

Mercedes-AMG CLA 45

Shooting Brake

Mercedes-AMG CLA 45 Shooting Brake fuel consumption combined: 7,3-6,9 l/100 km; combined CO₂ emissions: 171-162 g/km.

Its framework? The road.

Above all, a estate must be: practical. Offer ample space for luggage, equipment and other bulky items. Must it? Can it not be much more? A sports car with ample space – for the nicer things in life, and for the larger? It can. A real masterpiece made for the road. And the race track: the Mercedes-AMG CLA 45 4MATIC Shooting Brake.

A gem of a sports car.

Like a work of art, the Mercedes-AMG CLA 45 Shooting Brake captures the imagination instantaneously. In addition to being an eye-catching feature, the spoiler lip ensures improved aerodynamics, while the new-look AMG rear apron with four vertical diffuser fins optimizes the Mercedes-AMG CLA 45 Shooting Brake's air ducting. Two chromed twin-tailpipe trims emphasize the progressive appearance of the car, making the undying passion for racing plain for all to see. Or hear – in the unmistakable sound of the AMG sports exhaust system.

STREET ART

Object of desire.

Progressive through and through. In hallmark Shooting Brake proportions. One of the aspects that really catches the eye is the distinctive front end characterized by the AMG radiator grille with twin louvers in silver chrome. Further characteristic features include the AMG front apron in A-wing design. The side view is equally impressive and can be further enhanced by optionally available 19-inch cross-spoke light-alloy wheels. A mere glance at the Mercedes-AMG CLA 45 Shooting Brake reveals what the car is all about: forwards thrust.

More inspiration per mile.

Creativity needs inspiration. And this comes from new impressions. Experiences. You now have the perfect companion on your search for them: the Mercedes-AMG CLA 45 Shooting Brake. Embark on a journey full of sensational dynamism. Allow yourself to be catapulted into a whole new world of feeling. The inspiration will then come spontaneously.

Mercedes-AMG CLA 45 Shooting Brake fuel consumption combined: 7,3-6,9 l/100 km;
combined CO₂ emissions: 171-162 g/km.

Expressionism rather than minimalism.

High-quality material mix combined with sporty elegance: the Mercedes-AMG CLA 45 Shooting Brake impresses on the inside, too. Take your position in the optional AMG Performance seats with red topstitching. Grasp the optionally available AMG Performance steering wheel, which lies perfectly in the hands. Certain in your mind that the variable luggage compartment holding up to 1354 litres gives you plenty of scope for ideas.

Mercedes-AMG CLA 45 Shooting Brake fuel consumption combined: 7,3-6,9 l/100 km; combined CO₂ emissions: 171-162 g/km.

It's all about expressing yourself passionately.

Art must elicit excitement. As must a car. In the case of the Mercedes-AMG CLA 45 Shooting Brake, the trigger is the AMG DRIVE UNIT including AMG DYNAMIC SELECT Controller. A rotary switch lets you choose from up to five modes: "Comfort", "Sport", "Sport Plus" and "Individual" as well as optional "RACE". The perfect ingredients for achieving maximum driving pleasure in every situation. After all, a life without performance? Unthinkable.

Mercedes-AMG CLA 45 Shooting Brake fuel consumption combined: 7,3-6,9 l/100 km; combined CO₂ emissions: 171-162 g/km.

Engineered for pole position.

What do AMG drivers and AMG engineers have in common? Gasoline in their blood. Proof of this lies in the world's most powerful turbocharged four-cylinder series-production engine, rated at 280 kW (381 hp). With a power density of 141 kW/l (191 hp/l), it even surpasses most super sports cars. A twinturbocharger ensures spontaneous response and maximum agility. You have up to 475 Nm of torque on tap for this. And AMG Performance 4MATIC all-wheel drive ensures optimum transfer of this power to the road. The optional AMG DYNAMIC PLUS package with limited-slip differential on the front axle increases traction even further still. Meaning that, ultimately, there is a limit to what is physically possible. But no limits as far as your driving enjoyment is concerned.

