Sustainable production.

All our Mercedes-Benz factories around the world plan to be CO₂ neutral by 2022.

Sustainable mobility.

Locally emission-free driving pleasure, virtually silent with full access to inner city zones. All our vehicles come as standard with an external acoustic warning to alert pedestrians or cyclists at speeds under 19 mph.

Sustainable materials.

To ensure the responsible mining of cobalt, lithium and other battery raw materials, Mercedes-Benz has already made the IRMA Standard for Responsible Mining a contractual component for all future vehicle projects.

Mercedes me Charge - Green charging

To promote the use of electricity from renewable energies, Mercedes-Benz uses guarantees of origin to 'green' the charging process.

This ensures that an equivalent amount of electricity from renewable resources is fed into the grid to compensate for the charging of your EQC.

All new EQCs have Mercedes me Charge as standard and the Green Charging guarantee is included with this.

Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice, touch or gesture (where fitted) input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

MBUX multimedia system with DAB digital radio

Multi-gesture touchpad control

Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC¹ lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you

Personalisation

- Turn the new EQC into your very own Mercedes-Benz by personalising driving modes, radio stations, ambient lighting and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Touch inputs

- Beside voice control you can operate MBUX via touchscreen, the touchpad on the centre console, as well as touch control buttons on the steering wheel
- The touchpad recognises your handwriting should you wish to enter addresses or phone numbers silently

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a charging station? Just ask your MBUX – it will tell you the answer

¹LINGUATRONIC off-board functions are currently only available for three years

Mercedes me connect Stay connected any time, anywhere.

Mercedes me is a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Mercedes me lets you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

Safety and Service – Mercedes me connect helps to keep you and your car safe

Check your car's washer fluid level, tyre pressure and battery level from your phone so you'll be ready for every journey.

Comfort – connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock² you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

Mercedes-EQ specific services

Check your charging status on the go and programme your pre-entry climate control and charging settings remotely. The Mercedes-EQ specific navigation considers electrical range, topography and charging stations.

Infotainment – Online and Entertainment services from Mercedes me connect

Love music? Get a 3-month free subscription to Tidal when you connect your car.

Live Traffic Information, Parked Vehicle Locator and much more with Mercedes me connect

Forgot where you've parked? Parked Vehicle Locator¹ will show you exactly where your car is as long as you're in a 1-mile radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

For more information speak to your local Retailer or visit the Mercedes me connect store at shop.mercedes-benz.com/en-gb/connect

¹Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model

²Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model

Benefits of driving Mercedes-EQ

MERCEDES-EQ

The EQC. A 4x4 that's 100% electric. It combines the style and practicality of an SUV with all the benefits of electric driving.

No road fund licence

Mercedes-EQ vehicles have no local emissions – this means you pay no road tax.

Cleaner vehicle discount

Mercedes-EQ battery electric vehicles are congestion charge and ultra low emission zone charge exempt in London.

Business benefits

With 100% first-year capital allowances¹ and 2% BIK tax, electric cars offer significant benefits to businesses and employees.

Performance

Instant torque provides a whole new dimension to driving performance.

Refinement

Acoustically optimised glass and a near-silent powertrain means that driving Mercedes-EQ provides a sensory experience of luxurious refinement.

¹100% first-year capital allowances only apply to vehicles less than 50 g CO₂/km

EQC

MERCEDES-EQ

Vehement power immediately from standstill: An electric motor each at the front axle and rear axle convert electrical into mechanical energy, and deliver impressive forward thrust. The intelligent operating strategy of the powertrain components supplies the power always wherever it is needed at the moment – efficiently and nearly silently.

EQC 400 4MATIC
 Battery electric vehicle, 408 hp/300 kW
 Electric range 241-255 miles – WLTP

OTR from £72,335¹

Standard equipment	
Acoustic ambient protection – the tone pitch changes depending on the driving conditions. You can therefore also differentiate whether you are braking or accelerating. Above 30 km/h, the system is basically deactivated since wind and tyre noise tend to dominate at higher speeds	
AC charging system rated at 11 kW AC	
Charging cable for wallbox and public charging stations, 4 metres	
Charging socket	
DC charging system rated at 110 kW DC	
Pre-entry climate control	
Radar-based recuperation	
Suspension – comfort suspension	

Technical details	
Electric range ²	241-255 miles
Charging time	
Public Rapid charging (110 kW DC) 10–80% ³	40 min
Wallbox (11 kW AC) 10–100% ⁴	7 hrs 30 min
Home wallbox (7.4 kW AC) 10–100% ⁴	11 hrs
Range power consumption, combined ^{2,5}	237–224 Wh/km
Battery type (capacity)	lithium-ion high-voltage
Capacity on-board charger	11 kW AC; 110 DC

Attention

Please be aware that external factors such as weather, gradient and ambient temperature amongst others can significantly impact range.

