

SUBARU XV

SUBARU

*Confidence in Motion*

# EVERYTHING YOU DO IS NOW FUN TO DO.

Introducing the fun-packed, all-new SUBARU XV. Featuring a combination of stylish urban design and rugged good looks, and new levels of capability to get excited about, it's the inspiration to live the life you want. Whether it's a night out on the town or a spur-of-the-moment weekend getaway, the SUBARU XV helps you do all the things you love, in style and in comfort. Every day can and should be, a joyful adventure.

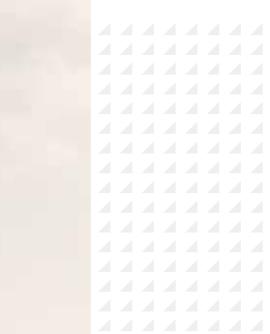

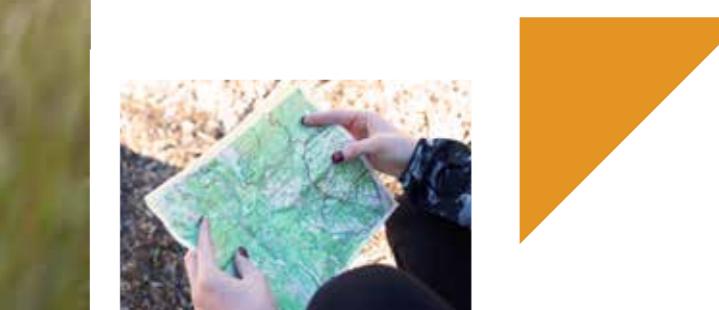

## FUN AT FIRST SIGHT.

You'll notice it at first glance. An exciting blend of form and functionality, the all-new SUBARU XV is always ready for a good time—just like you. Ride the waves at the beach. Go hit the trails, you can bike it or hike it. Spend a weekend away at the cabin. Or stay and discover all the hidden gems in the city. Whatever you do, you'll create memories and make stories you'll never forget.

## FOLLOW WHAT EXCITES YOU.

Our goal is simple. It's to maximise the fun, every time you ride the all-new SUBARU XV. It's a capable SUV with smooth nobility and outstanding stability around turns that rival those of passenger cars. Combined with Symmetrical All-Wheel Drive, the responsive steering of the SUBARU XV lets you turn and move just as you intend. Get to your destination in comfort and in peace, whilst sharing the fun with your fellow adventurers.

## CITY STYLE, COUNTRY CAPABLE.

The all-new SUBARU XV is always up for a challenge. The SUBARU XV instills confidence behind the wheel with its high driving position and excellent visibility, whilst conquering rough roads with Symmetrical All-Wheel Drive and its high ground clearance. Now, with the addition of X-MODE, it's more fun to drive than ever before and adds a whole new range of possible destinations for all your weekend journeys, and gets you there with peace of mind.

### X-MODE ENGAGED.

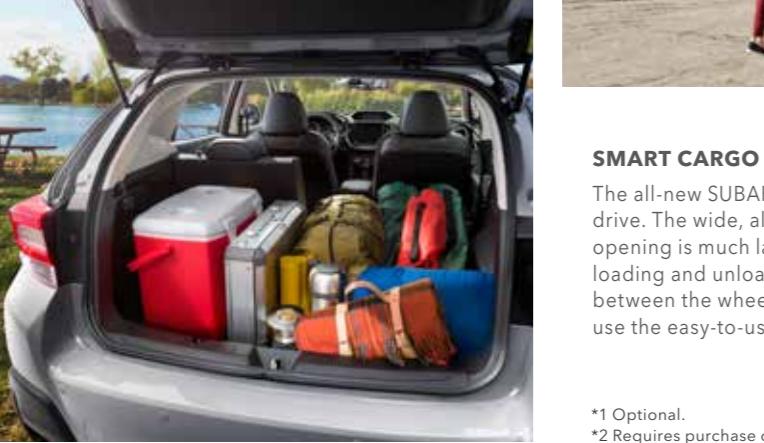

X-MODE helps to give you reliable control with a push of a button. The technology of X-MODE takes command of the engine, transmission, Symmetrical AWD, brakes, and other components to safely navigate through challenging road conditions and varying terrain. When X-MODE is activated, Hill Descent Control automatically helps to maintain a constant speed when the SUBARU XV is traveling downhill.

