

FORESTER

SUBARU

Confidence in Motion

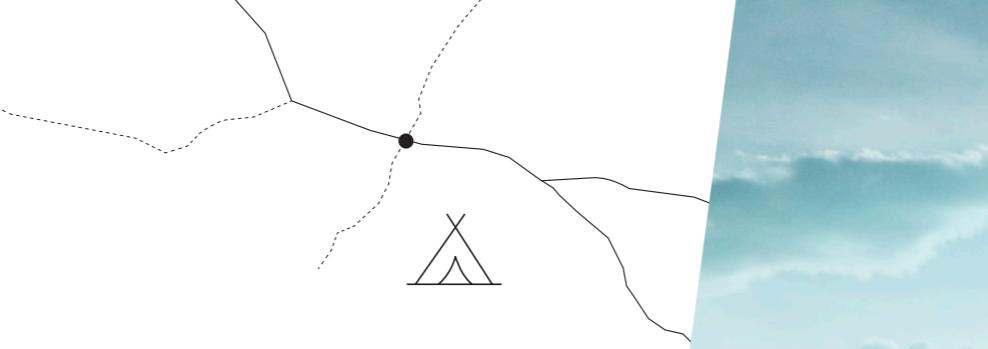

THIS IS WHERE **MEMORIES** ARE MADE.

Go to new places. See new sights. Revel in new experiences. This is the essence of adventure—and the inspiration for the redesigned Forester. With capability in its DNA, the Forester is ready to take you farther than ever before. With the safety to be able to protect you and your family, along with passenger-ready versatility, your adventures can be shared with the ones you love.

BORN TO EXPLORE. DESTINED TO TRAVEL.

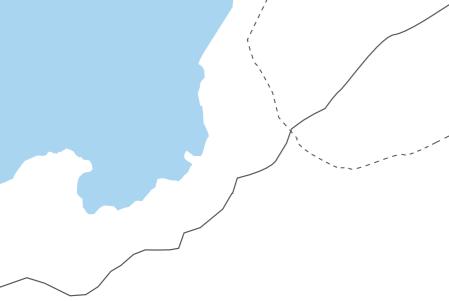

In nature, you must adapt in order to survive. The Forester is no different. It's evolved, with an ever better driving experience, and also adapted with an improved look and feel inside and out. No matter where you take it, the Forester strives to be the fittest, to conquer its environment with its versatility and striking looks to match.

**BOLD LOOKS AND
THE CAPABILITY TO
BACK IT UP.**

True toughness is a mixture of modesty, strength and resilience. The Forester wears those built-in qualities on its sleeve with a serious, bold design. Edgier and more stylish than ever before, the Forester seeks to please the eye with an elegantly balanced appearance befitting its balanced performance.

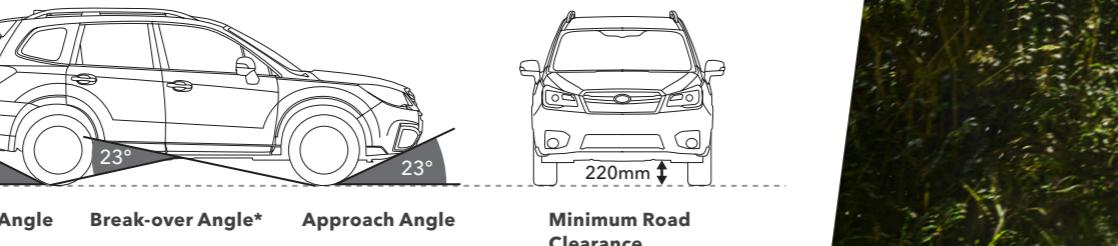

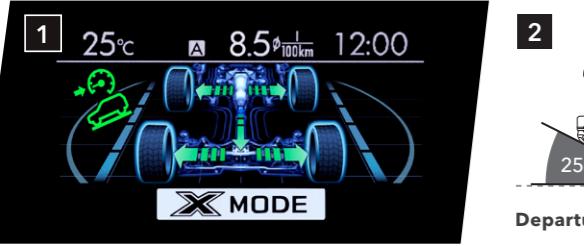

FIND YOUR INNER STRENGTH.