Please also note that internal factors such as driving style and climate control settings etc. can also significantly impact range.

Using the pre-entry climate control when plugged into a charge point will ensure the perfect ambience and ensure that your car is just how you like it, as well as making sure that your battery isn't used unnecessarily to heat/cool the vehicle (maximising range).

¹The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£780.00 incl. VAT), new vehicle registration fee (£55.00) and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price ²Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP> ³Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–80% charge using public rapid charging at 110 kW ⁴Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–100% charge using a wallbox (three-phase) or standard socket (single-phase) ⁵Specified voltage and current values refer to network infrastructure and can be limited by the vehicle

Mercedes me

Mercedes me Charge Features

Mercedes me Charge provides access to a multitude of public charging stations located in shopping centres, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK. Customers also get six months free bp pulse membership which reduces the electricity price when charging.

Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes me app
- RFID card
- Mercedes-EQ Vehicle Head unit

Charging settings and pre-entry climate control

Enjoy your feel-good temperature when you enter your vehicle. You can simply preheat or precool the interior by setting the temperature via the Mercedes me app. In addition, the current charge status can be retrieved at any time using the Mercedes me app.

Navigation with Electric Intelligence

Offering you the greatest possible planning security on the road. Many items of information, such as a fast and convenient route, current state of battery charge, weather data and charging infrastructure, are interlinked. A convenient and time-efficient route is then suggested to you, including charging stops if necessary.

Charging with IONITY

Discounted IONITY rapid-charging for one year at all IONITY stations.

Green charging

All charging using Mercedes me Charge, will be retrospectively 'greened' by Mercedes-Benz. Please click [here](#) for more info.

Transparent and easy billing

One invoice charging processes for payment.

Easy access

Charging stations are displayed in Mercedes me app and in MBUX multimedia system.

No fees

Mercedes me Charge is standard with EQC.

Mercedes me Charge Tariffs

For more transparency and predictability, enjoy numerous features tailored to your charging habits with the new Mercedes me Charge fixed-priced tariffs S, M and L. Owners of a new Mercedes-EQ model will be entitled to the Mercedes me Charge tariff L free of charge for the duration of 12 months.

Tariff L

Recommended for 'frequent drivers'

Choose our tariff L to benefit from the best fixed prices for public charging, including discounted rapid-charging at IONITY charging stations as well as all Mercedes me Charge features. This tariff is recommended for frequent and long-distance drivers.

Consisting of:

- All Mercedes me Charge features
- Fixed prices per kWh (AC: £0.30/kWh; DC: £0.39/kWh)¹
- IONITY rapid-charging stations discounted (£0.26/kWh)

Free of charge for the duration of 12 months.

Thereafter:

£16.20/month

Tariff M

Recommended for 'regular drivers'

Should you wish to downgrade your tariff package after 12 months but still want to benefit from fixed prices, discounted rapid-charging at IONITY charging stations and complete transparency, choose tariff M. This tariff is recommended for regular drivers.

Consisting of:

- All Mercedes me Charge features
- Fixed prices per kWh (AC: £0.35/kWh; DC: £0.45/kWh)¹
- IONITY rapid-charging stations discounted (£0.45/kWh)

£4.90/month

Tariff S

Recommended for 'casual drivers'

Should you wish to downgrade your tariff package after 12 months, there is the option to go for tariff S, which still offers you all the Mercedes me Charge features based on flexible prices per kWh. This tariff is recommended for casual drivers.

Consisting of:

- All Mercedes me Charge features
- Flexible prices per kWh

£0/month

¹Tariff rate excludes the BP Pulse charging network

Home charging with bp pulse Simple, convenient, fast charging.