## LOAD IT WITH ADVENTURE, FILL IT WITH MEMORIES.

Shine your skis, polish your surfboards, and oil your bikes, because you'll be needing them. The all-new SUBARU XV features outstanding cargo capacity so you can bring all your life's accessories along. The SUBARU XV is ready when you are, to support you on all your urban and weekend outings.

### SMART CARGO SOLUTIONS

The all-new SUBARU XV adds more utility to your enjoyable drive. The wide, almost square luggage compartment opening is much larger, allowing even easier luggage loading and unloading. Inside, there's even more space between the wheel housings. When you need more space, use the easy-to-use roof rails\*<sup>1,2</sup> to carry larger items.

\*1 Optional.

\*2 Requires purchase of an attachment to load cargo on the roof rails.

When you open the doors of the all-new SUBARU XV, you'll immediately notice its refined and sporty styling. More spacious and polished than ever before, the contoured seats provide a comfortable and enjoyable experience for you and all your passengers, even on those long rides.

#### 02. FRONT SEAT STITCHING

The ultra-comfortable contoured front seats come with exciting new orange stitching that adds to the all-new SUBARU XV's fun factor.

#### 03. REAR SEAT CENTRE ARMREST\*

The interior of the all-new SUBARU XV offers comfort for all passengers, with cup holders in the rear seat centre armrest.

\* Optional.

#### 01. POWER-SLIDING, TILT-ADJUSTABLE GLASS SUNROOF\*

The all-new SUBARU XV comes with a sunroof to allow light in the cabin for a pleasant and comfortable ride for all.

# KEEP IN TOUCH

The all-new SUBARU XV is equipped with a completely redesigned next-generation infotainment system that keeps you connected wherever you go. An available 8-inch<sup>\*1</sup> touchscreen head unit display provides intuitive access to navigation<sup>\*1</sup> and listening content, whilst a redesigned multifunction display informs drivers on key vehicle stats. Connectivity between the head unit display, meter display<sup>\*2</sup>, and multifunction display helps improve convenience, safety, and enjoyment. In touch and in control—that's how you'll always feel inside the SUBARU XV.

## 01. APPLE CARPLAY<sup>\*3</sup> AND ANDROID AUTO<sup>TM\*4</sup>

Use today's most popular apps with Apple CarPlay<sup>\*3</sup> and Android Auto<sup>\*4</sup>. Voice recognition capabilities allow hands-free use, keeping everybody safe whilst reducing distractions when you're on the road.

## 02. MULTIFUNCTION DISPLAY<sup>\*1</sup>

The 6.3-inch LCD multifunction display at the top of the instrument panel provides you and your passengers with useful information in an easy-to-understand view. When the navigation system is in use, it connects to the multifunction display and shows turn-by-turn information when approaching intersections or turns.

## 03. METER DISPLAY<sup>\*1</sup>

Now easier to see with its larger screen, the 4.2-inch full-colour LCD meter display helps you understand useful driving information with a quick glance so you can keep your eyes on the road.

## 04. REARVIEW CAMERA<sup>\*1</sup>

Conveniently manoeuvre the all-new SUBARU XV in tight city spaces with ease. When you shift into reverse gear, the camera displays a live colour image on the head unit display along with guidelines to assist you with parking.

\*1 Optional.

\*2 Connectivity functionality available in models with the 4.2-inch premium meter display.

\*3

\*4

Driver is always responsible for safe and attentive driving. Please refrain from operating the touchscreen while driving.

