

2019 MUSTANG BULLITT

FIFTY YEARS AGO, A HIGHLAND
GREEN MUSTANG GT 390
FASTBACK THRILLED AUDIENCES
AND TORE UP THE STREETS
OF SAN FRANCISCO IN THE
HOTTEST, MOST ICONIC MOVIE
CAR CHASE EVER.

Now, for 2019, the latest BULLITT Mustang packs all the fire and fury of the original, along with half-a-century's worth of technological advancements.

Its upgraded 5.0L V8, with a larger, 87-mm throttle body and modified intake manifold from the Shelby® GT350, cranks out 480 horsepower and 420 lb.-ft of torque¹.

It is loaded with the features of a Mustang GT Premium with the Performance Package, plus plenty of BULLITT special touches, like a white cue ball shift knob (a nod to the original), a BULLITT instrument panel badge with unique chassis number, BULLITT door-sill scuff plates, and a faux gas cap with BULLITT logo.

This Mustang is ready to take on the streets of San Francisco.

This photo recreates a scene from the 1968 movie's spectacular car chase. It was shot on a closed course, with a vehicle modified for safety, and a professional stunt driver at the wheel. NEVER, EVER, attempt anything like this in your Mustang (or any other car). DANGER: No kidding, DON'T DO IT.

¹ Horsepower and torque ratings achieved with 93-octane fuel.