The second wind. It's that extra bit of strength summoned from within that helps you rise to the occasion and conquer the challenge. The Forester finds its inner strength with X-MODE. Activated with the push of a button, it gives the Forester that extra bit of capability you may need to take on adverse road and weather conditions.

1 X-MODE and Hill Descent Control

"X" marks added capability for any driver, on most any road. With a push of a button, X-MODE takes control of the engine, transmission, All-Wheel Drive, brakes, and other components to safely navigate through bad roads, and slippery surfaces for maximum confidence. For challenging descents, Hill Descent Control enhances confidence down the steepest of hills you'll encounter by providing constant, controlled momentum so the driver can focus more on steering the vehicle, and less on braking.

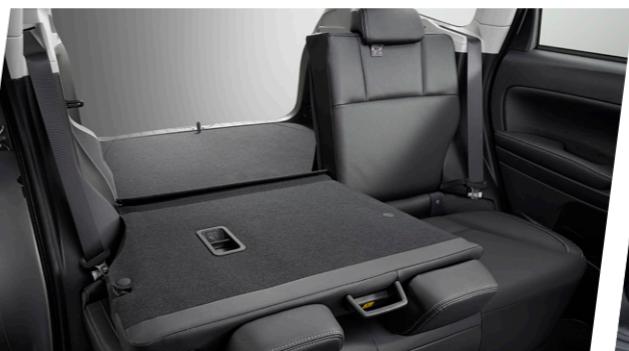

* Angle is 22-degrees for 2.0XT.

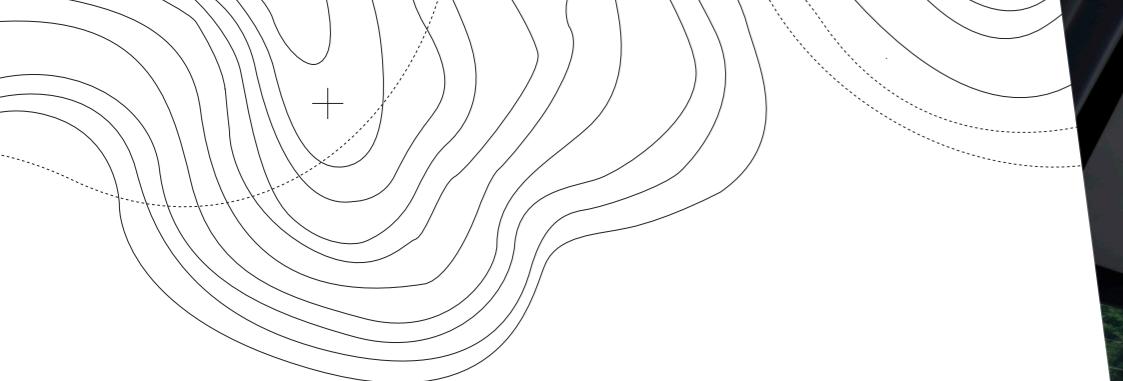

SUPPORTIVE
**EVERYTHING YOU
LOVE DOING.**

The Forester is well prepared to keep up with your life, from planned vacations to spontaneous hiking expeditions. The wide cargo area can accommodate four large suitcases and even the bulkiest adventure gear, whilst a power rear gate, wider door openings and lower side sills help you load and unload with ease. For longer items, the rear seats fold flat in a 60/40 split.

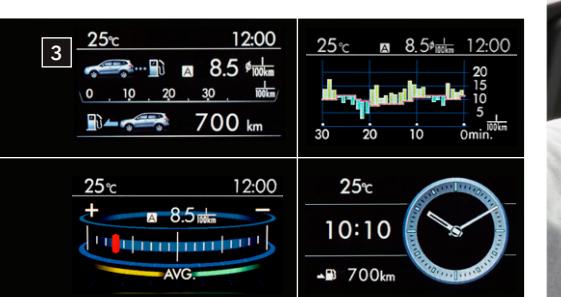

FEEL RIGHT AT HOME ON THE ROAD.

