A NEW ERA OF E PERFORMANCE.

The Mercedes-AMG GT 63 S E PERFORMANCE spearheads the next generation of ultimate high-performance four-door vehicles. Performance-oriented and highly efficient AMG hybrid technology meets proven AMG technology that is state-of-the-art. This is how Performance Luxury reaches the next level.

An announcement of power: exclusive distinguishing features at the rear include the hybrid-specific rear apron with integrated plug-in charging flap and the red-highlighted model designation on the boot lid. The optionally available luxurious interior thrills you with high-quality MANUFAKTUR upholstery made of the finest nappa leather*. Elegant colours such as deep white, siena brown or classic red ensure hone the unique ambience.

HIGH- PERFORMANCE BRAKES.

The Mercedes-AMG GT 4-Door Coupé is factory-fitted with internally ventilated and perforated high-performance compound brake discs on all four wheels. AMG GT 63 S E Performance carbon ceramic gold painted calipers are a stand-out standout feature with black AMG lettering. The AMG ceramic high-performance compound brake system allows motorsport-style braking. With the generously dimensioned ceramic brake discs (420 x 40 mm front, 380 x 32 mm rear), sophisticated technology meets outstanding performance. Exceptionally short stopping distances, a precise pressure point and extraordinary fade resistance – even under extreme conditions.

Overseas product shown. Silver, yellow and red painted brake calipers are not currently available in Australia. Contact an authorised Mercedes-Benz Retailer for specific information on features available in Australia.

**YOU'VE
ARRIVED.**
AS SOON AS YOU
TAKE YOUR SEAT.

Outstanding Performance, masterfully controlled. The exclusive interior of the new Mercedes-AMG GT 4-Door Coupé optimally integrates the driver into everything that is happening. The new AMG Performance steering wheel in nappa leather** with additional switches keeps you effortlessly in direct contact with the road and allows you to alter various parameters of your sports car with ease. Thanks to the individually configurable additional switches, the instrument cluster and the central media display with its 12.3-inch colour display, all relevant information is always to hand.

*Upholstery and trim shown not available in Australia. Various options shown not available in Australia.
**Leather upholstery may contain some areas upholstered with synthetic ARTICO material to increase durability and reduce long-term wear and tear.

VARIATIONS IN THE REAR.

The rear of the new Mercedes-AMG GT 4-Door Coupé offers a choice of two different seating configurations.

Especially spacious: the variant with two individually folding seats, including a functional Business centre console. This offers a touchscreen for the entertainment system, two USB ports, a temperature-controlled cup holder, wireless charging for mobile phones and a 230 V socket. Also available for selection is **two** individual seats with a flat storage compartment.

Comfort with which the Mercedes-AMG GT 4-Door Coupé occupies the top position in the Gran Turismo category in the rear, too.

1 The MULTIBEAM LED headlamps extend the Intelligent Light System functions and ensure optimum illumination of the road according to the given situation.

2 The Parking package with reversing camera^[1] makes parking child's play. The camera at the rear sends the image to the multimedia system display.

3 Two high-resolution 12.3-inch displays with three different display styles – “Classic”, “Sport” and “Super Sport” – display the multimedia system's functions in the Performance models.

4 Get in and feel at home straight away – courtesy of the ambient lighting. The indirectly illuminated interior stylishly coordinates colour schemes, structuring the interior into two levels.

¹Carbon fibre trim shown optionally available as part of the AMG Carbon Fibre Package.

SPECIAL EQUIPMENT.

1

2

3

4

1 The AMG ceramic high-performance compound brake system up to 40% lighter than conventional brake systems and enhances driving dynamics and agility thanks to lower unsprung masses.

2 The premium navigation system MBUX^[2] offers extensive networking, an integrated control and display concept, and natural voice control. Motorsport enthusiasts will revel in the integrated AMG TRACK PACE app^[3], which analyses the driver's driving style. It also allows vehicle-specific data to be called up, saved, and shared on social networks.

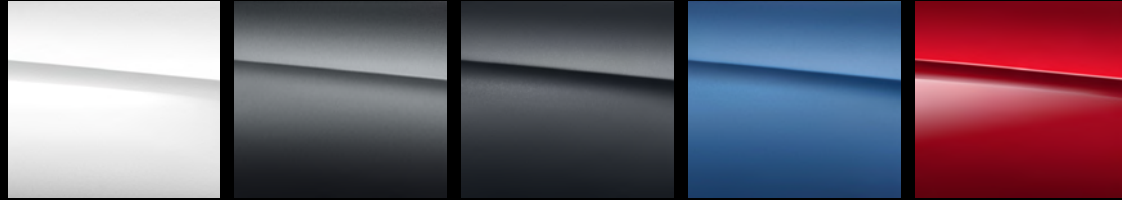

3 The optionally available AMG Performance seats in Exclusive nappa leather* and MANUFAKTUR upholstery tangibly improve lateral support for the driver and front passenger with a more contoured seat form and adjustable side bolsters.

