

LEGACY

SUBARU

Confidence in Motion

REACH GREATER HEIGHTS.

Just right. You'll recognise it when you feel it. That's the feeling you get from Legacy. A seamless blend of elegant design and Subaru engineering, the sporty and smooth driving feel of Legacy takes you wherever you need to go in comfort and style, even on those long rides. At the end of each day, Legacy helps you find the confidence and motivation to boldly face the challenges of tomorrow.

ITS GOAL-HELPING YOU REALISE YOURS.

Unleash the power within to pursue what you want most. The Legacy reconnects you with the joy of driving with a sportier, more responsive ride and All-Wheel Drive capability to get you where you need to go with Symmetrical All-Wheel Drive. Its stylish looks are especially pleasing to the eye, whilst its well-appointed interior offers useful technology and plush materials that are pleasing to the touch. This sporty sedan caters to all your comforts and gives you free reign to indulge in true driving enjoyment.

REWARDING TO DRIVE.

REWARDING TO LOOK AT.

You'll feel it at the first rush, that first grin as you enjoy immediate response and impressive control in the corners. The Legacy is sporty and aerodynamic in style, which also contributes to its impressive fuel consumption.

EXTRACT MORE JOY
OUT OF EVERY DRIVE.

Balanced and confident, the Legacy owes its sporty, high-performance nature to its SUBARU BOXER engine and the efficient Lineartronic Continuous Variable Transmission. With shift controls designed for smooth, exciting acceleration to enhance your driving enjoyment, the Lineartronic transmission complements the SUBARU BOXER engine, helping it achieve improved fuel efficiency and driving enjoyment at all times.

Paddle Shifters
For a more engaging experience, drivers can use the paddle shifters to enjoy the delight of sports driving.

SI-DRIVE
Based on your driving style, Subaru Intelligent Drive (SI-DRIVE) can adjust the throttle and shifting response to give you immediate power and agility when you crave it in nearly any scenario.

Sport Sharp Mode*
When you want powerful engine performance, select Sport Sharp Mode for quick acceleration and sharp response. Use the paddle shifters and take even more control. To enjoy sporty driving, this mode unleashes the engine's maximum potential.

Sport Mode
This highly responsive mode is well suited for all-round conditions with its immediate acceleration. It puts the enjoyment back into high-speed driving on motorways or on winding roads.

Intelligent Mode
Offering gentle power delivery, this mode is ideal for cruising around town on local streets, covering long distances, or achieving high fuel efficiency. It also provides flexible control in the rain or on snowy roads.

* Available only on 3.6-litre models.

YOUR PARTNER IN LIFE.

There's more cargo room to accommodate your daily demands. Should you need more room, the 60/40 folding rear seats can also be adjusted in an instant to make room for longer items and extra packages, even with a passenger still riding in the rear seat.

DESIGNED AROUND
ITS MOST IMPORTANT CARGO—YOU.

Designed to optimise your driving pleasure, the cockpit has a sporty sedan feeling with upgraded materials and technology throughout. With a sport-contoured steering wheel, it's designed for more enthusiastic driving, whilst the seats are there to hold the driver firmly in place with strong support, so that the driver can focus on their driving enjoyment.

Comfortable Rear Seats

The cabin of the Legacy was designed to provide ample space for rear passengers for enhanced comfort on longer drives.

Large Sunroof*

Enjoy a more open feel with the large, panoramic sunroof. The inner sliding sunroof includes tilt-up and auto-reverse features to bring in plenty of light at your command.

* Optional.

TECHNOLOGY WITH A HUMAN TOUCH.

Make your day-to-day brilliant. The ingenious design and technology of the Legacy work exceptionally well and are especially useful. A centre touchscreen and LCD meter centre display give you access to it all. A premium audio system with 12 Harman/Kardon speakers or standard audio with six speakers are available for your enjoyment. Plus, the entire infotainment system is compatible with smartphones, making it easy to stay connected.*¹

Apple CarPlay*² and Android Auto™*³

Use today's most popular apps with Apple CarPlay*² and Android Auto™*³. Voice recognition capabilities allow hands-free use, keeping everybody safe whilst reducing distractions when you're on the road.