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a home charger. Charge your vehicle with the home charger up to 3x faster than using a standard domestic socket.

Home charging with bp pulse: £999* incl. VAT and standard installation

Key benefits of bp pulse:

bp pulse is one of the only full-service charging solution providers in the UK – producing and installing tens of thousands of their own smart-enabled and reliable Homecharge units across the country.

A comprehensive 3 year warranty.

The standard installation package includes up to 15m of external cabling.

It comes with a bundled offer of 3 month free subscription to the public network and 250 free miles of charge.

The bp pulse home unit is designed from the ground up to be user friendly, future proofed and feature packed with an exciting roadmap of over the air updates ahead.

The bp pulse public network consists of over 9,000 charging bays across the UK with the best rates on a subscription basis.

Choice of tethered or un-tethered units.

OZEV Grant:

You may be entitled to claim for an OZEV grant towards the cost of your home charger.¹ To find out whether you are entitled please contact your local Retailer.

Questions?

Please contact your local Retailer to submit an enquiry to your chosen charging partner on your behalf. To find your local Retailer, please click the button at the top right hand corner.

Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change
¹The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see <https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21>.

Home charging with Pod Point Simple, convenient, fast charging.

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a home charger. Charge your vehicle with the home charger up to 3x faster than using a standard domestic socket.

Home charging with Pod Point: £875* incl. VAT and standard installation

Key benefits of Pod Point:

Pod Point is one of the leading provider of EV charging in the UK with over 120,000 home chargepoints installed.

A comprehensive 3 year 'swap out' warranty is included.

Auto Power Balancing lets you adjust your charge so that your electrical supply doesn't get overloaded when your home is using a lot of energy.

Built-in earthing protection removes the needs for expensive earth rods.

The Pod Point public network consists of over 6,200 charging bays across the UK with over 80% of the charge points free to use.

The standard installation package includes up to 15m of external cabling.

Choice of tethered or un-tethered units.

OZEV Grant:

You may be entitled to claim for an OZEV grant towards the cost of your home charger.¹ To find out whether you are entitled please contact your local Retailer.

Questions?

Please contact your local Retailer to submit an enquiry to your chosen charging partner on your behalf. To find your local Retailer, please click the button at the top right hand corner.

Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change
¹The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see <https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21>.

EQC Sport

Option shown: cavansite blue metallic paint (code 890)

High specification as standard.

The EQC Sport possesses a wide range of standard features. On the exterior, this includes 19" alloy wheels, MULTIBEAM LED headlamps with LED light band on front and rear, the KEYLESS-GO Comfort package as well as the Mirror package. The interior features the Seat Comfort package, including heated seats and ambient lighting.

¹The indicated values were determined according to the prescribed measurement method - Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. Battery Electric Vehicles (BEV) require mains electricity for charging, range figures determined with the battery fully charged. ²Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP> ³A different first year rate of Vehicle Excise Duty (Road Fund Licence) applies for new cars. Please refer to 47 for the relevant rate for the second and subsequent years ³The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£780.00 incl. VAT), new vehicle registration fee (£55.00) and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price

Trailer coupling with ESP® trailer stabilisation

Trailer coupling with ESP trailer stabilisation¹ (code 550)

Available on all models

Total incl. VAT £750.00

Expand your transport options: with this practical equipment you can hitch up both trailers or caravans and also mount cycle racks. The trailer coupling is ready for use in no time at all – and can be folded in again behind the rear bumper just as quickly when it is no longer needed.

Operating safety is the top priority: to fold out the trailer coupling, you must first unlock it via the control button in the boot. As soon as the button light goes out, the trailer coupling is correctly engaged and is therefore ready for use.

Even when driving you can benefit from a comprehensive safety concept: the ESP® trailer stabilisation is able to intervene automatically in critical situations when driving with a trailer. The associated sensor system detects the trailer independently as soon as the electric plug is connected to your vehicle.

The ESP® stabilisation functions are automatically active from a speed of 40 mph. When undesired oscillating motions are detected, the Trailer Stability Assist actively dampens these with the aid of alternate brake actuation of each individual wheel. In most cases this is already sufficient to reduce dangerous oscillations. If necessary, the system additionally reduces the speed: for this, the engine torque is reduced and the vehicle is braked via all four wheels.

