Broadmoor V8 4-door station wagon

## BROADMOOR 4-DOOR STATION WAGON

*Step-out style . . . step-in convenience . . . 210 horsepower "go"!*

Here, in Studebaker station wagons for 1957, are the first cars to fully meet the practical load and road needs of wagon owners.

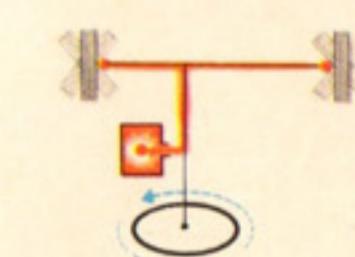

For under their sleek, go-everywhere beauty is the first exclusive station wagon ride—two-stage rear springs with limousine softness when riding "light" . . . full reserve action when traveling rough roads or with full loads! And it's exclusive with Studebaker.

In the Broadmoor, the skill that earned 17 Economy Run "firsts" has turned out a 210-hp V8 that can hurry you up a hill—with vacation-size load—in almost noth-

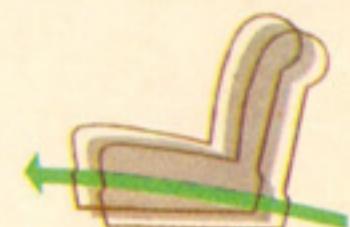

ing flat, yet nurses every nickel's worth of gas for extra mileage.

And Studebaker's knack for outstanding Craftsmanship makes itself felt in features like optional Twin-Traction, 4-door wagon convenience, superior tailgate hardware, and even to power assists in steering, braking, seat adjustment and window operation.

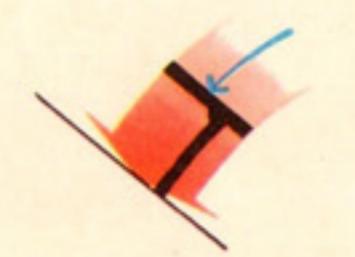

If you like a wagon that gives you your money's worth in work on the road—yet holds its own in the country club parking lot—Studebaker's Broadmoor is the 4-door station wagon for you. Take it for an hour and see.

## BIG, NEW CHOICE IN WAGONS

*With the big difference in the low price field*

Craftsmanship—brilliant Studebaker Craftsmanship—today makes the biggest single difference in the low price field. And nowhere do you see the distinction more clearly than in Studebaker's versatile Station Wagons.