1. Front and Side View Monitors**⁴

The front grille camera can project the vehicle's front view via the in-dash display, increasing front visibility at intersections and when parking facing a wall. The Side View Monitor displays blind spots diagonally in front of the passenger side to make navigating narrow roads easier and street parking more convenient.

2. LCD Meter Centre Display

The LCD meter centre display supplies the driver needed information at a glance without having to look to the side. It also features an efficiency display that allows you to track your fuel economy. It's the data you need to stay informed and confident that your drive stays as efficient as possible.

3. Harman/Kardon Audio System**⁴

Featuring Harman/Kardon's latest technology, GreenEdge, the premium audio system in the Legacy includes 12 Harman/Kardon speakers and improved acoustics for a richer audio experience.

*¹ Driver is always responsible for safe and attentive driving. Please refrain from operating the touchscreen whilst driving.

*² Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries.

*³ Android™ and Android Auto™ are trademarks of Google Inc.

*⁴ Optional.

SUBARU BOXER ENGINE

Few other cars drive with the self-assured confidence of the Legacy, so you won't be surprised by how uniquely it is accomplished. The horizontally opposed configuration of the SUBARU BOXER engine places the pistons 180 degrees apart, for a lower, flatter profile than other engine types. This gives the engine, and therefore the overall vehicle, a lower centre of gravity and better sense of balance. Further, the pistons' opposing movements inherently counteract each other, naturally helping to reduce vibration.

Increased Stability

Because the engine block has a flatter profile and sits lower in the chassis, the overall vehicle is more stably balanced and resistant to side-to-side motion than other designs.

Long-lasting Performance

The engine's flat design is inherently rigid and self-balancing to achieve durability and reliable performance, generating less vibration than V-type or 4-cylinder in-line engines in the same class.

SYMMETRICAL ALL-WHEEL DRIVE

Control leads to confidence, and stability creates an agility that excites in the Legacy. Subaru vehicles are gifted at inspiring confidence behind the wheel, thanks to the inherently stable design of Symmetrical All-Wheel Drive paired with the uniquely balanced SUBARU BOXER engine. This system delivers power to all four wheels at all times for enhanced control on all roads and in poor conditions. It has excellent side-to-side balance and handling precision, thanks to its main components being aligned longitudinally, whilst its low centre of gravity creates an especially engaging and responsive drive. The unique advantages of Symmetrical AWD make for exceptionally rewarding handling and empower you to better avoid danger.

LINEARTRONIC

Designed to get the most out of your SUBARU BOXER engine and Symmetrical All-Wheel Drive, the efficient Lineartronic Continuously Variable Transmission keeps the engine in its ideal power range to give the Legacy its improved fuel consumption. The shift controls keep the ride light, smooth and responsive on both the 2.5-litre and 3.6-litre engines, whilst the Lineartronic in 3.6R-S also handles the higher-torque output with less mechanical noise for a smoother, quieter drive. The shift controls have a stepped variable control that stays in tune with changes in vehicle speed and engine speed, allowing the driver to feel shift points when accelerating to form a strong and comfortable connection between car and driver.