¹Please be aware fitment of this option will impact expected range

Genuine accessories

We've developed a range of accessories you can add to help personalise and enhance your EQC.

DUO plus child seat, with ISOFIX

Safe and secure: children between the ages of 9 months and 4 years (age group I, weight 9 to 18 kg) will enjoy travelling in the 'DUO plus' child seat from Mercedes-Benz. (A0009704302)

Kidfix XP child seat

Safe and secure: children between the ages of 3.5 and 12 years (weight 15 to 36 kg) will enjoy travelling in the 'Kidfix XP' child seat from Mercedes-Benz. (A0009704902)

AMG Kidfix XP child seat

For children aged from 3.5 to 12 years (15 to 36 kg). Adjustable head restraint allows the seat to match the child's growth. The cover, in an exclusive AMG design with original AMG DINAMICA seat cover material, can be removed and washed. (A0009703302)

Luggage net

Mercedes-Benz luggage nets – for a tidy and uncluttered interior. Versatile and, once fitted, indispensable. (A2478680000)

All Season Floor Mats, Classic

Floor mats have to undergo rigorous testing before they are deemed worthy of the star logo: durability, a fade-resistant colour and a neutral odour. The mats are precision-tailored to your Mercedes-Benz. (Front – A25368044019G33; Rear – A25368038039G33)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Retailer for more information. Images shown are for illustration purposes only

Basic carrier bars for roof rails

Aluminium carrier bars, precision-tailored to the body of your Mercedes-Benz – the perfect basis for a range of Mercedes-Benz transport solutions: ski and snowboard rack, bicycle rack or roof boxes. (A2938900000)

Concertina load sill protector

Designed to prevent the bumper from being scratched. Can be secured to boot tub or reversible mat. Helps prevent scratches when loading the load compartment or when loading the Mercedes-Benz roof box. (A2536932000)

Mercedes-Benz roof box 450

An aerodynamic design, tailored to your Mercedes-Benz. In extremely durable material. Designed for quick, optimised attachment to the basic carrier bars. Particularly convenient loading and unloading thanks to the option of double-sided opening. Lockable from both sides. (A0008401200)

Bicycle rack

Easy to use, convenient and lightweight. Bicycles can be attached at ground level before the rack is fitted. Up to three bicycle carriers can be fitted at one time. The alustyle cycle carrier is designed for the new alustyle basic carrier bars, making your life easier, with know-how from Mercedes-Benz. (A000890029364)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Retailer for more information

¹Applies to all Mercedes-Benz diesel models which do not comply with RDE (Real Driving Emissions) Step 2 Certified (Euro 6d)

²Premium rate only applicable to vehicles where the list price is over £40,000 including any factory-fitted options, standard UK delivery charge and VAT

Services and insurance

Mercedes-Benz ServiceCare

We believe that servicing costs should be as flexible and affordable as possible for your EQC, which is why we offer ServiceCare, an easy way to budget for all your servicing costs. It spreads your bills into manageable payments based on whether you have a new or used Mercedes-Benz.

With ServiceCare we guarantee the price of parts and labour for up to four services and safeguard against any further inflation.

You can choose either to add your servicing costs into your monthly spend or pay the full amount in a one-off payment, giving you peace of mind that they are taken care of for the period of the plan.

[> Click here for more information](#)

Warranty and breakdown cover

Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects¹ and up to 30 years warranty against perforation due to corrosion from the inside out.² What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.²

Battery Warranty

The battery comes with an eight-year 100,000-mile warranty.

Motor Insurance

We know that once you have chosen your Mercedes-Benz you can't wait to drive it – that's why we created First Cover³. It gives you 7 days' free comprehensive Motor Insurance when you buy a new or used vehicle from a Mercedes-Benz Retailer. We will also send you a quote for annual cover, so you can enjoy the same peace of mind all year round.

[> Apply for First Cover](#)

¹Applies to vehicles sold by Mercedes-Benz in the UK to its franchised Retailers

²Subject to full Terms and Conditions, dependent on date of registration, available upon request

³Terms and Conditions apply. We are an independent intermediary dealing with selected insurers in respect of annual insurance

Effective from July 2022 Production. Information correct at time of publication 01.09.2022.