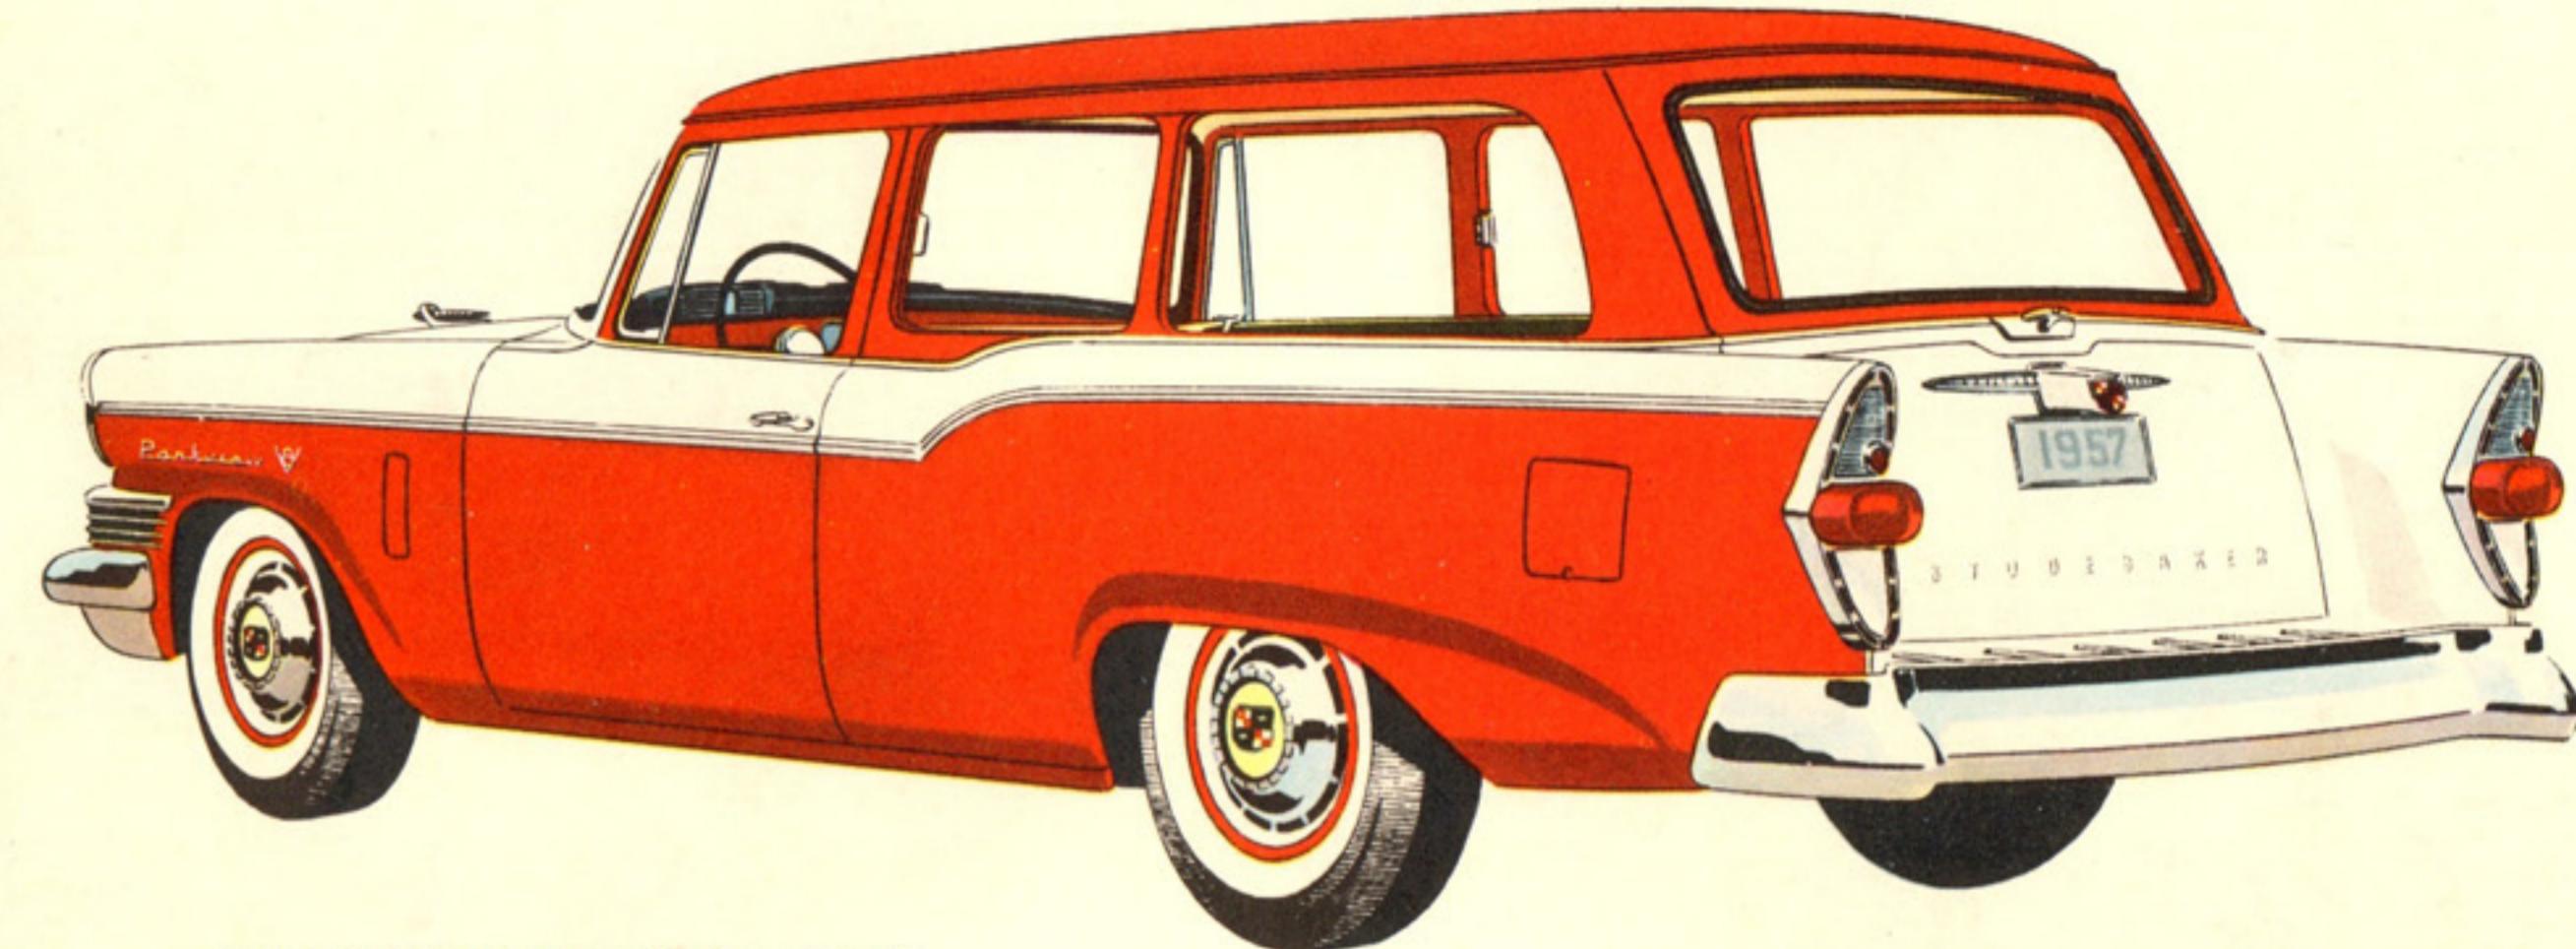

Perhaps you prefer the 4-door accessibility of the Provincial. Here's eye-catching styling for Main Street, plus V8 sting under the hood for superhighway performance—but, with operating economy other V8 owners can only

wish for. As in all Studebaker V8s, you enjoy new fast-action steering, as well as optional Twin-Traction for surer, safer going all the way.

If you want a high-flying V8, but only *two* doors into that rich-looking wagon interior, the Park-