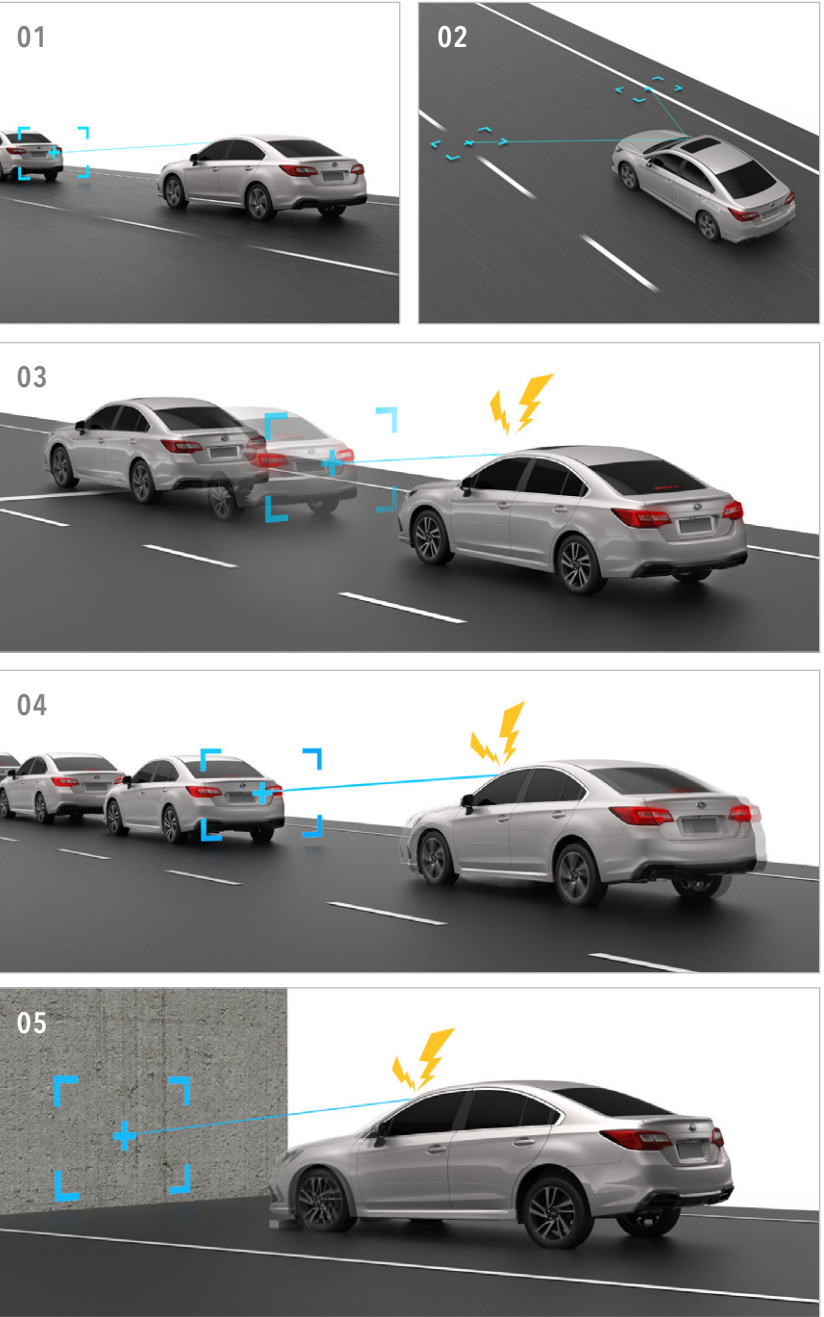

SUBARU'S WORLD-LEADING DRIVER ASSIST TECHNOLOGY

At Subaru, we believe in ALL-AROUND SAFETY, and an important part of that is pre-collision safety, making sincere efforts to ensure an accident never happens. That's why we created EyeSight*¹, Subaru's cutting-edge driving support system. Like a second pair of eyes for the road ahead, EyeSight uses two stereo cameras to capture three-dimensional colour images with excellent image recognition, nearly as capable as the human eye. Using images from both cameras to precisely

determine the shape, speed and distance, it not only detects vehicles but also motorbikes, bicycles, and pedestrians.*² When spotting potential danger, it warns the driver and even applies the brakes if necessary to help avoid an accident. With improved safety performance like this, EyeSight reduces the burden on the driver and enhances your sense of security in the Legacy.

Field of vision range from EyeSight (Not an actual measurement).

01. Adaptive Cruise Control

EyeSight*¹ doesn't only maintain the speed the driver sets as traditional cruise control does. When it senses a vehicle in front, Adaptive Cruise Control adjusts the speed to keep a set distance from the lead vehicle by monitoring the distance and the difference of the speed. It adjusts the engine, transmission, and brake to keep your speed in line with the traffic flow in a wide range approximately from 0 km/h to 180 km/h. Designed for use on freeways, highways, and similar roads, Adaptive Cruise Control actually detects a lead vehicle and its brake lamps and can help keep pace in stop-and-go highway traffic for you—a comfort and convenience on long drives.