4 With the Burmester® high-end 3D surround sound system, you and your passengers can enjoy exceptional sound quality in all seats. The sound can be tailored to individual preferences and music styles.

5 It's not only the driver and front passenger who can enjoy the full comfort of heated seats. Seat heating is optionally available for the rear passengers, too.

*Leather upholstery may contain some areas upholstered with synthetic ARTICO material to increase durability and reduce long-term wear and tear.

**Carbon fibre trim shown optionally available as part of the AMG Carbon Fibre Package.

Refinement perfected. By selecting your own individual choice of paint and interior, you lend your Mercedes-AMG GT 4-Door Coupé your own personal signature. There are practically endless possibilities here. Carefully compiled equipment packages make your decision easier.

PAINTS AND INTERIOR.

AS UNIQUE AS YOU ARE.

More personality, more individuality. The exclusive scope of MANUFAKTUR options allows you to tailor your AMG GT 4-Door Coupé even more closely to your personal preferences. For the exterior, there is a choice of elaborate MANUFAKTUR special paints and particularly sporty decals. The individual finishing touches continue in the interior. These exciting features include the MANUFAKTUR special upholstery in Exclusive nappa STYLE leather.

BENDING THE LIMITS.

There are up to six drive programs available for selection on the AMG GT 63 S E Performance. Driving-relevant parameters such as the response of the engine and suspension as well as the sound of the engageable exhaust system are adjusted depending on the drive program. Agility and driving dynamics are boosted further by the AMG RIDE CONTROL+ suspension system with adaptive damping systems. Thanks to the active AMG rear axle steering the vehicle is even more manageable and is stable to handle up to the limit. In the speed range up to 100 km/h, the rear axle steers in the opposite direction, thus virtually shortening the wheelbase and making the vehicle even more agile. The additional drive program RACE underscores the racetrack ambitions of the four-door model.

Yellow coloured brake calipers shown not available in Australia.

PERFORMANCE AT YOUR FINGERTIPS.

Exclusive and unique in the centre console: eight integrated high-resolution display buttons for drive programs, controlling the transmission, suspension, ESP®, exhaust system, start/stop function, volume control, and rear spoiler.

The switch element on the control panel. This touch-sensitive switch can be used to control the reversing camera, navigation, radio, media, telephone and vehicle settings. All from one single button. The instrument cluster layout likewise shines in a new light with the performance-oriented Supersport Screen.

With the AMG steering wheel case integrated into the standard AMG Performance steering wheel you stay in direct contact with the road and effortlessly alter various parameters of your sports car with ease. The switches consist of a round control dial for selecting the drive programs below the right steering wheel spoke as well as two vertically positioned, coloured display buttons and pressure switches below the left steering wheel spoke, each of which are configurable as desired. The two display buttons can be used to transfer other AMG functions from the centre console to the steering wheel.

FORWARD DRIVE.

The all-wheel drive 4MATIC+ variably links the constantly driven rear axle with the front axle and thus ensures ideal torque distribution and optimum power distribution. This facilitates a stepless change from traction-oriented all-wheel drive to full rear-wheel drive – for even more powerful acceleration and outstanding traction. And it needs this to deliver the power transferred by the AMG SPEEDSHIFT MCT 9G to the road. The electronically controlled AMG locking differential supports handling in particular during dynamic cornering.

Yellow coloured brake calipers shown not available in Australia.

ELECTRIFYING LIGHTWEIGHT ATHLETICS.

A newly developed ultralight high-performance battery and a state-of-the-art electric motor, together with the legendary AMG 4.0-litre V8 biturbo, help the AMG GT 63 S E PERFORMANCE to achieve incomparable longitudinal dynamics. With its operating strategy in hybrid mode the fluid-cooled battery aims to facilitate maximum power delivery at all times. Thanks to ingenious recuperation the battery should not be completely flat at any time. This approach is hitherto unique in the high-performance competitive environment and gives the AMG GT 4-door model a genuine USP.

Performance at sports car level: the proven exhaust gas turbocharging of the AMG 4.0-litre V8 biturbo engine delivers up to 470 kW (639 hp); as the AMG GT S E Performance it offers acceleration from 0 to 100 km/h in just 2.9 seconds and a maximum torque of 900 Nm, which is available across a wide engine speed range from 2500 to 4500 rpm^[4]. The compact engine design with a hot inner V additionally ensures an immediate response from the turbocharger and relatively low exhaust gas emissions. The two twin-scroll exhaust gas turbochargers ensure more output and a better response. Mercedes-AMG combines these with turbine wheels mounted on anti-friction bearings, which reduce the friction inside the turbocharger to an absolute minimum. Alongside numerous improvements and modifications such as new pistons, optimised air intake and charge air cooling, the conventional V8 engines boast the AMG Cylinder Management cylinder shutoff system. This can significantly reduce fuel consumption.