Provincial V8 4-door station wagon

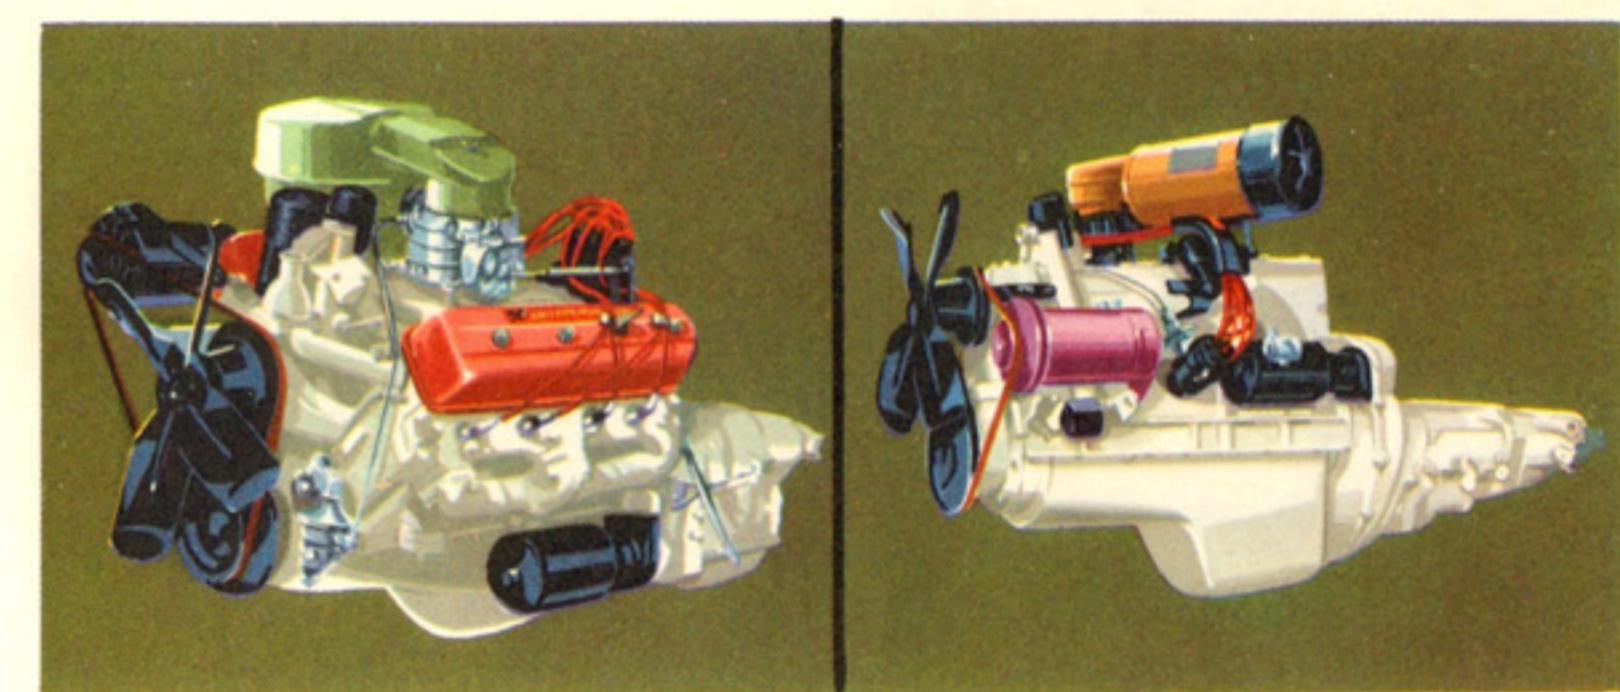

Parkview V8 2-door station wagon  
(Also available as Pelham Six 2-door)

view is your answer. You own the same long, low styling, and you can elect your choice of options that range from 4-barrel carburetor to inflatable air mattresses custom-tailored to fit the rear compartment.

For those who want the best-riding station wagon ever built—plus the thriftiest Six they can buy—the natural choice is Studebaker's Pelham 2-door. This is the model that can chop your fuel bills and still show plenty of zip on the open highway. And, you've got the big-car look that makes you proud when the Pelham stands in your driveway.

The choice is yours. Behind the front seat, each offers room to spare for a full load of children, camping gear, or household supplies. Pick the Studebaker that best meets your idea of the perfect station wagon, then get set for the happiest miles you've ever logged in a motor car!

180-hp Sweepstakes 259 V8 provides 260 ft-lbs. of torque plus unusual economy in Provincial and Parkview station wagons.

101-hp Sweepstakes 185 Six, America's most dependable and economical Six, is standard power plant in Studebaker's Pelham model.

**Versatile wagon interiors** switch personality with the flip of a seat! With rear seat in place, your handsome Studebaker is all set for dress-up duty wherever style and comfort come first—with rear seat down, you've got yards of smooth, level cargo space.

Whatever the road, whatever the load—

## AMERICA'S EASIEST-RIDING WAGONS!

Studebaker smooths the road with the first spring and suspension system designed especially for station wagons!

Even now, most station wagons are usually sprung so "soft" that they "bottom" under heavy loads or on rough roads . . . or so "hard" they ride like trucks! But not these all-duty wagons—

Studebaker solves the problem by combining independent-action, long-travel front coil springs with special *two-stage* rear springs that actually adjust to changing driving conditions! For light loads and

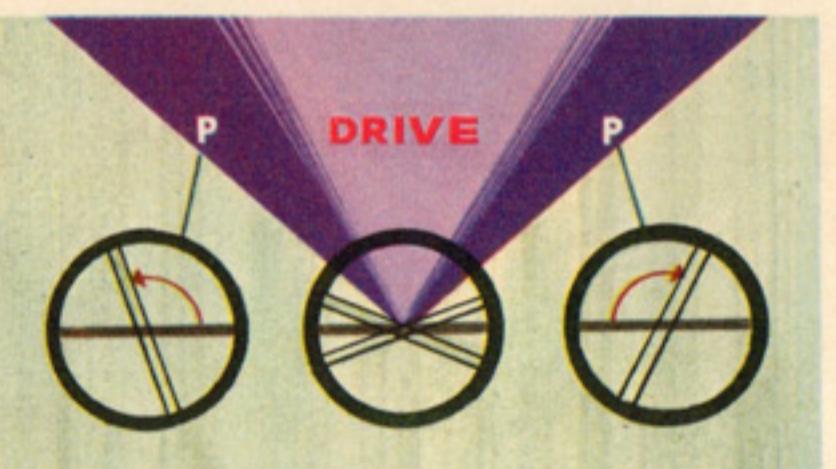

smooth roads, only the first stage takes the weight, creating a velvet-soft ride; when the cargo is heavy or roads become rough, a *second* stage adds needed firmness to keep the riding comfortable.