Mercedes-AMG A 45, CLA 45 Coupé, CLA 45 Shooting Brake fuel consumption combined: 7,3-6,9 l/100 km; combined CO₂ emissions: 171-162 g/km.
Mercedes-AMG GLA 45 fuel consumption combined: 7,4 l/100 km; combined CO₂ emissions: 172 g/km.

Supremacy needs technical genius. And a home.

With the conviction that they can win, Hans Werner Aufrecht and Erhard Melcher laid the foundation stone for AMG in 1967. Together, they optimized engine performance and participated in customer sport. They were soon competing against strong and established racing teams – winning their class at the legendary Spa 24 Hours in 1971 with the AMG 300 SEL 6.8.

Their courage and their determination to risk the impossible, and to work hard at it, define the spirit of our Affalterbach development facility to this day. This is where 1,300 employees work together to develop fascinating performance vehicles and sports cars – built with high-tech and craftsmanship. 700 engineers in the development department make AMG a driver of innovation within the sector. Our development center is continually setting new benchmarks with state-of-the-art production management and pioneering sustainability concepts.

We don't just build cars. We make dreams come true.

Passion grows if you share it. The AMG Private Lounge is our community for the world of AMG. This is where AMG customers meet at first-class events and use the online platform to discuss the latest developments from Affalterbach. They also benefit from special offers and the direct link to the AMG headquarters:

The AMG Driving Academy possesses an unparalleled team spirit. Experience performance with like-minded individuals and improve your driving skills at race track and lifestyle events held at breathtaking locations around the world: www.mercedes-amg.com/driving-academy

Want even more? Mercedes-AMG Motorsport offers the ideal platform for professional motorsport with the Customer Racing Program – and with the Mercedes-AMG GT3 race car developed specifically for the purpose. A fully integrated service package delivers top-level racing: www.mercedes-amg.com/customerracing

At the AMG Performance Studio, we build automobiles tailor-made to your wishes. The creativity of our experts knows no bounds – from special technical components, through extravagant paint finishes to exclusive interior appointments, this is where one-offs are fashioned, to the very highest standards of handmade craftsmanship.

Enter the world of AMG.
Experience Driving Performance.

Further information on official fuel consumption and the official specific CO₂ emissions of new passenger cars can be obtained from the manual on fuel consumption and CO₂ emissions of new passenger cars, which is available free of charge at any dealership or from Deutsche Automobil Treuhand GmbH at www.dat.de

Please note: Changes may have been made to the products since this brochure went to press 04/2017. The manufacturer reserves the right to make changes to the design, form, color, and specification during the delivery period, provided these changes, while taking into account the interests of the vendor, can be deemed reasonable with respect to the purchaser. Where the vendor or the manufacturer uses symbols or numbers to describe an order or the subject of an order, no rights may be derived solely from these. The illustrations may show accessories and items of optional equipment which are not part of standard specification. Colors may differ slightly from those shown in the brochure, owing to the limitations of the printing process. This brochure has been compiled by Daimler AG in Germany and is distributed internationally. It provides a general indication of the range of models, features, optional extras, and/or colors available in various countries. Some of the models, features, optional extras, and/or colors shown may not be available in your country or may only be available in a different specification. Additionally some models, features, optional extras, and/or colors may only be available in combination with others. For current and more specific information in relation to the range of models, features, optional extras, and/or colors available in your country, and their pricing, you should contact your nearest authorized Mercedes-Benz Dealer.

Take-back of end-of-life vehicles. At the end of its long life, you can return your passenger car to us for environment-friendly disposal in accordance with the European Union (EU) End-Of-Life Vehicle Directive. But that day is a long way off.

A network of vehicle take-back depots and dismantlers has been established to make it as easy as possible for you to return your vehicle. You can leave it at any of these points free of charge. In so doing, you will be making a valuable contribution towards completing the recycling loop and preserving resources.

For further information about the recycling and disposal of end-of-life vehicles and take-back conditions, please visit your national Mercedes-Benz website.