02. Lane Sway and Departure Warning

When you are distracted by fatigue and are wandering or drifting in a lane, Lane Sway Warning helps you stay alert with a buzzer and a flashing indicator. However, Lane Sway Warning only activates at speeds of approximately 60 km/h or more. When travelling at speeds of approximately 50 km/h or more and you accidentally drift to the edge of your lane and begin to depart your lane without signaling, Lane Departure Warning warns you with a buzzer and a flashing indicator before you leave your lane.

03. Lead Vehicle Start Alert

When you're at a stop and EyeSight senses that traffic has started moving again, Lead Vehicle Start Alert prompts the driver to take action with a buzzer and a flashing indicator.

04. Pre-Collision Braking System*²

When it senses an impending collision with a vehicle or other obstacle in front, the Pre-Collision Braking System can warn the driver with a buzzer and a light on your dash. If the driver still does not take evasive action to avoid the collision, the system can automatically apply the brakes to reduce any impact or, if possible, prevent the collision. If the driver takes evasive action to avoid a collision, Pre-Collision Brake Assist can act to aid the driver in preventing the collision.

05. Pre-Collision Throttle Management

When EyeSight sees an obstacle in front of you and you put the vehicle in Drive instead of Reverse, Pre-Collision Throttle Management sounds several short beeps, turns on a flashing indicator and cuts the engine output to help you avoid a frontal collision.

*¹ EyeSight is a driving support system which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving and observance of traffic regulations. System effectiveness depends on many factors such as vehicle maintenance, weather, and road conditions. See Owner's Manual for complete details on system operation and limitations for EyeSight including functions in this brochure.

*² Pre-Collision Braking System may not work in all situations. Depending on the speed difference from objects, the object's height, and other conditions, every situation may not meet the necessary conditions for EyeSight to work optimally.

ACTIVE

SAFETY

- 01 **Advanced Safety Package: Subaru Rear Vehicle Detection (SRVD)*1*2**
Subaru Rear Vehicle Detection (SRVD) uses sensors placed around the vehicle to alert you of vehicles in your rear blind spots for safer lane changes, and can also warn you of potential collision danger, whilst driving in reverse into a street with cross traffic.

- 03 **Vehicle Dynamics Control System**
Vehicle Dynamics Control System monitors and analyses if the vehicle is following the driver's intended course via an array of sensors. If a tyre slips or a high-speed turn moves the vehicle off its intended path, the AWD torque distribution, engine output and brakes at each wheel are adjusted to assist in keeping the vehicle on course.

- 05 **Increased Visibility**
We adjusted the frame to increase your visibility and decrease your blind spot area. We also installed front quarter windows with door-mounted side mirrors to reduce the front blind spot for increased forward visibility.

- 02 **Advanced Safety Package: High Beam Assist (HBA)*1*2**
High Beam Assist increases visibility and safety when driving at night by toggling the Legacy's high beams on and off automatically, depending on driving conditions.

- 04 **Active Torque Vectoring**
When cornering, Active Torque Vectoring applies the brakes and distributes less torque to the inside wheels and more torque to the outside wheels. It helps make sharp turns and handling more precise. In combination with the Vehicle Dynamics Control System, it helps to keep you out of harm's way, granting you a comforting sense of security.

PASSIVE

SAFETY

- 06 **Cabin-protecting Layout**
Every Subaru goes above and beyond common practice when it comes to your safety. In the event of a head-on collision, your Legacy's SUBARU BOXER engine and gearbox are designed to avoid moving into the cabin for your protection.

- 08 **Ring-shaped Reinforcement Frame**
The Ring-shaped Reinforcement Frame strengthens the passenger cabin from the roof to the doors, pillars and floor. This design works to divert and dissipate impact energy away from the occupants in a collision. It also contributes to strengthening and lightening the chassis, leading to greater, reinforced protection.