Designed with an active lifestyle in mind, the redesigned interior of the Forester is a great place to start your adventure. Every useful feature of the Forester is thoughtfully placed to be right where you need it, when you need it. With high-quality materials and durable design, it's designed to make tasks simpler, and driving more comfortable.

EXPLORE YOUR WORLD.

Going on the road doesn't mean you'll have to leave it all behind. Stay grounded yet undistracted with technology that's intuitive and easy to use. The Forester keeps you connected and on course with infotainment and audio systems that you can either control with the touch of your fingertips or the sound of your voice. And with smartphone and iPhone*¹ connectivity, you're never free of your peers or playlists.*²

1 Side View Monitor*³

The Side View Monitor*³ projects an image from the camera installed in the passenger-side side view mirror via the Multifunction Display, reducing your blind spot and making street parking a breeze.

3 High-grade Multifunction Display

Located conveniently in the instrument panel, informative car vitals are displayed at a touch of a button. It also features advanced environmental performance and efficiency—even allowing you to compare the efficiency between different trips.

5 Premium Audio System with Harman/Kardon Speakers*³

The 8-speaker, 440W system was designed for ultimate sound performance. Two oval-shaped speakers are placed in the front doors and two speakers are installed at the rear doors.

*1 Apple, iPhone, iPod, Siri, and iTunes are registered trademarks of Apple Inc. App Store is a service mark of Apple Inc.

*2 Driver is always responsible for safe and attentive driving. Please refrain from operating the touchscreen whilst driving. Package communications fee may be charged depending on your area.

*3 Optional.

2 Rear View Camera

When the driver shifts into Reverse, the camera displays a live colour image on the in-dash display, along with guidelines to assist in parking manoeuvres.

4 Touchscreen Control

Use the touchscreen to easily manage your music, just as you would on your smartphone. Simply connect your smartphone through Bluetooth®*⁴ or the USB port, and you can choose your music right on the touchscreen.

6 Voice Recognition*⁵ and Siri Eyes Free*^{1-3*}

Your Forester has no hands-free options than ever before, thanks to intuitive Voice Recognition*⁵ and Siri Eyes Free*^{1-3*} integration. Use Siri to link your compatible Apple® product to your Forester, allowing you to make hands-free calls, play music, check emails and search the web.

*4 Bluetooth is a registered trademark of Bluetooth SIG, Inc. America.

*5 Voice Recognition is compatible with select languages only and cannot accept all languages.

*6 Siri-compatible Apple products (iPhone, iPad, iPod touch, etc.) required.

SUBARU CORE TECHNOLOGY

SUBARU BOXER ENGINE

Few other SUVs drive with the level of confidence and responsiveness of the Forester, and the main reason for this lies beneath the surface—the SUBARU BOXER engine. Its horizontally opposed configuration places the pistons 180 degrees apart, for a lower, flatter profile than other engine types. This gives the engine, and therefore the overall vehicle, a lower centre of gravity and better sense of balance. Further, the pistons' opposing movements inherently counteract each other, naturally helping to reduce vibration.

2.0-LITRE DOHC TURBO SUBARU BOXER

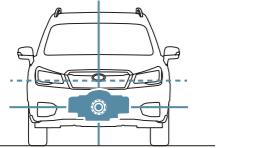

MAX OUTPUT:
177 kW (241 PS) / 5,600 rpm
MAX TORQUE:
350 Nm (35.7 kgfm) / 2,400 - 3,600 rpm
FUEL CONSUMPTION:
8.5 lit./100 km*
CO₂ EMISSIONS:
197 g/km*

2.5-LITRE DOHC SUBARU BOXER

MAX OUTPUT:
126 kW (171 PS) / 5,800 rpm
MAX TORQUE:
235 Nm (24.0 kgfm) / 4,100 rpm
FUEL CONSUMPTION:
8.5 lit./100 km*
CO₂ EMISSIONS:
196 g/km*