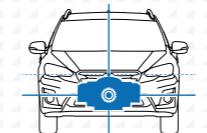

## SUBARU CORE TECHNOLOGY

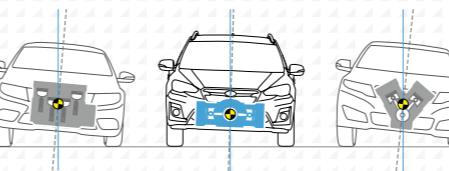

Subaru's core technologies identify the Subaru brand and give you the unique driving feel you can find only in a Subaru. These core systems allow Subaru vehicles to live up to its standards in performance, comfort, safety, and reliability whilst keeping its promise to deliver enjoyment and peace of mind to all passengers.

### 01 SUBARU BOXER ENGINE

A boxer engine, or a horizontally opposed engine, is an engine configuration in which its pistons move toward each other in a horizontal direction. Subaru has been solely committed to the SUBARU BOXER engine for over 50 years for its many advantages over other engine types, providing durability and reliable performance in its vehicles.

**INCREASED STABILITY**  
The low centre of gravity and flat design give it better side-to-side stability than other engine types.

**LONG-LASTING PERFORMANCE**  
The engine's flat design is inherently rigid and self-balancing, generating less vibration than other engine types.

### 02 SYMMETRICAL ALL-WHEEL DRIVE (AWD)

Subaru's Symmetrical AWD distributes power to all wheels for better traction on wet and slippery roads. Laid out in a horizontally symmetrical plane, this system has a well-balanced low centre of gravity design for a more stable and safer ride.

### 03 LINEARTRONIC + ACTIVE TORQUE SPLIT AWD

Lineartronic adjusts to any ratio in its range for smooth and stepless gear changes that keep the engine in its most efficient range for efficient and smooth acceleration, driving performance and better fuel efficiency. It comes paired with Subaru's active torque split AWD system. Its default torque of 60% front and 40% rear is adjusted up to a 50/50 split in response to real-time traction conditions.

### 04 SUBARU GLOBAL PLATFORM

The Subaru Global Platform (SGP) is the underlying platform that will underpin the next generation of Subaru vehicles. Enhancing all-round safety and performance, it goes beyond better performance to offer a driving feel you can only find in a Subaru. It's the future of Subaru and delivers even more enjoyment and peace of mind to all drivers and passengers.