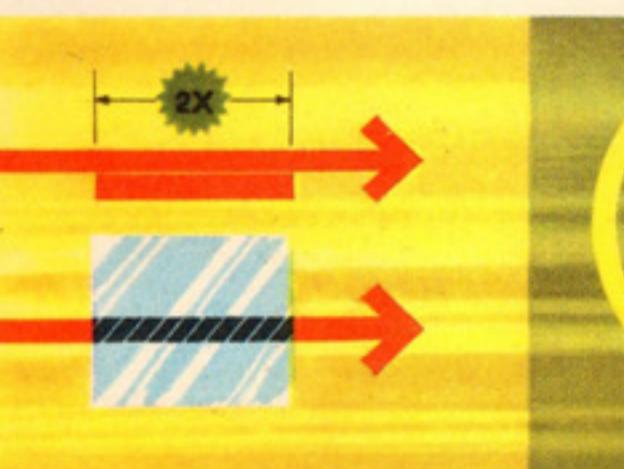

The result is a smoother, easier ride under *all* load and road conditions—an exclusive Studebaker station wagon Miracle Ride unequaled for comfort, handling and motoring enjoyment.

## ...EASIEST-TO-HANDLE, TOO!

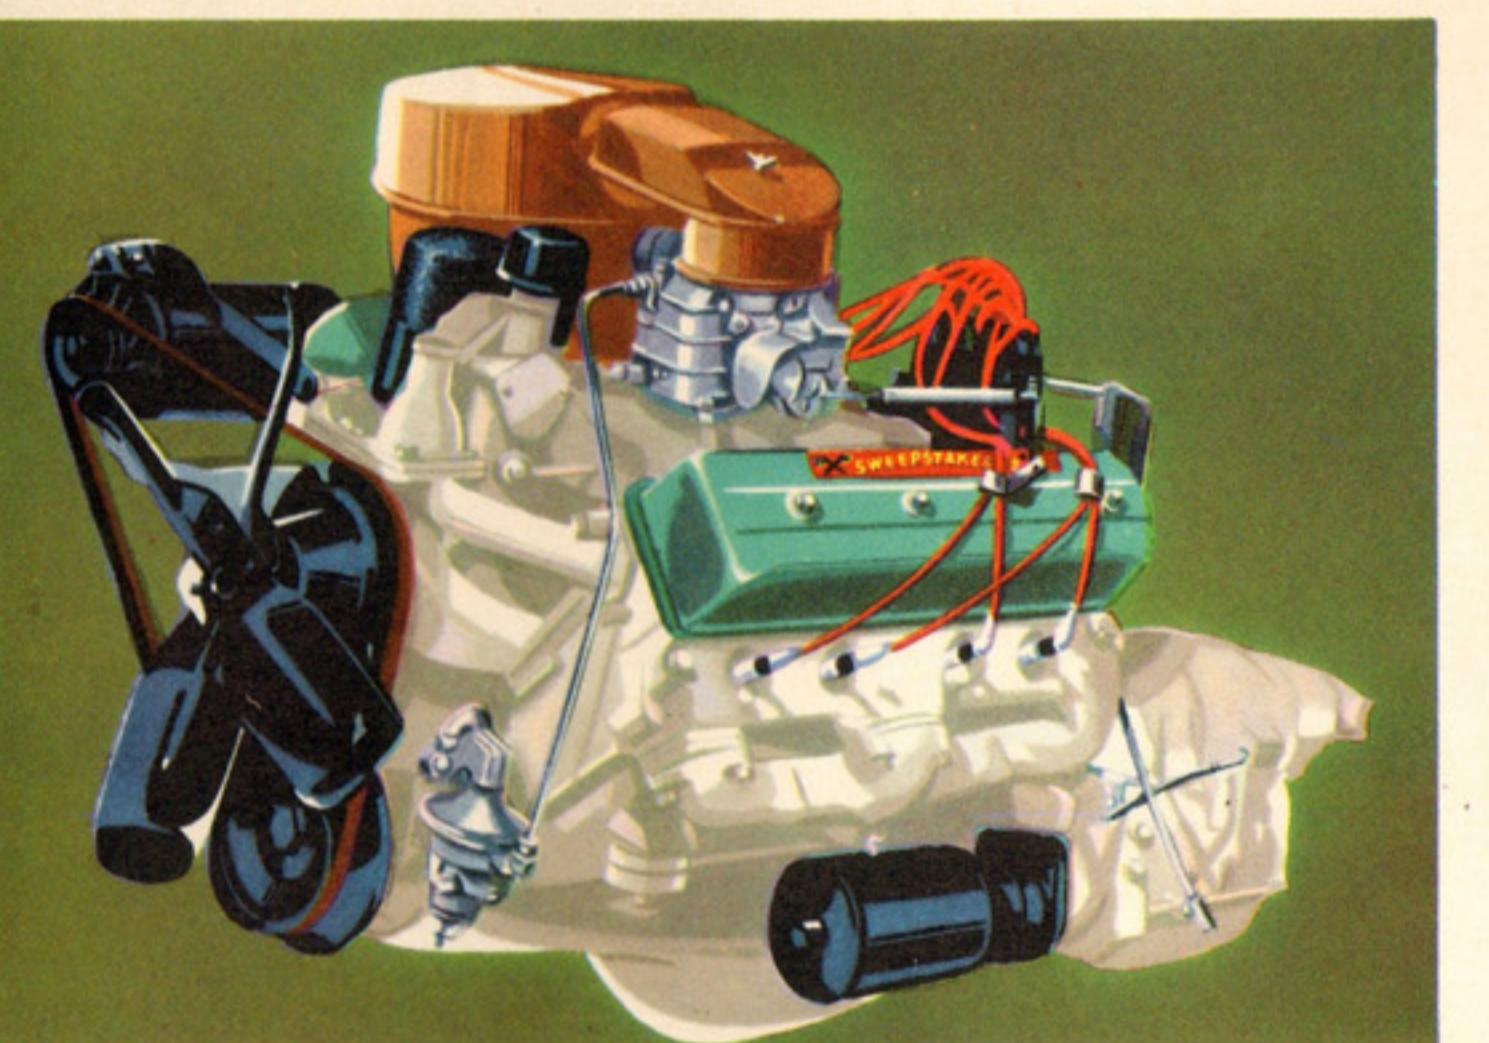

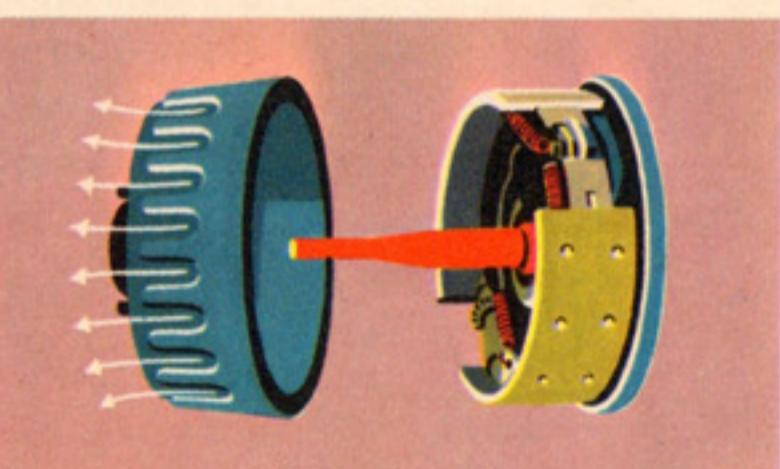

**Exclusive Variable-Ratio Steering** gives you more precise control for straight-line driving plus easier handling in parking and cornering!

**New Twin-Traction Differential\*** directs power to the wheel with most—not least—traction, affording greater control in all driving situations.

**Safest Brakes!** Self-centering and self-energizing action, plus the most lining area-to-car weight in their field! Broadmoor has finned drums, too!