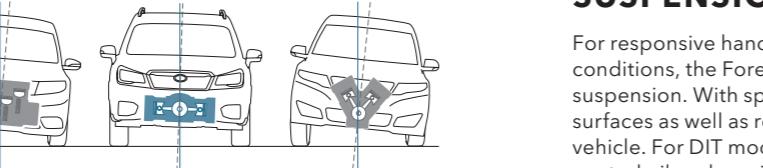

2.0-LITRE DOHC SUBARU BOXER

MAX OUTPUT:
110 kW (150 PS) / 6,200 rpm
MAX TORQUE:
198 Nm (20.2 kgfm) / 4,200 rpm
FUEL CONSUMPTION:
8.2 lit./100 km*
CO₂ EMISSIONS:
189 g/km*

Increased Stability

Because the engine block has a flatter profile and sits lower in the chassis, the overall vehicle is more stably balanced and resistant to side-to-side motion than other designs.

Long-lasting Performance

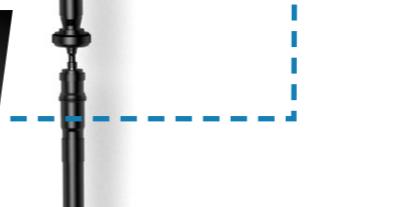

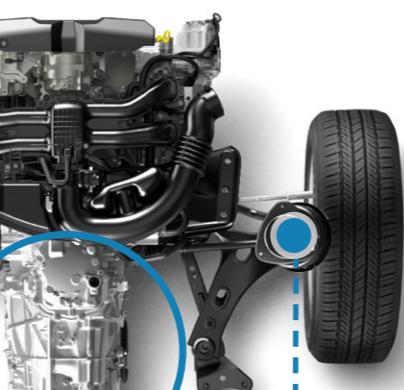

The engine's flat design is inherently rigid and self-balancing to achieve durability and reliable performance, generating less vibration than V-type or in-line engines in the same class.

* Fuel consumption and CO₂ emissions: According to ECE R101-01.

SUBARU CORE TECHNOLOGY

LINEARTRONIC + ACTIVE TORQUE SPLIT AWD

For instant, seamless response to changing conditions, the Lineartronic CVT (Continuously Variable Transmission) uses a chain instead of a belt—allowing a greater span of overall ratios for improved performance and efficiency as well as a faster response to throttle input. It's longitudinally paired with an active torque-split AWD system that responds to traction conditions, the transmission and driver inputs by continuously controlling the torque distribution front to rear.

SI-DRIVE

Subaru Intelligent Drive (SI-DRIVE) can adjust the responsiveness of its drivetrain to support your driving style, road conditions or any driving state at your immediate request. Quickly map the throttle response and automatic transmission shifting behaviour to ensure that you always have the best performance for any circumstance.

Sport Sharp Mode*

With the focus on response, Sport Sharp Mode drives the engine to its maximum potential. In this mode, the engine responds directly to the accelerator for a more powerful delivery when accelerating. Use the paddle shifters in Sport Sharp Mode and you take more control of engine performance with eight gear ratios like an 8-speed transmission—for truly spirited driving.

S Sport Mode

Sport Mode delivers smooth engine performance at any driving speed. You'll immediately feel a linear response when shifting so life is refined, torque-rich responses.

I Intelligent Mode

SI-DRIVE activates Intelligent Mode for immediate driving response and environmental responsibility. Throttle mapping balances smoothness and efficiency for an enhanced level of control.

* 3-mode SI-DRIVE (Sport Sharp Mode, Sport Mode and Intelligent Mode) is available only on 2.0XT. Other models are available with 2-mode SI-DRIVE (Sport Mode and Intelligent Mode).

SUSPENSION

For responsive handling and capability over a variety of surfaces and conditions, the Forester is equipped with an advanced front and rear suspension. With spring rates and dampening dialed in for smooth surfaces as well as rough, the Forester is a true multi-purpose vehicle. For DIT models, the front suspension features friction-control oil seals, guide bushings, hydraulic fluid on the struts, and optimised suspension tuning—all working together to help smooth vibrations and decrease body roll. Also for the DIT model, the rear support sub-frame provides a more rigid base to mount the rear suspension, for a more controlled ride and more responsive steering.

OUR VISION. YOUR SAFETY.

