Taking superior driving capabilities to a new level, the Subaru Global Platform delivers improved maneuverability, reduced vibration and noise, plus the confidence to navigate all roads.

Direct Fuel Injection Boxer Engine

In addition to the lower centre of gravity, the 2.0-litre horizontally-opposed engine now comes equipped with Direct Injection to boost fuel economy, engine output and performance.

Symmetrical All-Wheel Drive

Designed to distribute power to all wheels for better steering response. It offers surefooted stability even at high speeds or in bad weather, plus balance and traction on wet roads too.

EyeSight Driver Assist Technology

The Subaru EyeSight is our award-winning driver assist technology that gives you an extra pair of eyes on the road.

- ① **Pre-Collision Braking & Throttle Management**
Warns you with a buzzer and a flashing indicator on the dash. It brakes to reduce impact and possible collisions. Pre-Collision Throttle Management helps avoid frontal collisions.
- ② **Lane Sway & Departure Warning**
Helps you stay alert with a buzzer and a flashing indicator. When you drift to the edge of your lane, it warns you about inadvertently leaving the lane.
- ③ **Adaptive Cruise Control & Lead Vehicle Start Alert**
