EQE

Sustainability

Sustainable production.

All our Mercedes-Benz factories around the world plan to be CO₂ neutral by 2022.

Sustainable materials.

To ensure the responsible mining of cobalt, lithium and other battery raw materials, Mercedes-Benz has already made the IRMA Standard for Responsible Mining a contractual component for all future vehicle projects.

Sustainable mobility.

Locally emission-free driving pleasure, virtually silent with full access to inner city zones. All our EQ vehicles come as standard with an external acoustic warning to alert pedestrians or cyclists at speeds under 19 mph.

Mercedes me Charge - Green charging

An aerial photograph of a large wind farm situated in a vast, green agricultural landscape. The wind turbines are arranged in long, parallel rows that stretch across the fields. The terrain is a mix of vibrant green and brownish-yellow, suggesting different crops or stages of land use. In the distance, a road or railway line curves through the landscape, and the horizon is visible under a clear, light blue sky.

To promote the use of electricity from renewable energies, Mercedes-Benz uses guarantees of origin to 'green' the charging process.

This ensures that an equivalent amount of electricity from renewable resources is fed into the grid to compensate for the charging of your EQE.

All new EQEs have three years of Mercedes me Charge as standard and the Green Charging guarantee is included with this.

EQE

Technology

Mercedes me connect

Stay connected any time, anywhere.

Mercedes me

Mercedes me is a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Mercedes me lets you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

Safety and Service - Mercedes me connect helps to keep you and your car safe

Check your car's washer fluid level, tyre pressure and battery level from your phone so you'll be ready for every journey.

Infotainment - Online and Entertainment services from Mercedes me connect

Love music? Get a 3-month free subscription to Tidal when you connect your car.

Live Traffic Information, Parked Vehicle Locator and much more with Mercedes me connect

Forgot where you've parked? Parked Vehicle Locator¹ will show you exactly where your car is as long as you're in a 1-mile radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

For more information speak to your local Retailer or visit the Mercedes me connect store at shop.mercedes-benz.com/en-gb/connect

Comfort - connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock² you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

Mercedes-EQ specific services

Check your charging status on the go and programme your pre-entry climate control and charging settings remotely. The Mercedes-EQ specific navigation considers electrical range, topography and charging stations.

¹Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model

²Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model

Images shown are for illustration purposes only

Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice, touch or gesture (where fitted) input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC¹ lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you
- MBUX is able to understand which individual seat the request has come from, and will therefore only respond to their specific request (e.g. adjusting the temperature for just the front passenger)

Touch inputs

- Beside voice control you can operate MBUX via touchscreen, the touch controls on the centre console, as well as touch control buttons on the steering wheel

Personalisation

- Turn the new EQE into your very own Mercedes-Benz by personalising driving modes, radio stations, ambient lighting and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a charging station? Just ask your MBUX – it will tell you the answer

MBUX multimedia system

¹LINGUATRONIC off-board functions are currently only available for three years

EQE

Safety

DIGITAL LIGHT

High-definition headlamps with innovative features

The new innovative DIGITAL LIGHT headlamps works like a projector with more than one million pixels per headlamp and responds with brilliant light to changing traffic, road or weather conditions. Its ULTRA RANGE Highbeam with 650 m makes you feel like driving at daylight.

Standard on AMG Line Premium Plus and Exclusive Luxury

Driving Assistance package and Driving Assistance package Plus Cares for what matters.

The new EQE comes with standard ground-breaking innovations in safety, comfort and driving functions, to help you stay safe on the road.

Driving Assistance package (code P79) – designed and priced as a package **Standard on AMG Line Premium**

Active Distance Assist DISTRONIC now responds to stationary road users to prevent collisions up to 80 mph (previously 37 mph)

Active Lane Keeping Assist with enhanced comfort thanks to active steering intervention (instead of braking intervention) and additional hazard indication

Blind Spot Assist

Active Lane Keeping Assist

Driving Assistance package Plus (code P20) – designed and priced as a package **Standard on AMG Line Premium Plus and Exclusive Luxury**

Active Blind Spot Assist expanded with blind spot monitoring towards the front and side. Additional hazard indication of the blind spot warning system as well as exit warning function

Active Brake Assist with cross-traffic function now with turning manoeuvre function (responding to (among other things) crossing pedestrians when making a turn). Operating range on urban routes expanded to 74 mph (previously 44 mph)

Active Distance Assist DISTRONIC now responds to stationary road users to prevent collisions up to 80 mph (previously 37 mph)