To help you avoid accidents and protect you when they can't be avoided, the Forester is equipped with active and passive safety features. Subaru Active Safety helps you circumvent trouble with predictable handling, precise control, excellent visibility, and advanced technologies that help you avoid incidents before they happen. Passive Safety features include systematically placed airbags, whiplash-reducing front seats, retracting pedals and 3-point seatbelts—all there to help protect you if the unthinkable occurs.

PASSIVE SAFETY

Ring-shaped Reinforcement Frame

The Ring-shaped Reinforcement Frame strengthens the passenger cabin's roof, doors, pillars and floor. This design helps divert and dissipate impact energy away from the occupants in a collision by use of high-strength materials and strategic placements. Whilst making it stronger with increased torsional rigidity, the overall frame is still lightweight.

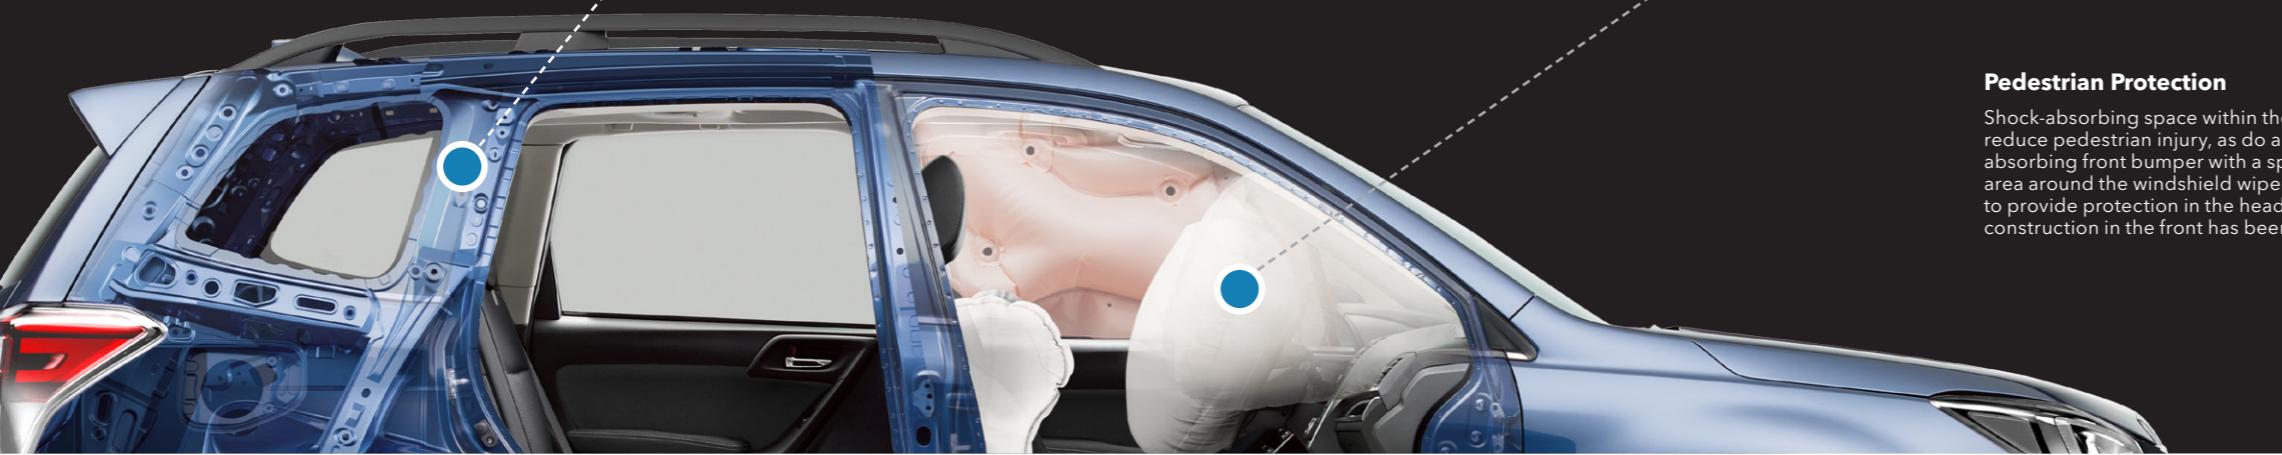

Seats, Seatbelts and SRS*1 Airbags

Standard on Forester are front SRS*1 airbags, plus front-side, curtain SRS*1 airbags and knee SRS*1 airbags. Height-adjustable front seatbelts feature pretensioners to hold passengers firmly in place, and load limiters that ease peak forces to the chest. In a rear collision, front seats utilise rigid frames, firm headrests and such details as energy-absorbing mounting of the inner seat springs, all to help reduce the chance of whiplash.