#### 1. More Fun to Drive

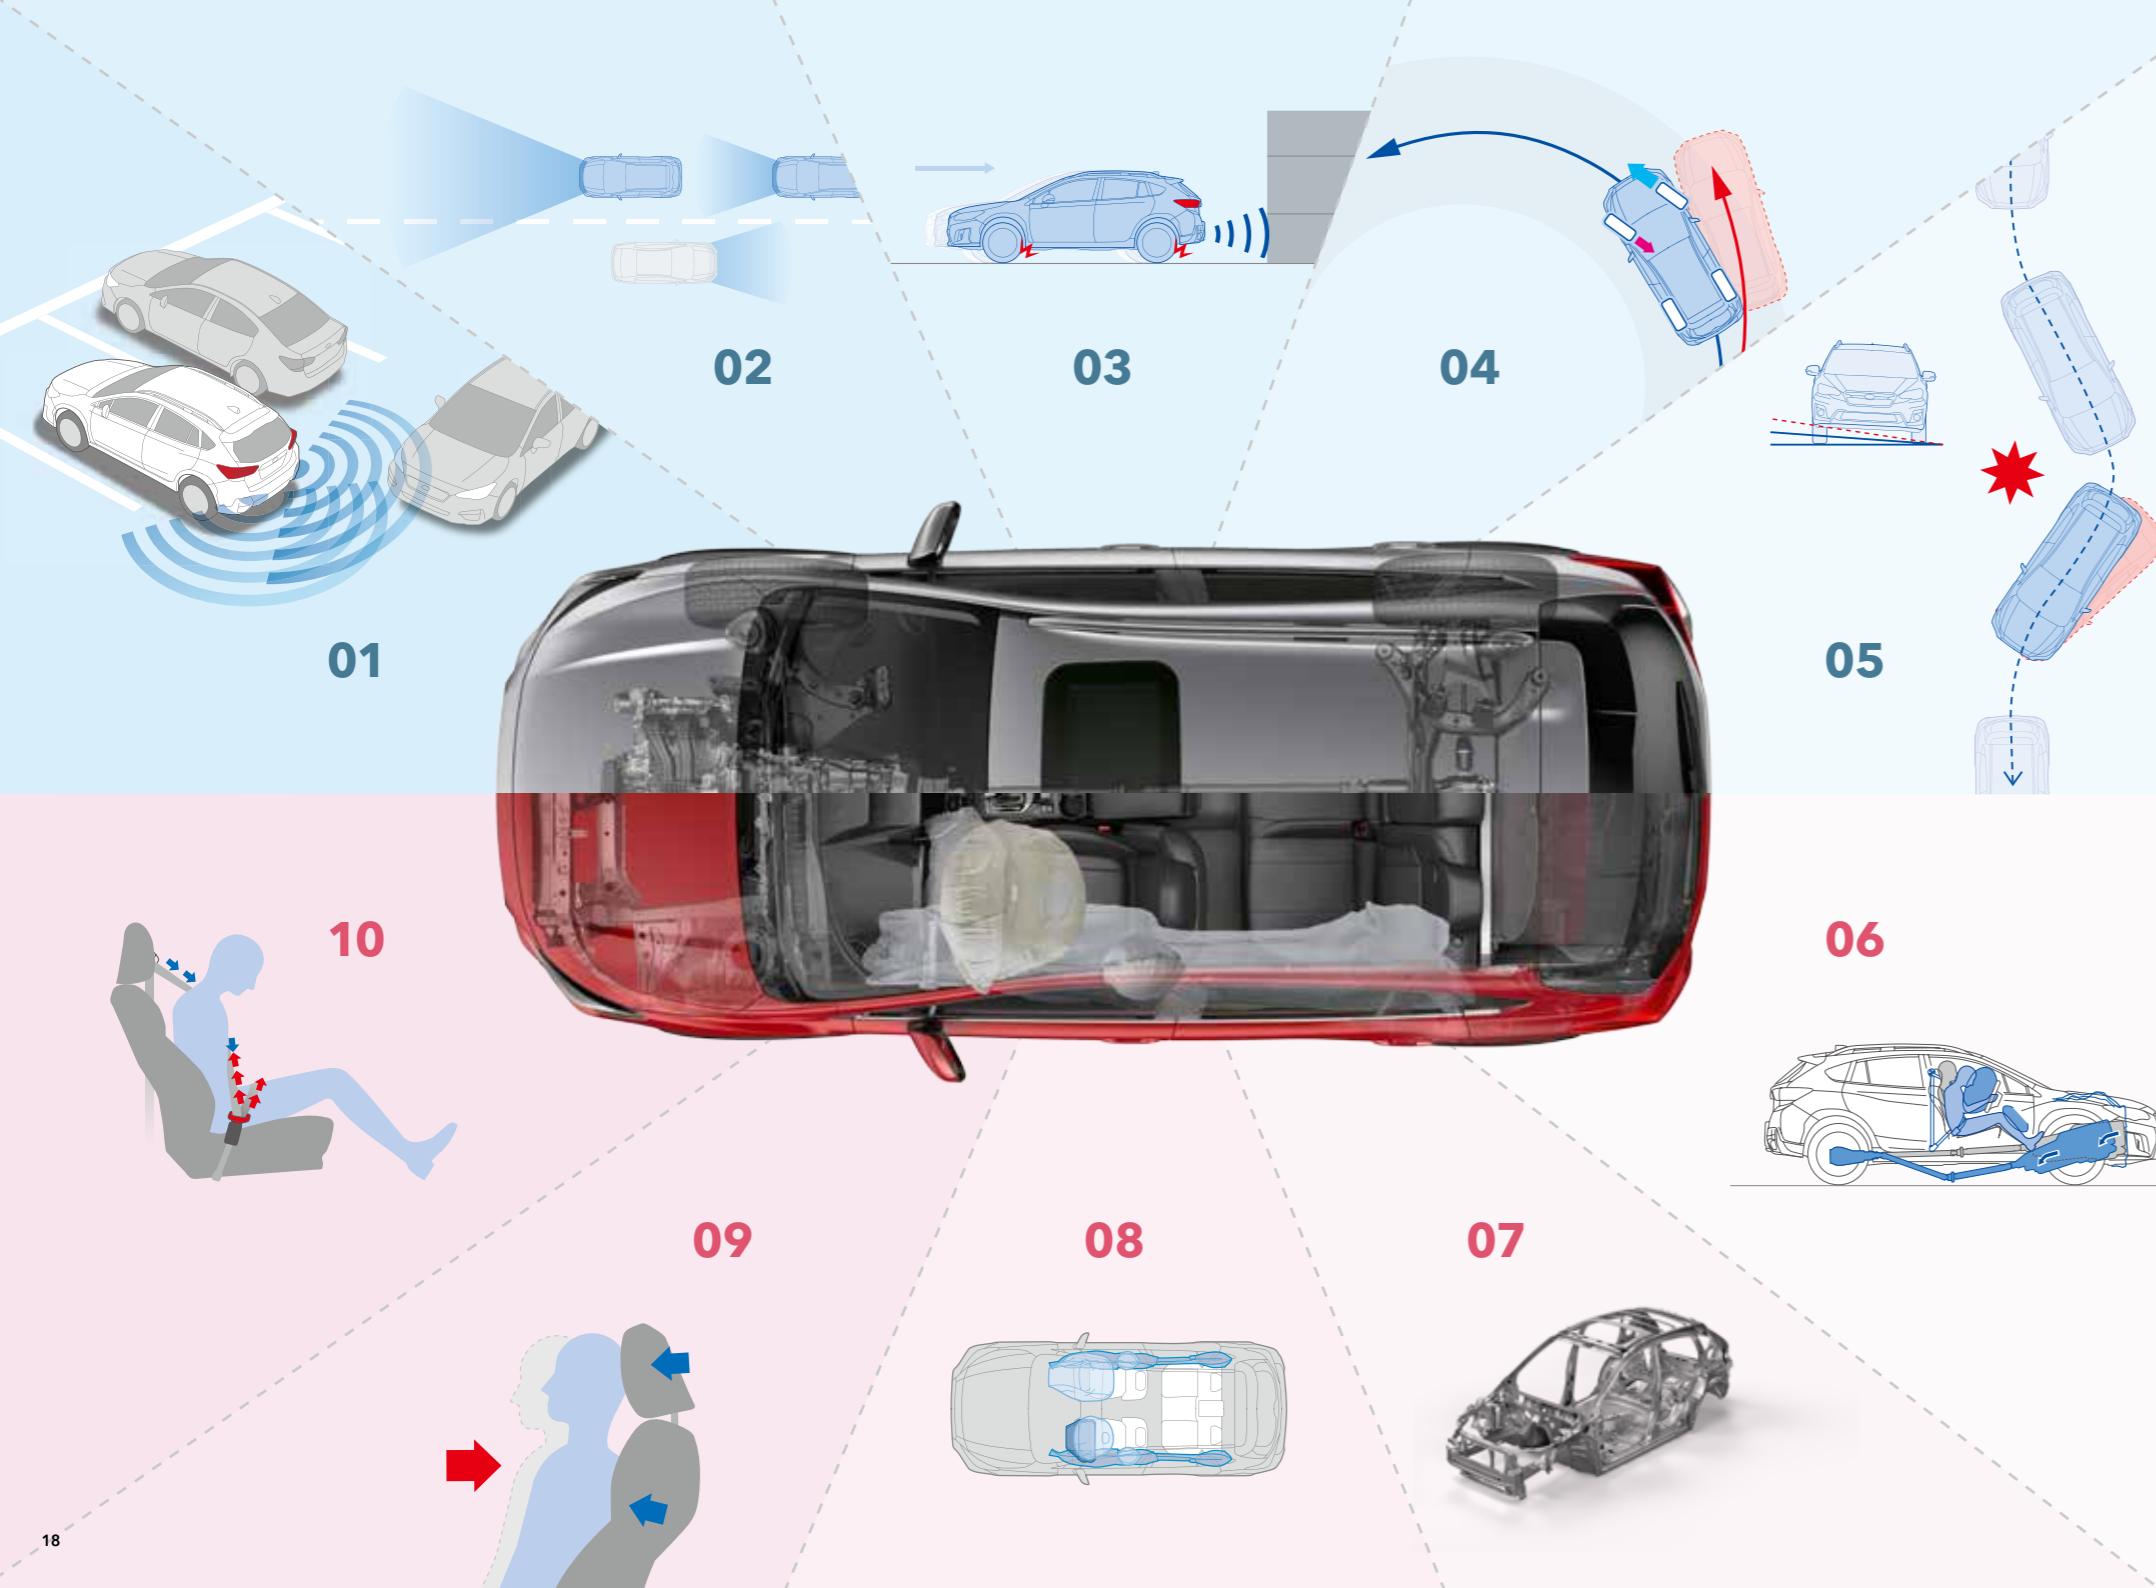

More responsive handling allows the driver to steer the car as intended, also increasing hazard avoidance. The result is a car that's safe and more fun to drive, even on long trips. Even with its versatile high ground clearance, the all-new SUBARU XV overcomes turns like a passenger car.

#### 2. Ride Comfort

Improvements in chassis rigidity, suspension, and stabiliser efficiency absorb shocks from the road and ride uneven surfaces, allowing more comfort and less fatigue on long drives.

#### 3. Comfortable Cabin Space

Unpleasant vibrations or noise have been minimised to ensure all passengers enjoy the ride. Suspension improvements and a highly rigid chassis allow for a comfortable cabin interior for all.

01