- 10 **Front Seatbelts with Pretensioners and Load Limiters**
Height-adjustable front seatbelts feature pretensioners to hold passengers firmly in place, and load limiters that ease peak forces to the chest.

- 07 **Supplemental Restraint System (SRS)*3 Airbags**
Front SRS*3 airbags, front side SRS*3 airbags, curtain SRS*3 airbags, and knee SRS*3 airbags come standard on the Legacy to give all passengers a higher level of protection in the event of a collision.

- 09 **Head Restraints on Front Seats**
Adjustable for both height and angle, head restraints are designed to accommodate passengers of different sizes and comfort preferences.

*1 The driver is always responsible for safe and attentive driving and observance of traffic regulations. Please do not depend solely on the Advanced Safety Package features for safe driving. There are limitations to the recognition features of this system. See Owner's Manual for complete details on system operation and limitations. Please ask your retailer for more details.
*2 Optional.
*3 SRS: Supplemental Restraint System. Effective when used in conjunction with seatbelts.

FEATURES

- 1 Steering Responsive Headlights (SRH)***

When rounding a curve at night, the illumination direction of the headlights moves left or right according to the steering wheel to ensure visibility.
- 2 LED Front Fog Lamps**

These LED Front Fog Lamps illuminate a wider area to ensure good visibility for nighttime driving.
- 3 18-inch Aluminium-alloy Wheels***

Multi-spoke 18-inch aluminium-alloy wheels have a Legacy-exclusive, rugged appearance and an aerodynamic design for improved fuel efficiency. Together with the 225/50R18 high-performance tyres, they make an attractive addition to your Legacy.
- 4 Twin Tail Mufflers***

These enlarged tail mufflers hint at the sporty performance within.
- 5 Keyless Access with Push-button Start System***

Your key fob grants you complete keyless access. To lock/unlock the front doors or trunk, simply grip the door handles. To start the engine, push the button. Using a 5-digit PIN code allows you to enter your Subaru even without your key fob.
- 6 USB Power Outlet (Front and Rear)**

Keep all your electronic devices fully charged and ready to use with easily accessed USB power outlets for both front and rear passengers.
- 7 8-way Power-adjustable Driver's Seat (with Lumbar Support)**

Find your ideal driving position with this 8-way power adjustable driver's seat.
- 8 Rear View Camera**

When the driver shifts into Reverse, the camera displays a live colour image on the in-dash display, along with guidelines to assist in parking manoeuvres.

* Optional.

EXTERIOR COLOURS

SEAT MATERIAL

Owing to printing locations, colours may differ slightly from those shown in this chart. In addition, colours and seat variations may vary according to the individual market.

LINEUP

LEGACY 3.6R-S EyeSight / 3.6R-S

Dimensions: L x W x H: 4800 x 1840 x 1500 mm
Engine: Horizontally opposed, 6-cylinder, DOHC, 24-valve, petrol
Capacity: 3630 cc
Max Output: 191 kW (260 PS) / 6,000 rpm
Max Torque: 350 Nm (35.7 kgfm) / 4,400 rpm
Transmission: Lineartronic, AWD

ICE SILVER METALLIC

LEGACY 2.5i-S EyeSight / 2.5i-S

Dimensions: L x W x H: 4800 x 1840 x 1500 mm
Engine: Horizontally opposed, 4-cylinder, DOHC, 16-valve, petrol
Capacity: 2498 cc
Max Output: 129kW (175 PS) / 5,800 rpm
Max Torque: 235 Nm (24.0 kgfm) / 4,000 rpm
Transmission: Lineartronic, AWD

DARK BLUE PEARL

LEGACY 2.5i

Dimensions: L x W x H: 4800 x 1840 x 1500 mm
Engine: Horizontally opposed, 4-cylinder, DOHC, 16-valve, petrol
Capacity: 2498 cc
Max Output: 129 kW (175 PS) / 5,800 rpm
Max Torque: 235 Nm (24.0 kgfm) / 4,000 rpm
Transmission: Lineartronic, AWD