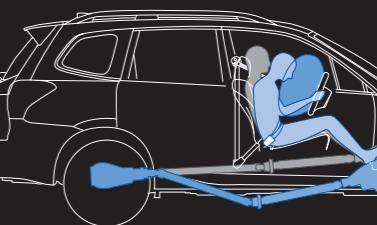

Cabin-protecting Layout

Every Subaru goes above and beyond common practice when it comes to your safety. In the event of a head-on collision, your Forester's SUBARU BOXER engine and gearbox are designed to avoid rushing into the cabin for your protection.

Pedestrian Protection

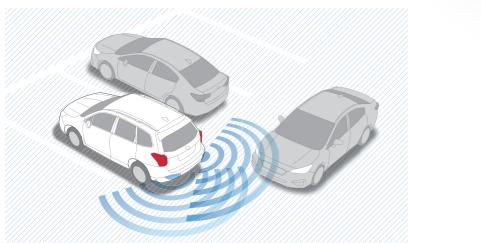

Shock-absorbing space within the vehicle helps reduce pedestrian injury, as do an energy-absorbing front bumper with a specially designed area around the windshield wipers. And in order to provide protection in the head zone, a split-type construction in the front has been implemented.

ACTIVE SAFETY

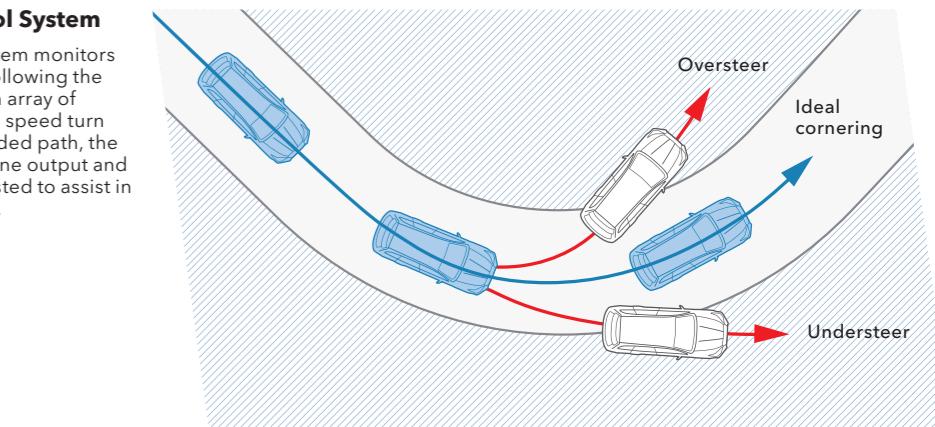

Advanced Safety Package: Subaru Rear Vehicle Detection (SRVD)*2*3

Sensors placed around the vehicle alert you of vehicles in your rear blind spots for safer lane changes. It also warns you of potential collision danger whilst driving in reverse into a street with cross traffic.

Vehicle Dynamics Control System

Vehicle Dynamics Control System monitors and analyses if the vehicle is following the driver's intended course via an array of sensors. If a tyre slips or a high speed turn causes the vehicle off its intended path, the AWD torque distribution, engine output and brakes at each wheel are adjusted to assist in keeping the vehicle on course.

