Leaves its mark on your eyes as well
as your mind.

The lines of the A-Class all follow a single direction: our design philosophy of Sensual Purity. Surfaces are even more puristic, details even more striking. Very neat, right?

Knows the way home. And your habits.

MBUX, the new Mercedes-Benz User Experience, introduces artificial intelligence into the A-Class. It learns more every day and, most importantly of all, gets to know its driver more and more. It can remember your favourite songs and the route to work. It then automatically adjusts the right radio station or shows you a faster way if your usual route is congested. All by itself and as a matter of course, if that is what you want.