### Three Sweepstakes engines

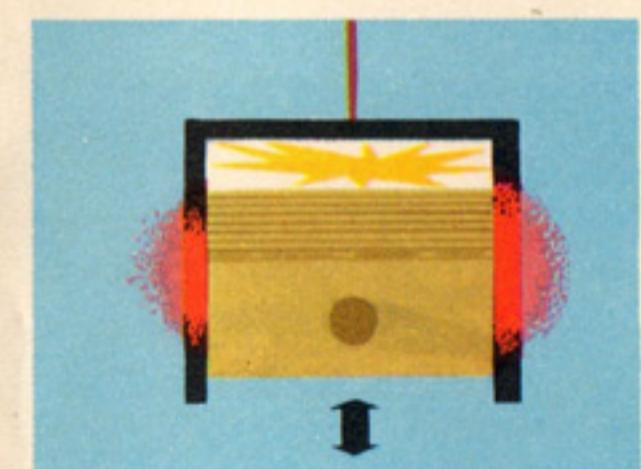

**210 HP SWEEPSTAKES 289 V8**—The Broadmoor's premium V8 is loaded with Craftsmanship features: New wider-throat 2-barrel carburetor (4-barrel optional\*) high-capacity fuel pump, dual exhausts.

**180 HP SWEEPSTAKES 259 V8**—V8 hustle, plus famous Studebaker economy in Provincial and Parkview wagons. Many high performance features standard; 4-barrel carburetor, dual exhausts optional.

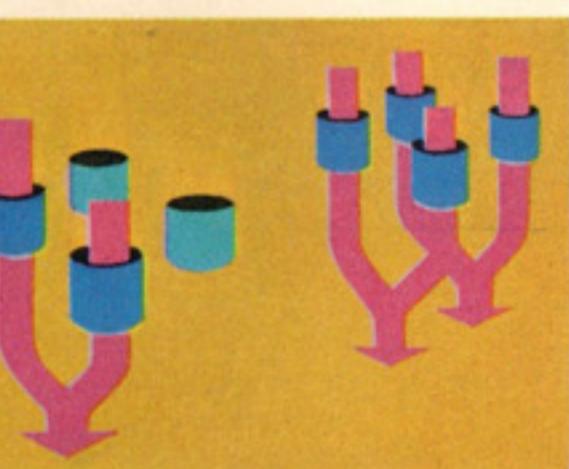

**101 HP SWEEPSTAKES 185 SIX**—Unbeatable economy, plus 152 ft.-lbs. of torque for pep! Premium design features include gear type camshaft drive, heat-dam pistons.

**CHOICE OF TRANSMISSIONS**—Shift-free Flight-O-Matic\*, economical Overdrive\*, or standard 3-speed drive with these engines.

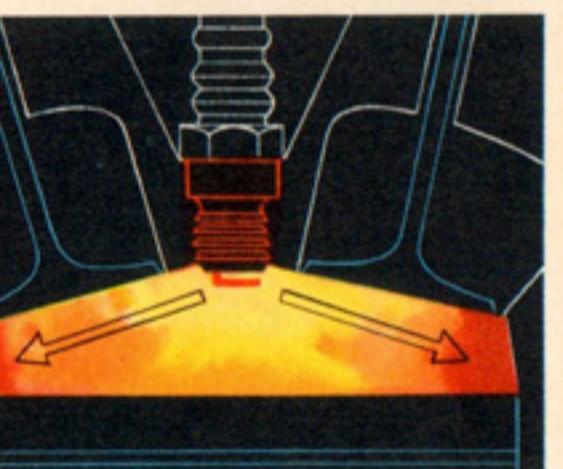

**Short-stroke V8** design means less power-wasting friction, greater power, longer engine life.

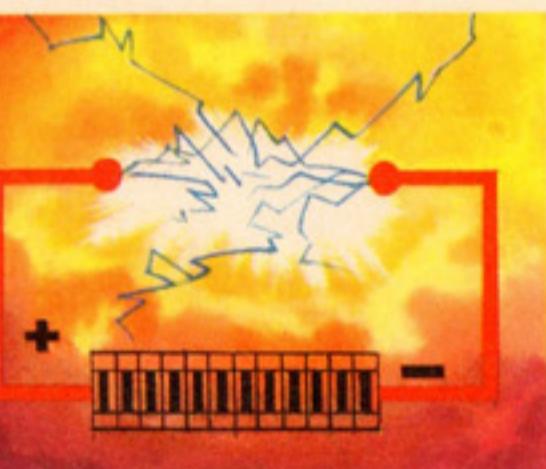

**4-barrel carburetor** option\* for all V8s gives you safety reserve for passing, smoother response, too.

**Compact Combustion Chamber**. Center-position spark cuts power loss, gives faster, cleaner combustion.

**12-Volt Electrical System** for hotter "spark," quicker starting, and greater operating dependability.