#### ADVANCED SAFETY PACKAGE: SUBARU REAR VEHICLE DETECTION (SRVD)\*<sup>1,2</sup>

Sensors placed around the vehicle alert you of vehicles in your rear blind spots for safer lane changes. It also warns you of potential collision danger whilst driving in reverse into a street with cross traffic.

03

#### ADVANCED SAFETY PACKAGE: REVERSE AUTOMATIC BRAKING (RAB)\*<sup>1,2</sup>

When in Reverse, this system uses four sensors on the rear bumper to detect obstructions behind the vehicle. If detected, the system can alert the driver with warning sounds and automatically apply the brakes to avoid a collision or reduce collision damage.

05

## SUBARU GLOBAL PLATFORM

The SGP's advancements throughout the chassis—higher rigidity, higher strength, lighter weight, better rolling resistance and responsive steering—particularly benefit these safety systems.

07

#### RING-SHAPED REINFORCEMENT FRAME

The ring-shaped reinforcement frame makes better use of high-tensile steel panels and has been structurally redesigned for more efficient energy absorption from impacts in all directions.

09

#### WHIPLASH-MITIGATING FRONT SEATS

Designed to enhance comfort and help the driver feel more planted for more control, these seats can also help reduce the possibility of whiplash resulting from certain types of collisions.

\*1

The driver is always responsible for safe and attentive driving and observance of traffic regulations. Please do not depend solely on the Advanced Safety Package features for safe driving. There are limitations to the features of this system. See Owner's Manual for complete details on system operation and limitations. Please ask your retailer for more details.

\*2

Optional.

\*3

Effective when used in conjunction with seatbelts.

02

#### ADVANCED SAFETY PACKAGE: HIGH BEAM ASSIST (HBA)\*<sup>1,2</sup>

High Beam Assist increases visibility and safety when driving at night by toggling the high beams on and off automatically, depending on driving conditions.

