head-up display.

Keep an overview of key driver information without taking your eyes off the road – thanks to the head-up display. It projects a virtual image measuring approx. 21 x 7 cm into the driver's field of vision, which appears to float around 2 metres in front of him/her above the bonnet.

Shows you more of the world.

Parking and manoeuvring with a realistic all-round view is provided by the Parking package including 360-degree camera using four networked cameras.

Driving Assistance package.

Intervene when it is necessary. Hold back when it is possible. The Driving Assistance package offers the necessary poise, combining safety and assistance systems.

Panoramic sliding sunroof.

With its large glazed areas, this roof system ensures a particularly bright and welcoming ambience in the interior. It consists of a fixed panoramic glass rear section and an electrically operated sliding glass front section for ventilation of the interior as required.

The load compartment.

The GLC's load compartment is among the most spacious in its segment and, thanks to the variably folding rear seat backrests, can transport large quantities of luggage and bulky equipment.

COMAND Online.

Navigation, telephone, audio, video, internet – with the COMAND Online control and display system the driver keeps these and many other functions in sight and under control. Information is shown in colour on a 21.3 cm (8.4-inch) high-resolution media display. Operation via touchpad is simple and intuitive.

AIR BALANCE package.

As you like it: the AIR-BALANCE package allows the interior of the Mercedes-Benz GLC to be fragranced individually.

The EXCLUSIVE equipment line.

This equipment line underscores the vehicle's class with fine details in chrome. Stylish dynamism is transported by 45.7 cm (18-inch) 5-spoke light-alloy wheels. The select equipment and appointments of this line create a style-defining interior that delivers an exciting new take on the concept of luxury. This includes seats featuring an exclusive upholstery layout and horizontal stitching in ARTICO man-made leather / fabric as well as extensive wood trim.

The AMG Line equipment line.

The AMG Line exterior boasts perfectly matched features for added sportiness, exclusivity and driving enjoyment – from dynamic AMG bodystyling through the Chrome package to the sports suspension with a correspondingly sporty set-up. This line lends the interior a more exclusively sporty look. The highlights include seats featuring an exclusive upholstery layout, a multifunction sports steering wheel in leather with silver-coloured shift paddles, AMG sports pedals and the instrument cluster in tube look.

The OFF-ROAD exterior equipment line.

The OFF-ROAD exterior equipment line, including front bumper with a larger approach angle and expressive elements in chrome, provides for a dynamic look off the beaten track, too. With design features in chrome, the OFF-ROAD exterior equipment line underscores the vehicle's SUV character. The radiator trim sports an integrated Mercedes star and two louvres in iridium silver with chrome inserts.

That defining touch of added class: designo.

If you're looking for a special way to express your personality, designo is the perfect choice. Exclusive paint finishes, refined materials and masterful craftsmanship with an understanding of aesthetics and a love of detail help create your ideal GLC.

DYNAMIC SELECT.

Five comfortable, sporty and individual driving modes can be selected using the DYNAMIC SELECT Controller on the centre console. Giving you fingertip control of the vehicle's handling.

Combining dynamics and comfort.

9G-TRONIC is a milestone in transmission technology. With nine forward gears, this automatic transmission raises efficiency, comfort and dynamics to a whole new level. It impresses with even swifter and smoother gear changes. This increases agility and reduces consumption. It also allows multiple downshifts for powerful bursts of speed. And it's exceptionally quiet, too.

Like driving on clouds.

Enjoy every metre you climb – with new AIR BODY CONTROL. The optional air suspension with continuous damping adjustment pampers the occupants with state-of-the-art engineering. For a dynamic driving experience, understeer is noticeably reduced and uneven surfaces are smoothed out. Automatic ride-height control increases stability and reduces consumption. On rocky terrain or when driving with a heavy load, the vehicle height can be adjusted manually.

Race Utility Vehicle.

The Mercedes-AMG GLC.

Every Mercedes-AMG is a masterpiece in its own right, with an unmistakable character. What unites our performance vehicles and sports cars is their irrepressible sporting spirit. Their passion for top performance. This arises at the point where engineering skill meets a very special attitude: the spirit of AMG. We believe that you have to keep on challenging limits in order to achieve new goals. We accept nothing as a given. Because limits are imposed by people, and it's also people who can overcome them. It's this attitude that enables us to achieve outstanding performance for the race track – and for the road.

Welcome to the world of AMG.

The declared fuel and energy consumption figures are determined by testing under standardised laboratory conditions to comply with ADR 81/02. Real world fuel consumption is influenced by many additional factors such as fuel quality, individual driving style, load, traffic, and vehicle condition. The declared fuel consumption figure should only be used for the purpose of comparison amongst vehicles. For more technical data, please visit www.mercedes-benz.com.au

Dimensions.

All figures in millimetres. The illustrated dimensions are mean values. They are valid for vehicles in basic specification and in unladen condition.

SPORT — F O R — GOOD

Mercedes-Benz is one of the founding partners of the worldwide “Laureus Sport for Good Foundation”, which was established in 2000. It is the Mercedes-Benz brand’s most important social initiative. Laureus Sport for Good supports children and young people in need through social sports projects, opening up new perspectives and imparting important values such as team spirit, respect and determination. “Change the Game for Kids” is our mission statement which we wish to share with you. In buying a Mercedes-Benz you are supporting the “Laureus Sport for Good” movement.

About the information in this publication: Changes may have been made to the product since the editorial deadline on 13.07.2018. The manufacturer reserves the right to make changes to the design, form, colour and the delivery scope during the delivery period, provided these changes, while taking into account the interests of the seller, can be deemed reasonable for the buyer. Where the seller or the manufacturer uses symbols or numbers to describe an order or the subject of an order, no rights may be derived solely from

these. The illustrations may also show accessories and optional equipment, which are not part of the standard delivery scope. Therefore, please ask your Mercedes-Benz sales representative about the provisions and effects applicable in other countries and about the latest definitive version.