Active Emergency Stop Assist: now able to assist in manual mode (previously only in DISTRONIC mode). Optional lane change by one lane (at 49 mph where no obstacles detected)

Active Evasive Steering Assist: now responds to cyclists and ends of tailbacks in addition to pedestrians. Operating range on urban routes expanded to 67 mph (previously 44 mph)

Active Lane Keeping Assist with enhanced comfort thanks to active steering intervention (instead of braking intervention) and additional hazard indication

Active Speed Limit Assist ensures detected speed limits are automatically adopted as the set speed for Active Distance Assist DISTRONIC

Congestion emergency braking function

Emergency corridor function

Exit warning function when hand moves towards the door handles

Extended automatic restart on motorways

Hazard display via ambient lighting

Increased availability and cornering performance on carriageways with **Active Steering Assist**, more stern warnings to put hands on the steering wheel with new capacitive steering wheel

PRE-SAFE® PLUS and Impulse Side with body-raising function: when a rear-end collision threatens, PRE-SAFE® PLUS can initiate preventive measures, including warning following traffic and locking the brakes on standstill

Route-based speed adjustment with end of traffic jam function and Active Stop-and-Go Assist adaption of speed before curves, roundabouts and junctions with end of traffic jam function

Active Brake Assist

EQE

Mercedes-EQ

Benefits of driving Mercedes-EQ

MERCEDES-EQ

The EQE – 100% Electric Saloon from Mercedes-EQ.

Lower running costs

Did you know that electric cars could cost up to a third less than a diesel or petrol car to run, as well as being cheaper to maintain? We've partnered with Go Ultra Low, a joint Government and car industry campaign, to give you unbiased advice on making the switch to an electric car. Use Go Ultra Low's cost saving calculator to see how much you can save.

[› Discover more](#)

No road fund licence

Mercedes-EQ vehicles have no local emissions – this means you pay no road tax.

Cleaner vehicle discount

Mercedes-EQ battery electric vehicles are congestion charge and ultra low emission zone charge exempt in London and other cities.

Business benefits

With 100% first-year capital allowances¹ and 2% BIK tax, electric cars offer significant benefits to businesses and employees.

Performance

Instant torque provides a whole new dimension to driving performance.

Refinement

Acoustically optimised glass and a near-silent powertrain means that driving Mercedes-EQ provides a sensory experience of luxurious refinement.

[› Click here for more information](#)

¹100% first-year capital allowances only apply to vehicles less than 50 g CO₂/km

Vehement power immediately from standstill: An electric motor at the rear axle converts electrical into mechanical energy, and delivers impressive forward thrust. The intelligent operating strategy of the powertrain components supplies the power always wherever it is needed at the moment – efficiently and nearly silently.

EQE 350+

Battery electric vehicle, 292 hp/215 kW
Electric range: 356–394 miles – WLTP

OTR from **£76,450¹**

Standard equipment

AIRMATIC air suspension

Charging system – AC charging system rated at 22 kW AC

Charging system – DC charging system rated at 170 kW DC

Charging socket

Charging cable for wallbox and public charging stations, Type 2 (Mode 3) – 5 metres

Pre-entry climate control

Radar-based recuperation

Technical details

Electric range ²	356–394 miles
Charging time	
Charging speed AC fast charge – 22 kW	
80% charging time on AC 22 kW charging ^{3,4}	4 hrs 15 mins
Charging speed DC rapid – 170 kW	
10–80% charging time on DC rapid charging ^{3,4}	32 mins
Range power consumption, combined ^{2,3}	183–171 Wh/km
Battery type (capacity)	lithium-ion (90 kWh)
Capacity on-board charger	22 kW AC; 170 kW DC

Attention

Please be aware that external factors such as weather, gradient and ambient temperature amongst others can significantly impact range.

Please also note that internal factors such as driving style and climate control settings etc. can also significantly impact range.

Using the pre-entry climate control when plugged into a charge point will ensure the perfect ambience and ensure that your car is just how you like it, as well as making sure that your battery isn't used unnecessarily to heat/cool the vehicle (maximising range).

¹The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£780.00 incl.VAT), new vehicle registration fee (£55.00) and number plates (£25.00 incl.VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price. ²Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP>. ³Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–80% charge using public rapid charging at 110 kW. ⁴Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–100% charge using a wallbox (three-phase) or standard socket (single-phase). ⁵If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord)

Mercedes me Charge

One registration, one contract, one billing.