Braking System

The standard 4-wheel disc braking system is enhanced by Antilock Braking System (ABS) with Electronic Brake-force Distribution, to help redistribute braking power where you need it among all four wheels, and also Brake Assist and Brake Override for control in emergency braking situations. There's also Auto Vehicle Hold, which helps prevent rollback when starting from a stop on any slope. The DIT model adds larger 17-inch ventilated discs in front and 16-inch ventilated discs for the rear, for even better braking performance.

Visibility

With a commanding perspective and front and rear visibility at the top of its class, the Forester keeps the driver aware and at ease on the narrow roads and tight spaces. Blind spots are kept to a minimum with well-positioned A-pillars and integrated partition windows. The side mirrors have also been placed onto the door panels, creating a remarkably open field of view.

*1 SRS: Supplemental Restraint System. Effective when used in conjunction with seatbelts.
*2 The driver is always responsible for safe and attentive driving and observance of traffic regulations. Please do not depend solely on the Advanced Safety Package features for safe driving. There are limitations to the features of this system. See Owner's Manual for complete details on system operation and limitations. Please ask your dealer for more details.
*3 Optional.

FORESTER 2.0XT

DIMENSIONS: L x W x H: 4595 x 1795 x 1735 mm

ENGINE: Horizontally opposed, 4-cylinder, turbocharged, DOHC 16-valve, petrol

CAPACITY: 1998 cc

MAX OUTPUT: 177 kW (241 PS) / 5,600 rpm

Owing to printing locations, colours may differ slightly from those shown in this chart. In addition, colours and seat variations may vary according to the individual market.

FEATURES

1 Steering Responsive Headlights (SRH)

When rounding a curve at night, the illumination direction of the headlights move left or right according to the steering wheel to ensure visibility.

3 Automatic Rain-sensing Windshield Wipers

Available automatic windshield wipers detect rainfall on the glass and adjust the wiping intervals and speed accordingly.

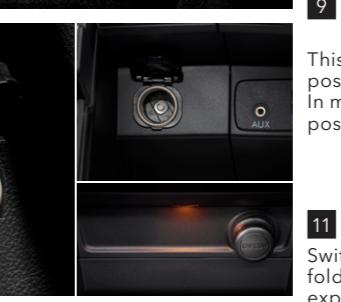

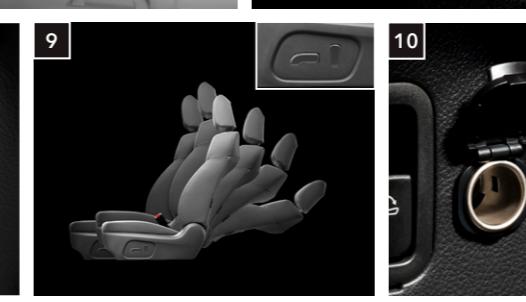

5 Fog Lamps

Multi-reflector fog lamps also serve as daytime running lights, and emit a wide, flat beam that reflects less glare for added safety.

7 Aluminium Pedals*

Select models feature sporty, stylish aluminium pads studded with grips and fitted to the pedals and driver's footrest.

9 8-way Power Adjustable Driver's Seat*

This allows you to find a comfortable seating position by 8-way power adjustment. In models with leather interior, a 2-seat position memory function has been added.

11 One-touch Folding Seats

Switches in the cargo area automatically fold each of the 60/40 split rear seatbacks, expanding the luggage space with remarkable ease.

1 18-inch Aluminium alloy wheels*
2.0T and 2.5i-S models are equipped with multi-spoke 18-inch aluminium alloy wheels and 225/55R18 tyres.

4 Headlamp Washers

Pop-up washers use high pressure spray to help keep the headlights at the peak performance in poor weather.

6 Power Glass Sunroof*

The large, internally sliding sunroof with manual sunshade delivers a panoramic view and fresh breeze for front and rear passengers.

8 Cruise Control

One-touch control lets the driver to set and maintain a steady driving speed, convenient for long-distance driving or on motorways.

10 Three 12V Power Outlets

Auxiliary power is available in parts with a 12-volt power outlet located in the centre console, centre console box and cargo space.

12 Dual-zone Automatic Air-conditioning System*

This feature conveniently helps to keep the temperature inside where you want, it also allows the driver and front passenger to set different temperatures.

* Optional.