04

#### VEHICLE DYNAMICS CONTROL SYSTEM & ACTIVE TORQUE VECTORIZATION

If the vehicle approaches the limits of stability, the AWD torque distribution, engine output, and brakes at each wheel are adjusted to help keep the vehicle on course. And with Active Torque Vectoring, brakes are applied and less torque is distributed to the inside wheels and more to the outside wheels for more precise handling, helping you make sharp turns when necessary.

05

#### HAZARD AVOIDANCE

Made possible by the SGP, the lower centre of gravity design, enhanced suspension system, and rigidity improvements provide a vehicle that responds immediately when evasive actions are taken, helping avoid hazards on the road.

06

#### CABIN-PROTECTING LAYOUT

Now sitting lower than ever due to the low centre of gravity design of the SGP, the engine and gearbox are designed to avoid crashing into the cabin in the event of a collision.

08

#### SUPPLEMENTAL RESTRAINT SYSTEM (SRS)\*<sup>3</sup> AIRBAGS

Front SRS\*<sup>3</sup> airbags, front side SRS\*<sup>3</sup> airbags, curtain SRS\*<sup>3</sup> airbags, and a knee SRS\*<sup>3</sup> airbag come standard on the all-new SUBARU XV to give all passengers a higher level of protection in the event of a collision.

10

#### LOCKING-TONGUE SEATBELTS

During an impact, the locking tongue limits movement in the lap belt and reduces impact in the lower chest area to improve safety and reduce injury levels.

SAFETY

PASSIVE  
SAFETY

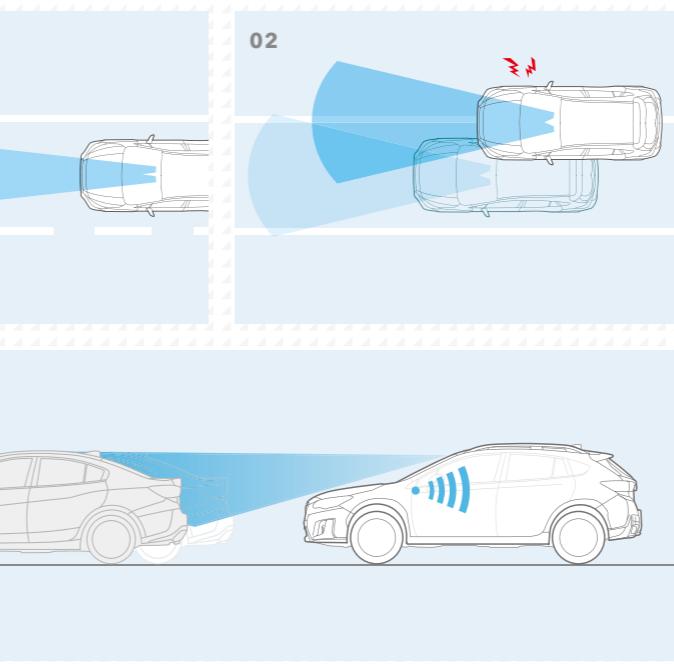

## SUBARU'S WORLD-LEADING DRIVER ASSIST TECHNOLOGY

At Subaru, we believe in ALL-AROUND SAFETY, and an important part of that is pre-collision safety, making sincere efforts to ensure an accident never happens. That's why we created EyeSight<sup>®</sup>, Subaru's cutting-edge driving support system. Like a second pair of eyes for the road ahead, EyeSight uses two stereo cameras to capture three-dimensional colour images with excellent image recognition, nearly as capable as the human eye.

Using images from both cameras to precisely determine the shape, speed and distance, it not only detects vehicles but also motorbikes, bicycles, and pedestrians.<sup>®2</sup> When spotting potential danger, it warns the driver and even applies the brakes if necessary to help avoid an accident. With improved safety performance like this, EyeSight reduces the burden on the driver and enhances your sense of security in the SUBARU XV.