Mercedes *me*

Mercedes me Charge provides access to a multitude of public charging stations located in shopping centers, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK. Customers also get six months free bp pulse membership which reduces the electricity price when charging.

Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes me app
- RFID card
- Mercedes-EQ Vehicle Head unit

Green charging

All charging using Mercedes me Charge, will be retrospectively 'greened' by Mercedes-Benz. Please click [here](#) for more info.

Transparent and easy billing

One invoice charging processes for payment.

Easy access

Charging stations are displayed in Mercedes me app and in MBUX multimedia system.

No fees

Mercedes me Charge is standard for three years with discounted IONITY rapid-charging for one year.

Home charging

Simple, convenient, fast charging.

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a home charger. Simply charge your EQE overnight – the 7kW home charger delivers a full charge in 14 hours and 30 minutes.¹

Home charger 7 kW: £875* incl. VAT & installation

Key benefits of the 7kW home charger:

Robust and weatherproof, for indoor or outdoor use, and comes with a three year warranty. Keep track of your charging using your chosen providers' app – available on both the App Store and the Google Play Store.

OZEV Grant:

You may be entitled to claim for an OZEV grant towards the cost of your home charger.²
To find out whether you are entitled please contact your chosen charging partner.

Questions? Please contact your local Retailer to submit an enquiry to your chosen charging partner on your behalf. To find your local Retailer, please click the button at the top right hand corner.

Warning! If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

¹Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change

²Based on 7kW power output ²The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see <https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21>.

Services

	AMG Line	AMG Line Premium	AMG Line Premium Plus	Exclusive Luxury
Geofencing – available to use free of charge for three years following activation ¹ , denotes a specific area and notifies via push message when the vehicle leaves or enters this area	●	●	●	●
Parked vehicle locator – available to use free of charge for three years following activation ¹ , shows the position of the parked vehicle in a radius of approx. 1.5 km	●	●	●	●
Personalisation – available to use free of charge for three years following activation ¹ , stores settings such as the radio station or navigation destination in the personal driver profile and enables these to be used in vehicles with the same telematics generation, the profile can be linked to the key, and the functions can therefore already be activated before getting in	●	●	●	●
Programming of auxiliary heater/ventilation	●	●	●	●
Remote door locking and unlocking – available to use free of charge for three years following activation ¹ , provides convenient remote monitoring	●	●	●	●
Remote retrieval of vehicle status ¹ – shows mileage, tyre pressure, washer fluid level, etc.	●	●	●	●
Remote vehicle finder – available to use free of charge for three years following activation ¹ indicators activated via the app help to draw attention to the vehicle, for example in large, confusing car parks	●	●	●	●
Sliding sunroof/windows with remote closing and opening including ventilation function to use free of charge for three years following activation ¹ for a breath of fresh air in the vehicle available	●	●	●	●
Send2Car function – available to use free of charge for three years following activation ¹ , sends selected addresses via the app to the vehicle's navigation system, for example POIs or restaurants	●	●	●	●
Speedfencing	●	●	●	●

Stolen Vehicle Help (free of charge for 3 years from activation) – this service reduces the bureaucratic effort required and gives you an advantage in terms of time. In the event of theft, you can report it to the police. You can transfer the police file number (depending on country) plus the relevant vehicle and owner information quite simply via app to our certified partner's security centre. This centre will then coordinate with the local police station to track your vehicle

Valet protect – available to use free of charge for 3 years following activation¹ notifies via the app when the ignition is switched on/off and when the vehicle moves outside a defined radius (1 km, 2.5 km or 5 km)

Vehicle Tracking

¹To use this service, you must register on the Mercedes me portal and also accept the Terms of Use for the Mercedes me connect services. In addition, the respective vehicle must be paired with the user account. Upon expiry of the initial term, the services can be extended for a fee. Initial activation of the services is possible within 1 year of first registration or commissioning by the customer, whichever occurs first

Genuine accessories

We've developed a range of accessories you can add to help personalise and enhance your EQE.