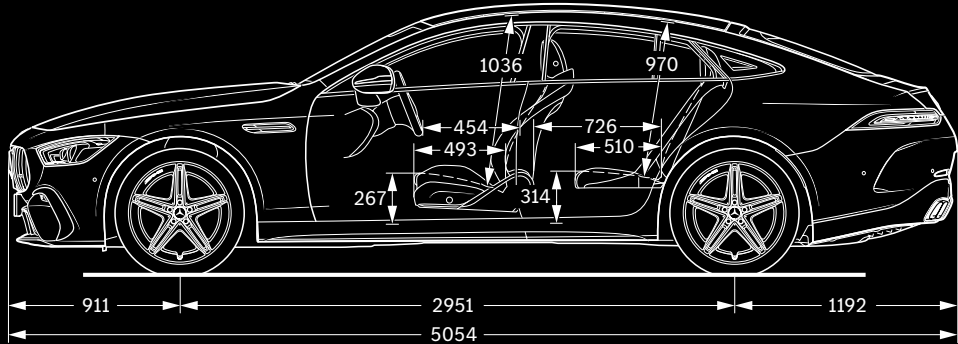

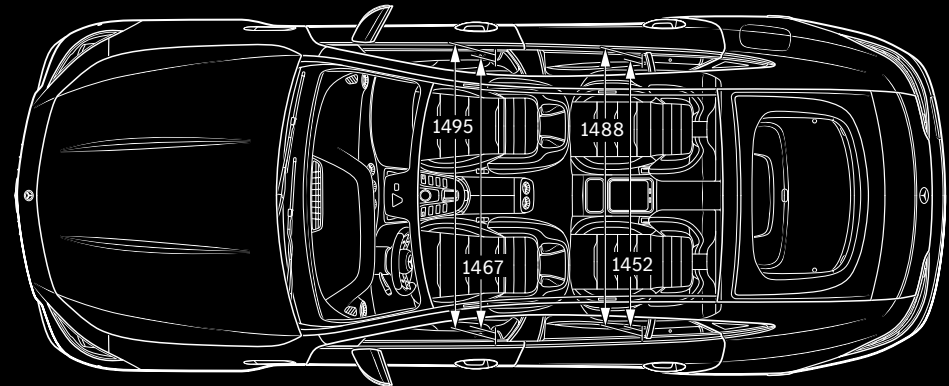

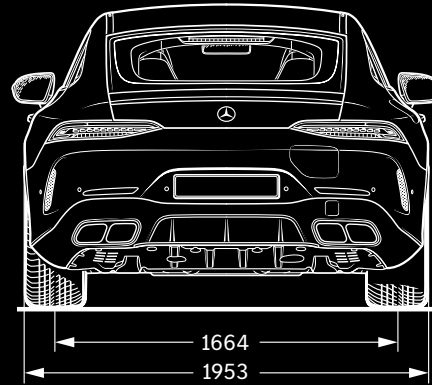

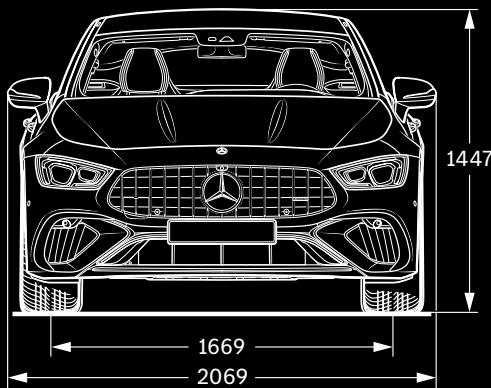

V8

TECHNICAL DATA.

	Mercedes-AMG GT 63 E Performance 4MATIC+ 4-Door Coupé
Displacement (cc)	3.982
Rated output ¹ (kW [hp] at rpm)	470 [639]/5.500 - 6.500
Acceleration from 0 to 100 km/h (s)	2.9 s
Top speed (km/h)	316
Indicative fuel consumption (l/100 km)	
Urban	TBD
Extra-urban	TBD
Combined	7.70
Indicative combined CO ₂ emissions	175

¹Figures stated (including declared fuel consumption and emission figures) are determined by testing under track and/or standardised laboratory conditions which are (where applicable) conducted in accordance with ADR 81/02. The figures stated are for the purposes of comparison amongst vehicles tested under the same technical procedures only. Real world figures (particularly acceleration, fuel consumption and emission figures) may vary and are influenced by many additional factors such as, fuel quality, individual driving style, load, traffic, environmental and road conditions, ambient temperatures and vehicle condition.

Mercedes-AMG GT S 63 E Performance