### DRIVER ASSIST

#### 01. ADAPTIVE CRUISE CONTROL

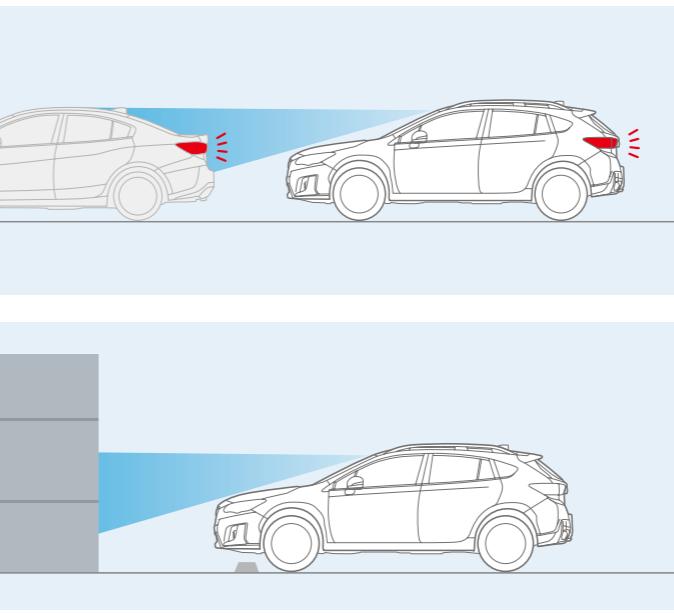

EyeSight<sup>®1</sup> doesn't only maintain the speed the driver sets as traditional cruise control does. When it senses a vehicle in front, Adaptive Cruise Control adjusts the speed to keep a set distance from the lead vehicle by monitoring the distance and the difference of the speed.

It adjusts the engine, transmission, and brake to keep your speed in line with the traffic flow in a wide range approximately from 0 km/h to 180 km/h. Designed for use on freeways, highways, and similar roads, Adaptive Cruise Control actually detects a lead vehicle and its brake lamps and can help keep pace in stop-and-go highway traffic for you—a comfort and convenience on long drives.

#### 03. LEAD VEHICLE START ALERT

When you're at a stop and EyeSight senses that traffic has started moving again, Lead Vehicle Start Alert prompts the driver to take action with a buzzer and a flashing indicator.

### ACCIDENT PREVENTION

#### 04. PRE-COLLISION BRAKING SYSTEM<sup>®2</sup>

When it senses an impending collision with a vehicle or other obstacle in front, the Pre-Collision Braking System can warn the driver with a buzzer and a light on your dash.

If the driver still does not take evasive action to avoid the collision, the system can automatically apply the brakes to reduce any impact or, if possible, prevent the collision. If the driver takes evasive action to avoid a collision, Pre-Collision Brake Assist can act to aid the driver in preventing the collision.

**02. LANE SWAY AND DEPARTURE WARNING**  
Whether you are distracted by fatigue and drowsiness or drifting in a lane, Lane Sway Warning helps you stay alert with a buzzer and a flashing indicator. However, Lane Sway Warning only activates at speeds of approximately 60 km/h or more. When travelling at speeds of approximately 50 km/h or more and you accidentally drift to the edge of your lane and begin to leave your lane without signaling, Lane Departure Warning warns you with a buzzer and a flashing indicator before you leave your lane.

#### 05. PRE-COLLISION THROTTLE MANAGEMENT

When EyeSight sees an obstacle in front of you and you put the vehicle in Drive instead of Reverse, Pre-Collision Throttle Management sounds several beeps, turns on a flashing indicator and cuts the engine output to help you avoid a front collision.

<sup>®1</sup> EyeSight is a driving support system which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving and observance of traffic regulations. System effectiveness depends on many factors such as vehicle maintenance, weather, and road conditions. See Owner's Manual for complete details on system operation and limitations for EyeSight including functions in this brochure.