Rear-mounted bicycle rack, for trailer coupling, folding, 2 bicycles

Easy-to-use, lockable rear bicycle rack, designed to provide secure transport for up to 2 bikes. Extremely simple to fit to the trailer hitch. Securing your bikes on the rack is equally simple. Maximum load capacity of up to 30 kg per rail, making rack suitable for most ebikes. An ingenious roller mechanism means that the boot can still be opened. The rack is easy to fold for space-saving stowage in the boot, at your holiday accommodation or at home. (A0008901700)

DUO plus child seat, with ISOFIX

Mercedes-Benz 'DUO PLUS', suitable for children between the ages of around 9 months to 4 years (9–18 kg). Featuring ISOFIX attachments to make securely fitting the child seat even easier. The TopTether also offers additional safety. The height-adjustable shoulder belt and three seat positions offer additional comfort. The cover with an exclusive design can be removed and washed. This has been tested to Mercedes-Benz requirements. (A0009704302)

Rear-mounted bicycle rack, for trailer coupling, folding, 3 bicycles

Easy-to-use, lockable rear bicycle rack, designed to provide secure transport for up to 3 bikes. Extremely simple to fit to the trailer coupling. Securing your bikes on the rack is equally simple. Maximum load capacity of up to 30 kg per bicycle rail. The rack is therefore suitable for most e-bikes. An ingenious roller mechanism means that the boot can still be opened. The rack is easy to fold for space-saving stowage in the boot, in your holiday apartment or at home. (A0008901800)

Coolbox

Be it cool drinks, a picnic or baby food: the thermoelectric refrigerator box cools upon request and is the perfect companion on any day out. It fits perfectly into every Mercedes-Benz vehicle and holds 13 litres. The portable refrigerator box is made up of a textile coating with fitted pockets and a zip. The inside, fixed plastic container is easy to clean. (A0008205409)

¹Figures according to Regulation (EC) No. 595/2009 in the currently applicable version ²Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wallbox (three-phase) or standard socket (single-phase) ³If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord) ⁴Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP> ⁵Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using public rapid charging at 100 kW ⁶Mass of the vehicle in running order with at least 90% full fuel tank, plus the mass of the driver (estimated by law at 75 kg), fuel and fluids, equipped with the standard equipment as specified by the manufacturer as well as, where applicable, the mass of the body, cab, trailer coupling and spare wheel(s) as well as tools. Optional extras, additional equipment and accessories can influence the weight, residual payload, rolling resistance, aerodynamics, etc., and therefore also affect the consumption/CO₂ values

Electric range and consumption

EQE

Road Fund Licence

All road vehicle registrations are subject to Vehicle Excise Duty (Road Fund Licence), which varies in accordance with the vehicle's CO₂ emissions. A first year rate for each taxation band will apply. The table below shows the bands (A–M) created by the DVLA and the corresponding Road Fund Licence. CO₂ emissions and the relevant Excise Duty are shown on the model pricing page.

Band	CO ₂ emissions (g/km)	First year rate petrol and RDE2 diesel (£)	First year rate all other diesel (£) ¹	First year rate alternative fuel (£)	Electric vehicles		Alternative fuel vehicles		Petrol/diesel vehicles	
					Standard rate (£)	Premium rate (£) ²	Standard rate (£)	Premium rate (£) ²	Standard rate (£)	Premium rate (£) ²

Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price.

¹Applies to all Mercedes-Benz diesel models which do not comply with RDE (Real Driving Emissions) Step 2 Certified (Euro 6d)

²Premium rate only applicable to vehicles where the list price is over £40,000 including any factory-fitted options, standard UK delivery charge and VAT

Services and insurance

Mercedes-Benz ServiceCare

We believe that servicing costs should be as flexible and affordable as possible for your EQE, which is why we offer ServiceCare, an easy way to budget for all your servicing costs. It spreads your bills into manageable payments based on whether you have a new or used Mercedes-Benz.

With ServiceCare we guarantee the price of parts and labour for up to four services and safeguard against any further inflation.

You can choose either to add your servicing costs into your monthly spend or pay the full amount in a one-off payment, giving you peace of mind that they are taken care of for the period of the plan.

[› Click here for more information](#)

Warranty and breakdown cover

Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects¹ and up to 30 years warranty against perforation due to corrosion from the inside out.² What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.²

Battery Warranty

The battery comes with a 10-year 155,000-mile warranty.

Motor Insurance

We know that once you have chosen your Mercedes-Benz you can't wait to drive it – that's why we created First Cover³. It gives you 7 days' free comprehensive Motor Insurance when you buy a new or used vehicle from a Mercedes-Benz Retailer. We will also send you a quote for annual cover, so you can enjoy the same peace of mind all year round.

[› Apply for First Cover](#)

¹Applies to vehicles sold by Mercedes-Benz in the UK to its franchised Retailers

²Subject to full Terms and Conditions, dependent on date of registration, available upon request

³Terms and Conditions apply. We are an independent intermediary dealing with selected insurers in respect of annual insurance

Effective from March 2022 Production. Information correct at time of publication 01.04.2022.
